The University of Nigeria Song

Verse I

Solo I: Hail Varsity of Nigeria, my Alma Mater;

Refrain: Hail her and rejoice for the sake of truth.

Solo II: Where Young men and women do seek for knowledge;

Refrain: Hail her and rejoice for the sake of knowledge.

Solo III: Where the Nation's potentials do brood in the nest;

Refrain: Hail her and rejoice for her noble ideals.

Solo IV: Hail Varsity *par excellence* our dreams come true;

Refrain: Hail her and rejoice for the giant awakes.

TUTTI (All) My Alma Mater, my Alma Mater,
Noble are thy looks and thy ideals;
And great art thou in Science and in Art.
In other realms of learning,
Thou art all sublime.

Verse II

Solo I: Hail Varsity of Nigeria my Alma Mater;

Refrain: Hail her and rejoice for her lofty plans.

Solo II: The Varsity that is sited on soft green hills;

Refrain: Hail her and rejoice for her beauty's sake.

Solo III: Hail Varsity of our glory, the pride of our land;

Refrain: Hail her and rejoice for her light will shine.

Solo IV: Hail Varsity *par excellence* our dreams come true;

Refrain: Hail her and rejoice for the giant awakes.

TUTTI (All) My Alma Mater, my Alma Mater,
Noble are thy looks and thy ideals;
And great art thou in Science and in Art.
In other realms of learning,
Thou art all sublime.

The Alma Mater Pledge

To you, the University of Nigeria,
our Alma Mater,
we hereby pledge our minds and hearts
in loyalty and faith
to seek truth
to teach truth, and to preserve truth.
We solemnly dedicate ourselves
to that proud and noble purpose
which our University has made its own
to restore the dignity of man,
In all our words and deeds
we shall seek to cherish and maintain
that spirit of nation-building
that the University of Nigeria sets forth in its philosophy,
In order that,
by the grace of God,
our youth may be enabled to rediscover themselves
and to dedicate their lives anew
to the building of a great nation.
May God so guide the destinies of our University
that it shall be a beacon of hope
to those who seek knowledge and skill
for the service of humanity.
And To God we humbly pray for strength and guidance
to maintain this our solemn pledge.

Version History

Dates	Changes made	Approved by
2017	Original document prepared	
June 2024	Renaming of some Departments/Faculties/Schools <ul style="list-style-type: none"> • Faculty of Basic Sciences now Faculty of Basic Clinical Sciences • Faculty of Medical Sciences now called faculty of Clinical Sciences • Department of Electronics Engineering now referred to as Electronics & Computer Engineering • School of Postgraduate Studies upgraded to College of Postgraduate Studies. • Department of Geography now referred to as Geography and Environmental Sustainability • Adult Education and Extramural Studies now referred to as Continuing Education and Development Studies. 	
June 2024	Inclusion of Faculty of Vocational Technical Education	
June 2024	Inclusion of New Academic Programmes/Departments <ul style="list-style-type: none"> • Mechatronics Engineering • Counselling and Human Development • Early Childhood and Primary Education • Special Needs Education • Veterinary Pathology • Veterinary Microbiology and Immunology • Veterinary Pharmacology and Toxicology • Veterinary Physiology and Biochemistry • Archaeology and Heritage Studies • Tourism Studies • Quantity Surveying 	
June 2024	Inclusion of New Honorary Doctoral Awardees	
June 2024	Update of Staff List in Various Programmes/Departments

Preliminaries

The University of Nigeria Song

Verse I

Solo I: Hail Varsity of Nigeria, my Alma Mater;

Refrain: Hail her and rejoice for the sake of truth.

Solo II: Where Young men and women do seek for knowledge;

Refrain: Hail her and rejoice for the sake of knowledge.

Solo III: Where the Nation's potentials do brood in the nest;

Refrain: Hail her and rejoice for her noble ideals.

Solo IV: Hail Varsity *par excellence* our dreams come true;

Refrain: Hail her and rejoice for the giant awakes.

TUTTI (All) My Alma Mater, my Alma Mater,
Noble are thy looks and thy ideals;
And great art thou in Science and in Art.
In other realms of learning,
Thou art all sublime.

Verse II

Solo I: Hail Varsity of Nigeria my Alma Mater;

Refrain: Hail her and rejoice for her lofty plans.

Solo II: The Varsity that is sited on soft green hills;

Refrain: Hail her and rejoice for her beauty's sake.

Solo III: Hail Varsity of our glory, the pride of our land;

Refrain: Hail her and rejoice for her light will shine.

Solo IV: Hail Varsity *par excellence* our dreams come true;

Refrain: Hail her and rejoice for the giant awakes.

TUTTI (All) My Alma Mater, my Alma Mater,
Noble are thy looks and thy ideals;
And great art thou in Science and in Art.
In other realms of learning,
Thou art all sublime.

The Alma Mater Pledge

To you, the University of Nigeria,
our Alma Mater,
we hereby pledge our minds and hearts
in loyalty and faith
to seek truth
to teach truth, and to preserve truth.
We solemnly dedicate ourselves
to that proud and noble purpose
which our University has made its own
to restore the dignity of man,
In all our words and deeds
we shall seek to cherish and maintain
that spirit of nation-building
that the University of Nigeria sets forth in its philosophy,
In order that,
by the grace of God,
our youth may be enabled to rediscover themselves
and to dedicate their lives anew
to the building of a great nation.
May God so guide the destinies of our University
that it shall be a beacon of hope
to those who seek knowledge and skill
for the service of humanity.
And To God we humbly pray for strength and guidance
to maintain this our solemn pledge.

Editorial Comment

The University of Nigeria Calendar has not appeared since the 2007/2009 Edition. The 2016/2018 Edition happily falls short of a tenth anniversary by one year. The temporal gap did not arise from forgetfulness; it is rather an indication of difficulties that could stand in the way of what should be a regular university publication – indeed a sessional event. The functionaries who ensured the regular appearance of past editions undoubtedly deserve commendation, and are duly commended not least for the unstinting self-sacrifice involved.

By the same token, the reactivation of the Calendar and the present publication would not have happened without the overcoming of obstacles. It is proper in this regard, therefore, to publicly acknowledge the leadership of the Vice Chancellor, Professor B.C. Ozumba in ensuring that each and every functionary and organ of the University, including the Senate Calendar Editorial Board, is enabled to play its assigned role effectively. To be acknowledged also is the dedicated commitment of the members of the present Senate Calendar Editorial Board, together with Professor Ola Olodi, who was coopted by the Board and brought along his wealth of experience from regular Calendar publication during the period 1998-2007, and the Head of the Publications Unit of the University, Mrs Anthonia Amadi, who doubles as the Secretary to the Editorial Board.

But of course, there would have been no Calendar without the faculties, teaching, research, and administrative units providing information as requested about their functional roles, programmes, and personnel. Some did not lose any time at all to respond to the calls sent out by the Board for this information; for others it took quite some time to put their materials in a state that they could be used by the Calendar Editorial Board. For a very small number, it was only their staff lists that probably needed updating. In this case, the programmes and other information from the 2007/2009 Calendar were used. Late submission of materials, however, as well as failure in many cases to use the Calendar format in presenting the required information created editorial challenges some of which could not be handled in the limited time available to the Calendar Editorial Board. It is hoped that all the entities covered by the Calendar will maintain a constantly updated and properly proofed staff list and academic programme, as the case may be, and properly formatted, with qualifications arranged in ascending order, from the lowest to the highest, the awarding bodies precisely stated ((Awka) not (UNIZIK), (Oxford) not (UK); and (Cornell) not (New York), where the city is home to several higher institutions). Future editions of the Calendar will be error-free and come out in a timely manner if collation and basic proofing of materials are done by the departmental administration early enough.

This new publication contains many recently revised and updated academic programmes; it also contains programmes that have only recently come into existence. The new programmes being presented in the Calendar format for the first time in the 2016/2018 Edition are from the Faculty of Law, which has four new departments, bringing its total number to seven; from two new faculties created out of Education and Medical Sciences, respectively the Faculty of Vocational and Technical Education, with five departments, and the Faculty of Basic Medical Sciences, with three. There were also two departments resulting from the splitting of the former Department of Home Science, Nutrition & Dietetics. As well as these, there are also institutes and centres recently set up to follow up specific areas of research or address certain aspects of knowhow perceived as national needs. These include the UNN/Shell Centre for Environmental Management and Control (CEMAC), Centre for Igbo Studies, Institute for Maritime Studies, Institute for Drug-Herbal Medicine-Excipient, Institute of Molecular Medicine and Infectious Diseases, Institute of Maternal and Child Health, Institute of Public Health, and Centre for Distance and E-Learning. The Calendar has also been enriched by the much increased number of combination degree options, especially in the Faculties of Arts, Biological Sciences, Education, and the Social Sciences. It goes to show the ready responsiveness of the University to the needs of the times: it is a University diversifying and growing in complexity as it strives to meet the demands of the various publics it serves and its different stakeholders, by identifying and providing human and material resources for aspects of the pursuit of knowledge needed to enhance its service delivery. The teaching and research components of all this is what the Calendar gathers together and presents to the public.

This Edition of the University of Nigeria Calendar has also created space for the first time for a very special arm of the University, the College of Medicine, comprising four faculties – which are presented in alphabetical order together with all the other thirteen faculties of the University. Space has also been created for Professors Emeritus of the University.

UNIVERSITY OF NIGERIA, NSUKKA
REVISED TIME TABLE OF EVENTS FOR 2016/2017 SESSION

First Semester 2016/2017 Session

SEPTEMBER 2016

Thursday 22 - Arrival of freshmen/provision of accommodation
Monday 26 - Registration begins for freshmen
Thursday 29 - Arrival of old students/provision of accommodation

OCTOBER 2016

Tuesday 04 - Registration begins for old students
- Lecture begins
Wed. 05 - Orientation for freshmen begins
Friday 07 - Orientation for freshmen ends

Tuesday 04-Sunday 09 - FOUNDERS DAY CEREMONIES

Friday 14 - Registration ends for old students
Monday 17 - Late registration begins for old students
Friday 28 - Late registration ends for old students

NOVEMBER 2016

Tuesday 01 - Lectures continue
Friday 18 - Registration ends for freshmen

DECEMBER 2016

Thursday 01 - Lectures continue
Wednesday 21 - Lectures end and Christmas break begins

JANUARY 2017

Thursday 05 - Christmas break ends/Students return to Campus
Monday 09 - Lectures resume
SATURDAY 21 MATRICULATION CEREMONY
Monday 23 – Saturday CONVOCATION CEREMONIES
Monday 30 - Lectures Continue

FEBRUARY 2017

Friday 17 - Lectures end
Monday 20 - Revision begins
Friday 24 - Revision ends
Monday 27 - Departmental examinations begin for returning students

MARCH 2017

Friday 03 - Departmental examinations end
Monday 06 - Examinations inter-faculty and inter-disciplinary courses begin
Monday 20 - Examinations inter-faculty and inter-disciplinary courses end
End of First Semester and Students vacate Campus

SECOND SEMESTER 2016/2017 SESSION

Monday 27 – Registration begins for all students/ Lectures begin

Tuesday 28 – Examination begins for 1st year students

APRIL

Friday 07 – Registration ends

Monday 10 – Late Registration begins

Thursday 13 – Examination ends for 1st year student

WEDNESDAY 12 – MONDAY 17 EASTER BREAK

Tuesday 18 – Lectures resume

Thursday 20 – Last day for submission of first semester results to the Department. Processing of results begins in the Department

Monday 24 – Late Registration ends

Thursday 27 – Last day for submission of first semester results to the Registry (Examination). Processing of results begins in the Registry

MAY

Thursday 11 – Deadline for checking of results by Heads of Department.

JUNE

Friday 23 – Lectures end

Monday 26 – Revision begins

Friday 30 – Revision ends

JULY

Monday 03 – Departmental examinations begin

Friday 07 – Departmental examinations end

Monday 10 – Examinations inter-faculty and inter-disciplinary courses begin

Monday 24 – Examinations inter-faculty and inter-disciplinary courses end

End of 2016/2017 Session and Students vacate Campus

AUGUST

Monday 14 – Last day for submission of second semester results to the Department. Processing of results begins in the Department

Friday 25 – Last day for submission of first semester results to the Registry (Examination). Processing of results begins in the Registry

SEPTEMBER

Thursday 18 – Deadline for checking of results by Heads of Department.

Monday 25- Friday 29 – Faculty Boards Meet to consider and approve final year students results

OCTOBER

October 25 – Senate meets to consider and approve final year results

SUMMARY FOR THE SESSION

FIRST SEMESTER: Lectures 16 weeks and 6 days

Revisions 5 days

Examination 3 weeks

Total	18 weeks and 5 days
SECOND SEMESTER: Lectures	12 weeks and 4 days
Revision	1 week
Examinations	3 weeks
Total	16 weeks and 4 days
Grand Total	35 weeks and 3 days

1 Founding and Philosophy of the University

Founding

A law to establish a University in the Eastern Region of Nigeria was passed in 1955. While that date marks the formal beginning of the history of the University of Nigeria, the enactment of this legislation was in fact the culmination of many years of thought and discussion by several Nigerian leaders, and inspired particularly by the then Premier of the Eastern Region, Dr Nnamdi Azikiwe.

One of the first steps taken by the Eastern Nigeria Government towards the implementation of its commitment was an invitation to both the United States of America and the United Kingdom to send advisers to help in the planning of physical and educational aspects of the proposed university.

Under the joint auspices of the Inter-University Council for Higher Education and Overseas and the International Co-operation Administration (now the United States Agency for International Development), Mr. J.W. Cook, Vice-Chancellor of the University of Exeter, Dr John A. Hannah, President of Michigan State University and Dr. Glen L. Taggart, Dean of International Programmes at the same University, came to Nigeria in 1958. The team surveyed the present site at Nsukka, and extensively investigated a great variety of factors pertinent to the establishment of a new university.

The results of their efforts were contained in a White Paper issued by the Eastern Nigeria Government on 30th November 1958. They had recommended, "that the development of the University of Nigeria based upon the concept of service to problems and needs of Nigeria, is a desirable project and one that should receive support from any source which could help to make it a sound endeavour".

They further recommended that a provisional council be established to "draw upon the technical and consultative resources available throughout the world for help in planning the institution". This provisional council, authorised by the Eastern Nigeria Legislature, was appointed by the Governor in Council in April 1959, and given necessary financial and administrative powers to build a sound university.

The provisional council reflected the spirit of international cooperation, which has given birth to the institution. It consisted of Dr. Nnamdi Azikiwe, Chairman, Dr T. Olawale Elias and Dr. Okechukwu Ikejiani from the Federation of Nigeria, Mr. J.S. Fulton from the United Kingdom, Dr. Marguerite Cartwright and Dr. Eldon Lee Johnson from the United States of America.

The University was formally opened on 7th October 1960, as the climax to the Nigerian independence celebrations in the Eastern Region. Her Royal Highness, the Princess Alexandra of Kent, representing Her Majesty Queen Elizabeth II at the Nigeria independence celebrations, performed the opening ceremonies and laid the foundation stone of one of the University's early buildings.

Classes began on 17th October 1960 with an enrolment of 220 students and 13 members of the academic staff. The opening convocation addresses were delivered by the Chairman of the Provisional Council, Dr. Nnamdi Azikiwe, the first President of the Federation of Nigeria, and by Dr. John A. Hannah, President of Michigan State University, USA.

Thus was this university born.

Philosophy

In keeping with the essential purposes of all great universities since the dawn of man's great struggle toward universal human dignity, the basic objectives of the University of Nigeria are:

To seek truth

To teach truth

To preserve truth.

These ends were legislated for the institution by the Eastern Nigeria House of Assembly on 28th January 1955 in the following words:

To hold forth to all classes and communities whatsoever an encouragement for pursuing a regular and liberal course of education.

To promote research and the advancement of science and learning. To organize, improve, and extend education of a University standard.

But the goals of the University of Nigeria go beyond those of education for its own sake. This seat of higher learning is committed to play a dynamic and vital role in the significant task which faces the country of which it is part: that of building a great new nation.

Thus, the community of scholars - teachers, students and researchers - who have gathered themselves on the plains of Nsukka launched a venture in higher education that is somewhat different for this part of the world. They are attempting to sift out the most appropriate aspects of traditional universities, and by blending them into the Nigerian scene, to evolve a programme specifically suited to the needs and interests of the people of Nigeria, as they take their rightful place in the world community of nations.

The objectives of the University of Nigeria have their roots in a spirit and philosophy as old as man's search for his own fulfilment and the ancient universities of Bologna and Paris, and land-grant universities of America.

The spirit stems from such expressions as that of one of the University's founders, Dr. Nnamdi Azikiwe, when he wrote, nearly three decades ago, "Universities have been responsible for shaping destinies of races and nations and individuals. They are mirrors which reflect their particular societal idiosyncrasies...". He suggested that if Africa has its own university, there is no reason why the best libraries, laboratories, professors, cannot be produced right here, and this continent become, overnight, "a Continent of Light".

In response to its chartering documents, which have repeatedly emphasized not only academic and cultural excellence, according to the classical concept of universities, the University of Nigeria must approach its curriculum from a perspective somewhat different from that which has hitherto characterized the ideas of university and college education in West Africa.

To the extent that the institution is true to its philosophy, the courses of study are related to the day-to-day life of Nigeria and focus upon the social and economic needs of this nation. At the same time, the university is international in scope and cosmopolitan in outlook. Admission is open to men and women, without regard to racial or national origin, religious creed or political persuasion.

The University of Nigeria is different, and may continue to be different, from other institutions of higher learning in this country. As stated by the Commission on Post-School Certificate and Higher Education in Nigeria, "...it would not be in the national interest if one single pattern were to be imposed on all Nigerian higher education. The hope for Nigerian higher education lies in its diversity".

It is in this faith that diversity in education, like diversity in thought, could be a sign of strength rather than weakness in a society that the University of Nigeria has been born. While the University has undoubtedly drawn heavily upon British and American models the Council, administration and academic staff are sincerely attempting to develop a pattern which will be uniquely appropriate to Nigeria. Underlying this pattern is the belief that the addition of cultural and vocational pursuits does not demean a university, but rather enables it as well as elevate the vocations and, through them, the community as a whole.

The University is thus committed to a philosophy that provides for the broadcasting of higher education whereby it can be fully equipped to offer courses in such branches of learning as are related to agriculture and industry without excluding the classics, the arts, and the sciences. The aim is to promote general and practical education in Nigerian communities as a whole.

The University is co-educational. It aims at enabling male and female students to engage together in academic, vocational, and extra-curricular activities in developing their personalities to the higher levels of human experience in an atmosphere where young men and women can grow individually, academically, and professionally through the dignity of labour, sacrifice, and self-determination. This

democratic concept of higher education will bear its fruits in the intellectual and social progress of the nation. Keenly aware of the necessity to establish and maintain standards, the University of Nigeria is concerned with the qualifications of its prospective students. Thus, this institution accepts young men and women on the basis of their ability to undertake university education. It will stake its reputation and its future upon the range and depth of knowledge with which its students leave its environs as graduates.

It is in the spirit of "nation building" that the University of Nigeria sets forth its objectives and its philosophy. Our dedication is to breadth as well as depth in curriculum, distinguished scholarship and academic excellence, and to a significant contribution to the enlightenment of mankind.

This is a University whose orientation is at once academic, cultural and vocational, and whose content is Nigerian, in the context of all Africa and the larger world. At the inaugural convocation of the University of Nigeria on 13th October 1960, the first Chancellor of the University, Dr. Nnamdi Azikiwe, in an address entitled "Heroes and Heroines of a new Nigeria" summed up the outlook of the University in the following words:

"The founders of the University of Nigeria aimed at relating its activities to the social and economic needs and the day-to-day life of the people of Nigeria".

This calls for a realistic approach to the problems of education. We must frankly admit that we can no longer afford to flood only the white collar jobs at the expense of the basic occupations and productive vocations, which can be intelligently directed to create wealth, health, and happiness among the greatest number of our people, particularly in the fields of agriculture, engineering, business administration, education and home science. The courses of study at this University have been devised to enable our youth to re-discover themselves and dedicate their lives anew to the building of a new nation. By the grace of God, "the University of Nigeria shall be a beacon of hope to those who seek knowledge and skill for service to humanity".

Since its inception, the University has grown from strength to strength. The total student enrolment by 2009/2010 academic session was 29,653. This figure is made up of the following: full-time undergraduate (21,713); part-time undergraduate (Nil); postgraduate (5,662); part-time post graduate (1,408); postgraduate diploma (591) and sub-degree (279). In addition, 1,024 students enrolled for the sandwich programme 2009. Staff strength has also risen, with Academic staff strength growing to 1,648, Senior administrative (1,720), senior technical (799), junior administrative (1,717) and junior technical staff (799). The University has at present 15 Faculties with 102 Departments, two Schools, 8 Sub-Departments and 9 Institutes/Centres.

Inspired and sustained by its philosophy, the University is already committed to the future with all its promise and prospect of restoring the dignity of man.

The University was taken over along with other Universities in the country by the Federal Military Government on 1st April, 1973.

Location

The main campus of the University is located on 871 hectares of hilly savannah in the town of Nsukka, about eighty kilometres north of Enugu, and enjoys a very pleasant and healthy climate. Additionally 209 hectares of arable land are available for an experimental agricultural farm and 207 hectares for staff housing development. There is regular road transport between Nsukka and Enugu, and Nsukka is also quite easily accessible from all parts of Nigeria. There are modern shopping facilities and a large market in Nsukka town.

The former Nigeria College of Arts, Science and Technology, Enugu, was incorporated into the University in 1961; and its buildings now form the Enugu Campus (200 hectares) of the University located in the heart of Enugu, the administrative capital of Enugu State of Nigeria. Enugu is a modern city, accessible by air, rail and road. The College of Medicine and the Faculties of Business Administration,

Environmental Studies, and Law are located at the Enugu Campus. Teaching hospital attached to the University is presently sited in old State General Hospital on a 14-hectare site (about 4 kilometres from the Enugu Campus of the University). The new teaching hospital is under construction at Ituku-Ozalla (25 kilometres south of Enugu) on a 500-hectare site.

A third campus was opened in October 1973 in Calabar, Cross River State. The campus at Calabar became a full-fledged University of Calabar in October 1977.

THIRD SCHEDULE

University of Nigeria Statute No.1

University of Nigeria Act 1978

An Act to provide for the take-over of the University of Nigeria from the former Eastern Nigeria by the Federal Government and to continue the administration of the institution.

[1978 No.1]

[1st June, 1976]

[Commencement.]

Constitution and Functions of the University and its constituent bodies, etc.

1. Incorporation and objects of the University

(1) The University of Nigeria (in this Act referred to a “the University”) established by the University of Nigeria Law (in this Act referred to as “the former Law”) shall continue in being as a body corporate with perpetual succession and a common seal.

(2) The University may sue and be sued in its corporate name.

(3) The objects of the University shall be-

- (a) to encourage the advancement of learning and to hold out to all persons without distinction of race, creed, sex or political conviction the opportunity of acquiring a higher and liberal education;
- (b) to provide courses of instruction and other facilities for the pursuit of learning in all its branches, and to make those facilities available on proper terms to such persons as are equipped to benefit from them;
- (c) to encourage and promote scholarship and conduct research in all fields of learning and human endeavour;
- (d) to relate its activities to the social and economic needs of the people of Nigeria; and
- (e) to undertake any other activities appropriate for a university of the highest standard.

2. Constitution and Principal Officers of the University

(1) The University shall consist of –

- (a) a Chancellor;
- (b) a Pro-Chancellor and a council;
- (c) a Vice-Chancellor and a Senate;
- (d) a body to be called Congregation;
- (e) a body to be called Convocation;
- (f) the campuses and colleges of the University;
- (g) the faculties, schools, institutes and other teaching and research units of the University;
- (h) the persons holding the offices constituted by the First Schedule to this Act other than those mentioned in paragraphs (a) to (c) of this subsection;

[First Schedule]

- (i) all graduates and undergraduates; and
 - (j) all other persons who are members of the University in accordance with provision made by statute in that behalf.
- (2) The First Schedule to this Act shall have effect with respect to the principal officers of the University there mentioned.
- (3) Subject to section 5 of this Act, provision shall be made by statute with respect to the constitution of the following bodies, namely the Council, the Senate, Congregation and Convocation.

3. Powers of the University, and their exercise

- (1) For the purpose of carrying out its objects as specified in section 1 of this Act, the University shall have power-
- (a) to establish such campuses, colleges, faculties, institutes, schools, extra-mural departments and other

- teaching and research units within the University as may from time to time seem necessary or desirable, subject to the approval of the National Universities Commission;
- (b) to institute professorships, readerships, lectureships and other posts and offices and to make appointments thereto;
 - (c) to institute and award fellowships, scholarships, exhibition, bursaries, medals, prizes and other titles, distinctions, awards and forms of assistance;
 - (d) to provide for the residence, discipline and welfare of members of the University;
 - (e) to hold examinations and grant degrees, diplomas, certificates and other distinctions to persons who have pursued a course of study approved by the University and have satisfied such other requirements as the University may lay down;
 - (f) to grant honorary degrees, fellowships or academic titles;
 - (g) to demand and receive from any student or any other person attending the University for the purpose of instruction such fees as the University may from time to time determine, subject to the overall directives of the Minister;
 - (h) subject to section 21 of this Act, to acquire, hold, grant, charge or otherwise deal with or dispose of movable and immovable property wherever situate;
 - (i) to accept gifts, legacies and donations, but without obligation to accept the same for a particular purpose unless it approves the terms and conditions attaching thereto;
 - (j) to enter contracts, establish trusts, act as trustee, solely or jointly with any other person, and employ and act through agents;
 - (k) to erect, provide, equip and maintain libraries, laboratories, lecture halls, halls of residence, refectories, sports grounds, playing fields and other buildings or things necessary or suitable or convenient for any of the objects of the University;
 - (l) to hold public lectures and to undertake printing, publishing and bookselling;
 - (m) subject to any limitations or conditions imposed by statute, to invest any moneys appertaining to the University by way of endowment, whether for general or special purposes, and such other moneys as may not be immediately required for current expenditure, in any investments or securities or in the purchase or improvement of land, with power from time to time to vary any such investments, and to deposit any moneys for the time being uninvested with any bank on deposit or current account;
 - (n) to borrow, whether at interest or not and if need be upon the security of any or all of the property, movable or immovable, of the University, such moneys as the Council may from time to time in its discretion find it necessary or expedient to borrow or to guarantee any loan, advances or credit facilities;
 - (o) to make gifts for any charitable purpose;
 - (p) to arrange for the education and welfare of children of members of staff;
 - (q) to do anything which it is authorised or required by this Act or by statute to do; and
 - (r) to do all such acts or things whether or not incidental to the foregoing powers, as may advance the objects of the University.

(2) Subject to the provisions of this Act and of the statutes, and without prejudice to section 8 (2) of this Act, the powers conferred on the University by subsection (1) above shall be exercisable on behalf of the University by the Council or by the senate or in any other manner which may be authorised by statute.

(3) The power of the University to establish further campuses and colleges within the University shall be exercisable by statute and not otherwise.

4. Functions of the Chancellor and Pro-Chancellor

(1) The Chancellor shall, in relation to the University, take precedence before all other members of the University, and when he is present shall preside at all meetings or congregation held for conferring degrees and at all meetings of convocation.

(2) The Pro-Chancellor shall, in relation to the University, take precedence before all other members of the University except the Chancellor and except the Vice-Chancellor when acting as chairman of congregation or convocation the Pro-Chancellor shall, when he is present, be the chairman at all meetings or the Council.

5. Composition of the Council

The Council of the University shall consist of-

[1993 No.11. 1996 No.25]

- (a) the Pro-Chancellor;
- (b) the Vice-Chancellor;
- (c) the Deputy Vice-Chancellors;
- (d) one person from the Ministry responsible for education;
- (e) nine persons representing a variety of interests and broadly representative of the whole Federation to be appointed by the President;
- (f) four persons appointed by the Senate from among its members;
- (g) two persons appointed by the Congregation from among its members;
- (h) one person appointed by convocation from among its members.

6. Functions of the Council and its Finance and General Purposes Committee

(1) Subject to the provisions of this Act relating to the Visitor, the Council shall be the governing body of the University and shall be charged with the general control and superintendence of the policy, finances and property of the University, including its public relations.

(2) There shall be a committee of the Council, to be known as the Finance and General Purposes Committee, which shall, subject to the charged with the general control and superintendence of the policy, finances and property of the University, including its public relations.

(3) Provision shall be made by statute with respect to the constitution of the Finance and General Purposes Committee.

(4) The Council shall ensure that proper accounts of the University are kept and that the accounts of the University are audited annually by auditors appointed by the Council from the list and in accordance with guidelines supplied by the Auditor-General for the Federation; and that an annual reports is published by the University together with certified copies of the said accounts as audited.

(5) Subject to this Act and the statutes, the Council and the Finance and General Purposes Committee may each make rules for the purpose of exercising any of their respective functions or of regulating their own procedure.

(6) Rules made under subsection (5) of this section by the Finance and General Purposes Committee shall not come into force unless approved by the Council; and in so far as any rules so made by that Committee conflict with any directions given by the Council (whether before or after the coming into force of the rules in question), the directions of the Council shall prevail.

(7) There shall be paid to the members of the Council, of the Finance and General Purposes Committee and of any other committee set up by the Council respectively allowances in respect of travelling and other reasonable expenses, at such rates as may from time to time be fixed by the Council.

(8) The Council shall meet as and when necessary for the performance of its functions under this Act, and shall meet at least three times in every year.

(9) If requested in writing by any five members of the Council, the chairman shall within 28 days after the receipt of such request call a meeting of the Council. The request shall specify the business to be considered at the meeting and no business not so specified shall be transacted at that meeting.

7. Functions of the Senate

- (1) Subject to section 6 of this Act and subsections (3) and (4) of this section, and to the provisions of this Act relating to the Visitor, it shall be the general function of the Senate to organise and control the teaching of the University,

- the admission to postgraduate courses, and the discipline of students, and to promote research at the University.
- (2) Without prejudice to the generality of subsection (1) of this section and subject as therein mentioned, it shall in particular be the function of the Senate to make provision for-
 - (a) the established, organisation and control of campuses, colleges, faculties, departments institutes and other teaching and research units of the University, and the allocation of responsibility for different branches of learning;
 - (b) the organisation and control of courses of study at the University and of the examinations held in conjunction with those courses, including the appointment of examiners, both internal and external;
 - (c) the award of degrees, and such other qualifications as may be prescribed, in connection with examinations held as aforesaid;
 - (d) the making of recommendations to the Council with respect to the award to any person of an honorary fellowship or honorary degree or the title of professor emeritus;
 - (e) the establishment, organisation and control of halls of residence and similar institutions at the University;
 - (f) the supervision of the welfare of students at the University and the regulations of their conduct;
 - (g) the granting of fellowships, scholarships, prizes and similar awards in so far as the awards are within the control of the University; and
 - (h) determining what descriptions of dress shall be academic dress for the purposes of the University, and regulating the use of academic dress.
 - (3) The Senate shall not establish any new campus, college, faculty, department, school, institute or other teaching and research units of the university, or any hall of residence or similar institution at the University, without the approval of the Council.
 - (4) Subject to this Act and the statutes, the Senate may make regulations for the purpose of exercising any function conferred on it either by the foregoing provisions of this section or otherwise or for the purpose of making provision for any matter for which provision by regulation is authorised or required by this Act or by statute.
 - (5) Regulations shall provide that at least one of the persons appointed as the examiners at each final or professional examination held in conjunction with any course of study at the University is not a teacher at the University but is a teacher of the branch of learning to which the course relates at some other university of high repute.
 - (6) Subject to a right of appeal to the Council from a decision of the senate under this subsection, the senate may deprive any person of any degree, diploma, or other award of the University which has been conferred upon him after due enquiry he is shown to have been guilty of dishonourable or scandalous conduct in gaining admission into the University or obtaining that award.

8. Functions of the Vice-Chancellor

(1) The Vice-Chancellor shall, in relation to the University, take precedence before all other members of the University except the Chancellor and, subject to section 4 of this Act, except the Pro-Chancellor and any other person for the time being acting as chairman of the Council.

(2) Subject to sections 6 and 7 of this Act and the provisions of this Act relating to the Visitor, the Vice-Chancellor shall have the general function, in addition to any other functions conferred on him by this Act or otherwise, of directing the activities of the University, and shall to the exclusion of any other person or authority be the Chief Executive and Academic Officer of the University and ex-officio Chairman of the Senate.

Transfer of property, etc., to the University

9. Transfer of property, functions, etc.

(1) All property held by or on behalf of the Provisional Council shall, by virtue of this subsection and without further assurance, vest in the University and be held by it for the purposes of the University.

(2) The provisions of the Second Schedule to this Act shall have effect with respect to, and to matters arising from, the transfer of property by this section and with respect to the other matters mentioned in that Schedule.

[Second Schedule]

Statutes of the University

10. Power of University to make statutes

(1) Subject to this Act, the University may make statutes for any of the following purposes, that is to say-

- (a) making provision with respect to the composition and constitution of any authority of the University;

- (b) specifying and regulating the powers and duties of any authority of the University, and regulating any other matter connected with the University or any of its authorities;
- (c) regulating the admission of students where it is done by the University, and their discipline and welfare;
- (d) determining whether any particular matter is to be treated as an academic or non-academic matter for the purposes of this Act and of any statute, regulation or other instrument made thereunder; or
- (2) Subject to section 26 (6) of this Act, the Interpretation Act shall apply in relation to any statute made under this section as it applies to a subsidiary instrument within the meaning of section 27 (1) of that Act.

[Cap.123]

- (3) The Statute contained in the Third Schedule to this Act shall be deemed to have come into force on the commencement of this Act and shall be deemed to have been made under this section.
- (4) The power to make statutes conferred by this section shall not be prejudiced or limited in any way by reason of the inclusion or omission of any matter in or from the Statute contained in the Third Schedule to this Act or any subsequent statute.

[Third Schedule]

11. Mode of exercising power to make statutes

- (1) The power of the University to make statutes shall be exercised in accordance with the provisions of this section and not otherwise.
- (2) A proposed statute shall not become law unless it has been approved-
 - (a) at a meeting of the Senate, by the votes of not less than two thirds of the members present and voting; and
 - (b) at a meeting of the Council, by the votes of not less than two thirds of the members present and voting.
- (3) A proposed statute may originate either in the Senate or in the Council, and may be approved as required by subsection (2) of this section by either one of those bodies before the other.
- (4) A statute which-
 - (a) makes provision for or alters the composition or constitution of the Council, the Senate or any other authority of the University; or
 - (b) Provides for the establishment of a new campus or college or for the amendment or revocation of any statute whereby a campus of college is established, shall not come into operation unless it has been approved by the President.
- (5) For the purposes of section 2 (2) of the Interpretation Act, a statute shall be treated as being made on the date on which it is duly approved by the Council after having been duly approved by the Senate, or on the date on which it is duly approved by the Senate after having been duly approved by the Council, as the case may be, or, in the case of a statute falling within subsection (4) of this section, on the date on which it is approved by the President.

[Cap. 123]

12. Proof of statutes

A statute may be proved in any court by the production of a copy thereof bearing or having affixed to it a certificate purporting to be signed by the Vice-Chancellor or the Registrar to the effect that copy is a true copy of a statute of the University.

