

FACULTY OF ENVIRONMENTAL STUDIES

UNIVERSITY OF NIGERIA, ENUGU CAMPUS, ENUGU STATE, NIGERIA

2019 INTERNATIONAL CONFERENCE

Scheduled for October 9 - 10, 2019 at the Main Hall, UNEC

CALL FOR PAPERS

The 2019 Conference is meant to expose the fundamental and temporal realms of sustainable development. The objective is to enable the recognition of sustainable development as science or pseudoscience. The purpose is to moderate the perception of sustainable development as social sciences or natural sciences or both. Whichever is the case it has implications on sustainable development as a growth process. Papers are expected to treat issues related to the under listed sub-themes with special focus on principles and practice and how sustainable they are.

Theme:
“Theoretical and analytical frameworks for sustainable development in Africa”

- ▶ Environmental valuation
- ▶ Sustainable building
- ▶ Green property valuations
- ▶ Understanding sustainability and the Nigerian property professions
- ▶ Partnerships for sustainable development in Africa
- ▶ Ecosystem services for sustainable urbanism
- ▶ Culture and creative urbanism
