2. THE CURRENT ADDRESS OF THE JOURNAL

Nigerian Journal of Technology,
Faculty of Engineering
University of Nigeria, Nsukka
e-mail: nijo.tech@unn.edu.ng
Phone: +234-812-323-1094

3. THE SCOPE OF THE JOURNAL

Papers submitted to NIJOTECH paper could be in any area of engineering, science and technology, innovations, design and construction, testing and analysis of any engineering system and planning of technological systems. A key phenomenon of each paper is that it must advance technology, contribute to knowledge or add value to existing systems.

4. PREVIOUS AND CURRENT ISSUES OF THE JOURNALS

We have been publishing 1975. All our back issues are now online. We can send you up to 10 print issues if you provide an address.

5. CURRENT WEBSITES OF THE JOURNALS

Our Website is: www.nijotech.com

6. CURRENT PUBLISHERS OF THE JOURNALS

We use the services of public publishing vendors. Their services are cheaper and faster than the University of Nigeria Press or other famous publishing houses. We also distribute the print issues by bulk-mail through NIPOST.

7. STRENGTHS AND WEAKNESSES OF THE JOURNALS

We need a publisher that will take the duty of journal distribution and publishing away from us. Currently, we have no editorial staff and we expect the university to come to our aid by employing and assigning to us a very competent journal secretary and two other assistants who will be capable of managing the online system and running the day-to-day activities of the journals.

8. OPPORTUNITIES AND THREATS OF THE JOURNALS

We have nearly taken over engineering and technology paper publishing in Nigeria. We hope to expand our area to all the West African states. The main threat is a general thing, the upsurge of several online (fake) journals. These journals just accept papers without peer review.

9. STRATEGIES TO ENHANCE THE CAPACITY OF THE JOURNALS

We have set up the online editorial system using OPEN JOURNAL SYSTEMS (OJS) software in order to make editing and peer review to be purely online from submission to publishing.

10. Any other information

We now publish quarterly – JANUARY, APRIL, JULY AND OCTOBER.