13. Power of Visitor to decide meaning of statutes

- (1) In the event of any doubt or dispute arising at any time as to the meaning of any provision of a statute, the matter may be referred to the Visitor, who shall take such advice and make such decision thereon as he shall think fit.
- (2) The decision of the Visitor on any matter referred to him under this section shall be binding upon the authorities, staff and students of the University, and where any question as to the meaning of that provision shall be entertained by any court of law in Nigeria:

Provided that nothing in this subsection shall affect any power of a court of competent jurisdiction to determine whether any provision of a statute is wholly or partly void as being *ultra vires* or as being inconsistent with the Constitution of the Federal Republic of Nigeria, 1999.

[Cap.C23]

- (3) The foregoing provisions of this section shall apply in relation to any doubt or dispute as to whether any matter is

for the purposes of this Act an academic or a non-academic as they apply in relation to any such doubt or dispute as is mentioned in subsection (1) of this section; and accordingly the references in subsection (2) of this section to any question as to the meaning of any provision of a statute shall include references to any question as to whether any matter is for the said purposes an academic or a non-academic matter.

Supervision and discipline

14. The Visitor

- (1) the president shall be the Visitor of the University.
- (2) The visitor shall as often as the circumstances may require, not being less than one every five years conduct a visitation of the University or direct that such a visitation be conducted by such persons as the Visitor may deem fit and in respect of any of the affairs of the University.
- (3) It shall be the duty of the bodies and persons comprising the University-
 - (a) to make available to the Visitor, and to any other persons conducting a visitation in pursuance of this section, such facilities and assistance as he or they may reasonably require for the purposes of a visitation; and
 - (b) to give effect to any instructions consistent with the provisions of this Act which may be given by the Visitor in consequence of a visitation.

15. Removal of certain members of Council

(1) If it appears to the Council that a member of the Council (other than the Pro-Chancellor, or the Vice-Chancellor) should be removed from office on the ground of misconduct or inability to perform the functions of his office or employment, the Council shall make a recommendation to that effect through the Chancellor to the Visitor, and if the Visitor, after making such enquires (if any) as he considers appropriate, approves the recommendation he may, by an instrument in writing signed by him, remove the person in question from office.

(2) It shall be the duty of the Visitor, on signing an instrument of removal in pursuance of this section, to use his best endeavours to cause a copy of the instrument to be served as soon as reasonably practicable on the person to whom it relates.

16. Removal and discipline of academic, administrative and technical staff

- (1) If it appears to the Council that there are reasons for believing that any person employed as a member of the academic or administrative or technical staff of the University, other than the Vice-Chancellor, should be removed from his office or employment on the ground of misconduct or of inability to perform the functions of his office or employment the Council shall-
 - (a) Give notice of those reasons to the person in question;
 - (b) Afford him an opportunity of making representations in person on the matter to the Council; and
 - (c) If he or any three members of the Council so request within the period of one month beginning with the date of the notice, make arrangements-
 - (i) for a joint committee of the Council and the Senate to investigate the matter and to report on it to the Council; or
 - (ii) for a committee of the Senate to investigate the matter, where it relates to any other member of the staff of the University, and to report on it to the Senate and to the Council; and
 - (iii) for the person in question to be afforded an opportunity of appearing before and being heard by the investigating committee with respect to the matter,

and if the Council, after considering the report of the investigating committee, is satisfied that the person in question should be removed as aforesaid, the Council may so remove him by an instrument in writing signed on the directions of the Council.

- (2) The Vice-Chancellor may, in a case of misconduct by a member of the staff which in the opinion of the Vice-Chancellor is prejudicial to the interest of the University, suspend such member and any such suspension shall forthwith be reported to the Council.
- (3) For good cause, any member of staff may be suspended from his duties or his appointment may be terminated by the Council; and for the purposes of this subsection “**good cause**” means-

- (a) Conviction for any offence which the Council considers to be such as to render the person concerned unfit for the discharge of the functions of his office; or
 - (b) Any physical or mental incapacity which the Council, after obtaining medical advice, considers to be such as to render the person concerned unfit to continue to hold his office; or
 - (c) Conduct of a scandalous or other disgraceful nature which the Council considers to be such as to render the person concerned unfit to continue to hold his office; or
 - (d) Conduct which the Council considers to be such to constitute failure or inability of the person concerned to discharge the functions of his office or to comply with the terms and conditions of his service.
- (4) Any person suspended pursuant to subsection (2) or (3) of this section shall be on half pay and the Council shall before the expiration of a period of three months after the date of such suspension consider the case against that person and come to a decision as to-
- (a) Whether to continue such person's suspension and if so, on what terms (including the proportion of his emoluments to be paid to him);
 - (b) Whether to reinstate such person, in which case the Council shall restore his full emoluments to him with effect from the date of suspension;
 - (c) Whether to terminate the appointment of the person concerned, in which case such a person will not be entitled to the proportion of his emoluments withheld during the period of suspension; or
 - (d) Whether to take such lesser disciplinary action against such person (including the restoration of such proportion of his emoluments that might have been withheld) as the Council may determine,
- and in any case where the Council, pursuant to this section, decides to continue a person's suspension or decides to take further disciplinary action against a person, the Council shall before the expiration of a period of three months from such decision come to final determination in respect of the case concerning any such person.
- (5) It shall be the duty of the person by whom an instrument of removal is signed in pursuance of subsection (1) above to use his best endeavours to cause a copy of the instrument to be served as soon as reasonably practicable on the person to whom it relates.
 - (6) Nothing in the foregoing provisions of this section shall prevent the Council from making regulations for the discipline of other categories of staff and workers of the University as may be prescribed.

17. Removal of examiners

(1) If it appears to the Vice-Chancellor that a person appointed as an examiner for any examination of the University ought to be removed from his office or appointment, then, except in such cases as may be prescribed, he may, after affording to the examiner an opportunity of making representations in person on the matter to the Vice-Chancellor, remove the examiner from the appointment by an instrument in writing signed by the Vice-Chancellor and, subject to the provisions of regulations made in pursuance of section 7(5) of this Act, the Vice-Chancellor may appoint an appropriate person as examiner in the place of the examiner removed in pursuance of this subsection.

(2) It shall be the duty of the Vice-Chancellor, on signing an instrument of removal in pursuance of this section, to use his best endeavours to cause a copy of the instrument to be served as soon as reasonably practicable on the person to whom it relates.

18. Discipline of students

(1) Subject to the provisions of this section, where it appears to the Vice-Chancellor that any student of the University has been guilty of misconduct, the Vice-Chancellor may, without prejudice to any other disciplinary powers conferred on him by statute or regulations, direct-

- (a) that the student shall not, during such period as may be specified in the direction, participate in such activities of the University, or make use of such facilities of the University, as may be so specified; or
- (b) that the activities of the student shall, during such period as may be specified in the direction, be restricted in such manner as may be so specified; or
- (c) that the student be rusticated for such period as may be specified in the direction; or
- (d) That the student be expelled from the University.

(2) Where a direction is given under subsection (1) (c) or (d) of this section in respect of any student, the student may, within the prescribed period and in the prescribed manner, appeal from the direction to the Council; and where

such an appeal is brought, the Council shall, after causing such inquiry to be made in the matter as the Council considers just, either confirm or set aside the direction or modify it in such manner as the Council thinks fit.

(3) The fact that an appeal from a direction is brought in pursuance of the last foregoing subsection shall not affect the operation of the direction while the appeal is pending.

(4) The Vice-Chancellor may delegate his powers under this section to a disciplinary board consisting of such members of the University as he may nominate.

(5) Nothing in this section shall be construed as preventing the restriction or termination of a student's activities at the University otherwise than on the ground of misconduct.

(6) it is hereby declared that a direction under subsection 1 (a) above may be combined with a direction under subsection 1(b) of this section.

Miscellaneous and general

19. Exclusion of discrimination on account of race, religion, etc.

No person shall be required to satisfy requirements as to any of the following matters, that is to say, race (including ethnic grouping), sex place of birth or of family origin, or religious or political persuasion, as a condition of becoming or continuing to be a student at the University, the holder of any degree of the University or of any appointment or employment at the University, or a member of any body established by virtue of this Act; and no person shall be subjected to any disadvantage or accorded any advantage in relation to the University, by reference to any of those matters:

Provided that nothing in this section shall be construed as preventing the University from imposing any disability or restriction on any of the aforementioned persons, where such person wilfully refuses or fails on grounds of religious belief to undertake any duty generally and uniformly imposed on all such persons or any group of them which duty, having regard to its nature and the special circumstances pertaining thereto, is in the opinion of the University reasonably justifiable in the national interest.

20. Compulsory acquisition of land

For the purposes of the Land Use Act (which provides for the compulsory acquisition of land for public purposes) the purposes of the University shall be public purposes of the Federation; and where an estate or interest in land is acquired by the President in pursuance of this section, the President may, by a certificate under the hand and seal of the Registrar of Deeds, transfer it to the University.

[Cap.L5.]

21. Restriction on disposal of land by University

The University shall not dispose of or charge any land or an interest in any (including any land transferred to the University by this Act) except with the prior written consent, either general or special, of the President:

Provided that such consent shall not be required in the case of any lease or tenancy at a rack-rent for a term not exceeding 21 years or any lease or tenancy to a member of the University for residential purposes.

22. Quorum and procedure of bodies established by this Act

Except as may be otherwise provided by statute or by regulations, the quorum and procedure of any body of persons established by this Act shall be such as may be determined by that body.

23. Appointment of committees, etc.

(1) Anybody of persons established by this Act shall, without prejudice to the generality of the powers of that body, have power to appoint committees, which need not consist exclusively of members of that body, and to authorise a committee established by it -

(a) to exercise, on its behalf, such of its functions as it may determine; and

(b) to co-opt members,

and may direct whether or not co-opted members (if any) shall be entitled to vote in that committee.

(2) Any two or more such bodies may arrange for the holding of joint meetings of those bodies, or for the

appointment of committees consisting of members of those bodies, for the purpose of considering any matter within the competence of those bodies or any of them, and either of dealing with it or of reporting on it to those bodies or any of them.

(3) Except as may be otherwise provided by statute or by regulations, the quorum and procedure of a committee established or meeting held in pursuance of this section shall be such as may be determined by the body or bodies which have decided to establish the committee or hold the meeting.

(4) Nothing in the foregoing provisions of this section shall be construed as-

(a) Enabling statutes to be made otherwise than in accordance with section 11 of this Act; or

(b) Enabling the Senate to empower any other body to make regulations or to award degrees or other qualifications.

(5) The Pro-Chancellor and the Vice-Chancellor shall be members of every committee of which the members are wholly or partly appointed by the Council (other than a committee appointed to inquire into the conduct of the officer in question); and the Vice-Chancellor shall be a member of every committee of which the members are wholly or partly appointed by the Senate.

24. Retiring age of academic staff of the University

(1) Notwithstanding anything to the contrary in the Pensions Act, the compulsory retiring age of an academic staff of a university shall be 65 years.

[1993 No. 11. Cap. P4]

(2) A law or rule requiring a person to retire from the public service after serving for 35 years, shall not apply to an academic staff of the University.

25. Special provisions relating to pension of professors

A person who retires as a professor having served-

[1993 No.11.]

(a) A minimum period of fifteen years as a professor in the University or continuously in the service of a university in Nigeria up to the retiring age; and

(b) Who during the period of service was absent from the University only on approved national or University assignments, shall be entitled to pension at a rate equivalent to his last annual salary and such allowances, as the Council may, from time to time, determine as qualifying for pension and gratuity, in addition to any other retirement benefits to which he may be entitled.

26. Miscellaneous administrative provisions

(1) The seal of the University shall be such as may be determined by the Council and approved by the Chancellor; and the affixing of the seal shall be authenticated by any member of the council and by the Vice-Chancellor, Registrar or any person authorised by statute.

(2) Any document purporting to be a document executed under the seal of the University shall be received in evidence and shall, unless the contrary is proved, be deemed to be so executed.

(3) Any contract or instrument which, if made or executed by a person not being a body corporate, would not be required to be under seal may be made or executed on behalf of the University by any person generally or specially authorised to do so by the Council.

(4) The validity of any proceedings of any body established in pursuance of this Act shall not be affected by any vacancy in the membership of the body, or by any defect in the appointment of a member of the body or by reason that any person not entitled to do so took part in the proceedings.

(5) Any member of any such body who has a personal interest in any matter proposed to be considered by that body shall forthwith disclose his interest to the body and shall not vote on any question relating to that matter.

(6) Nothing in section 12 of the Interpretation Act (which provides for the application, in relation to subordinate legislation, of certain incidental provisions) shall apply to statutes or regulations made in pursuance of this Act; but the power conferred by this Act to make statutes or regulations shall include power to revoke or vary any statute (including the Statute contained in the Third Schedule of this Act) or any regulation by a subsequent statute or, as the case may be, by a subsequent regulation, and statutes and regulations may make different provision in relation to different circumstances.

[Cap. 123. Third Schedule]

(7) No stamp or other duty shall be payable in respect of any transfer of property to the University by virtue of

section 9 and 20 of this Act or the Second Schedule to this Act.

[Second Schedule]

(8) Any notice or other instrument authorised or required to be served by virtue of this Act may, without prejudice to any other mode of service, be served by post.

27. Interpretation

(1) In this Act, unless the context otherwise requires, the following expressions shall have the meanings hereby assigned to them respectively, that is to say-

“campuses” means the campus of the University at Calabar prior to 1 September 1976, Enugu or Nsukka or any other campus which may be established by the University;

“college” means any college which may be established by the University;

“former Law” means the University of Nigeria Law;

“graduate” means a person on whom a degree (other than an honorary degree) has been conferred by the University;

“Minister” means the Minister charged with responsibility for higher education;

“notice” means notice in writing;

“officer” does not include the Visitor;

“professor” means a person designated as a professor of the University in accordance with provision made in that behalf by statute or by regulations;

“property” includes rights, liabilities and obligations;

“provisional council” means the provisional council established under the University of Nigeria (Transitional Provisions) Act 1973;

[1973 No.44]

“regulations” means regulations made by the Senate;

“senate” means the senate of the University established pursuant to section 2 (1) (c) of this Act;

“statute” means a statute made by the University under section 9 of this Act and in accordance with the provisions of section 10 of this Act, and **“the statutes”** means all such statutes as are in force from time to time;

“student” means a person holding a full time appointment as a member of the teaching staff of the University;

“undergraduate” means a person in *statu pupillari* at the University, other than-

(a) a graduate; and

(b) a person of such description as may be prescribed for the purposes of this definition;

“University” means the University of Nigeria as incorporated and reconstituted by this Act.

(2) No office or appointment in any capacity under this Act shall be or be construed to be an office of emolument under the Federal Republic of Nigeria.

(3) It is hereby declared that where in any provision of this Act it is laid down that proposals are to be submitted or a recommendation is to be made by one authority to another through one or more intermediate authorities, it shall be the duty of every such intermediate authority to forward any proposals or recommendations received by it in pursuance of that provision to the appropriate authority; but any such intermediate authority may, if it thinks fit, forward therewith its own comments thereon.

28. Short title

This Act may be cited as the University of Nigeria Act.

Schedules

First Schedule

[Section 2 (2)]

Principal Officers of the University

The Chancellor

1. The Chancellor shall be appointed by the President.
2. (1) The Chancellor shall hold office for a period of five years.
(2) If it appears to the Visitor that the Chancellor should be removed from his office on the ground of misconduct or of inability to perform the functions of his office, the visitor may by notice in the Federal Gazette remove the Chancellor from office.

The Pro-Chancellor

3. (1) The Pro-Chancellor shall be appointed or removed by the President on the recommendation of the Ministers.
(2) Subject to the provisions of this Act, the Pro-Chancellor shall hold office a period of four years beginning with the date of his appointment.

The Vice-Chancellor

4. (1) There shall be a Vice-Chancellor of the University who shall be appointed by the President in accordance with the provisions of this paragraph.

[1993 No.11]

- (2) Where a vacancy occurs in the post of a Vice-Chancellor, the Council shall-
 - (a) Advertise the vacancy in a reputable journal or a widely read newspaper in Nigeria, specifying-
 - (i) the qualities of the persons who may apply for the post; and
 - (ii) the terms and conditions of service applicable to the post, and thereafter draw up a short list of suitable candidates for the post for consideration;
 - (b) constitute a Search Team consisting of-
 - (i) a member of the Council, who is not a member of the Senate, as chairman;
 - (ii) two members of the Senate who are not members of the Council, one of whom shall be a professor;
 - (iii) two members of Congregation who are not members of the Council, one of whom shall be a professor,to identify and nominate for consideration, suitable persons who are not likely to apply for the post of their own volition because they feel that it is not proper to do so.
 - (3) A joint Council and Senate selection board consisting of
 - (a) the Pro-Chancellor, as chairman;
 - (b) two members of the Council, not being members of the Senate;
 - (c) two members of the Senate who are professors,but who were not members of the Search Team, shall consider the candidates and persons on the short list drawn up under subparagraph (2) of this paragraph through an examination of their *curriculum vitae* and interaction with them, and recommend to the Council suitable candidates for further consideration.
 - (4) The Council shall select three candidates from among the candidates recommended to it under subparagraph (3) of this paragraph and may indicate its order of preference stating the reasons therefore and forward the names to the President.

[1996 No.25]

- (5) The President may appoint as Vice-Chancellor any one of the candidates recommended to him in accordance with the provisions of subparagraph (4) of this paragraph.
- (6) The Vice-Chancellor shall hold office for a single term of five years only on such terms and conditions as may be

specified in his letter of appointment

- (7) For the avoidance of doubt, the provisions of subparagraph (6) of this paragraph shall-
[1996 No. 25]

- (a) Only be applicable to those appointed to the office of Vice-Chancellor after 1 January, 1993;
- (b) Not confer on a person serving a first term of office as Vice-Chancellor before 1 January, 1993 any right to renewal of the appointment for a further term of four years.

- (8) The Vice-Chancellor may be removed from office by the Visitor after due consultation with the Council and the Senate acting through the Minister or Education
[1993 No.11]

Deputy Vice-Chancellors

5. (1) There shall be for the University such number of Deputy Vice-Chancellors as the Council may, from time to time, deem necessary for the proper administration of the University.
[1993 No.11. 1996 No.25]

(2) Where a vacancy occurs in the post of Deputy Vice-Chancellor, the Vice-Chancellor shall forward to the Senate a list of two candidates for each post of Deputy Vice-Chancellor that is vacant.

(3) The Senate shall select for each vacant post one candidate from each list forwarded to it under subparagraph (2) of this paragraph and forward his name to the Council for confirmation.

(4) A Deputy Vice-Chancellor shall-

- (a) assist the Vice-Chancellor in the performance of his functions;
- (b) act in the place of the Vice-Chancellor when the post of the Vice-Chancellor is vacant or if the Vice-Chancellor is, for any reason, absent or unable to perform his functions as Vice-Chancellor; and
- (c) perform such other functions as the Vice-Chancellor or the Council may, from time to time, assign to him.

(5) A Deputy Vice-Chancellor-

- (a) shall hold office for a period of two years beginning from the effective date of his appointment and on such terms and conditions as may be specified in his letter of appointment; and
- (b) may be re-appointed for one further period of two years and no more.

6. (1) There shall be a Registrar, who shall be the Chief Administrative Officer of the University and shall be responsible to the Vice-Chancellor for the day-to-day administrative work of the University except as regards matters for which the Bursar is responsible in accordance with paragraph 7 (2) of this Schedule.

[1993 No. 11. 1993 No. 55]

(2) The person holding the office of the Registrar shall by virtue of that office be Secretary to the Council, the Senate, Congregation and Convocation.

(3) The Registrar shall hold office for such period and on such terms as to the emoluments of his office and otherwise as may be specified.

Other Principal Officers of the University

7. (1) There shall be for the University the following principal officers, in addition to the Registrar, that is-
[1993 No. 11. 1993 No. 55]

- (a) the Bursar; and
- (b) the University Librarian,

who shall be appointed by the Council on the recommendation of the Section Board constituted under paragraph 8 of this Schedule.

(2) The Bursar shall be the Chief Financial Officer of the University and be responsible to the Vice-Chancellor for the day-to-day administration and control of the financial affairs of the University.

(3) The University Librarian shall be responsible to the Vice-Chancellor for the administration of the University Library and the co-ordination of the library services in the University and its campuses, colleges, faculties, schools, departments, institutes and other teaching or research units.

(4) The Bursar and Librarian shall hold office for such period and on such terms as to the emoluments of their offices and otherwise as may be specified.

(5) Any question as to the scope of the responsibilities of the aforesaid officers shall be determined by the Vice-Chancellor.

Selection Board for other principal officers

8. (1) There shall be, for the University, a Selection Board for the appointment of principal officers, other than the Vice-Chancellor or Deputy Vice-Chancellor, which shall consist of –
[1993 No.11]

- (a) the Pro-Chancellor, as chairman;
- (b) the Vice-Chancellor;
- (c) four members of the Council not being members of the Senate; and
- (d) two members of the Senate.

(2) The functions, procedure and other matters relating to the Selection Board constituted under subparagraph (1) of this paragraph shall be as the Council may, from time to time, determine.

Resignation and re-appointment

9. (1) Any officer mentioned in the foregoing provisions of this Schedule may resign his office-

- (a) in the case of the Chancellor, by notice to the President; and
- (b) in any other case by notice to the Council and the Council shall immediately notify the minister in the case of the Vice-Chancellor.

(2) Subject to paragraphs 4 and 5 of this Schedule, a person who has ceased to hold an office so mentioned otherwise than by removal for misconduct, shall be eligible for re-appointment to that office.

Second Schedule

[Section 9 (2)]

Transitional provisions as to property, functions, etc.

Transfer of property to University

1. Without prejudice to the generality of section 9 (1) of this Act-

- (a) the reference in that subsection to property held by the provisional council shall include a reference to the right to receive and give a good discharge for any grants or contributions which may have been voted or promised to the provisional council;
- (b) all debts and liabilities of the provisional council outstanding shall become debts or liabilities of the University.

2. (1) All agreements, contracts, deeds and other instruments to which the provisional council was party shall, so far as possible and subject to any necessary modifications, have effect as if the University had been a party thereto in place of the provisional council.

(2) Documents not falling within sub-paragraph (1) of this section, including enactments, which refer whether specially or generally to the provisional council, shall be construed in accordance with that sub-paragraph so far as applicable.

(3) Any legal proceedings or application to any authority pending by or against the provisional council may be continued by or against the University.

Registration of transfer

3. if the law in force at the place where any property transferred by this Act is situated provides for the registration of transfers of property of the kind in question (whether by reference to an instrument of transfer or otherwise), the law shall, so far as it provides for alterations of a register (but not for avoidance of transfers, the payment of fees or any other matter) apply with the necessary modifications to the transfer of the property aforesaid; and it shall be the duty of the body to which any property is transferred by this Act to furnish the necessary particulars of the transfer to the proper officer of the registration authority, and of that officer to register the transfer accordingly.

Transfer of functions, etc.

4. (1) The first meeting of the Council shall be convened by the Pro-Chancellor on such date and in such manner as he may determine.

(2) The persons who were members of the Provisional Council shall be deemed to constitute the Council until the date when the Council set-up under the Third Schedule to this Act shall have been duly constituted.

(3) The first meeting of the Senate as reconstituted by this Act shall be convened by the Vice-Chancellor on such date and in such manner as he may determine.

(4) The persons who were members of the Senate of the University of Nigeria shall be deemed to constitute the Senate of the University until the date when the Senate as set up under the Third Schedule of this Act shall have been

duly constituted.

(5) Subject to any regulations which may be made by the Senate after the date on which this Act is made, the faculties, faculty boards and students of the University as constituted shall on that day become faculties, faculty boards and students of the University as reconstituted by this Act.

(6) Persons who were Deans or associate Deans of faculties or schools or members of faculty boards shall continue to be Deans or associate Deans or become members of the corresponding faculty boards, until new appointments are made in pursuance of the statutes.

5. Any person who was a member of the staff of the University as established under the former Law or was otherwise employed by the provisional council shall become the holder of an appointment at the University with the status, designation and functions which correspond as nearly as may be to those which appertained to him as a member of that staff or as such an employee.

Third Schedule

[Section 10 (3)]

University of Nigeria Statute No.1

ARRANGEMENT OF ARTICLES

ARTICLE

1. The Council.
2. The Finance and General Purpose Committee.
3. The Senate.
4. Congregation.
5. Convocation.
6. Organisation of faculties and branches thereof.
7. Faculty boards.
8. The Dean of the faculties.

11. Appointment of academic staff.
12. Appointment of administrative and technical staff.
13. Interpretation.
14. Short title.

The Council

1. (1) The composition of the Council shall be as provided in section 5 of this Act.

(2) Any member of the Council holding office otherwise than in pursuance of section 5 (a), (b), (c) or (d) of this Act may, by notice to the Council, resign his office.

(3) A member of the Council holding office otherwise than in pursuance of section 5 (a), (b), (c) or (d) of this Act shall, unless he previously vacates it, vacate that office on the expiration of the period of four years beginning with effect from the 1st of August in the year in which he was appointed.

(4) Where a member of the Council holding office otherwise than in pursuance of section 5 (a), (b), (c) or (d) of this Act vacates office before the expiration of the period aforesaid, the body or person by whom he was appointed may appoint a successor to hold office for the residue of the term of his predecessor.

(5) A person ceasing to hold office as a member of the Council otherwise than by the removal for misconduct shall be eligible for re-appointment for only one further period of four years.

(6) The quorum of the Council shall be seven, at least one of whom shall be a member appointed pursuant to section 5 (d), (e), or (h) of this Act.

(7) If the Pro-Chancellor is not present at a meeting of the Council such other member of the Council present at the meeting as the Council may appoint as respects that meeting shall be the chairman at that meeting, and subject to section 4 of the Act and the foregoing provisions of this paragraph, the Council may regulate its own procedure.

(8) where the council desire to obtain advice with respect to any particular matter, it may co-opt not more than two persons for that purpose; and the persons co-opted may take part in the deliberations of the Council at any meeting but shall not be entitled to vote.

Finance and General Purposes Committee

2. (1) The Finance and General Purposes Committee of the Council shall consist of-
- (a) the Pro-Chancellor, who shall be the chairman of the Committee at any meeting at which he is present;
 - (b) the Vice-Chancellor and the Deputy Vice-Chancellor;
 - (c) six other members of the Council appointed by the Council, two of whom shall be selected from among the four members of the Council appointed by the senate and one member appointed to Council by the Congregation;
 - (d) the Permanent Secretary, Federal Ministry of Finance or, in his absence, such member of his Ministry shall as may be designated to represent him.
- (2) The quorum of the Committee shall be five.
- (3) Subject to any directions given by the Council, the Committee may regulate its own procedure.

The Senate

3. (1) The Senate shall consist of-
- (a) the Vice Chancellor;
 - (b) the Deans of the several faculties;
 - (c) the Directors especially of the several institutes;
 - (d) the Professors;
 - (e) the Librarian;
 - (f) the persons for the time being holding such appointments on the staff of the University as may be specified by the Vice-Chancellor; and
 - (g) such teachers (of senior lecturer rank and above and not being more than two in respect of each faculty) as may be elected from among the members of each faculty, the total number thereto to be determined from time to time by the Senate.
- (2) The Vice-Chancellor shall be the chairman at all meetings of the senate when he is present; and in his absence such other member of the senate present at the meeting as the senate may appoint for that meeting, shall be the chairman at the meeting.
- (3) The quorum of the Senate shall be one quarter (or the nearest whole number less than one quarter); and subject to paragraph (2) above, the Senate may regulate its own procedure.
- (4) An elected member may, by notice to the senate, resign his office.
- (5) Subject to paragraph (7) of this article, there shall be elections for the selection of elected members which shall be held in the prescribed manner on such day in the month of May or June in each year as the Vice-Chancellor may from time to time determine.
- (6) An elected member shall hold office for a period of two years beginning with 1 August in the year of his election, and may be a candidate at any election held in pursuance of paragraph (5) of this article in the year in which his period of office expires, so however that no person shall be such a candidate if at end of his current period of office he will have held office as an elected member for a continuous period of six years or would have so held office if he had not resigned it.
- (7) No election shall be held in pursuance of this article in any year if the number specified in the certificate given in pursuance of paragraph (10) below does not exceed by more than one the figure, which is thrice the number of those elected members holding office on the date of the certificate who do not vacate office during that year in pursuance of paragraph (6) of this article; but for the avoidance of doubt, it is hereby declared that no person shall be precluded from continuing in or taking office as an elected member by reason only of a reduction in the total of non-elected members occurring on or after 30 April in any year in which he is to continue in or take office as an elected member.
- (8) If so requested in writing by any ten members of the Senate, the Vice-Chancellor, or in his absence a person duly appointed by him, shall convene a meeting of the Senate to be held not later than the tenth day following that on which the request was received.
- (9) In this article, "**total of non-elected members**" means, as respects any year, such member as may be certified by the Vice-Chancellor on the 30th April of that year to be the number of persons holding office as members of the Senate on that day otherwise than as elected members.

Congregation

4. (1) Congregation shall consist of-
- (a) the Vice-Chancellor;

- (b) the full time members or the academic staff;
- (c) the Registrar;
- (d) the Bursar; and
- (e) every member of the administrative staff who holds a degree of any university recognised for the purposes of this statute by the Vice-Chancellor, not being an honorary degree.

(2) Subject to section 4 of the Act, the Vice-Chancellor shall be the chairman at all meetings of congregation when he is present; and in his absence such other member of Congregation present at the meeting as Congregation may appoint for that meeting, shall be the Chairman at the meeting.

(3) The quorum of the Congregation shall be one third (or the whole number nearest to one-third) of the total number of members of the Congregation or fifty, whichever is less.

(4) A certificate signed by the Vice-Chancellor specifying-

- (a) the total numbers of Congregation for the purposes of any particular meeting or meetings of Congregation; or
- (b) the names of the persons who are members of Congregation during a particular period,

Shall be conclusive evidence of that number or, as the case may be, of the names of those persons.

(5) Subject to the foregoing provisions of this article, Congregation may regulate its own procedure.

(6) Congregation shall be entitled to express by resolution or otherwise its opinion on all matters affecting the interest and welfare of the University and shall have such other functions in addition to the function of electing a member of the Council, as may be provided by statute or regulations.

Convocation

5. (1) Convocation shall consist of-

- (a) the officers of the University mentioned in the First Schedule to the Act;
- (b) all teachers within the meaning of the Act; and
- (c) all other persons whose names are registered in accordance with paragraph (2) of this article.

(2) A person shall be entitled to have his name registered as a member of Convocation if-

- (a) he is either a graduate of the University or a person satisfying such requirements as may be prescribed for the purposes of this paragraph; and

- (b) he applies for the registration of his name in the prescribed manner and pays the prescribed fees,

and regulations shall provide for the establishment and maintenance of a register for the purposes of this paragraph and, subject to paragraph (3) below, may provide for the payment from time to time of further fees by persons whose names are on the register and for the removal from the register of the name of any person who fails to pay those fees.

(3) The person responsible for maintaining the register shall, without the payment of any fees, ensure that names of all persons who are for the time being members of convocation by virtue of paragraph (1) (a) or (b) of this article are entered and retained on the register.

(4) A person who reasonable claims that he is entitled to have his name on the register shall be entitled on demand to inspect the register, or a copy of the register at the principal offices of the University at all reasonable times.

(5) The register shall, unless the contrary is proved, be sufficient evidence that any person named therein is and that any person not named therein is not, a member of Convocation; but for the purpose of ascertaining whether a particular person was such a member on a particular date, any entries in and deletions from the register made on or after that date shall be disregarded.

(6) The quorum of Convocation shall be fifty or one third (or the whole number nearest to one-third) of the total number of members of Convocation, whichever is less.

(7) Subject to section 4 of the Act, the Vice-Chancellor shall be chairman at all meetings of Convocation when he is present, and in his absence such other member of convocation present at the meeting as convocation may appoint for that meeting, shall be the chairman at the meeting.

(8) Convocation shall have such functions, in addition to the function of appointing a member of the Council, as may be provided by statute.

Organisation of faculties and branches thereof

6. Each faculty shall be divided into such number of branches as may be prescribed.

Faculty boards

7. (1) There shall be established in respect of each faculty a faculty board, which, subject to the provisions of this statute, and subject to the directions of the Vice-Chancellor, shall-

- (a) regulate the teaching and study of , and the conduct of examinations connected with, the subjects assigned to

the faculty;

- (b) deal with any other matter assigned to it by the statute or by the Vice-Chancellor or by the Senate; and
- (c) advise the Vice-Chancellor or the Senate on any matter referred to it by the Vice-Chancellor or the Senate.

(2) Each faculty board shall consist of-

- (a) the Vice-Chancellor;
- (b) the persons severally in charge of the branches of the faculty;
- (c) such of the teachers assigned to the faculty and having the prescribed qualifications as the board may determine; and
- (d) such persons whether or not members of the University as the board may determine with the general or special approval of the Senate.

(3) The quorum of the board shall be eight members or one quarter (whichever is greater) of the members for the time being of the board; and subject to the provisions of this statute and to any provisions made by regulations in that behalf, the board may regulate its own procedure.

The Dean of the Faculty

8. (1) The Dean of a faculty shall be a professor elected by the faculty board and each Dean shall hold office for a term of two consecutive academic years after which he shall not be eligible for re-election until four years have elapsed.

(2) If there is no professor in a faculty, the office of the Dean of the faculty shall be held in rotation by members of the faculty holding the ranks of reader or senior lecturer on the basis of seniority as determined by the Senate.

(3) The Dean shall be the chairman at all meetings of the faculty board when he is present and he shall be a member of all committees and other boards appointed by the faculty.

(4) The Dean of a faculty shall exercise general superintendence over the academic and administrative affairs of the faculty. It shall be the function of the Dean to present to Congregation for the conferment of degrees persons who have qualified for the degrees of the University at examinations held in the branches of learning for which responsibility is allocated to that faculty.

(5) There shall be a committee to be known as the Committee of Deans consisting of all the Deans of the several faculties and that committee shall advise the Vice-Chancellor on all academic matters and on particular matters referred to the University Council by Senate.

(6) The Dean of a faculty may be removed from office for good cause by the faculty board after a vote would have been taken at a meeting of the board, and in the event of a vacancy occurring following the removal of a Dean, an acting Dean may be appointed by the Vice-Chancellor provided that at the next faculty board meeting an election is held for a new Dean.

(7) In this article, "**good cause**" has the same meaning as in section 16 (3) of the Act.

Selection of Director of Works

9. (1) When a vacancy occurs in the office of the Director of Works, a selection board shall be constituted by the Council and shall consist of-

- (a) the Pro-Chancellor;
- (b) the Vice-Chancellor;
- (c) two members appointed by the Council, not being members of the Senate; and
- (d) two members appointed by the Senate.

(3) The selection board, after making such inquiries as it thinks fit, shall recommend a candidate to the Council for appointment to the vacant office; and after considering the recommendation of the board the Council may make an appointment to that office.

Creation of academic posts

10. Recommendations for the creation of academic posts shall be made by the senate to the Council through the Finance and General Purposes Committee.

Appointment of academic staff

11. Subject to the Act and the statutes, the filling of vacancies in academic posts (including newly created ones) shall be as prescribed from time to time by statutes.

Appointment of administrative and technical staff

12. (1) The Administrative and technical staff of the University other than principal officers and that mentioned in article 9 of this Statute, shall be appointed by the Council or on its behalf by the Vice-Chancellor or the Registrar in accordance

with any delegation of powers made by the Council in that behalf.

(2) In the case of administrative or technical staff who have close and important contacts with the academic staff, there shall be Senate participation in the process of selection.

Interpretation

13. In this Statute, the expression “**the Act**” means the University of Nigeria Act and any expression defined in the Act has the same meaning in this Statute.

Short title

14. The Statute may be cited as University of Nigeria Statute No. 1

MADE at Lagos this 9th day of January 1978.

