

Can your science research feed the world?

The Olam Prize for Innovation in Food Security

Could your research help feed 8.5 billion people by 2030 and would US\$50,000 of unrestricted funding help scale its impact?

Find out by entering the second Olam Prize for Innovation in Food Security to help serve up a solution to achieve zero hunger.

First launched by leading global agri-business Olam International with scientific partner, Agropolis Fondation in 2014, the Olam Prize recognises an innovative scientific research project for its potential impact on the availability, affordability, accessibility and adequacy of food.

Are you eligible?

We welcome applications from:

- Innovative scientific research projects with achieved or potential impact on the availability, affordability, accessibility and adequacy of food
- Academic or research institutions, civil society organisations and the private sector
- Research projects in nutrition science, plant science, soil science, agricultural sciences or other field of scientific research impacting food security
- Research on any part of agricultural supply chains, based anywhere in the world

Apply by 11:59pm CET (France) 25th January 2017
