

IAESTE AUSTRIA

WORK OFFER

Ref. No. AT-2022-5002LZ

	nformat	ion			
Employer:	Zentrum für Oberflächen- und Nanoanalytik (ZONA) JKU Altenbergerstrße 69 4020 Linz Austria		Website: Location of placement: Linz Nearest airport: Linz		
			Working hours per week: 30.0 Working hours per day: 6.0		
Number of en Business or p					
Student Re	quired				
General Disci	oline:	PHYSICS;CHEMISTRY AND CHEMICAL ENGINEERING	Completed years of study:	3.5	
Field of Study:		Physics, General.;Theoretical and Mathematical Physics.;Physical Chemistry.;Chemical Physics.	Student status requirements:	not needed, but might be advantageous	
			Language required:	English Excellent (C1, C2)	
Required Knowledge and Experiences:			Other requirements:		
Required Kno			must be Master's student (very good grades!) Chemical Engineering students are not eligible for this position as the work settled at the borders of physics and chemistry		
theoretical bac simulation wo	ckground rk in phys	in physics (numerical and computational physics), ics IEN, QUANTUM Espresso	Chemical Engineering student	s are not eligible for this position as the work	
theoretical bac simulation wo	ckground rk in phys VASP, W	ics	Chemical Engineering student	s are not eligible for this position as the work	
theoretical back simulation wo knowledge in Work Offer The topic of the Espresso or s Tasks will be of	ed imilar. computing	ics	Chemical Engineering student settled at the borders of physic delling, but HEAVY computational ronic band structure. In addition, t	s are not eligible for this position as the work and chemistry	
theoretical backsimulation work knowledge in Work Offer The topic of the topic of the topic structure (i,.e)	ckground rk in phys VASP, W ed e interns imilar. computing QM Zeen	ics IEN, QUANTUM Espresso hip is of theoretical nature and involves heuristic mo g for organic materials, their structure and their elect nan effect to predict the optical Kerr effect) will be in	Chemical Engineering student settled at the borders of physic delling, but HEAVY computational ronic band structure. In addition, t	s are not eligible for this position as the work and chemistry	
Work Offer The topic of the Espresso or s Tasks will be a structure (i,.e Number of we	ekground rk in phys VASP, W ed ee interns imilar. computing QM Zeen eks offer	ics IEN, QUANTUM Espresso hip is of theoretical nature and involves heuristic mo g for organic materials, their structure and their elect nan effect to predict the optical Kerr effect) will be in	Chemical Engineering student settled at the borders of physic delling, but HEAVY computational ronic band structure. In addition, t vestigated.	s are not eligible for this position as the work and chemistry I load, e.g. by VASP, WIEN, QUNATUM he effect of a static magnetic field on the bar	
theoretical basismulation wo knowledge in Work Offer The topic of th Espresso or s Tasks will be a structure (i,.e Number of we Within the mo	ekground rk in phys VASP, W ed ee interns imilar. computing QM Zeen eks offer	ics IEN, QUANTUM Espresso hip is of theoretical nature and involves heuristic mo g for organic materials, their structure and their elect han effect to predict the optical Kerr effect) will be in ed: 36 - 52	Chemical Engineering student settled at the borders of physic delling, but HEAVY computational ronic band structure. In addition, t vestigated. <i>Working environment:</i>	s are not eligible for this position as the work cs and chemistry I load, e.g. by VASP, WIEN, QUNATUM he effect of a static magnetic field on the bar Research and development	
theoretical back simulation wo knowledge in Work Offer The topic of th Espresso or s Tasks will be o	ckground rk in phys VASP, W ed ee interns imilar. computing QM Zeen eks offen nths:	ics IEN, QUANTUM Espresso hip is of theoretical nature and involves heuristic mo g for organic materials, their structure and their elect nan effect to predict the optical Kerr effect) will be in ed: 36 - 52 01-NOV-2021 - 30-NOV-2022	Chemical Engineering student settled at the borders of physic delling, but HEAVY computational ronic band structure. In addition, t vestigated. <i>Working environment:</i> <i>Gross pay:</i>	s are not eligible for this position as the work cs and chemistry I load, e.g. by VASP, WIEN, QUNATUM he effect of a static magnetic field on the bar Research and development 900 EUR / Month ~ 20%	

Canteen at work:	Yes		
Expected type of accommodation:	Student dormitory	Estimated cost of lodging:	350 EUR / Month
Accommodation will be arranged by:	IAESTE	Estimated cost of living incl. lodging:	650 EUR / Month

Additional Information

Interview conducted by IAESTE and employer. This is preAC offer, we will require an offer in return at the upcoming AC.

Nomination Information

Deadline for nomination: 20-OCT-2021

Date:

06-OCT-2021

On behalf of receiving country:

IAESTE Austria