Lt-General O. Obasanjo,
Head of the Federal Military Government,
Commander-in-Chief of the Armed Forces,
Federal Republic of Nigeria.

University of Nigeria Act 1978 (1978 No.1)

College of Medicine of the University of Nigeria Statute University of Nigeria Statute No.2

Commencement

In exercise of the powers conferred by sections 3 (1)(a); 3(3), and 9(1)(a) of the University of Nigeria Act 1978, and of all other powers enabling it in that behalf, the University of Nigeria, with the approval of the National Universities Commission and the further approval of the President of the Federal Republic of Nigeria and Commander-in-Chief of the Armed Forces of the Federation, hereby makes the following Statute:-

The College of Medicine

1. (1) There is hereby established as an integral part of the University, a college to be known as the College of Medicine of the University of Nigeria (hereinafter in this Statute referred to as “the College”) which shall be a body corporate with perpetual succession and a common seal and power to sue and be sued in its corporate name.
- (2) The College shall-
 - (a) as respects its general governance and control, be responsible to the Council; and
 - (b) as respects academic matters, be responsible to the Senate.
- (3) Subject to the overall control of the Council, the College shall have power to manage its own financial affairs.

Provost

2. (1) There shall be a Provost of the College who shall be the chief executive officer of the College and shall be responsible to the Vice-Chancellor for the day-to-day running of the College.
- (2) The Provost shall be elected by the Academic Assembly of the College from amongst the Professors in the College at a duly constituted meeting of the Assembly at which the election of the Provost is on the agenda.
- (3) The Provost shall hold office for two years from 1st August of the year in which he is elected and shall be eligible for re-election for another term of two years.
- (4) A person who has held office as Provost for a continuous period of four years shall not be eligible for re-election as Provost until four years have elapsed since he last held such office.
- (5) No person shall while holding the post of Provost also be the Dean of a Faculty or Head of any Department of the College.
- (6) A meeting of the Academic Staff Assembly for the election of a Provost shall be held in the month of May or June immediately preceding the expiration of the term of office of an incumbent and the Vice-Chancellor or his nominee shall preside over such meeting.
- (7) Notwithstanding the provisions of paragraph (6) of this section, elections for the appointment of the first

Provost shall be held in 1982 so soon after the coming into effect of this Statute as the Academic Staff Assembly shall determine; and the Provost so elected shall vacate office in accordance with the provisions of paragraph (3) of this section.

Deputy Provost

3. (1) There shall be a Deputy Provost of the College who shall assist the Provost and act in his place if the office of the Provost is vacant or the Provost is for any reason (including absence from the precincts of the College) unable to perform his function as Provost.
- (2) The Deputy Provost shall be elected from amongst the Professors in the College by the Academic Staff Assembly of the College.
- (3) The Deputy Provost shall hold office for two years beginning with the 1st of August of the year in which he is elected and shall be eligible for re-election for another term of two years.
- (4) A person who has held office as Deputy Provost for a continuous period of four years shall not be eligible for re-election as Deputy Provost until four years have elapsed since he last held such office.
- (5) No person shall while holding the office of Deputy Provost of the College also be the holder of the office of the Dean of a Faculty or Head of any Department in the College.
- (6) A meeting for the election of the Deputy Provost shall be held in the month of May or June immediately preceding the expiration of the term of office of the current Deputy provost and the Vice-Chancellor or his nominee shall preside over such a meeting.
- (7) Notwithstanding the provisions of paragraph (6) of this section, elections for the appointment of the first Deputy provost shall be held in 1982 so soon after the coming into effect of this Statute as the Academic Staff Assembly shall determine; and the Deputy provost so elected shall vacate office in accordance with the provisions of paragraph (3) of this section.

Faculties

4. (1) The College shall consist of Faculties and Institutes which shall be made up of Departments and such other academic units as shall be established in accordance with the procedures prescribed in that behalf by the University.
- (2) The following faculties shall constitute the foundation faculties of the College:-
 - (a) the Faculty of Medical Sciences and Dentistry; and
 - (b) the Faculty of Health Science and Technology.

Faculty Board of Studies

5. (1) There shall be established for each Faculty of the College, a Board of Studies.
- (2) The Board of Studies shall consist of-
 - (a) the Vice-Chancellor and the Deputy Vice-Chancellor(s);
 - (b) the provost and the Deputy Provost;
 - (c) the Deans of the Faculties in the College;
 - (d) the Medical Librarian;
 - (e) all the academic staff of the College; and
 - (f) such other persons, whether or not members of the University, as the Board of Studies may, with general or special approval of Senate, determine.
- (3) The Board of Studies shall -
 - (a) advise and report to the Academic Board on all matters relating to the organisation, teaching and research into the subjects taught in the College including the development and review of curricular and the conduct of examinations;
 - (b) consider the progress and conduct of students in the teaching units and report thereon to the Academic Board;
 - (c) recommend to the Academic Board persons for appointment as examiners; and
 - (d) deal with such other academic matters as may be referred to it by the Academic Board.
- (4) The quorum of the Board of Studies shall be eight or one-quarter of the entire members thereof (whichever is the greater)
- (5) The Dean shall be the Chairman at all meetings of the Faculty Board when he is present; and when he is not present, such other member of the Board, as may be acting for the Dean for the time being, shall preside at

that meeting.

Deans of Faculties

6. (1) The dean of a faculty shall be a professor elected by the Faculty Board and each dean shall hold office for a term of two consecutive academic years and after which he will not be eligible for re-election until four years have elapsed.
- (2) If there is no professor in a faculty, the office of the dean of the faculty shall be held in rotation by academic members of the faculty holding the ranks of reader or senior lecturer on the basis of seniority as determined by the Senate.
- (3) The dean of a faculty shall exercise general superintendence over the academic and administrative affairs of the faculty. It shall be the function of the dean to present to convocation for the conferment of degrees and other qualifications persons who have qualified for such degrees or other qualifications of the university at examinations held in the branches of learning for which responsibility is allocated to that faculty.

Board of the College of Medicine

7. (1) There shall be a Board of the College of Medicine (hereinafter in this statute referred to as "the Board of the College") which shall be subject to the overall control of the Council.
- (2) The Board of the College shall -
 - (a) control the property and expenditure of the College;
 - (b) submit to the Council through the Vice-Chancellor, any financial proposals relating to the College;
 - (c) employ on such terms and conditions within the frame-work of the conditions of service governing the appointment of non-academic staff as may appear to the College Board to be necessary;
 - (d) appoint all academic staff of the College up to and including the level of senior lecturers; and
 - (e) perform such other functions of the Council as that Council may from time to time delegate to it.
- (3) The Board of the College shall consist of-
 - (a) the Pro-Chancellor and Chairman of the Council, as Chairman of the Board;
 - (b) the Vice-Chancellor,
 - (c) the Chairman of the University of Nigeria Teaching Hospital Management Board;
 - (d) the Provost and the Deputy Provost of the College;
 - (e) deans of faculties of the College;
 - (f) one person, who is not a member of the academic staff of the University nominated by the Council;
 - (g) two members of the Senate who are not members of the college, nominated by the Senate;
 - (h) two persons who are members of the academic staff of the College, nominated by the Academic Board;
 - (i) one member appointed by the University of Nigeria Teaching Hospital Management Board;
 - (j) the Permanent Secretary of the Federal Ministry charged with responsibility for matters relating to health, or his representative; and
 - (k) the permanent secretary of the Federal Ministry charged with the responsibility for matters relating to University education or his representative.
- (4) The quorum of the Board of the College shall be six.
- (5) Members of the Board of the College shall hold office for a period not exceeding four years.
- (6) A member of the Board of the College appointed under sub-paragraphs (f) to (i) of paragraph (3) above shall hold office for such period as may be determined by the body by which he is nominated.

Secretary

8. (1) There shall be a Secretary to the College who shall, under the general control of the registrar of the University, carry out such duties of an administrative nature as may from time to time be assigned to him by the Board of the College and, subject thereto, by the Provost.
- (2) The Secretary of the College who shall be of the status of a senior deputy registrar, shall be appointed on behalf of the Council by the Board of the College.
- (3) The person holding the office of Secretary to the College shall by virtue of that office be the Secretary to the Board of the College, the Academic Board and the Academic Staff Assembly.

Financial Controller

9. (1) There shall be a Financial Controller of the College who shall, under the general control of the University

- Bursar, be responsible to the Provost for the day-to-day administration of the financial affairs of the College.
- (2) The Financial Controller of the College who shall be of the status of a chief accountant, shall be appointed on behalf of the Council by the Board of the College.

Academic Board

10. (1) There shall be an Academic Board of the College which shall have control of the academic affairs of the College and shall be responsible and subject to the control of the Senate in all academic matters. It shall also exercise such of the powers of the Senate as the Senate may from time to time delegate to it.
- (2) The Academic Board of the College shall consist of
- (a) the Vice-Chancellor or his representative;
 - (b) the Deputy Vice-Chancellors;
 - (c) the Provost and the Deputy Provost of the College;
 - (d) the deans of the faculties within the College;
 - (e) the professors in the College;
 - (f) the medical librarian of the College;
 - (g) the persons for the time being holding such appointments on the staff of the College as may be specified by the Provost of the College with the approval of the Vice-Chancellor; and
 - (h) not more than two other members of the academic staff of each faculty within the College elected from amongst the members in accordance with paragraph (5) of this Article.
- (3) The quorum of the Academic Board shall be ten or one-quarter (whichever is greater) of the members for the time being of the Board.
- (4) The Provost of the College shall be the chairman of all meetings of the Academic Board of the College when he is present and when he is not present, the Deputy Provost, or where they are both absent, any person for the meantime performing the functions of the Provost, shall preside at that particular meeting of the Academic Board.
- (5) The Academic Board shall make Regulations prescribing the procedure for the election of members of the Academic Board under sub-paragraph (g) above, who shall hold office for a period of two years beginning with the 1st August in the year of his election and shall at the expiration of his term be eligible for re-election, so however, that no person shall be eligible for re-election at the end of his current period of office if he shall have held office, as an elected member of Board, for a continuous period of six years or would have so held office if he had not earlier resigned it.

Academic Staff Assembly

- 11 (1) There shall be an Academic Staff Assembly of the College which shall consist of all full-time academic staff of the College.
- (2) The quorum of the Assembly shall be twenty.
- (3) The functions of the Academic Staff Assembly shall be -
- (a) to elect representatives to various bodies on which the Academic Staff Assembly of the College is specifically required to be represented;
 - (b) to elect a Provost for the College from among the full-time professors of the College;
 - (c) to elect a Deputy Provost for the College from among the full-time professors of the College; and
 - (d) to perform such other functions as the Academic Board may, from time to time, refer to it.
- (4) The Provost shall be the Chairman at all meetings of the Academic Staff Assembly when he is present, and when he is not present, the Deputy Provost or one of the Deans of Faculty as may be mandated by the Provost to be the Chairman at the meeting: Provided that when the Assembly meets to elect a Provost or Deputy Provost, the Vice-Chancellor or his nominee shall preside as Chairman.

Interpretation

12. Any word or expression used in this Statute shall have the same meaning as defined in the University of Nigeria Act 1978.

Citation and Commencement

13. (1) The Statute may be cited as the University of Nigeria Statute No.2.

(2) This Statute shall come into force on 1st day of August, 1982.

MADE by the University of Nigeria at Nsukka this 31st day of July 1982.

ALHAJI SHETTIMA ALI MONGUNO
Chairman/Member of the Council of the
University of Nigeria

PROFESSOR FRANK NWACHUKWU NDILI
Vice-Chancellor/Member of the Senate of the
University of Nigeria.

APPROVED at Lagos this 3rd day of December 1982

ALHAJI SHEHU USMAN ALIYU SHAGARI
President of the Federal Republic of
Nigeria and Commander-in-Chief of the
Armed Forces of the Federation.

Universities (Miscellaneous Provisions) Decree 1993

Decree No.11

Commencement.

(1st January 1993)

The FEDERAL MILITARY GOVERNMENT hereby decrees as follows:

Application of Decree to Federal Universities.

1. Notwithstanding anything to the contrary contained in any law the provisions of this Decree shall apply to a University controlled by the Government of the Federation and listed in the Schedule to this Decree.

Composition of the Council

2. The Council of any University shall consist of
 - (a) the Pro-Chancellor;
 - (b) the Vice-Chancellor;
 - (c) the Deputy Vice-Chancellors;
 - (d) one person from the Federal Ministry responsible for Education;
 - (e) four persons representing a variety of interests and broadly representative of the whole Federation to be appointed by the National Council of Ministers;
 - (f) four persons appointed by Congregation from among its members;
 - (g) two persons appointed by Congregation from among its members;
 - (h) one person appointed by Convocation from among its members.

Vice- Chancellor of a University.

3. (1) There shall be a Vice-Chancellor of a University (in this Act referred to as "the Vice-Chancellor") who shall be appointed by the President, Commander-in-Chief of the Armed Forces in accordance with the provisions of this section.
 - (2) Where a vacancy occurs in the post of a Vice-Chancellor, the Council shall:-
 - (a) advertise the vacancy in a reputable journal or a widely read newspaper in Nigeria, specifying:-
 - (i) the qualities of the persons who may apply for the post and
 - (ii) the terms and conditions of service applicable to the post, and thereafter draw up a short list of suitable candidates for the post for consideration;
 - (b) constitute a Search Team consisting of:-

- (i) a member of the Council, who is not a member of the Senate, as chairman;
 - (ii) two members of the senate who are not members of the Council, one of whom shall be a professor;
 - (iii) two members of Congregation who are not members of the Council, one of whom shall be a professor,
- to identify and nominate for consideration, suitable persons who are not likely to apply for the post on their own volition because they feel that it is not proper to do so.
- (3) A joint Council and Senate Selection Board consisting of:-
- (a) the Pro-Chancellor, as chairman;
 - (b) two members of the Council, not being members of the Senate;
 - (c) two members of the Senate who are professors, but were not members of the Search Team, shall consider the candidates and persons on the short list drawn up under subsection (2) of this section through an examination of their curriculum vitae and interaction with them, and recommend to the Council three candidates for further consideration.
- (4) The Council shall select one candidate from among the three candidates recommended to it under subsection (3) of this section and forward his name to the President, Commander-in-Chief of the Armed Forces.
- (5) The President Commander-in-Chief of the Armed Forces may appoint or reject, as Vice-Chancellor, the candidates recommended to him under the provisions of subsection (4) of this section.
- (6) If the President, Commander-in-Chief of the Armed Forces rejects a candidate under subsection (5) of this section, the Council shall forward another name.
- (7) The Vice Chancellor
- (a) shall hold office for a period of four years beginning with the effective date of his appointment and on such terms and conditions as may be specified in his letter of appointment; and
 - (b) may be re-appointed for one further period of four years and no more.
- (8) The Vice-Chancellor may be removed from office by the Visitor after due consultation with Council and the Senate acting through the Ministry of Education.

Deputy Vice-Chancellors

4. (1) There shall be for each University such number of Deputy Vice-Chancellors as the Council may, from time to time, deem necessary for the proper administration of the University.
- (2) Where a vacancy occurs in the post of Deputy Vice-Chancellor, the Vice-Chancellor shall forward to the Senate a list of two candidates for each post of Deputy Vice-Chancellor that is vacant.
- (3) The Senate shall select for each vacant post one candidate from each list forwarded to it under subsection (2) of this section and forward his name to the Council for confirmation.
- (4) Where:
- (a) the Senate rejects the two candidates forwarded to it by the Vice-Chancellor under subsection (2) of this section, the Vice-Chancellor shall submit another list.
 - (b) if the Council rejects the name sent to it under subsection (3) of this section, the Senate shall send the name of other candidate on the list forwarded to it by the Vice-Chancellor under subsection (2) of this section.
- (5) The Deputy Vice-Chancellor shall-
- (a) assist the Vice-Chancellor in the performance of this functions;
 - (b) act in the place of the Vice-Chancellor when the post of the Vice-Chancellor is vacant or if the Vice-Chancellor is, for any reason, absent or unable to perform his functions as Vice-Chancellor; and
 - (c) perform such other functions as the Vice-Chancellor or the Council may, from time to time, assign to him.
- (6) The Deputy Vice-Chancellor-
- (a) shall hold office for a period of two years beginning from the effective date of his appointment and on such terms and conditions as may be specified in his letter of appointment; and
 - (b) may be re-appointed for one further period of two years and no more

Office of the Registrar

5. (1) There shall be a Registrar, who shall be the chief administrative officer of the University and shall be responsible to the Vice-Chancellor for the day-to-day administrative work of the University except as

- regards matters for which the Bursar is responsible in accordance with section 6(2) of this Decree.

- 22. University of Uyo, Uyo
- 23. Federal University of Technology, Yola

24. Ahmadu Bello University, Zaria

Made at Abuja this 1st day of January 1993

General I. B. Babangida,
President, Commander-in-chief of the Armed Forces, Federal Republic of Nigeria.

Appendix

EXPLANATORY NOTE

(This note does not form part of the above Decree but is intended to explain its purpose)

The Decree, among other things, reconstitutes the membership of the University Council of all Federal Universities and sets out uniform procedure for the appointment of Vice-Chancellors and Deputy Vice-Chancellors.

Universities (Miscellaneous Provisions) (Amendment) Degree 1996

Decree No. 25
(21st August 1996)

The Federal Military Government hereby decrees as follows:

- 1) The Universities (Miscellaneous Provisions) Decree 1993 (in this Decree referred to as "the principal Decree"), as amended is hereby further amended as set out in this Decree.
- 2) Section 2 of the principal Decree is amended in paragraph (e) thereof by substituting for the word "four" the word "nine".
- 3) Section 3 of the principal Decree is amended -
 - a) in subsection (3) by substituting for the words "and recommend to the Council three candidates for further consideration" appearing in line 4 after paragraph (c) thereof the following new words "and recommend to the Council suitable candidates for further consideration".
 - b) in subsection (4) by substituting therefore the following new subsection that is-
"(4) The Council shall select three candidates from among the candidates recommended to it under subsection (3) of this section and may indicate its order of preference stating the reasons therefore and forward the names to the Head of State, Commander-in-Chief of the Armed Forces".
 - c) in subsection (5) by substituting therefore the following new subsection, that is- "(5) The Head of State, Commander-in-Chief of the Armed Forces may appoint as Vice-Chancellor, any one of the candidates recommended to him in accordance with the provisions of subsection (4) of this section.
 - d) by deleting subsection (6) thereof and renumbering the existing subsection (7) as subsection (6):
 - e) in subsection (6) as renumbered, by substituting therefore the following new subsection, that is - "(6) The Vice-Chancellor shall hold office for a single term of five years only on such terms and conditions as may be specified in his letter of appointment".
 - f) by inserting immediately after subsection (6) thereof the following new subsection, that is - "(7) For the avoidance of doubt, the provisions of subsection (6) of this section shall -
 - i) only be applicable to those appointed to the office of Vice-Chancellor after the commencement of this Decree.
 - ii) not confer on a person serving a first term of office as Vice-Chancellor before the commencement of this Decree, any right to the renewal of the appointment for a further term of four years".
- 4) Section 4 of the principal Decree is amended by deleting the first subsection (4)(a) and (b) appearing therein.
- 5) The Universities (Miscellaneous Provisions) (Amendment) Decree 1993 is hereby consequentially repealed.
- 6) This Decree may be cited as the Universities (Miscellaneous Provisions) (Amendment) Decree 1996.

MADE at Abuja this 21st of August 1996

General Sani Abacha
Head of State, Commander-in-Chief of the Armed Forces,
Federal Republic of Nigeria.

3 General Information

Student Welfare Services

The University has an Office of the Student Affairs which manages the Halls of Residence, promotes the intellectual, social, psychological and religious welfare of students and co-ordinates a variety of student activities planned by a number of student organisations. It also takes care of students' conduct and discipline.

The Student Affairs Department runs counselling and guidance services aimed at assisting the students. The counselling service also covers the academic, psychological, social, personal and some other problems of students.

Careers and Students Services Office of the Registrar's Department acts as liaison with employers in conducting interviews and placements of graduating students. Its other functions include scholarships and prizes, loan forms, National Youth Service Corps matters as well as foreign students' affairs.

Halls of Residence- The University admits residential and non-residential students. All residential students live in rooms usually furnished with wardrobes, writing tables, chairs and bookshelves. The institution also usually supplies beds and mattresses. There are a number of Halls of Residence/Hostels on both campuses of the University some of which also provide catering facilities. Besides, there are quite a good number of Students' Canteens and Refectories on the campuses. Non-residential students make their own accommodation arrangements.

Students Union - There is a Students' Union catering for the welfare of all undergraduate and sub-degree regular students of the University. All the postgraduate students of the University have their own Graduate Student Union. The students are expected to play vital individual roles in the activities/programmes of the Students Unions which are designed for the optimum development of the individual .

Recreation - Facilities already available include a modern stadium known as the Akanu Ibiam Stadium with football field as well as facilities for field and track events and changing rooms, cricket field, hockey fields, several tennis courts, badminton, basketball, net-ball and volley-ball courts, a modern swimming pool with a ten meter diving board, provision for weight training and a gymnasium for indoor activities.

University of Nigeria Libraries

The University of Nigeria Libraries consist of the Nnamdi Azikiwe Library, the Libraries of the faculties of Agriculture and Education and the Institute of African Studies on the Nsukka campus, the Enugu Main Library, the Library of the Institute of Development Studies (IDS) at the Enugu Campus, and the Medical Library located at the College of Medicine, University of Nigeria Teaching Hospital, Enugu. The Nnamdi Azikiwe Library which is the main University Library houses the Union catalogue showing a record of all the holdings of the libraries in the system.

These libraries contain well over 700,000 volumes of books, 295 current journal titles and 9,068 microform items. Journal and book purchases which dwindled between 1983 and 1992 due to the world wide economic recession was revitalized between 1993 by the Federal Government through the National Universities Commission (NUC) and the World Bank assisted project. After the project, there has been a steady growth in the libraries. The Nnamdi Azikiwe Library has a growing collection of publications by international bodies/ organization such as:

- i. The United Nation
- ii. The Food and Agriculture Organization (FAO) of the United Nation and
- iii. The United Nations Educational, Scientific, and Cultural Organization (UNESCO).

It also has a special collection of documents published by various governments of Nigeria as well as the Biafrana collection (Publications on the Nigeria Civil War).

Registration of Readers

The primary users of the libraries are the students and staff of the University of Nigeria. All users must complete registration formalities and renew their borrowers' cards at the beginning of each academic session before making use of the libraries.

Library Services

The services of the University Libraries are geared toward adequate support of the undergraduate, graduate, and research programmes of the University. The Libraries provide the following services:

i. Leading

Most books except reference materials may be borrowed for a period of four weeks for undergraduate and postgraduate students and eight weeks for teaching staff and other senior members of staff of the University during academic sessions. All books on loan must be returned to the Libraries by the end of the academic year. The libraries render services to external users under certain conditions.

ii. Reserved Books

Books in constant demand by readers are placed in the Reserved Book Unit of the Circulation Section. The purpose is to ensure that all concerned get equal access to these books. Such books are not to be taken out of the Library, but may be borrowed for use within the Library for two hours at a time.

iii. Reference Services

The libraries have a number of adequately qualified staff, including profession librarians who offer both reference services and bibliographic counselling go all users. Users can avail themselves of these services by discussing their information needs with the Reference Librarian

iv. On-Line Public Access Catalogue (OPAC) and CD-ROM Services

The libraries have currently installed a computer network and before long, the Libraries' Union Catalogues will also be available to staff and postgraduate students of the University for bibliographic verification. Electronic mails and internet services have been installed for information searching.

v. Current Awareness

New accessions in the libraries are displayed for a period of not less than one week for users to browse through. Periodic exhibitions are also held on topical issues of academic and research interest.

vi. Online Searching Services

Users are provided with information on the online databases that are accessible in the libraries. They are also assisted on how to develop appropriate search strategies that will enable them to have access to the online databases. The services allow librarians to create awareness of free full-text online databases in different disciplines or subject areas and make them available to lectures and students.

vii. Research Support Services

Our professional librarians with some degree of subject strength are working closely with lecturers and students to identify their information needs and to provide information resources to meet those needs. The research support service is a legitimate proactive library service aimed at identifying users information needs and providing consultation or advice as well as information resources to meet those needs

viii. Photocopying Services

The libraries provide facilities for users to photocopy materials that may not be given out on loan.

ix. Referral and Inter-Library Co-operation

Users are given information on where to locate materials that are not within the holding of the libraries and when necessary, the libraries can arrange to obtain materials needed from other libraries solely on request by users.

x. Bindery

The Library Bindery is located in the Nnamdi Azikiwe Library. Jobs from outside the library are also undertaken by this Unit.

Medical Services

The Medical Centres in both Campuses care for the health of the students, staff and the families of staff members and are staffed with a team of experienced doctors, pharmacists, laboratory technologists, nursing sisters and staff nurses, sanitary superintendents and other paramedical personnel.

The Medical Centre at Nsukka has a surgical theatre, laboratory facilities, an X-ray Unit, an Out-patient Section and ample bed capacity for in-patients.

The University Primary School

The University Primary School, with branches at Nsukka and Enugu campuses, offers elementary education from Kindergarten through Grade Six for children aged 4 to 11 plus. The School is open to the public, although the greater majority of pupils are children of the University staff.

Located at the centre of the University campus at Nsukka, and on the south-eastern part of Enugu Campus, the school blocks house modern classrooms, assembly halls and games pitches, which provide ideal and modern conditions for a model school. The staff comprises well-trained and experienced teachers.

The academic year lasts thirty-six weeks coinciding with the University academic year. The curriculum covers a wide-range of material to reflect the international character of the University community.

University of Nigeria Secondary School, Nsukka Campus

As is stated in the National Policy on Education, the broad aims of secondary education are preparation for useful living in society and preparation for higher education. In furtherance of these broad aims, the University of Nigeria Secondary School runs a 3-3 tier secondary programme.

Junior Secondary (Forms I-3) (Grades 7-9)

For the Junior Secondary level, the National policy on Education specifies core subjects as well as two (2) categories of electives, pre-vocational and non-vocational. The Secondary School Board has taken into consideration as it has tried to organize the elective subjects in such a way that the students of the University of Nigeria Secondary School can be exposed to a wide variety of pre-vocational subjects; the time-table is so structured that the school ends at 2.30 p.m.

At the end of the course the students take the National Examinations Council exams, Minna (NECO), and a Junior Secondary Certificate Examination.

Senior Secondary (Forms 4- 6) (Grades 10-12)

The Senior Secondary programme offers the students an opportunity to select combinations of subjects which are science-inclined, arts-inclined, technical and creative arts inclined and business studies oriented. Based on the students' inclinations, they are expected to choose a requisite number of subjects from the list of core subjects and electives. The terminal Examination is the Senior Secondary Certificate Examination conducted by the National Examinations Council (NECO) Minna or West African Examinations Council, Lagos. The students are equally capable of taking the Nigeria Joint Admission Matriculation Examination and the University of London O'Level Examination, as well as SATS.

Assessment

The school has adopted continuous assessment as recommended in the National Policy on Education. It thus means that students are assessed using a variety of tools not examinations. Assignment and projects, observation of students, inventories on various topics, tests, rating scale as well as socio-metric techniques are used. The idea is to have a comprehensive look at the students' progress in all facets of their school learning. The assessment procedure allows for a diagnostic or guidance oriented evaluation to identify the moments and areas of strength and weakness and thus provide useful and appropriate assistance to the students. The results gained from the various assessments are cumulative and would count towards the final grades and ratings which students obtain.

The school keeps comprehensive records on all students, so that parents/guardians may monitor and discuss the progress of their children/wards. Reports are issued to parents on a termly basis and transcripts may be issued on request.

Co-Curricular Activities

The University of Nigeria Secondary School believes that a healthy mind exists in a healthy body; accordingly, it affords its students the opportunity to participate in a well-balanced system of sports and games reinforced with a wide range of activities, clubs and societies for relaxation, creativity, self-expression and leadership role apart from the usual athletics, sports and games.

University of Nigeria Press

The University of Nigeria Press is under the general supervision of the University Senate Publication Committee and published a wide range of scholarly and text materials.

University of Nigeria Bookshop

The Bookshop is owned by the University of Nigeria and stocks books and stationery. There are branches of the Bookshop on both campuses of the University.

University of Nigeria General Enterprises Ltd.

The University maintains a number of Guest Houses on both campuses and one attached to the Lagos Office of the University for accommodation of official guests. There is also the Continuing Education Centre (C.E.C.) located on the Nsukka campus, which provides facilities for further education for all sections of the University community. In this Centre, members of the University staff join in cooperative enterprises with citizens who come to the centre for research, seminars, conferences, workshops, etc.

The Continuing Education Centre, a gift of the United States Agency for International Development, includes classrooms, conference rooms, catering facilities and lodging accommodation. It was designed and furnished with the needs and interests of research scholars and mature students in view.

Those who come to the centre for adult programmes are 'students' of the University for the duration of their stay, and may take advantage of other educational and cultural programmes and facilities on the campus. The Continuing Education Centre was officially opened on 12th June 1965 and many adult groups have utilized its facilities to advance their intellectual development.

Other Services

Banking Services

Adequate banking facilities are available at both campuses of the University. There are a number of banks in Enugu and Nsukka towns. The banks operate five days in a week during the following hours: Monday 8 a.m. to 3 p.m., Tuesday to Friday 8 a.m. to 1.30 p.m. The University in addition has its own community bank.

Religious Facilities

Facilities are available on the campuses for services/worship and other religious activities. There are Roman Catholic and Protestant Chapels at both campuses. There is also a mosque on the main campus of the University at Nsukka.

4 Boards and Committees

Boards and Committees of the Council

Finance and General Purpose Committee

Composition

Pro-Chancellor and Chairman of the Governing Council	Chairman
Vice-Chancellor	Member
3 Council members who are not members of Senate Members	Member
2 Senate Representatives in Council	Members
1 Congregation Representative	Member
Director General, Federal Ministry of Education or Representative Member	Member
Registrar	Secretary

In Attendance

Deputy Vice-Chancellor (Academic)
Deputy Vice-Chancellor (Administration)
Deputy Vice-Chancellor (Enugu Campus)
Provost, College of Medicine
Bursar

Quorum: Six members

Terms of Reference

- (a) To act for and on behalf of Council in the following matters:
- (i) Authorizing or confirming payment of all accounts due from the University.

 CEO/Secretary

6. Degrees and Diplomas

Degrees and Diplomas

Degrees and diplomas granted by the University are under the authority of the Senate of the University. The following degrees and diplomas may at present be granted:

1	Faculty of Agriculture	
	Bachelor of Agriculture	B.Agric.
	Bachelor of Science	B. Sc.
	Master of Science	M.Sc.
	Doctor of Philosophy	Ph.D.
	Doctor of Science	D.Sc.
2	Faculty of Arts	
	Bachelor of Arts	B.A.
	Master of Arts	M.A.
	Master of Fine Arts	M.F.A.
	Doctor of Philosophy	Ph.D.
	Doctor of Music	D.Mus.
	Doctor of Letters	D.Litt.
	Diploma of Music Education	
	Diploma in Mass Communication	
3	Faculty of Biological Sciences	
	Bachelor of Science	B.Sc.
	Master of Science	M.Sc.
	Doctor of Philosophy	Ph.D.
	Doctor of Science	D.Sc.
4	Faculty of Business Administration	
	Bachelor of Science	B.Sc.
	Master of Business Administration	M.B.A.
	Master of Science	M.Sc.
	Doctor of Philosophy	Ph.D.
	Faculty of Education	
	Bachelor of Arts	B.A. Ed.
	Bachelor of Science	B.Sc.Ed
	Master of Education	M.Ed.
	Doctor of Philosophy	Ph.D.
	Doctor of Letters	D.Litt.
	Diploma in Health & Physical Education	
	Diploma in Adult Education	
	Diploma in Computer Education	
	Diploma in Library Science	
6	Faculty of Engineering	
	Bachelor of Engineering	B.Eng.
	Master of Engineering	M.Eng.
	Bachelor of Science	B.Sc.
	Master of Science in Engineering	M.Sc. (Eng)
	Doctor of Philosophy	Ph.D.

7	Doctor of Science	D.Sc.
	Faculty of Environmental Studies	
	Bachelor of Architecture	B.Arch
	Bachelor of Science	B.Sc.
	Master of Science	M.Sc.
	Master of Architecture	M.Arch.
	Bachelor of Urban and Regional Planning	BURP
	Master of Urban and Regional Planning	MURP
8	Doctor of Philosophy	Ph.D.
	Doctor of Science	D.Sc.
	Faculty of Health Sciences & Technology	
	Bachelor of Science	B.Sc.
9	Bachelor of Medical Laboratory Sciences	B.M.L.S
	Master of Science	M.Sc.
	Faculty of Law	
10	Bachelor of Law	LL.B.
	Master of Law	LL.M.
	Doctor of Philosophy	Ph.D.
11	Faculty of Health Science & Technology	
	Bachelor of Medicine	B.M.
	Bachelor of Surgery	B.S.
	Bachelor of Dentistry	B.D.
	Master of Science	M.Sc.
	Doctor of Philosophy	Ph.D.
	Doctor of Medicine	D.M.
12	Faculty of Pharmaceutical Sciences	
	Bachelor of Pharmacy	
		B.Pharm.
	Master of Pharmacy	
		M.Pharm.
	Master of Science (Pharmacy)	M.Sc.
13	Doctor of Philosophy	Ph.D.
	Doctor of Science	D.Sc.
	Faculty of Physical Sciences	
	Bachelor of Science	B.Sc.
	Master of Science	M.Sc.
14	Doctor of Philosophy	Ph.D.
	Doctor of Science	D.Sc.
	Faculty of the Social Sciences	
	Bachelor of Science	B.Sc.
	Master of Arts	M.A.
	Master of Science	M.Sc.
	Doctor of Philosophy	Ph.D.
	Doctor of Divinity	D.D.
	Doctor of Science	D.Sc.
	Diploma in Religious Studies

16	Diploma in Veterinary Science	

Entry Requirements

University of Nigeria, Nsukka requires all candidates applying for admission into any of its courses to possess five credit "O" level passes which must include a credit pass in English Language and a Science subject in not more than two sittings.

Entry requirement for Direct Entry must include UTME requirement for that particular course.

Prospective candidates for the University of Nigeria should also visit its website: www.unn.edu.ng for updates on both University and Departmental Entry requirements.

The acceptable Science subjects are:

1. Additional General Science	14. Human Biology
2. Additional Mathematics	15. Hygiene and Psychology
3. Agricultural Science	16. Integrated Science
4. Applied Mathematics	17. Mathematics
5. Biology	18. Physics
6. Botany	19. Physics with Chemistry
7. Chemistry	20. Pure and Applied Mathematics
8. Food and Nutrition	21. Rural Biology
9. Food Science	22. Rural Science
10. General Biology	23. Statistics
11. General Science	24. Zoology
12. Geology	25. Geography

The acceptable Arts subjects are:

1. English Language
2. Literature in English
3. History
4. Fine & Applied Arts
5. French

The acceptable Social Science subjects are:

1. Economics
2. Commerce
3. Government
4. Geography
5. Principles of Account

6. Igbo
7. Other Nigerian Languages
8. Music
9. Christian Religious Studies
10. Islamic Religious Studies

7. Regulations Governing Admissions into Degree and Non-Degree Programmes

A. General Entry Requirements

1. Age Limit
No person under the age of sixteen years may be admitted to the University as a student.
2. Admission Requirements
There are three alternative methods of admission into the University, namely:
 - (i) Admission by Entrance Examination (Through J.M.E) - University by Entrance examination:
 - (a) Holders of the School Certificate or the General Certificate of Education Ordinary Level with credit level passes (Grades 1-6) in five subjects including an approved Science subject (see Appendix A) obtained at not more than two sittings. Such candidates must possess at least a pass in English Language.
 - (b) Holders of the School Certificate or the General certificate of Education Ordinary Level with not less than three credit passes obtained at one sitting plus the Teachers' Grade II Certificate with at least two merit passes. Passes in the above examination must include credit in the case of SC/GCE 'O' Level or merit (in the case of TC II) in an approved Science subject. Such candidates must possess at least a pass in English Language:
Note: Merit pass in a Federal subject in TC II is equivalent to Credit level pass in School Certificate or General Certificate of Education.
 - (c) Holders of educational qualifications set out in 2(ii) (a) -(e) below. Such candidates on admission will be enrolled for the same degree programme (including the length of the course) as candidates with qualification set out in 2(i)(a)and(b) above.
 - (ii) Admission by Direct Entry:
 - (a) Holders of the School Certificate/GCE Ordinary Level and the Higher School Certificate/GCE Advanced Level with passes in two subjects at Principal or Advanced Level together with passes at subsidiary or credit level in three other subjects;
 - (b) Holders of the School Certificate/GCE Ordinary Level and the Higher School Certificate/GCE Advanced Level with passes in three subjects at Principal or Advanced Level together with a pass in one other subject at subsidiary or credit level;
 - (c) Holders of the Higher School Certificate/GCE Advanced Level with passes in four subjects at Principal Level. The number of passes indicated in 2(ii)(a)-(c) above should be obtained at not more than two sittings;
 - (d) Holders of the School Certificate or its equivalent with at least four credit level passes and a pass in English Language plus approved 2-year Diploma(see Appendix B for list of Diplomas acceptable for related Courses);
 - (e) Holders of post-secondary qualifications beyond the levels of 2(ii) (a)-(c) above. Such qualifications include degree and diplomas of this and other Universities or Institutions recognized by the University (se Appendix C);
 - (f) Holders of the Diploma in Music Education of this University with the degree programme in Music;
 - (g) Holders of the Nigeria Certificate in Education (NCE), with at least a Merit aggregate; plus a minimum of credit pass in the subject to be combined with Education are eligible for admission into the two-year degree programme in Education.
 - (ii) Admission by Transfer (Direct application to the University and not through the Joint Admissions and matriculation Board-JAMB):

Candidates applying for transfer admission into the University of Nigeria will be required among other things:

- (a) to purchase and complete the prescribed Application Form obtainable from the office of the Registrar (Admissions) University of Nigeria, Nsukka;
- (b) To hold the minimum entry qualifications for admission into the University of Nigeria and Departmental entry requirements, prior to entry into the University from where they are seeking transfer;
- (c) to be prepared to continue with the same courses as they were pursuing in the University from where they are seeking transfer;
- (d) To have made normally a minimum cumulative grade point average of 2.75.

Note: Students expelled or suspended from their Universities for acts of misconduct are not eligible for admission into the University of Nigeria. In addition to the minimum entry requirements outlined in 2(i) to 2(ii) above, candidates must also satisfy such Faculty/Departmental entry requirements set out for the Faculty/Department concerned.

B. Specific Entry Requirements (see Departments)

Appendix A

List of Science Subjects Approved for the purposes of Admission through the Entrance Examinations:

1	Additional General Science	9	Food and Nutrition	17	Integrated Science.
2	Additional Mathematics	10	General Biology	18	Mathematics
3	Agricultural Science	11	General Science	19	Physics
4	Applied Mathematics	12	Geography	20	Physics with Chemistry
5	Biology	13	Geology	21	Pure and Applied Mathematics
6	Botany	14	Health Science	22	Rural Biology
7	Chemistry	15	Human Biology	23	Rural Science
8	Food and Science	16	Hygiene and Physiology	24	Statistics
		25	Zoology		

Appendix B

Two-year diplomas/certificates approved for direct entry admission to be combined with credit level passes in four subjects and a pass in English language in school certificate or its equivalent:

No.	Diploma/Certificate	Faculty/Department
1	Diploma in Adult Education and Community Development	Adult Education
2	Diploma in Agriculture	Agriculture, Agric. Education
3	Diploma in Business Studies Accountancy Business Administration or Marketing	Accountancy, Finance, Management, Marketing, Business Education
4	Diploma in Health and Physical Education	Health & Physical Education, Psychology & Adult Education
5	Diploma in Igbo or Diploma in Translation and Interpreting	Linguistics and Nigerian Languages
6	Diploma in Library Science	Library & Information Science
7	Diploma in Local Government of the University of Nigeria	Adult Education
8	Diploma in Mass Communication of the University of Nigeria	Mass Communication
9	Diploma in Public Administration of the University of Nigeria	Adult Education, Edu/Government, Political Science

Method of Admission

(a) Applications for recognitions as an occasional student may be made either directly to the Registrar, or through the relevant Head of Department or the relevant Dean of Faculty.

(b) Subject to the approval of Senate on the recommendation of the appropriate Faculty Board, the admission of an occasional student shall be made after the University shall have been satisfied.

- (i) of the prospective occasional student's academic, financial and personal standing;
- (ii) that the academic facilities, which the prospective occasional student requires are currently available and may be used without detriment to their use by regular students of the University, and
- (iii) that the admission of the candidates as occasional student does not constitute an abuse of University facilities and that the student will not use the opportunity to prepare for pre-University examinations.

A person enrolled as an occasional student must have qualifications similar, or equivalent, to the minimum entry requirement of the University for the particular courses for which the occasional student is admitted.

3. Fees

Occasional students admitted under these regulations will be required to pay the same sessional fees, or part thereof, as regular students of the University at the appropriate level. The fee structure for non-Nigerian regular students applies for occasional students that are not Nigerians. A copy of the approved fee structure for all category of students may be obtained from the Bursar in the Students Account Unit.

4. Facilities

As much as possible, occasional students admitted under these regulations, will enjoy the same facilities as regular students, except that in the allocation of residential accommodation, categories 1 (a), (b), and (d) above will have low priority.

5. University Examinations

Occasional students will not be admitted to formal examinations of the University.

6. Undertaking

Any student admitted under these regulations shall, on entry to the University, sign an undertaking

1. to deposit in the University Library, a copy of any theses, dissertation, articles, or monographs, or any other material which he shall produce on the basis of his study at the University;
2. to acknowledge the assistance of the University in the text of any such works.

Regulations on Occasional Students

1. Classification

The following may be regarded as occasional students of the University:

- (a) Postgraduate students registered for the degree of other Universities, who are working full-time within the University or attached to the University for their field work.
- (b) Postgraduate students resident at the University, or attached to the University in some other capacity, who are working part-time for the degree of other Universities.
- (c) Undergraduates of other Universities who, by special arrangement with the University are spending part of their undergraduate careers in the University. Such students include those enrolled under the Junior Year Abroad programme.
- (d) Casual students either at undergraduate or postgraduate level, wishing to audit courses of the University for a period of one year or less and do not have any degree, certificate or diploma in view.

8. Academic Regulations

8.1 Academic Programmes

8.1.1 Structure of Academic Programmes

Each department shall be required to divide its academic programme into four parts:

Major courses

Required ancillary courses

General Studies courses

Electives

Major courses are defined as compulsory courses in the student's main field of study.

Required ancillary courses are compulsory courses in related or relevant fields.

Electives are non-compulsory courses within or outside the student's department.

General Studies courses are compulsory courses outside the student's main field of study designed to give him/her the basic principles of all major fields of knowledge as they exist in inter-relationship.

8.1.2 Review of Academic Programmes

A programme, once approved shall be allowed to remain in force for the duration of the course, i.e. until a set of student registered under that programme has graduated.

Senate shall order a review of the teaching and research facilities in a department, the departmental staff needs, programmes, teaching methods, performance of students and other innovations in the department every ten years.

8.1.3 Duration of academic Programme

For each normal degree/ diploma/ certificate programme an extension of not more than 50% (to the nearest whole number) of the normal period shall be allowed for the completion of the programme. The maximum period allowed for the various programmes is as illustrated below:

Normal Duration	50% Allowable (to the Nearest whole number) (In Years)	Maximum Period(In Years)
1	1	2
2	1	3
3	2	5
4	2	6
5	3	8
6	3	9

A student who is unable to complete the programme within the maximum extended period shall be required to withdraw from the University permanently.

8.1.4 General Studies Programme

In order to qualify for the award of degree/ diploma/ certificate in the University, all students are required to register and obtain a passing grade in the General Studies courses as follows:

1. G.S. 101 and 102 are compulsory for all degree and diploma students.
2. Students admitted by university Matriculation Examination (UME) are required to take six out of the eight G.S courses.
 - i. Students admitted into the Faculties of Business Administration and the Social Sciences may drop G.S. 103 and 104 (Social Sciences)
 - ii. Students admitted into the Faculties of Arts and Law may drop G.S. 207 and 208 (Humanities).
 - iii. Students admitted into Faculties of Agriculture, Veterinary Medicine, Medicine, Biological Sciences, Engineering, Health Sciences and Technology, Pharmaceutical Sciences and Physical Sciences may drop G.S. 105 and 106 (Natural Science).
 - iv. Student admitted into the Faculty of Education may drop any of the G.S. courses as may be recommended by the Faculty Board of Education.
3. All Direct Entry students take a minimum of two Computer Science courses which include G.S. 101 and 102 (The Use of English)
4. All students must take a minimum of two Computer Science courses as a compulsory requirement for graduation, in accordance with NUC prescription.

8.2 Regulations Relating To Degree/Diploma/Certificate Programmes

8.2.1 Registration

Students shall register semester by semester. This will enable the result of the examinations taken in each semester to be published before registration commences in corresponding semester in the following session.

2. The maximum period allowed for registration of courses is two weeks from the date registration begins for returning students.
3. A returning student who fails to register during the two-week period approved for registration shall be deemed to be late and shall pay a late registration fee of N500.00 (Five Hundred Naira).
4. A returning student who fails to register within four weeks from the date of registration shall not be allowed to register for the semester. Such student shall be deemed not to have registered for the semester and shall have lost the opportunity to register for the semester.
5. A freshman who fails to return his/her registration form for registered semester courses within two weeks after matriculation date, shall be charged late registration fee of N500.00 (Five Hundred Naira). If he/she fails to return the registration form within four weeks after matriculation, the freshmen shall be deemed not to have registered for the semester and shall have lost the opportunity to register for the semester.
6. A class Admit Card with a passport photograph attached to the top right of the card, shall be photocopied and, thereafter, duly completed for each course a student registers in his/her course registration form. The duly validated (photocopied) Class Admit Photo Card, shall, thereafter, be submitted to the Head of Department offering the course. A course registration list shall be prepared by the Head of Department from the Class Admit Photo Cards.
7. A student whose name is not on the course registration list of a particular course shall not be permitted to attend lectures and take examination in that course.
8. No student shall be allowed to register at any time in his/her programme any final year or non-final year courses he/she has already passed. 13.
9. Course Registration Form mutilated by a student shall not be accepted for Registration.
10. Students shall not hand-carry any registration materials including Add and Drop Cards from one officer to the other. All registration materials shall move from one functionary to another in the usual official process.
11. Deans of Faculty/Heads of Department shall ensure that registration exercise is completed within the given period and that academic advisers maintain effective contact period when students can see them for advice.
12. All registration material- Course Registration Forms and Add and Drop cards- shall be forwarded by the Department/Faculties to the Registrar's Department not later than six weeks from the date registration begins.

8.2.2 Class Period and Attendance

Classes are expected to begin on the hour and end ten minutes before the next hour. Seminars and laboratories shall, however, continue as long as scheduled. Attendance at lectures, practicals and examinations is mandatory. No student shall be allowed into a class unless he/she has been properly registered for the course and his/her name is on the official class list for that course.

8.2.3 Semester Credit Unit Load

1. Minimum and Maximum Credit Unit Load

The student credit unit load for any shall be between 15 and 24, in accordance with NUC guidelines. The exact credit load a student carries within this range shall be worked out by the student's academic adviser with the approval of the Head of Department and Dean of faculty.

2. Registering Failed Courses

Subject to the limitations on semester credit unit (2.3.1) above, and duration of the degree programme (section 1.3) above a student shall be allowed to register a failed course at the appropriate semester. In doing so, the student shall first enter the course(s) he/she was unable to pass in the previous year before registering courses for the current year of study.

3. Sitting for Failed Courses as an External Candidate.

A final year student, who after his/her examinations has a CGPA of 1.0 and above may be permitted to sit for failed courses only up to a maximum 14 credit units per semester, as an external candidate, without registering formally as a regular student the following session. He/she shall, however, inform the Registrar in good time through his/her Head of Department of his/her intention to register the course(s) as an external candidate. Courses registered and passed in the final year shall not be repeated by the student as external candidate.

4. Condition for Repeating a Semester

A final year student who fails in more than 14 credit units per semester shall register a minimum of 15 credit units per semester as a regular student and pay the necessary fees.

5. Minimum Credit Units Required for Graduation

The absolute minimum aggregate credit unit required for graduation is as follows:

- 6 year standard programme 180 units
- 5 year standard programme 150 units
- 4 year standard programme 120 units
- 3 year standard programme 90 units
- 2 year standard programme 60 units
- 1 year standard programme 30 units

8.2.4 Auditing of Courses

1. Regular Students

This category of students of the University may audit any course provided permission is obtained from the lecturer and the Head of the Department offering the course.

2. Occasional Students

i. These may include:

a. Researchers, staff spouses, undergraduates of other universities, (including those enrolled under the junior year abroad programme who, by special arrangement with the university are spending part of their undergraduate careers in the university).

b. Casual students wishing to audit courses at undergraduate level in the university for a period of one year or less, who possess the minimum entry requirement and who do not have any degree certificate or diploma in view.

ii. Occasional students shall be permitted to register and audit courses provided that they:

- a. Make applications either directly to the Registrar or through the relevant Head of Department or the relevant Dean of Faculty;
- b. Pay appropriate fees;
- c. Are not admitted to formal examinations of the University.
- d. To deposit in the University Library, a copy of any these, dissertations, articles, or monographs, or any other material, which he/she shall produce on the basis of his/her study at the University;
- e. To acknowledge the assistance of the university in the text of any such works.
- f. Any other requirements shall be referred to the Entrance Board of the University.

8.2.5 Adding/Dropping of Course(s)

- 1. A student who wishes to add or drop a course (s) shall do so not later than five weeks the date registration begins.
- 2. A student may use an Add and Drop card duly completed to effect amendment in his/ her registration on payment of N300.00 (three hundred Naira) for each Add and Drop Card.

8. 2.6 Change of Degree Programme

1. Normally, a student shall not be allowed to change his/her degree programme until he/ she has completed at least one full academic year in the University. Official application forms for any change of degree programme may be obtained from the Registrar's Office after paying the prescribed fee.
2. Where a student is permitted to change his/her degree programme, the change may prolong the length of time he/she will stay in the University.
3. Courses taken in former departments which are relevant to the new department, including the General Studies courses, shall be credited to him/her regardless of attainment in such courses. The remaining courses shall appear in the students official academic records but shall not be taken into account in determining the student's cumulative grade point average for graduation. The responsibility to decide on the relevant or otherwise of the courses already taken shall rest with the Head of the new department.

8.3 Regulations on University Examination

8.3.1 Introduction

Subject to such condition as may be prescribed by or under the provision or regulation of the university of Nigeria Degree, Senate shall exercise the following powers and perform the following functions:-

1. Arrange for the holding of examinations.
2. Appoint examiners for such examinations and down conditions.
3. Publish the results thereof.
4. Recommend to Council candidates for diploma, degree, and other academic distinctions.
5. Ensure maintenance of proper standard of examination and security of the papers and scripts.
6. Advise the Council regarding examination fees.

8.3.2 Eligibility

1. No student shall be eligible for any examination unless he/she has fulfilled the relevant conditions laid down in the Academic Regulations.
2. Students who have not reached 75% class attendance in a course shall normally not qualify to take examinations in the course.
3. Attendance at any university examinations may be stopped at any stage by Senate or the Vice-Chancellor in accordance with University Statutes.
4. Lectures must satisfy themselves that any student appearing for any end of semester examination in any course has the continuous assessment record in that course.
5. **Failure to sit an examination:-**
 - i. Any student prevented from sitting any of semester examination on account of ill-health shall, within 48 hours from the date of the examination in the said course(s), submit a medical certificate from the Director of the University Medical Centre to the Registrar through the Head of his/her Department.
 - ii. Any student prevented from sitting any end of semester examination for reasons other than ill-health shall report to the Registrar through the Head of Department in writing before the examination, giving details of the reasons for his or her absence from the examination. Where this is not possible, the report shall be submitted within 48 hours after the examination.
 - iii. Where the conditions stipulated in 5(i) and (ii) above have been satisfied and/or approved, the student shall be required to re-register the course(s) at the next appropriation semester.

Where a student fails to sit any of semester examination in any course(s) without valid reasons as stipulated in 5(i) and (ii) above, the student's continuous assessment record shall be used to return an appropriate grade for him/her in the said course(s).

8.3.3 Examination Time Table

1. Faculty/Departmental courses which are not service courses may be examined at the end of lectures at the discretion of the lecturer.
2. Faculty/Departmental courses which are service courses may be examined in accordance with the examinations time-table prepared by the registrar.
3. All lectures (applicable to 2 above) shall end at least one week before the first day of the semester examinations.
4. For all semester examinations, a student shall as far as practicable, not be required to take more than two papers within a period of 24hours. As far as practicable also, final year students shall not be required to take more than one paper in their major area within a period of 24hours.
5. The semester examination time-table shall be arranged in the following order:
 - i. Departmental courses
 - ii. GS Courses
 - iii. Inter-faculty Courses
 - iv. Intra-Faculty Courses
6. The Registrar shall produce an examination time-table for 5(ii), (iii) and (iv) above and circulate to all departments not later than one month before the commencement of each semester examination.
7. No changes in the time-table shall be entertained without the approval of the registrar.

8.3.4 Establishment of Board of Examiners

1. Each department shall have a board of examiners with the Head of Department as its chairman. The Departmental Board of Examiners shall consist of not more than and not less than two members appointed by senate.
2. Each Department Board of Examiners shall be appointed by Senate, on the recommendation of the Departmental Board through the relevant Faculty Board.
3. Persons so appointed shall, thenceforth, be responsible to senate.
4. For the faculties of law, Medical Sciences Dentistry, Pharmaceutical Science and Veterinary Medicine, recommendation of the faculty Board. The Dean shall be its chairman.
5. The appointment of the Department/Faculty Board of Examiners shall be done yearly.
6. Special members may be co-opted into Departmental/Faculty Board of Examiners to enable the Board handle special cases.

8.3.5 External Examiners

1. Appointment

- i. Every degree programme offered by a department shall attract in any year, one External Examiner who shall be appointed by Senate on the recommendation of the Departmental and the Faculty Boards.
- ii. Every department examining more than 300 students in any programme in a particular year shall be allowed one extra External Examiner.
- iv. Every department submitting nomination for the appointment of External Examiners shall indicate the number of final year courses to be examined and the number of candidates in each course.
- v. Normally, departments shall recommend academics working in approved universities for appointment as External Examiners.
- vi. If, for some reasons, a department finds it necessary to nominate an External Examiner from outside the university system, it must satisfy the Senate that there is no other person within the system of higher or

comparable academic standing for the job. In addition, the Department shall be required to provide Senate with detailed information about the nominee's research and other relevant qualifications.

- vii. If, for some reasons, a department finds it necessary to nominate an external examiner from outside the university system, it shall also nominate a second external examiner of lower academic standing from within the university system to serve jointly with the person nominated from outside the university system.

2. Functions

- i. The External Examiner shall see all final year or professional examination question papers before the examination and shall send any comment on them to Head of Department.
- ii. The External Examiner shall mark or remark all such portions of candidates' scripts as he/she deems fit.
- iii. The External Examiner shall participate in the determination of the results of the final year or professional examinations and the final grade shall be approved at a meeting of the Departmental Board of Examiners at which the External Examiner shall normally be present.
- iv. The External examiner shall be required to submit to the Vice-Chancellor, a report on the result of the examination together with general comments on the work of the department.

3. A person appointed as an External Examiner shall satisfy the following three conditions-

- a. Must external to the university;
- b. Must have had adequate experience in the university academic work;
- c. Must have high academic standing.

8.3.6 Setting of Examination paper

- 1. Each lecturer shall be required to submit as directed by the Department/faculty Board of Examiners, questions for the proposed examination paper for each course taught, to the Department /Faculty Board of Examiners through the Head of Department. Only one copy of such questions shall be submitted to the Department/Faculty Board of Examiners who shall determine, if necessary which of the questions submitted by the lecturers shall appear on each examination paper. The Board also shall have the right to alter the wording of each of the questions in consultation with the lecturer concerned.
- 2. Question papers for first and second semester examinations in final year courses shall be submitted to the external Examiner for moderation.
- 3. Where the External Examiner is local, only one copy of the question paper shall be produced.
- 4. Where the external examiner is not readily accessible, a second copy of the question paper shall be produced by the head of Department and forwarded to the External Examiner with instructions to destroy it after sending his/her comments to the Head of Department.

8.3.7 Conduct of Examinations

- 1. The arrangements for invigilation within each Faculty shall be the responsibility of the Faculty board. These arrangements include the selection of suitable examination rooms, the selection of invigilators and the positioning of students in each examination room.
- 2. Invigilators shall be drawn from the academic and senior administrative and technical staff of the University.
- 3. There shall be at least, two invigilators in any one examination room/hall.
- 4. The University shall supply printed answer books for all examinations. Each answer book shall be serially numbered and validated by registrar's office and handed to the invigilator.
- 5. Departments shall produce the list of candidates eligible to take the examination in each course. The list shall contain the names, registration numbers of every candidate, the candidate's department and a space for the signature of every candidate.

6. The list of candidates for each examination shall be made available to the invigilators.
7. Students shall use their registration numbers as their examination numbers.
8. No paper, including blotting paper, shall be brought into the examination room by any candidate. Candidates shall normally enter the examination room only with pen, ink, pencil, eraser, ruler and other equipment such as mathematical instruments and mathematical tables, which they are specially authorized to bring to the examination hall. This does not prevent any department from setting an open-book examination. Invigilators shall draw the attention of candidates to this regulation at the start of each paper.
9. No candidate shall normally be allowed to leave the examination hall within the first 30 minutes of any examination, or to enter the examination hall after 30 minutes.
10. Smoking is not allowed in the examination room.

8. 3.8 Procedure for Invigilating Examination

1. Before the examination

- i. About ten minutes before the examination is due to begin, screen the candidates thoroughly before admitting them into the examination room. Preliminary formalities such as making of announcements can then be completed on time before the issuing of examination materials to students.
- ii. Remind candidates that it is an offence to take into the examination room any authorized books, notes or manuscript.
- iii. Announcement that the attendance list of candidates is to be completed during the examination. No students shall leave the examination room without completing the register.
- iv. Issue the question papers without delay. Candidates who are uncertain which paper they should have shall be attended to after all the other candidates have been given their papers, and shall not be allowed to disrupt the distribution.

2. During the Examination

- i. Ensure that no candidate takes examination question papers out of examination room until he/she has completed the examination.
- ii. Walk round the examination room periodically and ensure that there is no cheating. At all times, at least, one invigilator shall be actively supervising and not engaged in other tasks.
- iii. Ensure that every student signs his/her signature against his/her name and registration number in the attendance register.
- iv. Go round and check the identity cards to ensure that the student who is taking the examination is not impersonating.
- v. In the case of errors in the question papers, make due consultation before any changes or alteration are made.
- vi. In the case of illness of a candidate, have the sick candidate removed from the examination room and if he/she shows no sign of quick recovery, contact the Medical Centre. In his or her own interest, every candidate who has been ill during examination shall be advised to report to the Medical Centre even if he/she completes the examination.
- vii. Ensure that no extra time is given to a candidate who has been absent from the examination room for a time on grounds of ill-health. Instead, he/she shall write on the front cover of the candidate's answer book a note including the duration of the absence and nature of the illness if known. This may be considered by the examiner.

3. At the End of the Examination

- i. Every candidate shall remain silent and seated until all the scripts have collected. If a candidate who has completed the attendance list fails to hand in a script, the invigilator shall note this in the column against his/her name and make a report later to the Head of Department or lecturer in-charge of the course.
- ii. The invigilator shall walk round and collect the script of each candidate before he/she leaves the examination room. The scripts of final-year students (if any) shall be separated from those of non-final year students.
- iii. The invigilator shall enclose two sets of scripts, the attendance list, six copies of the question papers and one half of the surplus question papers in an envelope, to the head of department/lecturer after the examination.
- iv. The invigilator shall tie up, for return to the Examinations Office, half of the surplus question papers and all surplus writing materials.

8.3.9 Examination Malpractice

Categories A

Offences leading to Expulsion from the university:-

1. Impersonation, aiding and abetting. The impersonator and the person impersonated are both liable. Any impersonator who is not a student of university of Nigeria, Nsukka, shall be handed over to the police.
2. Presentation of fake I.D card or submission of a fake external candidate's form or class admit photo card with the intention to impersonate.
3. Direct involvement in examination leakage, obtaining and making use of leaked examination question and/or solution.
4. Smuggling out/ in of examination script and/or examination question paper.
5. Substitution of duly submitted answer scripts.
6. Forging/altering result grades and signature of officer.
7. Physical assault on a lecturer or invigilator.
8. Coming into examination hall with a gun or any dangerous weapon.
9. Threatening a lecturer or invigilator's life physically or in writing.
10. Exchanging examination scripts and writing for each other.

Categories B:

Offences leading to suspension for one academic session and rustication from hostel after which the student re-registers and repeats the year. Every examination taken from that session will be cancelled and given a fail grade:-

Procuring and altering a medical certificate in order to obtain a deferment of examination.

1. Lobbying for examination grades by whatever means.
2. Submission of forged registration material including add/ drop card.
3. Bringing in unauthorized materials, books, notes, papers, etc.
4. Examination of answers by whatever means, papers, electronic, etc.

Categories C:

Offences leading to stepping down for one semester and rustication from hostel. This involves cancellation of/ and giving a failure grade for other examinations taken that semester and re-registration in the next appropriate semester.

1. Mutilation of and/or in computer registration form that is not officially endorsed.

2. Forcing oneself into examination hall by an unregistered student.

Categories D:

Offences leading to a student not to continue the examination/ cancellation of that paper:-

1. Coping from another ["giraffing"] or discussing in examination hall.
2. Deliberately exposing one's script for another to copy.
3. Refusal and/ or failure to submit examination script.
4. Escaping from examination hall with or without the examination script.
5. Writing on any part of the human body with the intention to cheat.
6. Unruly behaviour in examination hall e.g. disobedience to lawful order.
7. Insulting an invigilator or investigators.
8. Any other form of cheating acts not specified hereunder calculated to confer undue advantage on the student whether discovered in or outside the examination hall shall be appropriately punished.

8.9.1.1 Handling Cases of Examination Malpractice:-

All cases of examination malpractice in and out of examination hall shall be reported promptly to the appropriate University functionaries as indicated below:

1. Offences in categories A and B shall be reported to the Vice-Chancellor and the Dean, respectively, while offences in categories C and D shall be handled by the Head of Department.
2. For offences in categories A, the Head of Department through the Dean of Faculty, shall forward the report on the examination malpractice to the Registrar within one week from the date of receipt of the report. For offences in categories B, the Head of Department shall forward the report to the Dean, also within one week of report.
3. A committee of investigation into examination malpractice for categories its assignment not later than three months from the date of its constitution and submit its report to the Vice-Chancellor or Dean, as the case may be.
4. For offences in categories C and D which can only be proved by oral evidence, i.e. without exhibits e.g. unruly behaviour in examination hall, the Chief Invigilator shall invite the Head of Department or his representative to the examination hall for instant determination of the offence.
5. For such offences in categories C and D which can be proved by documentary / oral evidence. The Chief Invigilator and / or the lecturer concerned shall forward a report to the Head of Department within one week the offences was committed.

Report of all cases of examination malpractice determined by the Dean or Head of Department, shall be made available to the Vice-Chancellor, Deputy Vice-Chancellor [Academic] and the Registrar for their records. In all cases of examination malpractice in the hall, the invigilator shall:

- (i) Remove and retain any material, which he/ she considers the candidate should not have brought into examination room; note carefully all circumstances surrounding the cases.
- (ii) Inform the candidate that he/ she will be reported examination misconduct.
- (iii) Instruct the candidate not to leave examination room without the invigilators permission.
- (iv) Note the candidates name, registration number, and department and obtain written statement.

- (v) Keep to a minimum any disturbance of nearby candidate by avoiding argument or lengthy explanations. Written instruction/ instructions to the candidate may help.

8.9.1.2 Involvement of staff in Examination Malpractice

Disciplinary measures shall be taken against members of staff [teaching and non-teaching] who are involved in examination malpractice in any form or who fail to apply the University's guidelines on conduct of examinations.

8.3.10 Reducing Incidence of Examination Malpractice

1. Lecturers shall use the list of compiled class admit cards of students registered for a course offered by the department in admitting students into examination in that course. Such list shall be made available to the invigilators during examinations for the purpose of identification of those who registered the course.
2. No lecturer shall force/penalize any student because of failure of the student to purchase the lecturer's handout/textbooks. Production and sale of handouts shall be co-ordinate by heads of departments.
3. Any lecturer who contravenes the regulation in (3.10.2) above shall, be reported to the Vice-chancellor by the dean/head of department and the vice chancellor shall discipline the lecturer.
4. Authentic and accurate list of students who registered a course, with duly approved photo admit cards for the course, shall be made available to the lecturer who taught the course for use during the examination by the head of department.
5. Lecturers shall normally deliver their lectures as scheduled in the departmental lecture time table in order to clustering lectures in crash like manner.
6. Continuous assessments shall continue to form an integral part of the final examination scores on any result submitted to the registry and management information systems (MIS) for any student.
7. Invigilators shall give specific identification marks on the scripts issued to students for an examination. To this end, therefore, examination scripts shall be collected early enough, but not earlier than a day before the examination, from the Examination Office of the Registrar's Department.
8. Examination question papers shall be produced and administered under strict security conditions by the department concerned.
9. Classroom that are terraced shall normally not be used for examination so as to avoid aspect of examination malpractice.
10. Building with large space shall be used for examination. Such hall shall contain adequate chairs and writing desks.
11. For optimal utilization of time and space, all examination of two group of student taking different courses may hold at the same venue and at the same time
12. Faculties/Departments with large classroom shall oblige other Faculties/Departments who approach them for examination spaces.
13. Students shall be searched before entering into the examination hall.
14. Strict vigilance shall be exercise by invigilators on a student, who, during the examination, claims to be going to ease himself or herself.
15. There shall be provided, adequate period for examinations in order to minimize or eliminate clashes in examination time table.
16. Faculties/Department shall, in cooperation with the registrar, endeavour to solve reported case of examination clashes.

17. There shall be adequate ratio of invigilators to student taking the examinations e.g. One invigilator to about fifty students with extra invigilator who shall be available to stand in, in case of need.
18. Faculties/Department shall examine courses with large students in fewer groups possibly sending the student to their base faculties/department and enlisting the service of their invigilators.
19. The invigilators shall be conversant with the guideline on invigilation of examination and shall announce to students the consequence of been Involve in examination malpractice and what constitutes examination malpractice.
20. Disciplinary measure shall be taken on members of staff (teaching and non-teaching) who are involved in examination malpractice in any form.
21. Regulations on student who have over stayed in their programme or who obtained less than acceptable grade point average of 1.0 shall be applied, since this group of student is more prone to perpetuating examination malpractice.
22. Relevant supporting document about errors which necessitated change of grade through the use of change of grade card shall be retained by the head of the department and shall be made available to the dean of the faculties on request.
23. Head of department and lecturers shall, at will, check the results f courses submitted in examination office of the registrar Department against the recorded and computed result of a student.

8. 3.11 Marking and Grading Of Scripts

1. Only students whose names are on the registration list emanating from the submission/compilation of class admits cards on the course and who participate in an examination in the course, shall have their scripts marked and the result forwarded to the registry/management information Systems (MIS).
2. The Lecturer shall normally mark all scripts for his/her courses and determine the grades to be awarded to each student.
- 3.

Percentage Score			Letter Grade	Points
70	-	100	A	5
60	-	69	B	4
50	-	59	C	3
45	-	49	D	2
40	-	44	E	1

0 - 39	F	0
--------	---	---

*45% is now minimum pass score.

4. Continuous assessment shall carry 30% of the marks to be awarded to a student in a course at the end of the semester. The continuous assessment shall comprise texts, quizzes, term papers and essays as approved by the board of the examiner.
5. The minimum passing grade for all courses, including electives and general studies shall be 'E' (D).

8. 3.12 Processing and publication of results:

1. Final Year Students Results

- i. Final year script must be submitted after moderation by external examiner to the Department /Faculties of examiner for final determination.
- ii. Examination result of final year courses shall be submitted to the registry/management information system unit (MIS) not later than 15 days after the end of the examination.
- iii. For ANY FINAL year courses whose examinations result have not been forwarded within the 15 days stipulated in (2) above, the list of such courses and the name of the lecturer who teach the course shall be forwarded to the Vice-Chancellor by the head of department through the dean of faculty.
- iv. The vice chancellor shall be required to discipline the default lecturers of the courses whose results were not forwarded within the stipulated time.
- v. Head of Department/Dean of the Faculty shall make adequate arrangements to ensure that all External examiners are invited on time for the moderation of final year examinations. Any difficulties which will vitiate the arrangement shall be reported in good time to the relevant authority and arrangements shall be made to solve the problem.
- vi. The examination result of the non-final year courses which are taken by final year students shall be submitted within fifteen days as stipulated in (ii) above.
- vii. Any final year student taking a non-final year course which he/she duly registers shall have to mark boldly on his/her "final year" this will enable his/her scripts to be identified, marked and submitted as stipulated in (ii) above.
- viii. Examination attendance list, scripts and results for final year students shall be forwarded by the lecturer to the head of department immediately.
- ix. No final year student shall be notified of his/her final year semester examination if the registrar, on the advice of bursar/accredited authority, certifies that he/she owes the University.

2. Non Final Year Results

- i. non final year scripts shall be submitted to the department/faculty board of examiners for final determination. This provision shall also apply to oral and practical examinations.
- ii. Examination results for non-final year courses for non-final year students shall be submitted to the Registry/Management Information Systems not later than four weeks from the date the semester examinations end; at any rate not later than the beginning of the following semester whichever is longer.

- iii. List of examination results of courses or non-final year students not forwarded to the Registry/ Management Information System Unit (MIS) by the date stipulated in (ii) above and names of the lecturers that teach the courses shall be forwarded to the Vice-Chancellor through the Dean of faculty by the Head of Department.
- iv. Examination results, examination scripts and examination attendance lists shall be forwarded by the lecturer to the Head of Department immediately the scripts are marked and results produced.
- v. Funds for all examinations shall be made available to the relevant Faculties/Departments by the University Administration, not later than 2 weeks before examinations begin.
- vi. Examination results for courses shall be produced in the Official Grade and Class Roster or as appropriate and forwarded to the Registrar's Department/ Management Information Systems Unit (MIS). The results shall normally include the raw scores or examination and continuous assessment.
- vii. Secretarial staff on leave may be recalled during processing of examinations if need be.
- viii. Examination results forwarded to the Registrar's Department shall be computed (for final year students) within ten days; (for non-final year students) within six weeks. To this end, therefore, students' files and registration materials shall be forwarded as appropriate to the Registrar's Department.
- ix. With effect from the 1998/99 session 'fail' grades made in any course, shall be taken into account in the subsequent calculation of the student's Cumulative Grade Point Average (CGPA).

8.3.13 Preservation of Used Answer Scripts

All used answer paper or each course shall be preserved by the Head of Department in which the course is taught for period of one academic year. Thereafter the University Administration shall make adequate arrangements to dispose of the used answer paper.

8. 3.14 Review of Scripts of Aggrieved Students

- 1. A student aggrieved about his/her grading shall, in the first instance, petition the Registrar through the Head of his/her department. The Registrar shall refer the petition to the Faculty Board through the Dean of the Faculty offering the course for a review.
- 2. For examination in final year courses, the recommendation of the Faculty Board shall be sent to Senate through the Senate Committee on Examinations for ratification.
- 3. A student applying for review of answer script shall be required to pay the prescribed fees.
- 4. Photocopy of the scripts to be reviewed with all the comments of the original marker removed shall be forwarded for review as follows:-
 - i. Final year courses to one External Examiner;
 - ii. Non-final year courses to two Internal Examiners. In both cases, the reviewers shall not have participated in the original marking of the scripts.
- 5. Time limit for the submission of petition for review of scripts by aggrieved students shall be as follows:
 - i. Final year courses: two months from the date the results are officially published by the Registrar's Office
 - ii. Non-final year courses: two months from the date the results (date-stamped) are officially published on the departmental notice board by the department.

8.3.15 Graduation Requirements for Degree/Diploma/Certificate Programmes

1. Students shall be required to obtain a final cumulative grade point average of at least 1.00 to qualify for graduation.
2. Students shall obtain a passing grade in all Major, required Ancillary, and General Studies courses before they can graduate provided the student satisfies the minimum unit load required for graduation (See Section 2.3(5)).
3. The final CGPA shall determine the class of degree or diploma to be awarded, regardless of the number of attempts at the examination.
4. The following classes of degree and grades of diploma/certificate are awarded on the basis of the following CGPA:

CGPA	Degree	Diploma/Certificate
4.50 – 5.00	1 st Class Hons.	Distinction
3.50 – 4.49	2 nd Class Hons. (Upper)	Credit
2.40 – 3.49	2 nd Class Hons. (Lower)	Merit
1.50 – 2.39	3 rd Class Hons.	Pass
1.00 – 1.49	Pass*	Pass
0.00 – 0.90	Fail	Fail

**In line with recent National Universities Commission (NUC) decision, Pass degree will be abolished in the University of Nigeria with effect from 2013/2014 Academic Session.*

8.3.16 Aegrotat Degree

1. A candidate who has completed his/her final year courses and is prevented by illness from taking or completing the final year examinations shall be eligible to apply for an Aegrotat Degree if he/she is certified permanently incapable of taking the examinations in that programme and the standard of his/her work up to the date of his/her disability is such as to show that if he/she had taken the examinations, he/she would have qualified for the award of a degree.
2. A candidate who is absent by reason of illness from all his/her final year semester examinations may not apply for Aegrotat degree but may sit all the papers at subsequent semester examinations.
3. All applications for an Aegrotat Degree shall be made to the Registrar and must be accompanied by a medical certificate issued by the Director of Medical Services, University of Nigeria, indicating that the candidate was too ill to take the appropriate examinations. The Registrar shall transmit same to the Departmental Board of Examiners of the candidate's department, who shall transmit it through the Faculty Board for the approval of Senate.
4. Aegrotat Degree shall not be classified and the status "Aegrotat degree" shall be so stated in the certificate.

8.3.17 Transcript

A candidate may apply to the Registrar for a transcript of his/her academic records on payment of prescribed fees. The transcript may be sent only to organizations and institutions at the request of the student concerned. A personal transcript may be sent to a student on request but shall be boldly marked "Student's Copy, Not for Official Use".

8.4. Withdrawal from the University

8.4.1 Low Cumulative

1. Any student in any year of study who fails to make a CGPA of 1.00 at the end of the session shall be required to repeat the year of study i.e. he/she shall be on probation.
2. If at the end of the probationary period, the student still fails to make a CGPA of 1.00 he/she shall be required to withdraw from the programme of study. Subsequently, he could possibly change into another programme. If he/she is not successful in securing a change, he/she withdraws from the University.
3. If he succeeds in securing a change of programme and still fails to make a CGPA of 1.00 in the new programme, he/she will be placed on probation in the new programme.
4. If after (3) above the student still fails to make a CGPA of 1.00 he/she shall be required to withdraw from the University.
5. In no circumstance shall any student be allowed more than two periods of probation in his/her academic career in the University.

8.4.2 Voluntary Withdrawal

A student may withdraw from the University at any time on the completion of the official withdrawal form obtainable from the office of the Dean of Student Affairs. In the case of such voluntary withdrawal, the refund of fees paid in excess of the period stayed in the University will be made by the Bursar's Office. Such a student may retain grades made for semester examinations. A student who so withdraws from the University may, in order to be readmitted, send a formal application through his/her Head of Department and receive official clearance from the Registrar.

8.4.3 Unauthorized Withdrawal

A student who withdraws from the University without authority may not be considered for re-admission until his/her case has been considered on its merit by the Departmental/Faculty Board.

8.4.4 Withdrawal for Health Reasons

A student may withdraw or be asked to withdraw for health reasons certified by an approved medical officer. Such a student shall be re-admitted into the university on production of a valid medical report from an approved medical officer.

8.4.5 Disciplinary Withdrawal

A student who is sent out on grounds of disciplinary action may not be re-admitted unless with the express permission of the Vice-Chancellor.

8.4.6 Re-Admission

1. Financial Obligation before Re-Admission:

Before a student may be considered for re-admission, he/she shall be required to clear any debt standing against him/her before withdrawing from the University.

2. Time Limit for Re-Admission

A student who withdraws from the University for any reason and who is not re-admitted within a period of three consecutive academic years from the date of his/her withdrawal, may not be credited any course(s) taken prior to withdrawal, should he/her return to the university. The head of department may however, make general assessment

of the individuals' knowledge of the courses taken prior to withdrawal and recommend the year of entry on re-admission.

8.5. Academic Advising

8.5.1 Assignment of Academic Advisers:

1. All teaching staff are involve in academic advising. However, department may decide to assign this duty to a few members of staff. When this procedure is followed, due allowance shall be made by the time spent by the members of staff concern with academic advising in relation to teaching duties.
2. A single adviser should normally look after a student throughout his/her course but changes may be permitted by head of the department in exceptional cases.

8.5.2 Functions of Various Officers In Respect Of Academic Advising:

1. Academic Advisers:

- i. Mapping out program for individual students.
- ii. Ensuring effective enrolment of students during registration periods.
- iii. Checking of academic load of students with regard to the number of credit units to be carried per semester.
- iv. Changing of courses/degree programmes.
- v. Making sure that the regulation of the academic departments and university are duly observed by the students.
- vi. Effective keeping of folders of students.
- vii. Keeping regular office hours for the students.
- viii. Interviewing their students at least once a semester.
- ix. Consulting the deans of student affairs where students have psychological problems.

2. Heads of Department

- i. Appointment of academic advisers and staff adviser to departmental academic associations.
- ii. Ensuring that the adviser do their work effectively.
- iii. Meeting student and staff in order to explain their procedures especially before registration.
- iv. Receiving adviser recommendation and suggestion and considering other special cases referred to them by advisers. The type of recommendation to be checked includes program for individual students, credit unit loads, and change or degree programmes.
- v. Making such departmental regulations I n consonance with university regulations.
- vi. Mapping out of all departmental degree programmes, including the compulsory credit load required by the department
- vii. Making inter-departmental arrangements which concern staff and students in their departments.

- viii. Maintaining major files on the students and giving their staff access to such files. Also making sure that their advisers get duplicates of academic records of students.
- IX Keeping their respective deans and the register informed about what allocation of academic advisors they have made in respect of every student in the department.

3. Deans of Faculty

- i. Ensuring that all departments have clearly mapped out programs.
- ii. Reviewing heads of departments' recommendations and suggestions and considering special cases; such special cases will deal with mapping out program for individual students, changing of courses or degree programmes.

4. Registrar

- i. Addressing the students during orientation week, giving them as much information as possible on academic life
- ii. Making available all registration materials to heads of departments and advisers including:
 - 1. List of admitted students
 - 2. Temporary course registration forms (dummy)
 - 3. Course registration and other forms (computer forms)
 - 4. Course enrolment cards
 - 5. Students registration Performa
 - 6. Official grade and class roster
 - 7. Add and Drop card
- iii. Providing adequate and effective information to students after they have been registered.
- iv. Disseminating information about careers and job opportunities for student

5 Dean of Student Affairs

- i. Advising student on careers.
- ii. Arranging vacation jobs for them.
- iii. Making arrangement for work aid.
- iv. Arranging loans and scholarships (foundation loan excluded).
- v. Making hostels arrangements and initiating disciplinary actions when necessary.
- vi. Informing head of department on (ii), (iv) and (v) above.
- vii. Giving any necessary psychological advice.

8.6. Modalities for the Production and Sale of Handouts and Text Books to Students of the University of Nigeria

8.6.1 Production and Sales of Handouts

1. The production of hand-outs shall be sustained and encouraged in the University of Nigeria, in a view of their essence in learning.
2. Faculties/school/Departments shall set up publication committees to handle the production of hand-outs. Such committees shall receive and vet materials submitted by lecturers for handout production. This will ensure the production of quality handouts, avoidance of irrelevant materials and unnecessary duplication.
3. Faculties/school/department shall take administrative responsibility for the production, costing and sale of their handouts. They shall also determine appropriate remuneration for the contributing staff.
4. The purchase of handouts shall be optional.

8.6.2 Text-Books

1. Lecturers shall be allowed and encouraged to write and produce textbooks to enhance the learning process.
2. The cost of such textbooks shall be determined by the lecturers and the publishers.
3. The purchase of textbooks shall be optional.

8.6.3 Disciplinary Action

1. The university administration shall take steps to investigate reported cases of abuse of production and sale of handouts, for appropriate disciplinary action.

**The university administration frowns at the production of handouts since they encourage laziness on the part of both students and lecturers as well as generate certain corrupt practice that cannot be easily monitored. As a result, the university Administration discourages the production of handouts by individual lecturers.*

8.7 Inter-University Transfer and Second Bachelor's Degree

8.7.1 Inter-University Transfer students:

1. Application form for transfer admission into the university may be obtained from the Registrar's Development on the payment of prescribed fees.
2. Transfer students shall possess the minimum university and departmental entry requirements prior to entry into the university from where they are seeking transfers.
3. Consideration of application for inter-university transfer shall be for students from comparable universities who are prepared to continue with the same courses as they were pursuing in the university from where they are seeking transfers.
4. Transfer students shall make minimum cumulative grade point average of 2.95 to qualify for consideration.
5. The number of students offered admission by transfer shall not exceed 4% of the departmental admission quota in anyone year.
6. In considering applications for transfer, faculties/ departments shall ensure that candidates with very high scores at the UME who indicated the university as their first choice are not left out in preference to transfer candidates.

7. All recommendations for admission by transfer from faculties shall be submitted to the registry for collation and presentation to the committee of Deans for consideration.
8. At the end of each admission exercise, a report on admission by transfer shall be presented to the committee of Deans along with other aspects of the admission exercise.
9. A transfer student admitted into the university after three consecutive academic years away from his/her former university, will have his/her new department, determine in which year of study he/she shall be placed on admission.

8.7.2 Second Bachelor's Degree of the University of Nigeria:

The minimum period of attendance at courses required of a former graduate of the University who wishes to pursue a second bachelor's degree of the university is one session. Such student who holds the degree of the university shall be judged only on his/her performance in the second degree programme, even though recognition shall be accorded to relevant courses taken in the previous degree programme, including the General Studies courses, in planning the student's programme for the second bachelor's degree.

8.8 Regulations Governing the Degree of Bachelor of Medicine (M.B.) and Bachelor of Surgery (B.S.) of the University of Nigeria

1. The Degree of Bachelor of Medicine and Bachelor of Surgery (M.B.B.S) shall be the primary degrees in Medicine and Surgery in the Faculties of Medical Sciences and Dentistry and shall be awarded at the same time and after the same course of study.

2 The curriculum for the degrees of Bachelor of Medicine and Bachelor of Surgery shall normally extend over a period of six academic years for students admitted by University Matriculation Examination (UME) and five years for students admitted by Direct Entry.

3 To qualify for the degree of Bachelor of Medicine and Bachelor of Surgery, candidates must spend the last three years in the Faculties of Medical Sciences and Dentistry. The remaining period (of the curriculum) may be spent in any other university or medical school approved for the purpose by the Senate, on the recommendation of the Faculty Board of Studies.

4 The examiners for the degrees shall be those approve by the Senate.

5 All candidates for the degrees of Bachelor of Medicine and Bachelor of Surgery shall be required to have satisfied the examiners in several subjects of five examinations titled respectively:

- The First Professional Examination
- The Second Professional Examination
- The Third Professional Examination
- The Fourth Professional Examination
- The Fifth Professional Examination

Candidate shall also be required to have satisfied the examiners in the General studies and other required courses in the university.

All candidates shall normally take the first professional Examination at the end of the 1st year, the second professional examination after the 1st semester of the 3rd year, the Third professional examination at the end of the 4th year, the Fourth professional Examination not less than 30 months after the second professional Examination and the fifth professional Examination after a period of study not less than 36 months after passing 9the second professional Examination.

6 The first professional Examination (Pre-Medical)

6.1 The subjects of the first professional examination (pre-Medical) which shall be guided the by the general university Academic Regulation, shall include courses in:

- a. Chemistry
- b. Physics
- c. Biology (including medical Genetics and Basic parasitology)

a. Candidates shall have satisfied the general and specific requirements for admission into the M.B.B.S. programme of the university before presenting themselves for the first professional Examination.

b. No credit shall be awarded to University Matriculation Examination (UME) candidates for papers passed in individual subjects at the Advance Level in the General Certificate Examination (or approved equivalent).

6. 4.i. The component courses in Biology shall include;

a. Bio 101-Genetics for Medical students

b. Bio. 121-Basic parasitology for Medical students

ii. Candidates who fail to make the passing grade in any courses, shall be required to re-register the course and shall carry a minimum credit load of 15 for that semester.

iii. Candidates who fail after repeating the year shall be required to withdraw from the Faculties.

6.5. Those who wish to withdraw from the faculties after the First professional Examination shall have the grade point average calculated as provided for in the general University Academic Regulations.

6.6. Candidates shall not allowed to proceed with courses in Anatomy, Physiology and Medical Biochemistry until they have passed or gained exemption from the whole of the First professional Examinations

6.7. Candidates shall have passed all relevant General Studies (G.S) Courses before presenting themselves for the Third professional examination.

6.8. Candidates who scores less than an average of 40% in more than one subject shall be required to withdraw from the Faculty.

7 Second Professional Examination

7.1. The subjects of the Second Professional Examination shall be:

- a. Anatomy
- b. Physiology
- c. Medical Biochemistry.

7.2. The examination shall normally be held in April and September.

Candidates must present themselves for examination in all three subjects on the first occasion and those who have satisfied the examiners in the whole examination in April shall proceed to the Introductory Clinical course and to courses in Pathological Science and Pharmacology during the 2nd semester of the 3rd year of the courses

7.3. a. Candidates who score less than 40% in all three subjects in first attempt shall be required to withdraw from the course.

- b. Candidates who fail in 2 or more subjects at first attempt shall be required to repeat the entire examination in 12 months after further instructions
- c. Candidates who fail in one subject only may be permitted by Senate, on the recommendation of Faculty Board of studies, to proceed with the Introductory Clinical Courses and to be re-examined at the the end of September in the subject in which they failed.

7.4 Candidates who fail in the second examination in September shall be deemed to have failed the entire Second professional examination and shall be required, after further instructions in Anatomy, Physiology and Medical Biochemistry, to take the entire examination again in April of the following year. Such candidates if successful shall be required to attend the Introductory Clinic Course for a second time.

7.5 Candidates who fail to obtain full pass at the Second professional examination after three attempts or candidates who fail in two or more subjects in two successive attempts shall be required to withdraw.

- a. Candidates who have pursued successfully courses of study in Anatomy, Physiology and Medical Biochemistry, in another institution approved by the Senate on t5he recommendation of the Faculty Board of studies shall be exempted from such part of the course of studies leading to the second professional examination or from the examination.
- b. A distinction may be awarded in the individual subjects to candidates who have passed the whole of the Second professional examination at the first attempt. The names of candidates who have satisfied the examiners in the Second Professional examination shall be published in alphabetical order.

8.8 Third Professional Examination

- 1. The subject of the Third Professional examination shall be,
 - a. Pharmacology
 - b. Pathology Sciences (Chemical Pathology, Haematology/Immunology, Histopathology, Medical Microbiology)

The examination shall normally be held in June and December. No candidates shall be allowed to sit for the Third M.B.B.S. examination until he has passed the second M.B.B.S. examination.

- 2. Candidates shall present themselves for examination in both subjects at the same time on the first occasion.
- 3. Candidates who fail in one subject only may be permitted by Senate on the recommendation of the Faculty Board of studies, to proceed with the courses leading to the fourth professional examination and present themselves on a subsequent occasion for re-examination in the subject in which they failed.
- 4. Candidates who failed both subjects of third professional examination at first attempt shall stay back for one year to repeat the courses and examination as a second attempt.
- 5. Candidates who in their 2nd attempt fail in one subject of the examination, shall be required to stay back further instructions and be re-examined in the subject referred after six months and shall not proceed with other postings. Candidates who in their third attempt make less than 45% shall be required to withdraw from the faculty.
- 6. Normally, three (3) attempts shall be allowed for passing the Third M.B.B.S. degree examination. The 4th and final attempt shall be on the recommendation of the Faculty Board of studies and approval by senate. This recommendation shall be based strictly on the candidates' score which shall not be below 45%.
- 7. A distinction may be awarded in the individual subjects to those candidates who have passed the whole of the Third Professional examination at the first attempt. The names of candidates who have satisfied the examiners in the Third professional examination shall be published in alphabetical order.

8.9 Fourth Professional Examination

1. The subjects of the fourth professional examination shall be,
 - a. Pediatrics
 - b. Community Medicine
 - c. Obstetrics and GynecologyThe examination shall normally be held in December and June.
2. No candidates shall be admitted into the Fourth professional examination until he/she has passed both subjects of the Third professional examination.
3.
 - i. Candidates shall present themselves for examination in all the subjects on the first occasion.
 - ii. Candidates who fail to satisfy the examiners in any of the subjects shall present themselves on a subsequent occasion for re-examination in the subject or subjects in which they failed.
4. A distinction may be awarded in the individual subjects to candidates who have passed the whole of the Fourth Professional examination at the first attempt. The names of the candidates who have satisfied the examiners shall be published in alphabetical order.
5. Normally three (3) attempts are allowed for passing the Fourth M., B. S examination. A fourth and final attempt shall be on the recommendation of Faculty Board and approval by Senate.

8.10 Fifth Professional Examination.

1. The subject of Fifth Professional examination shall be:
 - a. Medicine, including Therapeutics, psychological Medicine, Dermatology and Radiation Medicine.
 - b. Surgery, including Anesthesiology, Otolaryngology and Ophthalmology.
2. Candidates shall not be admitted to the Professional examination until they have passed all the subjects of the Fourth Professional examination.
3. Candidates shall present themselves for examination in all subjects on the first occasion. Candidates who fail to satisfy the examiners in any of these subjects shall present themselves on a subsequent occasion for re-examination in the subject or subjects in which they failed.
4. A distinction may be awarded in the individual subjects to candidates who have passed the whole of the Fifth Professional examinations at the first attempt. The names of candidates who have satisfied the examiners in the Fifth Professional examination shall be published in alphabetical order.

8.11 General

1. Before presenting themselves for any professional examination, candidates shall require to have completed, to the satisfaction of departments concerned, such periods of approved practical/clinical work. Minimum of 75% attendance is mandatory.
2. In order to pass in any subject of the Fourth and Fifth Professional examinations candidates must satisfy the examiners in the clinical part of the examinations.
3. The minimum residential requirement for transfer from other universities for the award of the M. B. B. S (Nigeria) shall normally be three years. There shall be no exemption from the Third, Fourth or Fifth Professional examinations.
4. Withdrawal from the courses leading to the award of the degrees M.B.B.S. on academic grounds is permanent.
5. In consonance with the procedure in all medical schools, and the regulation by the profession body-the Nigerian Medical and Dental Council, the pass mark for all professional M.B.B.S. degree examinations is 50%(C). This is without prejudice to the provision in 8.6.7.above.

8.9 Regulation Governing the Award of the of Bachelor of Pharmacy (B.PHARM.)

9.1 The degree of Bachelor of Pharmacy (B. Pharm.) shall be the primary degree in the Faculty of Pharmaceutical Sciences and shall be awarded after a successful completion of the senate approved curriculum and examinations.

9.2 The curriculum for the Degree of Bachelor of Pharmacy shall normally extend over a period of five academic years for students admitted by University Matriculation Examination and four years for students admitted by Direct Entry.

- 9.3**
- i. To qualify to proceed to the first of the four-year professional studies, the candidate must satisfy the examiners in the preliminary examinations in the subject of **Chemistry, Physics, Biology and Mathematics** e.g. the student makes an average score of 40% when the various components of each subject are added.
 - ii. Where a candidate fails to make the passing average of 40% in any subject, he shall be required to repeat the year and re-register any component course(s) that he failed, and should carry a minimum credit load of 15units for a semester.
 - iii. Where a candidate fails to make the passing average of 40% in any subject, and or is unsuccessful in the preliminary examinations in the subjects listed in 3a above after two consecutive year of study, the candidate shall be required to withdraw from the Bachelor of Pharmacy Degree programme.
 - iv. Where a student obtains the minimum passing average 40% in any subject but fails any of the component courses, he shall re-register and pass the course in accordance with the General University Academic Regulations, before his graduation.

9.4 To qualify for the award of the **Degree of Bachelor** of Pharmacy, the candidate must satisfy the examiners in the following examinations:

- i. Non-professional Examination
- ii. First professional Examination
- iii. Second Professional Examination
- iv. Third professional Examination
- v. Fourth professional Examination

9.5 Examination Arrangement

Professional examinations shall normally take place at the end of each semester of session.

Continuous Assessment

Continuous assessment during the semester may form part of the final grading. Continuous assessment shall not exceed 30% of the final grade.

All candidates are required to have a minimum of 75% attendance of each course.

9.6 During the professional phase of the curriculum, there shall be semester examinations in:

- i. General Studies Courses
- ii. Introduction to Computer Science
- iii. Application of Computer to Pharmacy
- iv. Statistics for Biological Sciences

9.7 The evaluation of students' academic work in the professional examinations shall be governed by the **Bachelor of Pharmacy Regulation viz:**

- a. In the professional examinations, the results shall not be translated into letter grades.
- b. Successful completion of a professional paper from the first to the fourth professional examination means an examination score of 50% in each course taken, except **Forensic Pharmacy and Dispensing**, which **shall be 60%**.
- c. In any professional examination a distinction shall be awarded in any subject(s) of the examination, except **project**, providing the candidate scores 70% and above in the subject(s) and passes all the subjects of that examination at first sitting. The award of distinction shall be subject to a creditable defense in an oral examination.
- d. The **Bachelor of Pharmacy Degree** shall not be classified.

9.8 Non-Professional Examinations

The semester courses for the non-professional examinations shall be as follows:

- A (i) **First Year of Study for UME Candidates**
 - a. General Mathematics
 - b. General Physics for Life Sciences (Theory and Practical)
 - c. General Biology (Theory and Practical)
 - d. Basic Principal of Chemistry (Theory and Practical)
 - e. The Use of English
 - f. Social Sciences
- A (ii) **First Year of Study for Direct Entry Candidates**
 - a. General Mathematics
 - b. The Use of English
- B (i) **Second Year of Study for UME candidates**
 - a. Humanities
- B (ii) **Second Year of Study for Direct Entry Candidates**
 - a. Social Sciences or Humanities
 - b. Statistics for Biological Sciences
 - c. Introduction to Computer Science
 - d. Application of Computer to Pharmacy
- C. **Third Year of Study for UME Candidates**
 - a. Statistics for Biological Sciences
 - b. Introduction to Computer Science
 - c. Application of Computer to Pharmacy

9.9 First Professional Examination

This examination is held in the second year of the programme. The examination shall normally be held in the second semester. The papers for the examination shall be:

- i. Human physiology (Theory and Practical)
- ii. Dispensing (Theory and Practical)
- iii. Basic Pharmaceutical Microbiology and Basic Pharmaceutical Biochemistry.
- iv. Pharmacognosy (Theory and Practical)

9.10 Guidelines for the First Professional Examination

- a. Candidates who fail in three or more papers in the professional examination shall be required to repeat the year with no option of re-sit.
- b. Candidates who fail in one or two paper(s) of the first professional examination shall re-sit the failed paper(s) during the re-sit professional examination.
- c. Candidates who could not pass all the resat paper(s) shall be required to repeat the whole year and re-register the entire examination in the following academic year.
- d. Candidates who are unsuccessful in the first professional examination after two consecutive years of study shall be required to withdraw from the Bachelor of Pharmacy Degree Programme.

9.11 Second Professional Examination

This examination is held in the third year of the programme. The papers shall be:

- i. Unit operations (Theory and Practical)
- ii. Phytoevaluation (Theory and Practical)
- iii. Pharmaceutical Chemistry (Theory and Practical)
- iv. Pharmacy Administration and Management and Biopharmaceutics
- v. Basic Pharmacology (Theory and Practical)

9.12 Guidelines for the Second Professional Examination

- a. Candidates who fail in more than two papers of the second professional examinations shall be required to repeat the year with no option of re-sit, and re-register all the courses that make up the second professional examination.
- b. Candidates who fail in not more than two papers shall be required to present themselves for re-examination during the re-sit professional examination in the paper(s), which they failed.
- c. Candidates who are unsuccessful (fail in one or two papers) after the re-sit examination shall be required to repeat the year, and re-register all the paper that make up the second professional examination.

- d. Candidates who are unsuccessful in the second professional examination after two consecutive years of study shall be required to withdraw from the Bachelor of Pharmacy Programme.

9.13 Third Professional Examination

This examination is held in the fourth year stage of the programme. The subjects for the examination shall be:

- i. Advanced Pharmacology (Theory and Practical)
- ii. Forensic Pharmacy
- iii. Pharmaceutical Technology (Theory and Practical)
- iv. Clinical Pharmacy
- v. Pharmaceutics (Theory and Practical)
- vi. Pharmaceutical Chemistry and Analysis

9.14 Guidelines for the Third Professional Examination

- a. Candidates who fail in three or more papers shall be required to repeat the year with no option of re-sit.
- b. Candidates who fail in not more than two papers shall be required to present themselves for re-examination during the re-sit examination in the paper(s), which they failed.
- c. Candidates who fail in one paper after the re-sit examination may proceed to the next class but shall re-register the examination in the following academic year.
- d. Candidates who fail in two papers in the re-sit examination shall be required to repeat the year, and re-register the entire examination in the following academic year.
- e. Candidates who are unsuccessful in third professional examination after two consecutive academic years may be allowed to continue in the programme only with the permission of Senate on the recommendation of the Board of Faculty of Pharmaceutical Sciences. The recommendation shall be based strictly on the candidate's score in each paper, which shall not be less than 45%.

9.15 Fourth Professional Examination

This examination is held in the fifth year of the programme. The papers for the examination shall be:

- i. Immunology and Pharmaceutical Fermentation
- ii. Industrial Pharmacy
- iii. Phytochemistry
- iv. Pharmacological Screening and Toxicology
- v. Medicinal Chemistry
- vi. Clinical Clerkship and Therapeutics
- vii. Project

9.16 Guidelines for the Fourth Professional Examination

- a. Candidates are required to pass all papers, which comprise the final examinations, including the project.
- b. Candidates who fail in three or more papers, including any carried over paper, shall be required to repeat the year, with no option of re-sit.
- c. Candidates who fail in one or two paper(s) will be allowed to present themselves for re-examination during the re-sit examination in the paper(s), which they failed.
- d. Candidates who are unsuccessful after the re-sit examination shall repeat the year.

- e. Candidates(s) who fail the project shall have three months from the official publication of the result to re-submit the project for re-examination.
- f. Any subsequent attempt on the fourth professional examination after two consecutive academic year shall be with permission of Senate on the recommendation of the Board of Faculty of Pharmaceutical Sciences.

9.17 General Considerations

- (a) Before presenting themselves for any examination, candidates shall be required to have completed, to the satisfaction of the Departments concerned, approved periods of practical work and / or other assignments regarded as part of the programme.
- (b) Before presenting themselves for re-sit examination, candidates shall be required to have attended tutorial classes.
- (c) All professional examinations shall consist of written, practical and/ or oral examinations.
- (d) Without prejudice to the existing General University Academic Regulations on examination malpractice, any student found guilty of any form of exam malpractice shall not be allowed to continue with the Bachelor of Pharmacy programme.
- (e) A candidate shall normally be allowed four attempts in any of professional papers, after which he shall be required to withdraw from the Bachelor of Pharmacy programme.
- (f) A candidate who by virtue of the performance in any of the professional examinations loses the option of a re-sit, shall have that particular re-sit included in his number of attempts on the paper(s).
- (g) A candidate for whatever reason, fails to utilize a re-sit opportunity, shall have that particular re-sit included in his number of attempts on the paper(s).
- (h) A candidate in the fourth stage of the professional programme, who has made four unsuccessful attempts on any professional paper(s) and who has obtained the permission of Senate for subsequent attempt (s), shall be required, before being awarded the degree, to re-register and pass the paper(s), which he failed.
- (i) Any matter(s) relating to the award of the degree of Bachelor of Pharmacy of this University, which are not covered in these regulations shall be subject for determination by the Board of the Faculty of Pharmaceutical Sciences.

8.10. Regulations Governing the Award of the Degree of Doctor of Veterinary Medicine (DVM)

10.1 The different Departments of the Faculty of Veterinary Medicine jointly prepare candidates for the award of Doctor of Veterinary Medicine (DVM) and shall be the primary degree in Veterinary Medicine and shall be awarded at the end of successful completion of the Senate approved curricula and examinations.

10.2 The course extends over a minimum of six years for University Matriculation Examination (UME) candidate and five years of Direct Entry candidates. The curriculum is divided into two parts:

- i. Pre-Professional Phase of one year duration which provides the student with a good background in the Social and Natural Sciences and introduces him to livestock industry.
- ii. The Professional Phase of five-year duration (DVM I-V) which consist of an eighteen month pre-clinical phase, and twenty-four month clinical phase.

10.3 To qualify for an award of Doctor of Veterinary Medicine (DVM), a candidate must satisfy the examiners in the following examinations given normally in March, June and September of each year (as the case may be):

- I. Pre-Professional Examinations (governed by General University Examinations Regulations).
- II. Professional Examinations governed by DVM Regulations viz.
 - a. First Professional Examination
 - b. Second Professional Examination – Part I & II
 - c. Third Professional Examination – Part I & II
 - d. Fourth Professional Examination

10.4 The evaluation of students' academic work in the professional examinations shall be governed by DVM regulations viz:

- I. Successful completion of professional subject from DVM I to DVM V means an Examination score of at least 50 percent in each subject taken.
- II. In any professional examination, a distinction shall be awarded in any subject in which a candidate obtains a score of 70 percent or higher, provided the candidate passes all the subjects of that Examination in the first attempt.
- III. Each stage of professional training (i.e. DVM I-V) is a pre-requisite for the next stage; i.e. for a candidate to proceed from one level of professional training to another, he must have passed all the subjects of the lower stage.
- IV. The DVM degree shall not be classified into different honors grading

10.5 Pre-Professional Examinations

1. Subject for the Pre-Professional Examinations shall be as follows:

- i. First year of study (i.e. for UME candidates)
 - a. General Physics for Life Science and Practical Physics.
 - b. General Biology and General Biology Practical.
 - c. Basic Principles of chemistry and Basic Practical Chemistry.
 - d. The use of English
 - e. Social Sciences
 - f. Approved Electives
- ii. Second year of study:
 - a. The use of English
 - b. Humanities
 - c. Approved Electives

2. Guidelines for Pre-Professional Examinations:

- I. Individual marks scored in all splinter courses (Physics, Chemistry and Biology) shall be added up to obtain an average pass of 'E' in each subject as contained in the General University Academic Regulations.

- II. Where a candidate fails to make the passing average of 'E' in any subject, he shall be required to re-register all the splinter courses that make up the subject and shall carry a minimum unit load of 15 for that semester.
- III. If a candidate cannot pass after repeating the year he shall be required to withdraw from the faculty.
- IV. Candidates shall not be allowed to proceed with the courses in Anatomy, physiology and Veterinary Biochemistry until they have passed or gained exemption from the whole of the Pre-Professional Examinations.

10.6 Professional Examinations

1. First professional Examinations (DVM II or Third Year of Study in the University). This Examination shall be administered in two parts; Part ONE shall be held in March after three semesters of professional training.
 - i. The subjects for part ONE of the first Professional Examination (DVM II) which is held at the end of the first semester of the third year of study shall be:
 - a. Veterinary Anatomy (including Introduction to Veterinary Medicine)
 - b. Veterinary Physiology
 - c. Veterinary Biochemistry.
 - ii. The subjects for part TWO of the first Professional Examination (DVM II) which is held at the end of the second semester of the third year of study shall be:
 - a. Animal Health and Husbandry
 - b. Animal Nutrition in Health and Disease.

iii. Guidelines for the First Professional Examinations:

1. A candidate who fails in NOT MORE THAN TWO subjects of the first Professional Examinations held in March, may after 6 months of additional professional training present himself/herself for re-examination in those subjects during the September professional examinations.
2. Candidates who fail in more than TWO subjects in the first Professional Examinations held in March shall re-register for all the second (DVM II) professional courses (i.e. 3rd Year of study in the University).
3. Candidates who fail in any ONE subject in the September professional examinations shall be required to re-register and present themselves for examination in all second year professional courses of DVM II stage of the curriculum.
4. If a candidate performs very badly in the first professional Examination, i.e. attains an average score of less than 35 percent, in all subjects and if the Faculty Board of Examiners is satisfied that the candidate cannot benefit from further participation in the course, he shall be recommended to the senate for withdrawal from the DVM programme.

2. Second Professional Examinations:

(DVM III or Fourth Year of Study in the University). This examination shall be administered in two parts: Part ONE shall be held in March after three semesters of Professional training, while Part TWO shall be held in May/June after semesters of professional training.

- i. The subjects for part ONE of the second Professional Examination shall be administered in two parts;

First Semester of the fourth year of study shall be:-

- a. Veterinary Microbiology
- b. Veterinary Parasitology
- ii. The subjects for part TWO of the second Professional Examination (DVM III) which is held at the end of the second semester of the Fourth Year of Study shall be:-
 - a. Veterinary Pathology
 - b. Veterinary Pharmacology and Toxicology
- iii. **Guidelines for the Second Professional Examinations:-**
 - a. Candidates who fail in not more than TWO subjects in parts one or two of the Second Professional Examinations held in March/June May, after 3 months of additional professional training, present themselves for re-examination in those subjects during the September professional examination.

- b. Candidates who fail in more than TWO subjects in parts one or two of the second professional Examinations held in March/June shall be required to re-register for all the DVM professional courses (4th year of study in the university).
- c. Candidates who failed in any subject in September examination shall be required to re-register and present themselves for examination in all the third year professional courses of DVM II.

3. Third Professional Examination

(DVM IV or fifth year of study in the university) This examination shall be administered in two parts: part ONE shall be held in March after one semester of professional training, while part Two shall be held in May/June after one semester of professional training.

- i. The subject for part ONE of the third professional examination (DVM IV) which is held at the end of the first semester of the fifth year of study shall be.
 - a. Animal Production
 - b. Veterinary Obstetrics and Reproductive Diseases
 - c. Veterinary Public Health (including Veterinary Jurisprudence and Veterinary Biometrics)
- ii. The subjects for part TWO of the Third Professional Examinations (DYM IV) which is held at the end of the second semester of the fifth year of study shall be:-
 - a. Veterinary Medicine (Small and Large Animal Medicine, Avian Medicine, Preventive Medicine, Laboratory and Zoo Animal Medicine)
 - b. Veterinary Surgery (Small and Large Animal Surgery; Radiology; Applied Anatomy),
- iii. **Guidelines for the Third Professional Examinations:**
 - a. Candidates who fail in not more than two subjects in part ONE and TWO of the Third professional Examinations held in March/June may, after 3 months of additional professional training, present themselves for re-examination in those subjects during the September professional examinations.
 - b. Candidates who fail in more than two subjects in part ONE and TWO of the Third professional Examinations held on March/June shall be required to re-register for ALL the DYM IV professional courses (5th year of study in the University).

4. Fourth Professional Examination:

(DVM V or Sixth Year of Study in the University). This Examination shall be administered after one semester of Professional Training.

- i. The subject for the FOURTH Professional Examination (DVM V) which is held at the end of the second semester of the sixth year of study shall be:-
 - a. Clinics (including Animal Behaviour and Restraint; Clinical Pharmacology. Clinical Parasitology, Clinical Pathology. Clinical Biochemistry and Project).
- ii. **Guidelines for the Final Professional Examination:**

Candidates who fail in the subject of the Final Professional Examination held on May/June after 3 months of additional professional training present themselves for re-examination in that subject during the September professional examination. Candidates who fail to pass the subject of the First Professional Examination during the September professional examinations shall be required to re-register for all DVM V subjects and present themselves in all examinations of the DVM stage of the professional curriculum.

10.7 General Examination Procedures:

1. Before presenting themselves for Examination, candidate shall be required to have completed, to the satisfaction of the departments concerned, approved period of practical work or have also made 75% attendance at all practicals.
2. All professional Examinations shall consist of written, practical and/or oral Examinations. The exception shall be the examination in clinics which shall be entirely oral and practical examinations. The final score shall include results of continuous assessment in each subject mentioned under each professional examination.

3. Candidates shall present themselves for the prescribed examinations on the first occasion. Candidates who fail to satisfy the examiners in any of these subjects at the first attempt shall be required to present themselves for examination during the September professional examinations accordance with the DVM regulations.
4. Without prejudice to the foregoing regulations, candidates shall normally be allowed three attempts in all professional examinations. Any subsequent attempt at any of those examinations shall be with the permission of the senate on the recommendation of the Faculty Board of Veterinary Medicine.

9 Academic Programmes – BMAS STANDARD

The following is a list of courses currently offered in the University. Nearly all Departments offer courses that are open to members of the University who are not enrolled with them for their major subject. Students should consult their advisers on this matter. Changes may be made in the courses at any time at the discretion of the Senate.

Course Abbreviations

ACC	Accountancy	LANG	Languages

Courses

First Semester

GSP 207 Logic, Philosophy and Human Existence

Course Requirement

- A brief survey of the meaning and branches of Philosophy

- Major Schools of Philosophy
- Basic Concepts in Logic, basic terminologies in logic, validity & soundness, types of discourse, nature of arguments, techniques for evaluating arguments etc.
- Inductive and Deductive Arguments
- Fallacies
- Basic Symbolic Logic; conjunction, negation, affirmation, disjunction, equivalent and conditional statements, laws of thoughts, the method of deduction using rules of inference and bi-conditionals, qualification theory etc.
- Basic interpretations in Law-Critical thinking and innovation: conceptions and theories of creativity and innovation, practical enhancement of creativity and innovation.
- Human Rights and Social Justice
- Man's duties and responsibilities to the state and vice-versa
- Human values, social vices and virtues – Professional and Work-Ethics, perceptions and development of work ethics, organizational goals and work/professional ethics, benefits of professionalism to organizations and individuals., the ethics of some major professions such as teaching/ lecturing, medical practice, public service, etc.

Second Semester

GSP 208 Nigerian Peoples and Cultures

Course Description

- Nigerian history; Cultures and Arts in pre-colonial times
- Evolution of Nigeria as a political unit
- Culture areas of Nigeria and their characteristics
- Nigerians' perception of the world
- National Integration
- Indigene/settler phenomenon
- Philosophy and national development: Philosophy of development, the meaning of development, the role of philosophy and ideology in development; major developmental epochs in Africa slave trade, colonization, anti-colonization and independence, neo-colonization and post-colonization, the failure and crisis of development in Africa.; theories of development and the reaction of African to the development crisis Afro-centralism and externalist passivism, Re-colonization thesis, Afro-pessimism, Afro-constructivism.
- Concepts of trade, economic self-reliance and social justice
- Individual and National Development – Values and Development, Values and Human Agency, choice and responsibility in national development, Personal philosophy of development the pursuit of excellence; concomitant values in the pursuit of excellence.
- Negative attitudes and conducts (cultism and related vices) values and attitudes that negate development.
- Re-orientation of moral and national values and moral obligations of citizens
- Environmental problems
- Language, Communication, Religion, Arts, Archaeology/Tourism and their relevance to national development.

G.O. Ede, NCE, B.Ed. (Nigeria)	Assistant Executive Officer

Objectives and Scope

The objective of the Natural Sciences is to stimulate student's interest in science, establish the inter-relationship between scientific disciplines and create an awareness of the services of science to man and the effects of science on human society. The course is offered to students who are majoring in the humanities and social sciences.

First Semester

GSP 105: Natural Science I (2 Units)

Introduction to Natural Science I; Meteorology & Weather Forecasting; The Family: Secondary Sexual Development; Climate Change: Causes and Effects; Climate, Vegetations and Animals; Cell Theory and Heredity; Basic Structure of Matter; Energy Transformations in Biological Systems; Organisms in the Environment; The Concept of Force and Energy; Waves and Radiations; Concept of Evolution; Energy Transformations in Physical Systems; Solar & Stellar Systems; Elements, Compounds and Mixtures,

Second Semester

GSP 106: Natural Science II (2 Units)

Introduction to Natural Science II; Space Science and Exploration; Common Chemical Reactions and their Uses; Conventional Sources of Energy; Origin and Nature of Man; Social Implications of Technological Development; Agricultural and Biological Research; Nature and Scope of Technological Development; Public Health and Environmental Sanitation; Nutrition and Health; Alternative Sources of Energy; Transport and Communications; Sickle Cell Anaemia & Its Management; Human Ecology and Population Dynamics; Stress: Causes and Management; AIDS: A Threat to Human Society; Origin and Evolution of Scientific Thought, Electricity and some Household Applications; Organic and Inorganic Compounds; Science, Technology and Inventions.

Courses

First Semester

GSP 201 The Social Sciences (2 Unit)

Course Objective

This course is aimed at introducing the students to the disciplines in the Social Sciences bringing out their anthropocentric nature. Students are taught the application of the principles of the various disciplines in the Social Sciences to the problems in Nigeria and the world.

Scope

It is aimed at equipping the students with the ability to apply basic analytical tools and methodologies in the analysis of social structures, relationships and social processes. It also exposes students to the relationship between Social Sciences as academic disciplines and the General Studies programme as pioneered and sustained by the University of Nigeria.

Second Semester

GSP 202 – Issues in Peace and Conflict Studies (2 units)

Course Objective

The National Universities Commission in collaboration with the University for Peace, an affiliate of the United Nations, recommends this course as part of the General Studies programme in all universities in Nigeria. The course is compulsory for all undergraduates of the University irrespective of their specializations. It is designed to expose students to the basic Principles of Peace and Conflict Studies (PCS) and by so doing contribute to the reduction of intra- and inter-group strife and promote harmonious co-existence without which sustainable development is impossible.

Scope

Applicable social science methods are addressed. Students are taught the theories of peace and conflict and the nature of these as social phenomena. Students are also taught the processes of conflict management, conflict resolution, and the working of the various agencies involved in these processes in traditional settings and at national and international levels.

First Semester

GSP 101 Use of English Unit I (2 Unit)

Objective and Scope: The aim of GSP 101 (The Use of English is to teach students study skills which they require for their academic work in the University. These skills include listening, reading, notetaking techniques, using the library and writing a term paper, etc. The course also emphasizes oral communication and speech work. The course comprises Study skills, The Use of Library and basic Research Methods.

Second Semester

GSP 102 Use of English Unit II (2 Units)

Objectives and Scope: The aims of the course are to help students

- i. To develop competence in the use of English through knowledge of the basic principles of grammar. At the end of the component, students should be able to apply grammatical prescriptions correctly in speech and writing.
- ii. To understand the nature of the writing process as different from speeches
- iii. To understand the basic unit of every writing process the sentence and its parts:
- iv. To be able to write a paragraph and essay of different kinds,
- v. To acquire knowledge of writing other forms of modern communication the form and style of technical writing.
- vi. To learn the principle/Techniques of book reviews, and
- vii. To acquire the basic principles of modern information techniques.

A. N. Onyekuru, B.Agric, M.Sc. (Nigeria) Ph.D. (York)	Professor
B. C. Okpukpara, B.Agric, M.Sc., Ph.D. (Nigeria)	Professor
N. A. Chukwuone, B.Agric., M.Sc., Ph.D. (Nigeria)	Professor
P. I. Opata, B.Agric, M.Sc., Ph.D. (Nigeria)	Professor
E.C. Amaechina, B.Agric, M.Sc., Ph.D. (Nigeria)	Senior Lecturer
C.S. Onyenekwe, B.Agric, M.Sc. (Nigeria), Ph.D. (Ghana)	Senior Lecturer
P.B.I. Njepuome, B.Sc. (Benin) M.Sc. (Nigeria)	
R.N. Aruah, B.Agric (Nigeria) M.Sc. (Greenwich)	Lecturer I
C. U. Ike, B.Agric (Nigeria) M.Sc. (Nigeria) PGD (Stellenbosch)	Lecturer I
J.C. Ibe, B.Sc. (Awka) MBA (Awka) M.Sc. (Nigeria) Ph.D. (Nigeria)	Lecturer I
K. P. Adeosun, B.Agric (Nigeria) M.Sc. (Wageningen)	Lecturer I
O. C. Eze, B.Agric (Nigeria) M.Sc (Readings)	Lecturer I
I.I. Umaru, B.Sc. (Zaria) M.Sc. (FUTY) Ph.D. (MAUTECH)	Senior Lecturer
S. N. Chiemela, B.Agric (Nigeria) M.Sc. (Ethiopia)	Lecturer I
C.J. Chiemela, B.Agric, M.Sc., Ph.D. (Nigeria)	Lecturer I
J. E. Ihemezie, B.Agric (Nigeria) M.Sc, Ph.D. (Leeds)	Lecturer I
I.C. Ukwuaba, B.Agric, M.Sc., Ph.D. (Nigeria)	Lecturer I
O.J. Okorie, B.Agric, M.Sc. (Nigeria)	Lecturer I
C.C. Onyia, B.Agric, M.Sc., Ph.D. (Nigeria)	Lecturer I
F.E. Awoyelu, B.Sc. (Ife) B. Sc. (Ibadan), M.Sc. (Akure) Ph.D (Ife)	Lecturer II
E.E. Omeje, B.Agric (Ebonyi) M.Sc., Ph.D. (Nigeria)	Lecturer I
T.G. Umeonuora, B.Agric, M.Sc. (Nigeria)	Lecturer I

M.C. Ilekka, B.Agric, M.Sc. (Nigeria)	Lecturer I
C.N. Onunka, B.Agric (Abeokuta) M.Sc. (Exeter)	Lecturer I
D. M. Onuigbo, B.Agric (Nigeria) M.Sc. (Bogor,Indonesia)	Lecturer I
O.G. Onah, B.Agric, M.Sc., Ph.D. (Nigeria)	Lecturer I
A. E. Obetta, B.Agric, M.Sc., Ph.D. (Nigeria)	Lecturer I
C.N. Onyekwe, B.Sc. (Maiduguri) M.Sc., Ph.D. (Nigeria)	Lecturer I
C.O. Oranu, B.Agric, M.Sc. (Nigeria) Ph.D. (Lilongwe)	Lecturer I
C.O. Ume, B.Agric (Nigeria) M.Sc. (Leeds) Ph.D. (Nigeria)	Lecturer I
T.D. Uchua, B.Agric (Makurdi) M.Sc. (Makurdi)	Lecturer I
L.O. Egwue, B.TECH. (FUTA) M.Sc., Ph.D.(RSU)	Lecturer I
A. C. Igweh B.Agric, M.Sc. (Nigeria)	Lecturer II
K.N. Nwangwu, B.Agric, M.Sc. (Nigeria)	Lecturer II
T.L. Onah, B.Agric (ESUT) M.Sc. (Nigeria)	Lecturer II
O.F. Orazuluike, B.Agric, M.Sc. (Nigeria)	Lecturer II
R. Mukaila, B.Agric (Ilorin) M.Sc. (Nigeria)	Lecturer II
R.C. Nzenwa, B.Agric (ANSU) M.Sc. (Nigeria)	Lecturer II
J. T. Offorma, B.Agric, M.Sc. (ESUT)	Assistant Lecturer
A. J. Agu, B.Agric, (Nigeria) M.Sc.(Stuttgart)	Graduate Assistant
B.U. Asogwa, B.Agric, M.Sc. (Nigeria)	Graduate Assistant

Administrative/ Technical Staff

L.N. Uzuegbu, B.Ed. (Nigeria)	Chief Technical Officer
G. C. Emeahara, OND (Nigeria) B.Sc. (Nigeria)	Senior Data Processing Officer
E.S. Okoye, B.Agric (Nigeria)	Senior Agric Superintendent
P.N. Ike, B.Agric (Nigeria)	Senior Agric Superintendent
C.C. Udoha, B.Agric (Nigeria), PGD (Nigeria)	Higer Technical Officer I
U. F. Kalu, B. Sc. (ABSU)	Higer Technical Officer I
B.O. Okechukwu, B.Agric (ESUT) M.Sc. (Nigeria)	Higer Technical Officer I
N.J. Nnamani, B. Tech (MINNA)	Higer Technical Officer I
H.N. Odo, B.Ed (Nigeria) M.Ed.(Nigeria)	Higer Technical Officer I
M. U. Ugwu, WASSCE, NABTEB (ADV)	Higher Executive Officer
E.C. Akobi, FSLC	Chief Cleaner/Messenger
C. Omeke, WASSCE	Senior Farm Labourer
D. C. Ukwueze, FSLC	Senior Farm Labourer
I.C. Ishiwu, FSLC	Senior Farm Labourer
V. O. Eze, WASSCE, NABTEB (ADV)	Senior Farm Labourer

Brief History of the Department

Inspired by the renewed attention to agriculture, especially commercially oriented agriculture and value chains by government at all levels, the Department of Agricultural Economics, University of Nigeria, Nsukka (UNN), deemed it necessary to develop a full degree programme on agribusiness. This is because the concomitant expansion in commercial agricultural production and marketing will require the expertise of people trained in agricultural business management. In addition, virtually all universities around UNN have responded to this government renewed focus on agriculture by developing an agribusiness programme, thereby making UNN appear to be lagging behind in this regards. Most importantly, a renewed impetus for the development of the new agribusiness Department came when a foreign agency in the United States of America; the Africa Lead indicated interest in partnering the Department of Agricultural Economics for its establishment.

Philosophy of the Programme

The philosophy of the Bachelor of Science Degree in Agribusiness is to develop high level academic and research manpower that will transform Nigeria's agriculture into sustainable life career. It applies the principles of choice in the use of scarce resources such as land, labour capital and management in farming and allied activities, and offers practicable solutions in using these resources for maximization of profit. The core is designed to provide students with an understanding of the basic functions of business and the application of theory to the market and agribusiness industry. The programme will provide a course of study that develops the requisite interpersonal and communication skills, knowledge base, critical thinking and applied business skills that are required to have a successful career in an ever-changing economic, technological, political, and social environment that underpin the agribusiness world..

Objectives of the Programme

- To provide our graduates with requisite knowledge, skills and attitudes that will enable them to harness the vast agribusiness opportunities in the environment and respond to a range of constraints in real life situations.
- To provide broad practical and theoretical training in agribusiness for four years.
- To provide adequate knowledge and skill in agribusiness and related areas that would provide students with ability to be solid entrepreneurs capable of starting medium and large agribusiness enterprises.
- To provide solutions to Nigeria's agricultural and rural development problems and improve agricultural productivity in general.

Scope of the Programme

The programme is designed to provide broad practical and theoretical training in agribusiness. The students are given intensive courses in the following areas of Agribusiness namely: Farm Management and Production Economics, Economic Theory, General Agriculture, Quantitative Techniques, Agric Finance and Project Analysis, Cooperatives, Accounting, Business management conduct, and Marketing.

Job Opportunities

Graduates of this Department are employed in Credit/Corporate Finance Departments of commercial, merchant and development banks; agricultural consultancy firms; Agribusiness; Research Institutes; Agricultural Development Projects; Ministries of Agriculture, Rural Development, Cooperatives, and Budget and Planning. In fact, as the economy develops more, agribusiness graduates would be required in various sectors of the economy such as commodity exchanges (future markets) and in international agencies or organizations.

Entry Requirements

Candidates for admission by UTME entrance examination must satisfy the University entry requirements and in doing so, must have obtained credits in Chemistry, Biology or Agricultural Science, Mathematics, English and the fifth credit can be Physics, Economics or Geography in the West African School Certificate Examinations, and/or Senior Secondary Certificate (SSC). Holders of Higher School Certificate, Higher National Diploma, ND University Diploma and Nigeria Certificate in Education especially with good passes in Chemistry and Biology or Agricultural Science as well as credit in Mathematics at the Ordinary Level are considered for Direct Entry. In this case, they may complete the degree programme in three years.

Description of Courses

GSP 101 Study Skills & Basic Research Methods

The nature, characteristics and functions of language; Human communication & language; The English language and the Nigerian society; World English; Levels and varieties of English formal, informal, standard etc; English in Literature and the media; Types of vocabulary of English; methods of vocabulary development; Synonyms, Antonyms, Homonyms, Acronyms, Paronyms; English Language Register, diatypes and dialects; Listening skills as a receptive and reciprocal activity, nature, types, purposes and factors that affect listening; the concept of reading as a linguistic organization and a vehicle of communication; Reading skills; Speaking and communication skills; Study techniques; Basic research methods and term paper writing.

COS 101 Introduction to Computer Science

History of computers; Functional components and characteristics of a computer; Problem solving; Flowcharts; algorithms; Computer programming statements, symbolic names, arrays, subscripts, expression; Introduction to BASIC or FORTRAN language.

GSP 102 Basic Grammar & Varieties of Writing

The concept of grammar and its place in language teaching and learning; Parts of Speech and their functions; Closed and open class items in parts of speech; Normalization; Grammatical structures, phrases, clause, sentence; Elementary clause analysis; Sentence Types, Elements and Patterns; Agreement; Error typology, identification, and Correction; Varieties of Writing Types, Characteristics of the paragraph; Methods of Paragraph Development; Writing Genres.

AGB 102 Basic Agribusiness Mathematics

Set theory: functions and linear algebra; optimization and dynamic analysis; comparative statics and differential calculus; and integral calculus. Calculus and the theory of the firm. First order differential equations.

HSN 102 Introduction to HSND

Definition and goals of studying Home Science; Historical development of Home Science; philosophy objectives and principles; Career opportunities in Home Science including the necessary academic preparations and personal qualities required; Basic human needs and the role of Home Science in meeting these needs; Major areas of Home Science including Home management, Family and Child studies; Food and Nutrition and Clothing and Textiles. Relation between Home Science and Agriculture; Home Science in National development

FST 102 Introductions to Food Science and Technology

Food science and technology as a discipline of academic study and as a profession; Agriculture, Food and Nutrition interface; Training requirements and career opportunities in these fields; The challenges of food science and technology in Nigeria development; Structural and functional features of foods; The constituents and nutritive aspects of food; Nutritional changes involved in processing and distribution of food; Sanitary handling of food; Food – borne diseases; Methods of food preservation; Food regulations.

AGB 103 Agribusiness Statistics

Descriptive statistics; frequency distribution, graphical presentation; estimation: point estimation, Interval estimation, hypothesis testing: one and two parameter hypothesis testing. Correlation and simple linear regression, fitting a straight line, Statistical tests of significance of the regression estimates. Analysis of variance (ANOVA). Practical exercises in conducting regression analysis using SPSS, AND STATA.

GSP 111 Use of Library

Nature, Concept and brief history of the Library; Library and Education; Types and functions of libraries; Library staff, types and functions, Library policy, etiquette and administration; Study skills and reference services in university; Library collection, nature types and uses; Organization of library materials, nature, types and functions; Using library Resources; Libraries and Copyright; ICT and Database Resources in Libraries; Documentation in Research, Purposes, Process, Types and Methods; Basic Research methods.

MTH 111- Elementary Mathematics

Elementary Set Theory, Subset, union, intersection, components, Venn diagram, Real numbers, Integers, rational and irrational numbers; Mathematical induction, real sequences and series, theory of quadratic equations, binomial theorem, circular measure, trigonometric functions, of angles of any magnitude, addition and factor formulae. Complex numbers, algebra of complex numbers, the Argand Diagram, De Moivre's theorem, nth roots of unity.

AGB 111 Principles of Agribusiness Accounting I

History and development of Accounting. The nature, scope and purpose of accounting, uses of accounting information. The range of services provided to an organization by the accounting function. The role of financial accounting, major branches of accounting (financial, Auditing, taxation, public sector, cost and management accounting) and their roles in an organization. Accounting concepts, assumptions and conventions. The principles of double Entry Book Keeping. The accounting process/systems and books of Accounts. Types and classifications of ledger Accounts. Books of prime Entry-sales Day books, purchases Day books, returns inward books, and returns outward books. The trial balance Imprest/petty cash system, bank transactions types of bank accounts, and bank reconciliation statements. Revenue and capital expenditures. Financial accounts of sole traders. Trading, profit, and loss accounts and balance sheet. Adjustments and correction of errors in Accounts. Depreciation, Accrual and prepayments, provisions and reserves, bad debts and provisions for bad debts. Manufacturing accounts. Total/control accounts.

AGB 112 Principles of Agribusiness Accounting II

Incomplete records, accounts of non-profit making organizations; receipts and payment accounts, income and expenditure accounts, valuation of stocks. Accounting for stock losses and defalcations. Consignments accounts. Departmental accounts, Accounting for containers. Bills of exchange. Introduction to partnership accounts: nature, formation, contents of a partnership deed, and special accounting arrangements including the preparation of partnership final accounts. Meaning and valuation of good will in partnership admission of a new partner. Joint venture accounts, payroll accounting. Farmers accounts.

AGB 114 Rural Microfinance

Introduction to microfinance; History of rural and agricultural finance; Microfinance and Sustainable Development; finance and economic development; financing investments; market failure in rural finance; principles and practices employed by agriculture and business lending institutions; instruments used in financing agricultural production and agribusiness; capital budgeting; financial statement; cash flow analysis; financial institutions: NGOs, state banks and commercial banks, branchless banking; village saving and loan groups, savings and credit cooperatives. The concept of Tontine (Isusu) and types.

AGB 121 Introduction to Agribusiness Management

Meaning of agribusiness management. Meaning, nature and importance of management, evolution of management thought; management process, functions and skills; communication in organizations. Basic concepts of business, management and agribusiness; legal forms of business; the role and organization of agribusiness, Financial management and control, marketing, operations, and human resources management placement to exit. Orientation to the agribusiness sector of agriculture, an overview of the breadth, size, scope and management aspects of the agricultural business complex. Emerging trends in production and changing dimensions of agribusiness. Delegation and decentralization of authority and responsibility; decision making, social responsibilities of the manager, roles and responsibilities of management in an agribusiness set up.

AGB 122 Fundamentals of Natural Resource and Environmental Management

Introduction: Concept of Natural resources, classifications of natural resources. Some concepts associated with NRs : habitat, ecosystem, biodiversity etc; Ecosystem concepts and fundamentals (Ecosystem structure, processes, ecological communities and food chain) Types of Natural Resources (forest resources, freshwater resources, land, energy, food resources, marine resources, mineral resources) .Ecological, social and economic dimension of Resource management, Natural resource management paradigms, the environment as an economic and social asset, causes of environmental change, human vulnerability to environmental change, principles and concepts of conservation, Environmental policy (criteria for evaluating environmental policies, command and control strategies, Incentive based strategies), Environmental policy in Nigeria: water pollution control, policy on toxic and hazardous substances, forestry policy. Local environmental issues: solid waste management, land-use control policies etc.

General environmental standards; distinction between the environment and environmental management; reasons why organizations should consider environmental factors in the managements process (i.e. Ethical, economic, legal and commercial); identification, evaluation and communication of issues related to environmental conditions in the work place and globally; ISO 14001 structure for environmental management; preparing for environmental impact assessment, integrated management systems for the environment, quality, health and safety, and other management functions.

AGB 131 Introduction to Agribusiness Finance

Definition and scope of finance in organizations. Specialized Areas of finance; financial functions in the organization. Meaning and objectives of financial management. The business environment: Economic, social and political environment of Nigeria. Financing business firms in Nigeria: sources, types and problems. Role of government in the financing process. The concept of collateral in the borrowing process. Elementary financial analysis. International financial institutions. Basic concept of money and credit: Definition, origin, importance, functions and characteristics. Money creation capacity of commercial banks. Different types of money. Quantity theory of money. Evolution and structure of Nigeria banking institutions. Different types of banking institution: central bank of Nigeria, commercial banks, merchant banks, MFB, specialist banks like development banks, federal savings bank, non-banking financial institution like insurance companies, pension and provident funds, finance houses, and state finance corporations.

AGB 132 Principles of Agribusiness Marketing

The marketing concept; concept of marketing mix product planning and development; advertising and public relations; personal selling; channels of physical distribution; marketing of primary produce; problems and opportunities in commodity marketing; identification and branding futures market; the stock exchange and commodity exchange; commodity marketing.

AGB 161 Introduction to Microeconomics

Basic economic concepts; scarcity, choice and opportunity cost; consumer theory: demand, preference, utility and basic concepts of elasticity; theory of production; supply, production, cost, and profit functions; theory of market structure; perfect competition, monopoly, monopsony and oligopoly; theory of distribution and factor markets' introduction to game theory; and the role of government in the economy.

AGB 162 Introduction to Macroeconomics

Introduction; macro-economic models (classical and Keynesian); measuring macroeconomic variables; flow of income; aggregate supply and national income; production and the labor market; consumption and investment; economic growth; money and banking; inflation, IS-LM and AS-AD models; the classical business cycle; price and wage rigidity; monetary and fiscal policy; current crisis and current policy debates; and global imbalances.

AGB 171 Introduction to Food Industry

Introduction to the food industry; organization and operation of the agri-food system; world food challenges and opportunities; effect of globalization and the food industry; attributes of food quality and safety; principles and handling, processing, and preservation of food; quality and safety of food productions; reducing food production

and regulatory costs; relationships in the food industry chain; reduction and management of production waste; food quality assurance and ISO compliance; food laws and regulatory institutions.

AGB 172 Organization Theory and Behavior of Agribusiness Firms

Nature and theories of organization, organizational behavior; internal components of an agribusiness organization; organizational structure and design; groups, organizations and individuals in organizations; organizational change and development; organizational effectiveness; power and politics in organizations; group and group dynamics; principles of leadership and leadership styles; agribusiness leadership. Effectiveness in leadership; leadership and change managements, theories and concepts; models to create a modern perspective on leadership; nature of agribusiness organizations; and tools for assessing leadership.

SSC 201 Principles of Soil Science

Soil, their origin and formation, physical properties of soils; soil – plant – water relationships, cation exchange, nutrient requirements and mineral nutrition of plants, fertilizers; fundamentals of lime and liming; soil organic matter and soil organisms; soil and water management and conservation; soils and the environment.

GSP 201 Peace and Conflict Resolutions

The universe of the social sciences; Social Science Research Methodology; The Role of Sociology and Anthropology in Human Society; Religion and Social Change; Geography and Human Society; Civil Society and Societal Justice; Psychology; Economics as a social science.

GSP 202 Peace and Conflict Resolutions II

Nature and Concepts in Peace and Conflicts Studies; Theories of Peace and conflicts; Conflict Analysis and Handlings Styles; Conflict Analysis and Handling Styles; Ethnicity, Identify and Conflict in Africa; Media, Language and Communication in Peace and Conflict; Media, Language and communication in Peace and Conflict; Peace Education, Peer Mediation and Non violet Resistance; Terrorism and its Management; International Organizations and Conflict Resolution; Multi – Track Diplomacy.

AGB 203 Introduction to Econometrics

A basic concept of econometrics, simple regression, violation of basic assumptions, estimation with bad or deficient data, multiple regressions, statistical demand analysis, statistical production and cost analysis, methods and application of economics to agricultural problems.

GSP 207 Logic, Philosophy and Human Existence

A brief survey of the meaning and branches of philosophy; Major schools of philosophy; Basic concepts in Logic; basic terminologies in logic, validity and soundness, types of discourse, nature of argument, techniques for evaluating arguments etc; Inductive and Deductive Arguments; Fallacies; Basic Symbolic Logic; Basic interpretations in Law; Human Rights and Social Justice; Man's Duties and responsibilities to the State and vice – versa; Human Values, Social vices and virtues.

GSP 208 Nigerian People and Cultures

Nigerian History; Culture and Arts in pre – colonial times; Evolution of Nigeria as a political unit; Culture areas of Nigeria and their characteristics; Nigerians' perception of the world; National Integration; Indigene/settlement phenomenon; Philosophy and National Development; Concept of trade, economic self – reliance and Social justice; Individual and National Development; Negative attitudes that negate development; Re-orientation of moral and national values and moral obligations of citizens, Environmental problems; Language, Communication, Religion, Arts, Archaeology/ Tourism and their relevance to national development.

AGB 212 Cost and Management Accounting for Agribusiness Firms

Cost Behaviour and cost estimation, cost ascertainment – allocations, apportionment and absorption of overheads, treatment of under or over absorption; Accounting for overheads. Activity Based Costing. Costing methods: - specific order costing methods including job costing; Batch costing. Contract costing, unit costing. Non-specific order costing method including service costing and output costing; Process costing including determination of equivalent units, treatments of losses, waste and work – in progress, accounting treatments of by product and joint products (Apportionment of Joint Costs) and subsequent processes and costs.

AGB 213 Principles of Agribusiness Finance

Source of finance and the raising of new finance for business enterprise; working capital management; lease financing; mergers and acquisitions. The techniques of financial planning and control; the interpretation and analysis of financial statements. Financing of the unincorporated business, small scale business and agricultural financing in Nigeria.

Investment decision of the firm under condition of certainty and uncertainty; the problems of mutually exclusive projects; capital rationing and inflation; the measurement and usefulness of cost of capital as a decision and relevance of dividend decision of the firm concept of Capital market efficiency and the pricing of Capital assets.

AGB 221 Human Resource Management

Meaning of human resource management; agribusiness enterprise work organization; the people at work nature and importance of human resource management in agribusiness; human resource planning nature and significance of human resources; characteristics and qualities of a human resource manager; objectives of human resource management: functions of human resource management; performance appraisal/management; grievance handling;

discipline and disciplinary actions; industrial disputes and dispute handling in agribusiness undertakings; industrial relations and trade unions.

CSC 222 Principles of Crop Production

Fundamental principles and problems of crop production; The importance of crop rotation; Cultural practices; water and soil conservation, irrigation and drainage; Maintenance of soil fertility; Pests, diseases and weed control in crop production; Principles and methods of crop harvesting; Crop processing and storage; Specific cultural requirements and practices in production of field, forage and plantation crops.

AGB 228 Cooperative Development and Management

Definition, theories and philosophies of cooperatives, cooperative principles, structure and management of cooperatives, importance of cooperatives in the economy, accounting and accountability of cooperatives, sources and uses of cooperative funds, memberships and public relations in cooperatives, evaluation of cooperative business performance, improvement programs for the cooperative business, management problems and the role of government in cooperative development

AGB 231 E-Marketing

Fundamental Principles of e-commerce, e-marketing, and e-business. Relating the principles to the Nigerian economy, use of internet for sales, communication cost reduction, and a brand building tool, basic internet technology, Practical application of internet and e-commerce to Nigeria economy. Understanding the internet; Internet Resources; Challenges of Cyber Marketing; Creating and Maintaining Market Presence on the Internet; the Internet and the Marketing Mix; The Internet and e-commerce Selected Applications; e-Customer and e-Tools; Traffic Building; E-Planning.

AGB 234 Agricultural Product Marketing

The scope of the marketing problem in rural areas; marketing organization and marketing structures; traditional field crop, horticulture and forestry product market systems: small farmers in traditional marketing systems and their problems; marketing alternatives for small-scale farmers in rural Africa; direct farmers' markets (open/closed buildings): price for produce in farmers' markets; characteristics of farmers' markets: pick your own markets (PYO); characteristics of PYO; factors influencing price in PYO; road-side stand kiosks, and their characteristics; factors for marketing horticulture crops; vegetable product; tropical and sub-tropical fruit production: ornamental and landscape horticulture: floriculture, post-harvest or horticultural produce; horticultural crop protection, and bridling. Horticultural policy; marketing/production interfaces; pesticide, usage, pricing and costing export, handling, credit and finance; marketing mix in horticulture marketing products, place, promotion and pricing; institutional and functional approaches to horticultural marketing horticultural marketing management strategies

Factors affecting marketing of aquaculture and livestock. Production areas and health services: meat, milk products and marketing; livestock policies and constraints affecting livestock marketing; research training and extension; cattle and beef exports, processing, breeding and AI scheme; price policies; livestock development projects.

AGB 241 Farm Practice/ Agribusiness Tourism 1

Hands-on engagement in Animal, crop and horticulture and other aspects of Agric Production in the farm.

AGB 262 Managerial Economics

The goals of the firms and the scope of managerial economics; constrained and unconstrained optimization; market demand and forecasting techniques; the theory of production and quantitative analysis of costs; the theory of firms and industries under perfect competition; implementation of competitive profit-making decisions; the theory of firms with market power and their implementation of profit maximization decisions; multiple plans; markets and products; the oligopoly theory and practice, decision making over time; the theory of investments; decision theory game theory.

AGB 271 Agribusiness Law

The Nigerian legal system divisions and sources of Nigeria law, common law and equity; case law and precedent; legislation including the nature and effects of military decrees, edicts and statutes, interpretation; customary law and sharia law – meaning and scope. The court system-outline of the structure and hierarchy of courts, officers of the court, qualification of judges, compositions and jurisdictions of various court summons. Outline of the nature of special tribunals. Forms of legal liability substance, comparison and contrasts between criminal and civil liability. Defamation (i.e. libel and slander), negligent misstatements and passing off. Law of contract-nature and essential elements of a valid contract, offer and acceptance, consideration formality, capacity, consent vitiating factors, privity of contract, terms of contracts, discharge of contract, remedies for breach of contract, termination of contract, etc. law of Agency-its creation and types, rights and duties of principal and agents, termination of agency. Sale of Goods-meaning and types of relevant goods, conditions, warranties and caveat emptor doctrine, transfer of title and risks; the duties and rights of seller and buyer. Breach of the sale of goods contract and remedies. Law of Tort-Definition of Tort, the Tort of professional negligence, vicarious liability, criminal and civil liability.

ANS 272- Fishery and Wildlife Management

The important fishes and wildlife of west Africa with emphasis on Nigeria species; classification, evolution, morphology and basic structure of fishes; The adaptation of fish to aquatic life; Life cycle of principal species of fishes

and wildlife; Significance of fishes and wildlife in the diet of Nigerians; The fish and wildlife industries in Nigeria; Fundamental principles of fish and wildlife management and production.

AGB 273 Leadership and Change Management I

Introduction to leadership - definition of a leader, types of leaders, characteristics of good leadership; key leadership functions; the role of a leader in strategic planning and orientation; the power, political, and leadership dynamics in different environments; individual leadership potential; developing leadership behaviors and attitudes in interaction with others; developing personal leadership vision; management or leadership; characteristics of high performing teams; analysis of characteristics of high performing teams; conflict management; project management; final project: presentation.

AGB 274 Leadership and Change Management II

Creation of a Sense of Urgency - create a sense of urgency to facilitate change, communicating a strong need for change; identifying the reasons for change; creating a motivation for change; evaluation of your current situation ; formation of a Powerful coalition; team-building; developing a vision for organization; Vision communication and Strategy; incite action (implementation); generate short term results (evaluation/measurement); Never Give Up - the characteristics of “never give up stage”;Incorporating changes in the culture.

ANS 274 Principles of Animal Production

Animal production and its Development; The Livestock Industry – Problems and Prospects; Description of Breeds of Cattle, Sheep, Goats, Pigs and Rabbits; Systems of Livestock Production; Feeding habits of Farm animals; Principles of Breeding and Livestock Judging; General Principles of Management of different Types of Animals.

AEC 301-Basic Farm Management and Production Economics

Decision-making in the farm firm. Production function analysis. The principles of cost minimizing and profit maximizing. Application to the selection of farm enterprises. Analysis of farm investment opportunities. Problems of land tenure. Demand for factors of production. Enterprise budgets.

AEX 301- Introduction to Rural Sociology

Meaning of sociology and rural sociology; Basic concepts and principles of rural sociology to an understanding of rural situation; importance of rural sociology in agricultural extension and their interrelationship; Importance of rural communities and institutions, Characteristics of Nigerian rural society – differences and relationship between rural and urban societies; Social groups – classification, formation and organization of groups; Social stratification –

meaning and forms; Culture and their roles in agricultural extension; Social processes and social change in rural areas; Leadership in rural communities – meaning, classification of leaders, roles and functions of rural leaders and different methods in selection of leaders; Training of leaders – lay and professional leaders; Development of rural community leaders; The extension agent and the rural community; advantages and limitation of using local leaders in agricultural extension.

AGB 311 Financial Management in Agribusiness I

The nature and purpose of financial management; sources and costs of short, medium and long term finance; sources and problems of new financing, capital budgeting; Management of working capital; analysis and interpretation of financial statements; mergers and acquisitions determinants and implications of dividend policies; valuation of shares, assets and enterprises; risks of finance and methods of avoiding them; banking systems and industrial finance, mortgage finance; capital structure of Nigerian firms.

Introduction to Capital Market and Portfolio theory; Financial Market; Description of the Nigerian capital market; Risk and Return management. Portfolio theory: Portfolio risk and return; Optimal portfolio concept. Capital Market theory: capital market line, diversification. Arbitrage pricing theory; Capital market efficiency theory; Current state of empirical evidence on models for evaluating portfolio theory.

AGB 322 Management Information system in Agri-Enterprises

Information gathering: processing, analysis and design techniques for developing systems responsive to managerial needs; computers and information management; information storage and security; information use in planning control and operational functions; business data processing systems, their capabilities usage and limitations; management of internet technology.

AGB 323 Strategic Supply, Logistics and Mgt for Agribusiness Firms

Meaning and importance of strategy; strategic importance of the supply chain management in business; elements of the strategic alignment model and application in real-world businesses; challenges faced in implementing a supply chain operating strategy; elements of the supply chain management performance; efficient customer response (ECR), cooperative planning, forecasting and replenishment (CPFR); dynamics of supply chain designs; quality assurance; supply chain logistics and infrastructure, policies and laws governing supply chains; contracts and tenders.

Definition of procurement; basic procurement/purchasing procedures; principles of logistics; logistic information systems; Inventory management; materials flow and transport management warehousing material handling; organization of logistics; factors to consider in the choice of logistic options for agribusiness.

AGB 324 Principles of Agribusiness Risk Management

Risk analysis and forecasting, financial instruments to manage exposure to risk (Credit, market risk, financial risk modeling, risk adjustment); return on capital. Nature of risk to business; areas of risk; sources of risk in agribusiness; managing risks in agribusiness; global demands and trends; security and strategic factors. Introduction to insurance; life assurance laws; insurance of the person; marine and aviation insurance; property and pecuniary insurance; motor insurance; underwriting and claims; insurance broking; re-insurance and marketing of insurance services.

AGB 326 Agribusiness Incubation Methods

Definitions. Types of incubation services. Types of business incubations. Incubation programmes. Incubation process. Goals and sponsors. Choosing the right sponsors. Sponsor arrangement. Incubation networks, incubation funding. Evolutional and diversifications of incubation models. Formation of business incubation. Practical lessons for launching and managing a business enabler in developing countries.

CED 341 Introduction to Entrepreneurship

Definitions, Concepts and Theoretical framework of Entrepreneurship; Business opportunity Evaluation; Source of information and Screening Venture Opportunities, Generation of New Venture Ideas, Business Planning Process, Criteria used by entrepreneurs, Angel and Venture Capital Investors in evaluating Potential Ventures.

CED 342 Business Development and Management

Leadership; Customer loyalty; Time management; Decision making process; Effective interpersonal relationship management in an organization; Business Development, Business Environment, Cooperatives; Information management, Analysis of Market Situations, Production Plan; Financial Plan, Business Plan, New Venture Creation and Documentation, Accessing Financial Assistance from Financial Institutions and other capital agencies.

AGB 342 Farm practice/ Agribusiness Tourism II

This course covers student visitation to Agribusiness and Allied organizations. The Tourism involves arranged teaching of students on various Agribusiness management practices peculiar with the businesses visited. Teaching will be carried out by professionals and/or specialists who are not the formal teachers of the students. The students will be expected to develop a written report on the study at the end of the Tourism.

AGB 351 Food Security I

Introduction to Food Security; the four dimensions of food security; the concepts of hunger and food insecurity; the concept of malnutrition; poverty in Nigeria, the ECOWAS region, and Africa; effects of poverty on sustainable livelihoods; causes and consequences of food insecurity including conflicts, governance and climate change; food security in sub Saharan Africa; food and nutritional crisis in the ECOWAS; climate change and food security in Nigeria; opportunities and challenges in different regions ; the role of women in agriculture ; gendered gaps in the agricultural

sector; actions and numbers; Gender, Climate change, and food security; gender, food security, and nutrition. Concepts and methods of sustainable Agriculture.

AGB 352 Food Security II

The role of institutions in food security - key local and global actors and stakeholders involved in food security; the goals and approaches of the institutions working on ensuring food security; the complementarities and differences in the approaches of the various stakeholders; the strengths and weaknesses of the various approaches to addressing food security; evaluation of the effectiveness of local and global institutions in addressing food security in the ECOWAS region or in Africa.

Policy Reforms for Increasing Food Security - the differences between a law and a policy; the role of institutions and policy in economic development; the policy-making bodies and institutions in Nigeria, the ECOWAS, and Africa; the existing country and regional laws and policies on agricultural production and food security. Practical Steps for Eliminating Food Insecurity - The economic and political circumstances required in ensuring and sustaining food security in Nigeria/Africa; Agriculture-related businesses necessary to support food production in your local community. Roles and responsibilities of community members in ensuring food security.

AGB 354 Agricultural Development

Agricultural development in historical perspective; models of agricultural growth; determinants of urban-rural disparity, the role of technology in agricultural growth; interdependence between agricultural growth and economic growth; inequality and poverty; models for the analysis of food security, and sustainable agriculture; agricultural development issues in the country.

AGB 371 Agribusiness and Value Chain Analysis

The concept of the value chain; evolution of the value chain concept; types of models of the value chain; the value creation process, value chain activities and margins, agribusiness value chains, their analysis and management value chain organizations; value chain actors; value chain markets.

ANS 371 Non- Ruminant Animal Production

Management of breeding stock; Growing and young animals; Housing equipment and feeding principles of poultry; rabbits and pigs; Productions and management practice; livestock economics, health management of non – ruminant animals.

AGB 372 Communication and Negotiation Techniques

Communication skills: communication process; barriers to open and closed communication; appropriate responses to ensure open communication; handling the objection process; appropriate responses in the workplace; presentations following the persuasive selling framework. Negotiation skills: principles behind effective negotiation and the tools necessary to achieve a win-win situation with the customer when negotiating; the 7 key steps in successful negotiations.

ANS 372 Ruminant Animal Production:

Management of breeding stock; Growing and young animals; Housing equipment and feeding principles of cattle; sheep and goats; Productions and management practice; livestock economics, health management of ruminant animals.

AGB 374 Agribusiness Value Addition Production Technology

Meaning and concept of value addition. Philosophy and principles of post –harvest technology; review of modern techniques in food processing, packaging and storage. Historical development of the Nigeria food industries with emphasis on indigenous concepts and cottage industries for various food commodities. technological limitations, problems and prospects of the Nigerian food industry. Sensory and nutritional characteristics of food as affected by method of preservation. Quality control measures, role of legislation agencies and food legislation. Commercialization of research results by the Nigeria food industries, constraints and way forward.

AGB 391 Agribusiness Research Methods

Introduction to research methods; Planning and managing research for development; data type and sources; research design; operationalising and testing hypothesis; key research techniques; sampling; conducting a questionnaire survey; data collection and management; results reporting and interpretation; research tools and data storage and retrieval.

AGB 402- Introduction to Operations Research

Operations research definition and origin; linear programming and allocation of resources: linearity requirements: expressing linear programming problems, constraints; maximization and minimization problems: the theory of the simple method; dualism; game theory; activity analysis: input-output models: decision theory; transport problems: queuing theory; simulation and critical path analysis.

AGB 411 Financial Management in Agribusiness II

Financial management theories; capital budgeting decisions; evaluation methods; duration problems; inflation analysis. Capital structure decisions; net income approach; net operating income approach; M-M approach; operating and financial leverage; insolvency and liquidation; dividend policy. Working capital management; current asset management; short-term sources of funds; financing decisions; major theoretical advances in portfolio theory; capital asset pricing model under uncertainty: extensions, valuation of financial derivatives; mergers and acquisitions; financial restructuring alternatives: management buy-outs; reconstruction shams; e-commerce and current developments in finance.

AGB 421 Strategic Agribusiness Management

Strategic management and business policy: definitions and scope: difference with other aspects of management; E-V-R models: SBUS: dimensions of strategic management; strategic managers, and strategic decisions scanning the external and internal environments SWOT analysis.

AGB 431 Agric Price Analysis

Price movements, price trend analysis, distributed lags theory, cobweb theory, moving averages. Different approaches for different products, vend our price, previous price, in-house estimates. Historical prices, market prices and published prices. Price determination and price discovery. How to use Price Analysis (Case study).

AGB 432 Agricultural Commodity Exchange and Marketing

What is commodity exchange? Types of commodity exchange in Africa. Futures markets: types, function, organization and management. Mechanics of futures market, orders, various types of futures contract, variants of futures and stock market (derivative). Foreign current interest rates, futures and stock futures mechanisms of operation. Prospect of and impediments to development of futures and commodity exchange in Nigeria.

AGB 433 Agribusiness and Cooperative Marketing

Agribusiness sectors: input, farm, output and the government. Problems of agribusiness sectors in Nigeria. Definition of cooperatives, types of Agribusiness. Cooperatives in the Agricultural sector. The nature of cooperative. Structure and organization of cooperatives. Principles of agribusiness cooperatives. Control and management of primary and secondary cooperatives, Limitations of cooperative enterprise, Women in Agribusiness co-operatives. Advantages and disadvantages of cooperative marketing. Types of cooperatives of marketing.

AGB 434 Agribusiness and International Trade

Definition of International trade: the theory of comparative advantage, quotas, tariffs and other trade restrictions; International movement of material and capital; trade linkages with other sectors of the economy; the importance and structure of external trade, Intra-African trade: trade policies: Import substitution, export promotion, fiscal and monetary policies and agricultural trade; balance of payments; disequilibrium and adjustment; world and regional trade organizations.

Meaning of export management; Advantages and disadvantages; Trading overseas business plan; Export promotion councils; Management skills required in foreign market freights; logistics and specialized transport issues for export import managers; free trade zones and bonded warehouse; technology in global business; globalization and management. Export compliance and security management. INCO terms and documentation. Development of Resources in the export supply chain management. Strategy for entry into international markets; control and management of MNCs; Organizational structure and operating mechanisms of MNCs; board of directors; pricing policies, relationship with Government agencies, counting public interest issues; marketing to trade blocks and common markets; international financial operations. Definition of Multinational Investment: issues in Multinationals and third world economic development. The new economic order and the MNCs. Third world Multinationals. National and International control of Multinationals.

AGB 451 Development Planning and Agribusiness

Economic planning: Meaning, concept and terminologies, Related issues in planning and Agribusiness; Development planning mechanisms; Choice, role and specialization. Price system; accounting price and shadow price. Plan formulation; the macro phase and business system; assumption in plan formulation; capital output ratio and optional investment allocation; input –output analyses in plan and business systems; Choice element in plan formulation; goals, choices techniques and Strategies; Project formulation and evaluation of integrated plan; development model in economic planning types of plans in Nigeria – perspective plan, annual plan, rolling plan, VISION 2020; Development planning expectancy in Nigeria; nature of economic growth and development.

AGB 453 Agribusiness Policy

Business policy as a field of study, the Concept of Corporate, Strategy: Concept of Corporate Strategy: Concepts of Strategy in relation to business. fundamental Approaches to Strategic Studies. Linkage between organizations and their environments. Formal Strategic Planning System in a Firm. Concept of policies, decision – making, business objectives, performance criteria, structure and managerial behaviours. Practice in calculating simple financial and economic indices from business data and other accounting information. Learning the ties and threats, strengths, and weaknesses of Business Systems. How to Evaluate Corporate Strategy; Advance Treatment of Strengths and Weaknesses, planning Corporate Strategy; Strategic Management and the Strategic Management Process; project Implementation; Strategic resources allocation procedure, financial aspect of Corporate Policy; Strategy and Business Portfolio; Evaluation of strategic planning system; Resources Allocation Model; the theory of optional investment planning. Resources in Nigeria. Factors in Lease-Levy Decisions: Lease vs. Borrowing.

AGB 461 Consumer Economics

Origins and strategic applications. Consumer motivation. Factors affecting consumer behaviour. Consumer decision making process.

AGB 462 Economics of Food Distribution

Agribusiness marketing concept- key marketing concepts: Customer Needs, Value, Exchange, Markets. Marketing sub-systems- Marketing functions, exchange functions, Physical functions. The law of demand and supply and theory of demand and supply. Elasticity of demand and supply, availability of substitutes, number of uses to which a commodity can be put, proportion of the income spent on the product, degree of commodity aggregation. Price mechanism in food and agribusiness commodities- elements of pricing, pricing decisions, profitability objectives, volume objective, competitive objectives, prestige objectives, strategic marketing objectives, pricing strategy, pricing and the product life cycle, lifetime pricing. Concept of commodity marketing – Grain marketing, Livestock and meat marketing, poultry and eggs marketing, marketing of fresh milk.

AGB 491- Research Seminar

Presentation of students' research proposal (chapters 1, 2 and 3 of their project) for input of the department. Presentation of students' proposals and other topics as may be determined by the Department.

AGB 492- Research Project

Students are supposed to carry out research in any area of their choice or they may be assigned areas by their advisers. These researches are geared towards problem-solving and culminates in a project report.

AEC 503- Farm Management and Production Economics

Scope and nature of production economics. Theory of production. Production relationships. Goals of production. Nature and structure of farm resources. Organization of production – farm cost functions. Agricultural supply functions. Production planning research: The linear programming approach. Case studies.

AEX 524- Advanced Rural Sociology

General Sociology Theory; Analysis of Social Structure of Rural Agrarian System and Societies; Selected Theories of Social Change and Their Potential for Modernization of Rural Societies; The Rural Urban Continuum; Demographic Characteristics of Rural Nigeria; Social Change Attitude Change; Measurement of Change in Rural Societies; Economic Aspect of Social Change; Group Dynamics; Traditional Institutions and Their Transformation in Nigeria; Leadership Patterns; Involvement of Local People in Directed Change; Problems of Rural Societies, their causes and solutions; Rural Development Models; Case Studies of Rural Development Projects.

AEC 552 – Planning and Appraisal of Agricultural Projects

Theory, procedure and data requirements for appraisal and evaluation of agricultural projects and programmes. Project life cycle. Discounted and non-discounted measures of project worth. Economic and financial analysis. Case studies.

Agricultural Economics

Brief History of the Department

The Department of Agricultural Economics, University of Nigeria Nsukka, is one of the eight Departments in the University's Faculty of Agriculture. The Department started in 1961 as the Department of Agricultural Economics and Extension. It was later split into two respective Departments of Agricultural Economics and Extension in 1981. The broad span of its curriculum for training of persons in both the agricultural and other sectors of the economy makes the Department a most popular choice by students.

For a meaningful academic pursuit, the Department has a Departmental Library which houses books and research reports in different areas of Agricultural Economics. There are also, a Faculty Library and the Main University Library at the service of both staff and students. These libraries stock journals, textbooks and governmental and non – governmental publications relevant to the discipline. The Department also has an Information and Technology Laboratory for the training needs of the students. In addition to the undergraduate programme, the Department has a large postgraduate programme. In terms of numerical strength, it runs one of the largest postgraduate programmes in the University.

Services of specialists in the Department are also available for training and consultancy services in all areas of Agricultural Economics. The Department offers programmes at the Undergraduate and Graduate levels. The undergraduate levels programme runs a five programme leading to the degree of Bachelor of Agriculture, with a specialization in Agricultural Economics. The Graduate programme offers courses leading to a PostGraduate Diploma, Master of Science and Doctor of Philosophy in Agricultural Economics.

Philosophy of the Programme

Agricultural Economics applies the analytical models of economics to agricultural problems. It applies the principles of choice in the use of scarce resources such as land, labour capital and management in farming and allied activities. The programme is also concerned with improving the economic rationality of decisions made within the agriculture, natural resources and public sector of the economy. It seeks to offer practicable solutions in using scarce resources of the farmers for maximization of income and profit as well as using the economic knowledge in solving real life socio-economic problems associated with sustainable agricultural production and rural development.

Objectives

The objectives of the programme are to:

- provide graduates with requisite knowledge, skills and attitudes that will enable them to apply relevant economic principles to the real life problems of Nigerian agriculture.
- provide broad practical and theoretical training in the basic agricultural sciences for the first three years and a full year's practical training in approved farms and other agro-based establishments during the fourth year.
- provide adequate knowledge and skill in agriculture and related areas that would provide solutions to Nigeria's agricultural and rural development problems and improve agricultural productivity in general.
- equip graduates with knowledge and skills to establish and operate their own farm related enterprises.

Scope

The programme is designed to provide broad practical and theoretical training in the basic agricultural sciences for the first three years and a full year's practical training in approved farms and other agro-based establishments during the fourth year. In the fifth (final year), the students are given intensive courses in the following areas of Agricultural Economics, namely: Farm Management and Production Economics, Economic Theories, Quantitative Techniques, Agribusiness Management and Finance, Project Analysis, Cooperatives and Agricultural marketing.

Job Opportunities

Graduates of this Department are employed in Credit/Corporate Finance Departments of Commercial, Merchant and Development Banks; Agricultural Consultancy firms; Agribusiness; Research Institutes; Agricultural Development Projects; Ministries of Agriculture, Rural Development, Cooperatives, and Budget and Planning. In fact, as the economy develops more, agricultural economists would be required in various sectors of the economy such as commodity exchanges and in international agencies or organizations.

Entry Requirements

Candidates for admission by UME entrance examination must satisfy the University entry requirements and in doing so, must have obtained credits in Chemistry, Biology or Agricultural Science, Mathematics, English and the fifth credit can be Physics, Economics or Geography in the West African School Certificate Examinations, and/or Senior Secondary Certificate (SSC).

Courses

Stress Areas

Production Economics and Farm Management	0
Marketing and Agribusiness	1
Accounting	2
Cooperatives	3
Finance	4
Agricultural Development and Policy and Planning	5
Research Method/Seminar	8
Project	9

COURSES OUTLINE

First Year

First Semester

Major Courses

Title

Units

AGR 101	Biomathematics	2
AEC 151	Introduction to Agricultural Economics	2
Required Ancillary Courses		
CHM 101	Basic Principles of Inorganic Chemistry	2
CHM 171	Basic Practical Chemistry	2
BIO 151	General Biology I	3
MTH 111	Elementary Mathematics I	3
MTH 121	Elementary Mathematics II	2
General Studies Courses		
GSP 101	Study Skills and Basic Research Methods	2
GSP 111	Use of Library and Study Skills	2
Total		20

Second Semester

Major Courses	Title	Units
AGR 102	Agricultural Physics	4
Required Ancillary Courses		
CHM 112	Basic Principles of Physical Chemistry	2
CHM 122	Basic Principles of Organic Chemistry	2
BIO 152	General Biology II	3
BIO 154	General Biology (Practical)	2
General Studies Courses		
GSP 102	Basic Grammar and Composition	2
Total		15

Second Year

First Semester		
Major Courses	Title	Units
AGR 201	General Agriculture	3
CSC 211	Principles of Forestry	2
SSC 211	Principles of Soil Science	2
CSC 221	Principles of Crop Biology & Introductory Biotechnology	2
ANS 241	Nutrition, Anatomy & Physiology of Farm Animals	2
Required Ancillary Courses		
COS 101	Introduction to Computer Science	2
General Studies Courses		
GSP 201	Basic Concepts and Theories of Peace and Conflict	2
GSP 207	Logic, Philosophy and Human Existence	2
Total		17

Second Semester

Major Courses	Title	Units
AEC 202	Principles of Agricultural Economics	4
FST 102	Introduction to Food Science & Technology	2
ANS 222	Introduction to Agricultural Biochemistry	2
SSC 242	Climatology and Biogeography	3
CSC 222	Principles of Crop Production	2
ANS 274	Principles of Animal Production	2
ANS 272	Fisheries and Wildlife Management	2
HND 102	Introduction to Home Science Nutrition and Dietetics	2
General Studies Courses		
GSP 208	Nigerian Peoples and Culture	2
GSP 202	Issues in Peace & Conflict Resolution Studies	2
Total		23

Third Year**First Semester**

Major Courses	Title	Units
AEC 301	Basic Farm Management and Production Economics	3
AEX 331	Rural Sociology	2
CSC 321	Arable Crop Production & Crop Ecology	2
SSC 321	Soil Pedology	2
CSC 331	Principles of Crop Protection	2
CED 341	Introduction to Entrepreneurship	2
ANS 371	Non-ruminant Animal Production	2
AEC 381	Introduction to Econometrics	2
ECO 311	History of Economic Thought 1	2
Required Ancillary Courses		
COS 201	Computer Programming I	2
Total		21

Second Semester

	Title	Units
AGR 302	Agricultural Statistics and Data Processing	2
AEX 332	Extension Teaching Methods	2
ANS 322	Agricultural Biochemistry & Methods	2
CSC 342	Permanent Crop Production	2
CED 342	Business Development and Management	2

SSC 362	Soil Chemistry & Microbiology	2
ANS 372	Ruminant Animal Production	2
AEC 306	Introduction to Mathematical Economics	1
Required Ancillary Courses		
ABE 306	Introduction to Farm Machinery	2
Electives (Students should choose any one only)		
CSC 322	Crop Genetics & Breeding	2
ANS 332	Animal Genetics & Breeding	2
TOTAL		19

Fourth Year

First Semester

Major Courses	Title	Units
AGR 401	Agricultural Products Storage	2
CSC 421	Crop Production & Biotechnology Techniques	4
CSC 431	Crop Protection & Pest Control	2
SSC 431	Soil Survey, Farm Design & Land use Planning	2
SSC 441	Agricultural Meteorology, Irrigation and Drainage	2
ANS 471	Animal Husbandry Techniques	3
TOTAL		15

Second Semester

Major Courses	Title	Units
AGR 402	Farm Work Project and Report Writing	6
AEX 412	Agric Extension Practices	2
AEC 422	Farm Management and Accounting Practice	2
SSC 462	Soil Fertility, Soil & Water Management	2
Required Ancillary Courses		
ABE 412	Agricultural Engineering Practical	2
AHP 433	General Animal Production in Health and Diseases	2
TOTAL		16

Fifth Year

First Semester

Major Courses	Title	Units
AEC 501	Economic Analysis	2
AEC 503	Agricultural Production Economics and Farm Management	2
AEC 511	Agricultural Marketing	2
AEC 521	Farm Accounting and Records	1
AEC 581	Methods of Social Research	3
AEC 505	Introduction to Resource and Environmental Economics	1
AEC 583	Seminar	2
Required Ancillary Courses		
AEX 515	Agricultural Extension Administration	2
AEX 521	Communication and Diffusion of Innovation	3
Total		18

Second Semester

Major Courses	Title	Units
AEC 512	Agribusiness Management and Finance	2
AEC 532	Agricultural Cooperatives	2
AEC 554	Agricultural Development Planning and Policy	2
AEC 552	Planning and Appraisal of Agricultural Projects	2
AEC 584	Introduction to Operations Research	2
AEC 592	Project	4
Required Ancillary Courses		
AEX 556	Rural Community Development	2
AEX 552	Advanced Rural Sociology	2
Total		18

COURSE DESCRIPTION

AEC 151 – Introduction to Agricultural Economics (2 units)

Basic concepts of Economics: definitions, concepts of demand and supply, factors of production; Application of economic principles in agriculture; Concepts of agricultural marketing; Basic concepts of

farm management including cost and return, budgeting and management principles; Basic concepts of agricultural finance, including investment decision criteria; Concepts of agricultural cooperatives; Basic concepts in farm accounting; Basic concepts of resource and environmental economics including definitions of climate change, adaptation and mitigation.

AEC 202 – Principles of Agricultural Economics

(4 units)

Basic Principles of Micro economics relevant to Agriculture; Demand and Supply; Elasticity; Theory of Production and Cost; Perfect Competition and Monopoly; The Structure and Organization of Agricultural Production; The Circular Flow of Income; Determination of Equilibrium Level of Income; Consumption and Investment Functions; Theory of Money, Nature and Structure of Financial System with special reference to agriculture; International trade.

AEC 301 – Basic Farm Management and Production Economics

(3 units)

Role and functions of management; Enterprise, partial and whole farm budgeting and planning: Cash flow budgeting; linear programming (graphical approach); Highlights of balance sheet, Income statement, and whole farm business analysis; Forms of business organization; Capital and use of credit; Investment analysis; labour, land and machinery management; Production functions using one variable input, and two variable inputs; product – product relationship; Least cost principles; diminishing returns; break-even analysis in production.

AEC 303 – Economics of Agriculture I

(2 units)

Meaning, Scope and Methods of Economics; Application of Economics of Agriculture; Role of Agriculture in Economic Development; Factors of Production in Agriculture; Types of Agricultural Organisation; The Production Concepts; Revenue Concepts; Cost Concepts; Principles of Cost; Minimizing and Profit Maximizing; Break – Even Analysis; Product Combinations; Enterprise Budgets; Compounding and Discounting.

AEC 304 – Economics of Agriculture II

(2 units)

Major types of Imperfect Knowledge; Types of risk, Strategies for Reduction; Land and Production Potentials; Land tenure arrangements; Tenurial Classes, Effects of leasing Practices, Types of Rents, length of tenure on capital; Factors affecting the economic supply of land resources; Population Pressure and demand for land; Principles of agricultural land and property appraisal; statistical approach to appraisal; Farm productivity appraisal; Types of appraisal.

AEC 306 - Introduction to Mathematical Economics (1 unit)

Meaning and scope of Mathematical Economics; types of equations; the real number system; set theory; Relations and functions; matrix algebra; Differential calculus; Elementary optimization theory; integral calculus; Probability theory; Elements of Statistical interference.

AEC 381 – Introduction to Econometrics (2 units)

Econometric theory in production; Simple regression; violation of basic assumption; Estimation with bad or deficient data; multiple regression; Statistical demand analysis; Statistical production and cost analysis; Methods and application of econometrics to agricultural problems.

AEC 422 – Farm Management and Accounting Practice (2 units)

Definition and concepts; Basic Principles of accounting applied to agricultural enterprise; Single entry and double entry system; Use of double entry book keeping; Journals-the cash book and specialized journals, types of accounts and the ledger, the trial balance; Case study; Practical work experience in Farm Management and Accounting; Discussion and application of Farm Management and Accounting principles and methods to actual problem situation on small and large farms.

AEC 501 – Economic Analysis (2 units)

The Cob-web Theorem; Price ceiling and Floor; Consumer behaviour; utility, indifference curves, elasticity. Market structure, IS-LM analysis; Nominal GDP and Real GDP; GDP Deflation and Inflation; Intermediate and Final Goods; The Multiplier; Forms of unemployment; Nominal wages vs Real wages Inflationary Distortion in Saving and Investment; Functions of money; Stabilization of the economy through fiscal policy.

AEC 503 – Agricultural Production Economics and Farm Management (2 units)

Scope and nature of production economics; Theory of production; Production relationships: factor-product, factor- factor and product-product; Least cost principles; diminishing returns; break-even analysis in production; Goals of production; Nature and structure of farm resources; Role and functions and scope of farm management; Farm Budgeting: Enterprise, partial and whole farm budgeting and planning, Cash flow budgeting; Financial Statements- Income statement, Balance sheet and whole farm business analysis; Forms of business organization; Investment analysis; Organization of production – farm cost functions. Agricultural supply functions. Production planning research: The linear programming approach; Case studies.

AEC 505 - Introduction to Resource and Environmental Economics (1 unit)

Meaning of Environmental Economics; Natural Resources-nature, scarcity; components of the environment; The Human-Environment relationship; Environmental problems and Policy solutions; Social choice in Environmental Protection; Social cost-benefit analysis; Efficiency and markets; Market failure and externalities; Policy Instruments for Environmental Protection. Case studies

AEC 511 – Agricultural Marketing (2 units)

Meaning and Scope of Agricultural Marketing; Evolution of Agricultural marketing; Relationship between marketing and production; Economic Importance of Marketing and Markets; Special features of Agricultural products; The Role of farmers in Agricultural Marketing; Approaches to Agricultural Marketing; Marketing Agencies/Middlemen; Marketing Channels; Marketing Chains; Market Integration; Market structure and Conduct; Marketing Margins, Costs and Efficiency; Elementary Theory of Demand - factors affecting demand and supply for agricultural products, Elasticity of Demand, Coefficient of Elasticity, Cross elasticity of demand, Elasticity of demand for food, Income Elasticity of Demand, Income Elasticity of Demand, Engel's Law, Factors affecting supply for Agricultural commodities, Elasticity of Supply, Problems of confronting Agricultural Marketing; Market Improvement Techniques; The 4P's of Marketing; Product Life Cycle; International Trade; Case studies.

AEC 512 - Agribusiness Management and Finance (2 units)

Sectors of agribusiness; Key functions of management; Four key tasks of agribusiness managers' organization of agribusiness; Cooperatives in agribusiness; Marketing management; Human resource management. Financial management and control of agribusiness; Financial Statements; Human resource management; Operating the agribusiness; Sources of Finance; Loan repayment terms; problems of agribusiness finance in Nigeria.

AEC 521 – Farm Accounting and Records (1 unit)

Basic principles of accounting applied to agriculture; Practical use of accounts and records in the management of the farm; Installation of accounting systems to meet specific requirements; Use of double-entry book-keeping; Journal Ledgers, Preparation of Balance Sheet; Profit and Loss Statements; Kinds, functions and relevance of farm records and accounts; Budgeting and decision-making based on farm records.

AEC 532 – Agricultural Cooperatives (2 units)

Philosophy, Definition and Principles of Cooperation; Core values of Cooperative; Origin of Cooperative in Nigeria and some other countries; Introduction and progress of modern Cooperative Societies in Nigeria; Organization and kinds of cooperation; Organization and Management of Cooperatives; Cooperative Institutions and Institutional frame work of the cooperative movement in Nigeria; The international cooperative alliance(ICA); Dual service Agricultural Cooperative societies; Cooperative

marketing and production; Main purpose of Ccooperatives; Cooperative institutions; Theories of cooperatives development; Problems and prospects of Ccooperatives in Nigeria; Government interventions and policies for Cooperative Development in Nigeria; International and comparative Cooperatives; Cooperative as a business entity. Case studies.

AEC 554 – Agricultural Development Planning & Policy

(2 units)

The Concepts and scopes of Agricultural and Economic Development; Place of agriculture in economic development; Inter-relationship between agriculture and rural development; Factors affecting Agricultural development; Obstacles to Agricultural and Economic development. Models of Agricultural Development; Theories of economic development; Sustainable Agricultural Development; Role of Food security in Sustainable Agricultural Development; Climate Change and Sustainable Agricultural Development; Food and Agricultural Policies for Nigerian agricultural development; Women and Agricultural Development; Case studies of developed and developing countries.

AEC 552 – Planning and Appraisal of Agricultural Projects

(2 units)

Basic Micro –Economic concepts- the Trio of Scarcity, Choice and Opportunity Cost; Personnel Management in Project Development; Types of Agricultural Project organization; Theory, procedure and data requirements for appraisal and evaluation of agricultural projects and programmes. Project life cycle; Cash flow analysis; Discounted and non-discounted measures of project Viability; Uses of Discount Techniques- the annuity factor, the perpetuity factor, the capital recovery factor, the sinking fund factor; The role of the Discount and its Estimation; Criteria for determining the viability of a project; Methods of calculating IRR; Economic and financial analysis. Case studies.

AEC 581 – Methods of Social Research

(3 units)

Concept of Social research; Science and scientific method; Criteria for choosing study area and topic Simple statistical techniques; proposals writing and presentation; Stages of research project; Sampling techniques; Probability sampling: simple random sampling, systematic random sampling, stratified random sampling, cluster sampling; Determining sampling size, sampling frame, Unit of analysis, error, standard error; Accuracy, Precision and bias; Model specifications; Data collection: data types, types of data from surveys, Data collection methods; Data Coding; Data Sorting; Data processing and quality control; Data analysis and Reporting: function of Data analysis, types and dimension of data analysis, multivariate analysis; Referencing: importance, types and styles.

AEC 583 - Seminar

(2

units)

Presentation of students' research proposal (chapters 1, 2 and 3 of their project) for input of the department. Presentation of students proposals and other topics as may be determined by the Department

AEC 584 - Introduction to Operations Research

(2 units)

Meaning and scope of operations research, modeling with linear programming, the Simplex method, sensitivity Analysis, Duality and post-optimal Analysis, Simple model, Assumption of linear programming; Principles of solving linear programming; Simplex calculation- force block, second block, third block, Generalization; The optimal solution; computational difficulties in linear programming- infeasibility, unboundedness, degeneracy

AEC 592 – Project units)

(4

Students are supposed to carry out research in any area of their choice or they may be assigned specified areas by their advisers. These researches are geared towards problem-solving and culminate in a project report.

Agricultural Extension

Staff

E. A Onwubuya, B.Sc., M.Sc. (Nigeria), Ph.D. (Enugu)	Professor
M. C. Madukwe, B.Agric., M.Sc., Ph.D. (Nigeria)	Professor
E. M. Igboke, B.Agric., M.Sc., Ph.D. (Nigeria)	Professor
A. E. Agwu, B.Agric., M.Sc., Ph.D. (Nigeria)	Professor
M U. Dimelu, B.Agric., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
N. Ozor, OND, B.Agric., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
J. C. Iwuchukwu, B.Agric., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
J. M. Chah HND, PGD, M.Sc., Ph.D. (Nigeria)	Senior Lecturer
A. N. Asadu, B.Agric., M.Sc., Ph.D. (Nigeria)	Lecturer I
C. E. Nwobodo, B.Agric., M.Sc. (Nigeria), Ph.D. (Reading & Nigeria)	Lecturer I
C. J. Ayogu, B.Agric., M.Sc. (Nigeria)	Lecturer I
I. Q. Anugwa, B.Agric., M.Sc. (Nigeria)	Lecturer I
O. I. Nnadi, B.Agric., M.Sc. (Nigeria)	Lecturer II
R. I. Ozioko, B.Agric., M.Sc. (Nigeria)	Assist. Lecturer
J. C. Okoro, B.Agric., M.Sc. (Nigeria)	Assist Lecturer
C. O. Attamah, B.Agric., M.Sc. (Nigeria)	Assist Lecturer
V. A. Ohagwu B.Sc. (Enugu)	Graduate Assist.
C. E. Udoye, B.Agric. (Nigeria)	Graduate Assist.
T. F. Adeogun, B.Agric., PGD, M.Sc (Nigeria)	Senior Technical Officer
B. Akindele, B.Agric. (Benin) M.Sc., (Ibadan)	Higher Technical Officer
E. C. Ohama B.Sc. (Umudike)	Higher Technical Officer
I. C. Itodo, B.Agric. (Nigeria)	Higher Technical Officer
F. O. Ojo, B.Agric., Tech (Akure), M.Sc. (Nigeria)	Higher Technical Officer
P. O. Arigbo, B.Agric. (Umudike), PGDE (Kaduna), M.Sc. (Umudike)	Higher Technical Officer II
C. Offorma, B.Sc. (Ebonyi)	Extension specialist Assistant
B. N. Ugwuja. NCE, B.Sc. (Nigeria)	Principle Executive Officer II

Brief History

The programme in Agricultural Extension in the University of Nigeria was initiated at the instance of UNICEF in 1965, when the agency entered into an agreement with the University to support the programme for a period of five years. This was done because it was realised that the programmes of the Faculty of Agriculture were defective without a programme in Agricultural Extension. Agricultural development was conceptualised as a system held in place by three important links – agricultural education (which includes soil, crop and animal scientists as well as agricultural economists and extension experts), agricultural research and agricultural extension. The omission of agricultural extension in the Faculty programme was thought a serious one because research and other activities carried out in soil, crops and animals were useless unless their findings were made available to and accepted by farmers; hence, the need for a programme in agricultural extension.

At the inception of the programme in 1965, agricultural extension was organised as part of the Department of Agricultural Economics and Extension because of lack of teaching staff and other logistic support. In 1973/74, the curricular of the Department of Agricultural Economics and Extension were restructured to permit two degree options – Agricultural Economics and Agricultural Extension. In 1981, as a result of greater national awareness of the importance of agricultural extension, the University Senate created a separate Department of Agricultural Extension. The programme started in 1981; the trend in student enrolment at undergraduate and postgraduate levels as well as staff disposition has been in the upswing. The department had always had full accreditation from the Nigerian Universities Commission (NUC) since inception.

Philosophy

The founding fathers of the University of Nigeria believed that there was need to train Nigerian youths locally, and in sufficient numbers, for the formidable task of disseminating useful and practical information from the research base to the rural farm families' for sustainability in food production. Agricultural Extension is based on the philosophy that rural people are intelligent, capable and desirous of receiving information and making use of it for their individual and community welfare. It is purely voluntary and democratic in its approach to people. It is truly anchored on the principle of working with rural farm families where they are, build on what they have, add to what they know and enabling them to develop themselves. The underlying philosophy of the programme therefore, is to high level Agriculture Extension manpower in agricultural production and rural life.

Objectives

The objectives of the programme are to:

1. produce graduates who can put into practice the skills and knowledge gained during practical year by engaging in farming enterprises after leaving school, and demonstrating that farming is a profitable venture thereby contributing meaningfully to industrial and national development;
2. produce a set of new future farmers with technical, productive and entrepreneurship skills who can positively influence agricultural and rural development policies;
3. conduct research and to provide a comprehensive and adequate programme of higher education for leaders in the field of agricultural extension and rural development;
4. improve the quality of rural life of the people in the neighbouring communities through outreach programmes; and
5. create a favourable teaching – learning process that will facilitate a mastery of the concepts, principles, theories, positive attitude, aspiration and skills needed to effectively disseminate innovations (improved technologies, practices and systems) to rural farm-families.

Scope

The programme was designed to inculcate a good understanding of relevant branches of the natural and management sciences which form the basis of a co-ordinated sequence of applied courses offered in the penultimate and final years. An essential feature of the programme is that opportunities are provided for students to gain a broad training in the basic agricultural sciences in the first three years, and a full year's practical training, during the fourth year of the

programme, while the fifth or final year is the year of specialization. The requirements for the degree thus include the completion of the general studies programme of the University, required ancillary courses, necessary electives and the completion of specialized courses in Agricultural Extension. The duration of the course is five years for Unified Tertiary Matriculation Examination (UTME) and four years for direct entry candidates

Entry Requirements

The Department has two modes of entry. They are:

- i. U.T.M.E entry; and
- ii. Direct Entry.

i. Unified Tertiary Matriculation Examination (UTME)

Candidates seeking admission through the U.T.M.E are required to have five credit level passes in the Senior Secondary Certificate Examination (S.S.C.E); West African Senior Secondary Certificate Examination (WASSCE); National Board for Technical Education and Business (NABTEB) or its equivalent. These should include English Language, Biology/or Agricultural Science, Chemistry, either Mathematics or Physics and one social science subject (Economics or Geography) in not more than two sittings.

ii. Direct Entry

To qualify for Direct Entry, candidate must have met the UTME requirements in the relevant subjects plus passes in two subjects at 'A' level in Chemistry and any of the following subjects: Biology, Botany, Zoology, Agricultural Science, Economics, Physics, Geography, Geology or Mathematics. The Department also accepts OND, NCE, HND in Agricultural Science/Animal Health and related fields with a minimum of Lower Credit (Merit) in addition to the UTME entry requirements.

Job Opportunities

Job opportunities for graduates of agricultural extension exist in both the public and private sector such as State and Federal Ministries of Agriculture, Agricultural and Commercial Banks, private agricultural companies, research institutes such as National Institute for Oil Palm Research (NIFOR), Commercial Agricultural Development Programme (CADP), International Institute for Tropical Agriculture (IITA), Agricultural and Rural Management Training Institute (ARMTI) etc., Faculties of Agriculture, Schools of Agriculture, River Basin Development Authority, Agricultural Development Projects and International Organisations. In addition, graduates of Agricultural Extension, Innovation and Communication may become self-employed as farmers, consultants, agro-input dealers, etc. or work with Non-Governmental Organizations (NGO).

Administrative Staff

A. M. Torti, B.Sc (Nigeria)	Assistant Chief Executive officer
A. I. Onah	Senior Data Processing Officer
J. N. Chukwuemeke, B. Ed (Nigeria)	Senior Executive Officer

General Information

Animal science also referred to as Animal Agriculture is a branch of agriculture that provides basic training in the science and art of raising certain species of domesticated and non-domesticated animals for human consumption. It involves the application of many aspects of biological Science, behavioural science, physical science, environmental science and agricultural engineering to produce food and companion animals that meet man's nutritional, social, companionship and to some extent labour requirements. Its knowledge encompasses animal breeding, feeding, care and management, and the processing of animals and their by-products as gained through practical experience and research methods. Animal science also plays a significant role in food security of a nation.

Programme Philosophy

Our philosophy/mission is to admit, train and produce individuals who are well equipped and balanced to take up the challenge of ensuring adequate animal protein supply and food security for the teeming population.

Scope

The Department is dedicated to advancing knowledge and practices in sustainable production, management, and care of animals. Our scope encompasses:

1. Research and education in animal biology, nutrition, genetics, physiology and breeding
2. Development of innovative livestock production systems
3. Promotion of animal welfare and ethical husbandry practices
4. Advancement of food animal production, including meat, dairy and poultry sciences
5. Application of biotechnology in animal agriculture
6. Investigation of animal health, disease prevention and management
7. Pursuit of sustainable and environmentally responsible animal production method
8. Collaboration with related fields such as veterinary science, agricultural economics, and environmental studies.

Aim/Objectives

Our Department aims to prepare students for careers in animal-related industries, research, and academia while contributing to the global knowledge base in animal science.

The broad objective of this elaborate training programme is to equip our Graduates with the required knowledge and skills that will enable them to face the challenging task of making more animal protein available to Nigerians on a sustainable basis.

Specifically, at the end of the B. Agric.(Animal Science) Programme

- (i) Young, dedicated, innovative professionals are prepared for careers in Animal Science.
- (ii) Animal Science graduates would have been exposed to all areas of agriculture hence they are adequately equipped to play a vital role in the development of not only animal agriculture but all aspects of agricultural production.
- (iii) They will be equipped to become successful entrepreneurs in any areas of the livestock industry.
- (iv) Graduates would be able to engage in basic and applied research in Animal Science and by so doing proffer solution to the challenges of food security.
- (v) Graduates will be soundly engaged in formulation and implementation of viable policies for the development of livestock industry in Nigeria.

Job Opportunities

Animal Science is a recognized profession (see The Nigerian Institute of Animal Science Act 2007, No.26) and graduates of Animal Science are Professionals with many job opportunities available to them. Such graduates find employment in academic institutions, industries, immigration services, customs department, meat processing industries, agro-based industries, prison services, Federal and State Ministries of Agriculture and parastatal such as Federal Department of Livestock and Pest Control Services, Animal Production Research Institutes, Agric. Department Agencies, Banks and related Institutions, Universities and other tertiary Institutions. Job opportunities also exist in the private sectors as managers of Animal Production farms, Feed/Mills, Hatcheries and other agri-businesses. Graduates can be self-employed as Management Production Consultants and Specialized livestock farmers.

Entry Requirements

The Department has two (2) modes of entry

- (i) University Matriculation Examination conducted by joint Admission and Matriculation Board (JAMB) mode.
Candidates for entry under this mode must satisfy the university entry requirements and in doing so must have obtained credits in English, Chemistry, Biology or Agricultural Science, Mathematics in the Senior Secondary School Certificate (SSCE) or GCE O/level
- (ii) Direct Entry

For Direct Entry, candidates are required to obtain passes at the HSE or GCE A'Level in chemistry and biology. Candidates with Higher National Diploma (HND) and National Certificate in Education (NCE) and has good passes in the relevant subjects at ordinary level are also considered for Direct Entry.

Courses

History of the Department

The Cardoso College of Agriculture was established as an academic unit in the Faculty of Science when the University was founded in October 1960. It assumed a full faculty status in 1961 with Department of Plant /Soil Sciences as one of the six departments in the faculty.

In 1974, Department of Crop Science was carved out of the Department of Plant /Soil Sciences. Since then the Department of Crop Science has been offering a five-year B. Agric degree with three sub-disciplines (options); Crop Production, Crop protection and Horticulture.

Philosophy

The mission of the Department of Crop Science is to improve the understanding, design and management of integrated, enhanced and environmentally sustainable crop production techniques through innovation, research, learning and technology exchange at community, national and international levels.

Objectives

1. To equip the students with sufficient training and production technology that will enable them engage meaningfully in full-time crop production enterprise.
2. To prepare the students with adequate knowledge and skill to work in Research and Development Institutions at both national and international levels.

Scope

The B. Agric (Crop Science) programme is designed to provide a broad practical and theoretical training in the basic agricultural sciences for the first three years. During the fourth year (farm year), practical training is provided in approved farms and agro-based establishments. During the fifth (final) year, the students are given intensive courses that will enable them graduate in any of the under-listed areas of specialization

Crop Production
 Crop Protection
 Horticulture

Entry Requirement

UME Entry Requirements

Candidates for admission to the Department must first satisfy the University entry requirements. In addition, the UME entry requirements include 'O' Level credits in Chemistry, Mathematics, Biology or Agricultural Science.

Direct Entry Requirements

Candidates must have passed at the principal level in the Higher School Certificate Examination or equivalent passes at the GCE Advanced Level in Chemistry and Biology (or Botany, Zoology or Agricultural Science). Candidates with Diploma in relevant subjects may be offered admission by direct entry to the second year programme.

Career opportunities

Crop science is an applied biological and physical sciences in the production of food and fibre – the foundation of civilization. Training in the department provides job opportunities in various government and private agencies engaged in crop production as well as being self-employed. Graduates work as agricultural and biological scientists and also as research staff of agriculture-based institutions at both national and international levels, technical experts in agricultural farms, Agricultural Development Projects (ADPs), River Basin Authorities, plantations, agro-chemicals industries and food control laboratories, etc.

Job opportunities also exist in customs and quarantine services, agricultural department of financial institutions such as commercial banks and agricultural credit banks.

Brief History of the Department

The founding fathers of the University of Nigeria realized the necessity of postharvest technology in an agriculture-based national economy from the very inception of the University. As a consequence, the University commissioned experts (Profs Kirk Lenton, Hugh Henderson, Wasley Grunkel and James Boyd) of Michigan State University (MSU) which was UNN's collaborating institution to prepare a study which in January 1964 resulted to a report entitled "Educational Development Analysis of the College of Agriculture, University of Nigeria (1964)". This report, among other things, proposed a Department of Food Science and Technology and was approved by the University Council in August, 1964. It was submitted through the Government of Eastern Nigeria to the Government of United States of America (USA) for a development loan from United States Agency for International Development (USAID) to construct the attendant facilities.

However, this and other consequent arrangements in the 1960s were disrupted by the Nigerian civil war (1967-1970), leaving the fruitful arrangements for the initiation of Food Science and Technology Programme to the financially lean years following the civil war – a time when the National Universities Commission (NUC), discouraged new academic programmes. In 1971, the Faculty Board of Agriculture, pressed by the urgent need for trained manpower in post-harvest technology of agricultural products, reopened the case for starting a degree programme in Food Science and Technology. This, once more, received the approval of University of Nigeria Senate and Council. As NUC was reluctant to fund new programmes, no matter the need, it was agreed that Food Science and Technology Programme should be started, based and made to share facilities with Department of Home Economics, under the joint name of Department of Food and Home Sciences. Thus, Food Science and Technology Programme started in this University in 1973, without facilities of its own other than as available in Osmond building (i.e. Home Economics). In May 07, 1981, the Faculty Board of Agriculture deliberated and approved the revised curriculum of each of the two departments (Food Science and Technology and Home Science and Nutrition) for ratification by the University of Nigeria Senate. The Department of Food Science and Technology started as a full-fledged department in 1981 (1980/1981 academic year), following a split of the Department of Food and Home Sciences.

Philosophy of the Department

The programme is designed to produce graduates in all aspects of food and its postharvest issues particularly in Nigeria while contributing to global food security.

Objectives

The programme is designed to provide a practical and theoretical training in:

1. the conversion of raw agricultural produce into processed, packaged, shelf-stable food products and intermediate raw materials;
2. different types of food preservation;
3. establishment, maintenance and assurance of food quality;
4. design and maintenance of food process machines;
5. direct practical experience in food industries, food research laboratories/stations/higher academic institutions
6. governmental agencies responsible for the formulation and enforcement of food laws and;
7. entrepreneurial skills that will make graduates employable or self-reliant/self-employed.

Scope

Food Science and Technology attracts students with a wide and flexible outlook, those for whom the pure sciences, engineering and other applied sciences appear restrictive. The courses are grouped into stress areas. The first stress area is General and introductory courses (devoted to strengthening the basic sciences and a good appreciation of the arts and humanities). The second, third and fourth stress areas cover respectively, Food Science courses, Food Technology courses and Food Engineering/Processing courses (these being at the core of the programme). The fifth stress area covers Technical writing (which is undertaken to reinforce the ability of the students to read, write and interpret scientific papers and other related literature). Industrial Work Experience is the sixth stress area (which is undertaken to enable students acquire industrial experience of real work situations in food industries, food research

stations, laboratories and related agencies. Seminar in Food Science and Technology is the seventh stress area (undertaken to inculcate the skill of presentation of public discussions or seminars or conferences or workshops) and the eight stress area is Project Work (which is laboratory investigation or research carried out in the final year on a specific area of food science and technology).

Job Opportunities

Graduates are adequately trained to be employed at the senior level in food industries, regulatory agencies, food service and extension organizations and research institutes. Graduates are also trained to be capable of establishing their own small and medium scale food enterprises.

Entry Requirements

Prospective first degree candidates must satisfy both the University minimum entry and specific departmental requirements. The Department specifically requires that the 5-year B.Sc. (UTME) programme candidates must have obtained credits in five (5) subjects at not more than two sittings in the Senior School Certificate Examination or equivalent. The subjects include: English Language, Chemistry, Mathematics, Physics, Biology (Botany or Zoology) or Agricultural Science and any other relevant science subject. UTME examination subjects include English Language, Chemistry, Mathematics (or Physics), Biology (or Botany or Zoology or Agricultural Science).

Five-Year Standard Programme in Food Science & Technology

Philosophy

Home Science (Home Economics) as a profession is a field of study that evolved out of the concern for the home (family) raised by the conditions of the society becoming increasingly dominated by commercial and industrial interests. It is concerned with ways in which the quality and content of family life can be enhanced maximally through optimum utilization of its human and material resources. It is an applied field of study that brings together knowledge and skills from different disciplines within the pure and applied arts and sciences to solve the most pressing problems that challenge the families presently, as well as those that are possibly going to emerge in the future. The field of Home Science has developed tremendously within the last few decades in both its outreach and its depth of penetration in order to meet the dynamic nature of the problems and challenges of individuals, families and societies. This is as a result of the developments in science and technology, all of which have affected living conditions of individuals, families and the society at large.

Objectives:

The objectives of the programme are to:

1. train students in the development, use and management of human and material resources required to foster various aspect of individual, family and national development.
2. develop the latent potentials of students and enable them to take up leadership positions and become professionals in public and private establishments related to their chosen areas of study.
3. equip students with entrepreneurial skills needed to create small to medium scale businesses in the three areas of the curriculum.

Scope

Early in the programme students are exposed to courses in social sciences, physical sciences, arts and agriculture in order to meet the challenging needs of the society and encourage entrepreneurship. These form the basis of a coordinated sequence of applied courses offered in the penultimate and final years when students are further exposed to courses in the different areas including: Home Management; Food, Nutrition and Institutional Management; Textiles, Clothing and Fashion Design and Family and Child Studies. An essential part of this course is the opportunity provided for students to gain direct practical experience during periods of industrial training (IT) in the food industries, hotels, clothing and fashion houses/industries, schools, child care institutions, corporate organisations and agencies.

Admission Requirements

UTME Entry Requirements

To be admitted into the 4 year B.Sc Programme, the candidate must have the University general entry requirements, which include pass at credit level in the Senior Secondary School Certificate Examination (SSSCE) or the National Examination Commission (NECO), or the General Certificate in Education Ordinary Level (GCE O/L) in five subjects including an approved science subject obtained at not more than two sittings. In addition to the general University entry requirements, candidates must have obtained credits in the SSSCE or GCE O/L equivalent and NECO in Chemistry, Biology or Food and Nutrition or Agricultural Science. A pass in English language and Mathematics/Physics is acceptable

Direct Entry Requirements

Matriculation requirement in the relevant subject plus advanced level passes in Chemistry and Biology (Botany or Zoology).

National Diplomas and other acceptable/recognized Diplomas holders with credit passes in Biology or Agricultural Science and Chemistry may be admitted into year one of the degree programme. Higher Diplomas or NCE in Home

Economics or any other related area with credit passes in Biology or Agricultural Science and Home Economics may be admitted into the second year programme.

Requirements for graduation and classification of degrees

In order to graduate, a Home Science undergraduate student must obtain a **minimum** of 152 units (an average of 19 to 24 units per semester for a total of 8 semesters) from Year I to Year IV inclusive. It is compulsory that each student passed all prescribed relevant and registered courses before award of the B. Sc. Home Science. The B. Sc. Degree award is classified as follows:

Job Opportunities in Home Science

Students are exposed to the different areas of Home Science below.

- Home Management (Management of Family Resources)
- Food, Nutrition and Institutional Management
- Textiles, Clothing and Fashion Design
- Family and Child Studies

The following job opportunities exist;

Homemaker: This involves supervising or carrying out responsibilities in the home for developing values; furthering good human relations, and providing a satisfying setting for family living. Home Science prepares people for a profession as well as for the important profession of homemaking.

Home Science Educator: All graduates of Home Science can be employed as teachers at the primary, secondary and tertiary institution levels.

Family/Marriage Counselors: These specialists give guidance in solving problems of home and money management and to help with special needs of children, the aged and the handicapped or challenged. They could be employed by government in the department of Social Welfare or they could go private as directors or entrepreneurs.

Childcare Specialists: Graduates who major in Family and Child Studies are responsible for running Day-care and Nursery Schools set up by government as well as private individuals and organizations.

Home Scientists in Journalism, Radio and Television: These are engaged in writing articles related to the different areas of Home Science for newspapers, magazines, public relations firms, radio, or television stations. Home Scientists in various areas family living, clothing and fashion design, child care, nutrition, at some time during their professional lives are called upon to write a newspaper or magazine article or to appear on a radio or television program.

Home Scientist Entrepreneurs: All Home Scientists are well equipped with skills for setting up small to medium scale enterprises in their various areas of interest or specialization. Some of these include: indoor or outdoor Catering outfit, Clothing production and merchandising outfits, Nursery schools, Day-care centers, Recreational centers, Laundromats, Commercial Food Service Managers:

Home Scientists in Consultancy Services: Home scientists who have achieved recognition in their chosen area of specialty may enjoy doing free-lance work. Consultant services are valuable to companies and establishments that do not have a full-time home scientist or who wish to supplement the work of their home science department.

Extension Home Scientists: These specialists give instruction on problems of home science, rural family living, and community life to individuals and families through the cooperative efforts of the Local, State and Federal governments. Such graduates are usually employed in the Ministries of Agriculture, Social Welfare or Community Development.

Home Scientists in Research: Graduates of Home Science can engage in the search for facts and analyzes them critically for their meaning and implications in the improvement of home and family living. This they can do as they are employed in institutions of higher learning or research institutions.

Home Scientist Nutritionist: The job opportunities are similar to those already outlined for graduates of Nutrition and Dietetics (as above) except that they cannot function as Dietitians in hospitals. They can function as: Public Health Nutritionists. Food and Nutrition Specialists in Government and Non-Governmental Organizations, Food and Nutrition Specialists in Industries: Food and Nutrition Educator, e.t.c.

Home Scientist in Textiles, Clothing and Fashion Design: The clothing field is made up of five interrelated areas: the textile industry, the apparel industry, the fashion field, the education field and the communication industry. Some of the job opportunities in this area include among others:

Clothing Designer: These specialists create ideas and apply them in the production of functional and beautiful wearing apparels to meet the desires of men, women, or children for fashion garments or accessories.

Interior Decorator: Designs and executes plans for artistic interior of a room or building in accordance with the client's desires. Interior decorators are employed by manufacturers of rugs, private decorating shops, hotels, museums, departmental stores, furniture shops, motion picture studios, government housing projects, etc.

Home Scientists in Textile Industries: Although these opportunities are limited, home scientists are relevant in the Textile industries where they are involved in textile testing, launder ability testing, promotion and demonstration work. Fabric weaving, Knitting and other fabrication techniques. The home scientist may conduct surveys of consumer preferences in textile and make recommendations to her company for improving the quality and appeal of their fabric.

Philosophy

Human Nutrition as a science deals with the foods which the human organism requires, how he utilizes them and how he deals with the waste products due to its activities. Dietetics, on the other hand, is the application of scientific principles of Nutrition to human subjects in health and disease conditions. The student of Nutrition and Dietetics is thus engaged in a broad multidisciplinary study bridging the gap between the areas of food science, applied medical science and management studies.

Objectives

The objectives of the programme are to ensure that students:

1. Understand the inter-relationship among agriculture, food and nutrition as well as how they relate to health
2. Understand the nutritional values of locally available foods and appreciate the function of the different constituents, nutrients, their interaction and possible toxic effects of non-nutrient constituents.
3. Can assess the main nutritional problems in a community; appreciate the causes and severity of malnutrition in a community and design intervention for their solution.
4. Plan and formulate adequate diets in health and diseases for all the groups and population types.
5. Appreciate the effects of processing methods on the nutritive value of food and apply these techniques to improve the quality of local food resources in order to meet nutritional needs of the individuals, community and population at large.
6. Plan, implement, monitor and evaluate nutrition programmes and
7. Have a global view of the problems of malnutrition and agencies involved in solving the problem, especially in Africa.

Scope

The programme commences with a study of the relevant branches of the natural and management sciences, which form the basis of a coordinated sequence of applied course offered in the penultimate and final years. An essential aspect of this course is the opportunity provided for students to gain direct practical experience during periods of industrial training (IT) in the food industries, hotels, hospitals, research centers, corporate organizations and agencies.

Admission Requirements

UTME Entry Requirements

To be admitted into the 4 year B.Sc Nutrition and Dietetics Programme, the candidate must have the University general entry requirements, which include credit level in the Senior Secondary School Certificate Examination (SSSCE) or the National Examination Commission (NECO) or the General Certificate of Education Ordinary level (GCE O/L) in five subjects including an approved science subject obtained at not more than two sittings. In addition to the general University entry requirements, candidates must have obtained credits in the SSSCE or NECO or GCE O/L equivalent in Chemistry, Biology or Food and Nutrition or Agricultural Science and Physics or Mathematics. A pass in English language is acceptable.

Direct Entry Requirements

Candidates must have passes at the principal level in the Higher School Certificate Examination or equivalent passes at the GCE Advanced Level in two of the following subjects:- Chemistry, Biology (Botany and Zoology), Agricultural Science, Physics or Mathematics. Candidates with Certificate in Nursing or Diplomas in relevant subjects may be offered admission by direct entry. In addition to the Departmental requirements, the candidate must also satisfy the UME entry requirements.

Requirements for graduation and classification of degrees

In order to graduate, a Nutrition and Dietetics undergraduate student must obtain a **minimum** of 144 units (18 units per semester for a total of 8 semesters) from Year I to Year IV inclusive. It is compulsory that each student passed all prescribed relevant and registered courses before award of the B. Sc. Nutrition and Dietetics. The B. Sc. Degree award is classified as follows:

Job Opportunities

Individuals with training in Nutrition and Dietetics have varied career opportunities. In Nigeria, the following areas of job opportunities exist:

Nutrition educator: Nutrition educator can serve as a teacher in secondary/tertiary institutions, or extension staff in Ministry of Agriculture to teach rural and urban people nutrition and the application of nutrition principles; may be employed in the Ministry of Health to educate people on nutrition in hospitals, health centres and clinics and during outreach programmes; or may be employed by broadcasting houses to teach nutrition to the masses through the media, can write newspaper or magazine articles on nutrition-related topics or set up a private consultancy to advice and teach people who need help.

Research Nutritionist/Dietitian: A research nutritionist may be employed in Research Institutions, Agricultural Stations and Medical Research Institutions to help in the evaluation of nutritional quality of newly developed species of plants and animals that can be used for food and various products and acceptability and toxicity. They may be involved in recipe standardization and other aspects of food testing.

Public Health Nutritionists: Public Health Nutritionists carry out the nutrition program of health agencies by engaging in organized community efforts to educate individuals and groups in the improvement of nutritional practices.

Industrial Nutritionist/Medical delegates to food and pharmaceutical companies: The nutritionist may select a career in industry, particularly Food and Drug industries. His/her job is to test the foods produced and advise on their nutrient content. In addition to this, he/she may help to organize and run the canteens belonging to the industry. They could function as Medical Delegate for food companies such as Nestle, Cadbury, WAMCO, UniLever, etc., where they help to promote the sale of their products

Clinical Nutritionist/Dietitian: These are concerned with the use of nutrition measures for the maintenance of health, management of disease and trauma, and prevention of disease. They can perform different functions as

- a) **Administrative Dietitians:** These are in charge of food ordering and supplies, personnel, maintenance of records and equipment and responsible for the food served to the entire hospital population (patients, employees, and professional staff members)
- b) **Therapeutic Dietitians:** These are in charge of the planning and service of modified diets. They visit patients, confer with doctors, instruct the patients about the nature of his/her diet while in the hospital.
- c) **Clinical Dietitians:** They guide and teach patients individually or in groups in an outpatient clinic how to fulfill their nutritional needs at the time of their discharge. They work mainly with patients that are not hospitalized.
- d) **Research Dietitians:** These individuals direct special studies that involve meticulous records of all the food intake of patients and all that his/her body secretes and excretes. From such experimentation, modification in diets may be discovered.
- e) **Consultant Dietitians:** These are dietitians who set up special services for patients and clients who require dietary management, which involves diet therapy, dietary guidelines and comprehensive dietary counseling. They may also enjoy daily freelance work.
- f) **Teaching Dietitians:** These function in institutions where Dietetics is offered at undergraduate and postgraduate levels. They can also help to monitor and teach nurses, medical and dental students as well as dietetic interns.

Commercial Food Service Managers: These are employed in commercial concerns such as airlines, hotels, restaurants, departmental meals, schools, etc. Their responsibility is to produce high quality meals, realize maximum profit and have the ability to gain and hold the patronage of the public.

Nutritionists in Government and Non-governmental developmental Organizations: Nutritionists in agencies such as Food and Agriculture Organizations (FAO), United Nation International Children's Fund (UNICEF), World Bank (WB), World Health Organization (WHO) are involved in the formulation and harmonization of food and nutrition policy, sponsoring research, monitoring and evaluation of nutrition programs in different countries of the world.

Nutrition Entrepreneurs: Individuals in this category are creators of employment, goods and services. The course provides graduates with skills that will enable them to be self-employed. They can establish catering outfits, health food shops, health monitoring outfits and consultancy services.

Nutritionists and Dietitians at some time during their professional lives, are called upon to appear on a radio or television program to discuss nutritional and/or dietetic issues.

Soil Science

Department of Soil Science

Staff

F.O.R. Akamigbo, B.Agric. (Nigeria), Ph.D. (Reading), PGD Remote Sensing ITC (Enechede)	Professor
M.E. Obi, B.Agric. (Michigan), M.Sc. (Pennsylvania), Ph.D. (Maryland)	Professor
C.L.A. Asadu, B.Agric., M.Sc., Ph.D. (Nigeria)	Professor & Head
C.A. Igwe, B.Agric., M.Sc., Ph.D. (Nigeria), PGD Soil Sc.(Norway)	Professor
P.I. Ezeaku, B.Agric., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
C.M. Jidere, B.Agric., M.Sc. (Nigeria)	Senior Lecturer
I.M. Uzoh, B.Agric., M.Sc. (Nigeria), Ph.D.	Senior Lecturer
S.E. Obalum, B.Agric., M.Sc. (Nigeria), Ph.D. (Japan)	Senior Lecturer
C.B. Obika, B.Agric., M.Sc. (Nigeria), Ph.D. (Ghana)	Lecturer I
C.V. Azuka, B.Agric., M.Sc. (Nigeria)	Lecturer II
B.O. Unagwu, B.Agric., M.Sc. (Nigeria)	Lecturer II
J. Ene, B.Agric., M.Sc. (Nigeria)	Lecturer II
G.U. Chibuike, B.Agric. (Nigeria), M.Sc. (Reading)	Lecturer II
N.E. Ebido, B.Agric. (Nigeria), M.Sc. (Ibadan)	Assistant Lecturer
I.G. Edeh, B.Agric. (Nigeria), M.Sc.	Graduate Assistant

Brief History of the Department

From 1960 to the end of 1972/73 academic session, the University of Nigeria offered the B.Sc. (Plant/ Soil Sci.) degree programme. In 1974 the University split this programme into B.Sc. (Soil Science) and B.Sc. (Crop Science) programmes to be offered by the full-fledged departments. It was then that the Department of Soil Science was created. In 1978 the University approved a joint programme of courses for undergraduates (years 1-4) in the Departments of Animal Science, Agricultural Economics, Agricultural Extension; Crop Science and Soil Science. This

necessitated the re-designation of the programme to B. Agriculture. Final year students who opt for soil science would be awarded B. Agriculture (Soil Science).

Since 1974 the main stress areas had been Soil Chemistry, Soil Fertility; Soil Genesis and Classification; Soil Survey and Land Evaluation; Soil Physics and Conservation, and Soil Biochemistry and Microbiology. The Department earned full accreditation by the National University Commission (NUC). The Department has produced several graduates who are presently serving in different positions in many industries and parastatals in the country

Philosophy

Both soil and land are basic natural resources and their care and management are also basic to survival of any nation. Sound training is required for their sustainable use to serve mankind. The philosophy of the Department of Soil Science and land Management programme generally centres on producing graduates that are well versed in sustainable agricultural production, environmental quality control and sustainability. The Department believes that rapid changes in scientific approaches to soil studies and environmental issues including climate change impact on land qualities can only be well addressed by adequate and enhanced university training in soil and land management. Thus, this reversed programme is designed to provide a broad theoretical and practical training in agricultural sciences and land management which are relevant in Nigeria in particular and the world at large. This programme will enhance the chances of attracting prospective UTME candidates to the Department.

Objectives

The main objectives of the Department is to provide broad practical and theoretical training in the basic agricultural sciences and land management, and to produce highly skilled graduates who have acquired the resources to meet the agricultural, developmental and environmental needs of Nigeria and the world at large. The Departmental academic programme is developed based on the need to meet the nation's drive for increased food production, and effective transformation of agriculture as well as the promotion of sustainable use of soil, land and water resources. The programme aims specifically to:

- i. produce graduates with skills in soil and land management for increasing the productivity of agricultural lands and sustainable environment.
- ii. produce graduates well-versed in soil resources and water conservation techniques for sustainable land use and management.
- iii. produce graduates with adequate knowledge and skills for research and development (R & D) in soil and land management, environmental sustainability and quality control.
- iv. produce graduates with theoretical and practical knowledge on the use of Global Positioning System (GPS) instruments in land management and climate change research.

Scope

The soil science and land management programme captures its three main roles in agricultural production, environmental studies and management of soil resources. The programme covers various aspects of land management, land evaluation, environment, geographic information system (GIS), climate and climate change issues, biogeography, forestry, and waste management. Other major courses covered in the programme are Pedology, Soil Genesis, Soil Survey, Classification and Evaluation, Soil Physics, Soil Chemistry, Mineralogy, Biology, Biochemistry, Soil and Water Conservation, and Fertility Management (agronomy).

The programme provides training on the basic agricultural sciences for the first three years and a full year's practical training in approved farms and other agro-based establishments during the fourth year. Field trips are part of the fourth year requirements and are usually made to relevant research institutes such as the International Institute for Tropical Agriculture (IITA), Ibadan, Nigerian Institute for Oil Palm Research (NIFOR), Benin, Cocoa Research Institute of Nigeria (CRIN) Ibadan, Satellite Centre, Obafemi Awolowo University, Ife, etc.

In the final year, the students are given intensive training in the areas of soil survey, genesis, classification and land evaluation and management; soil physics and hydrology including irrigation and drainage practices; soil and water conservation, soil chemistry and fertility as well as soil biology and biochemistry.

The Department also offers service courses to the Departments of Agricultural and Bio-resources Engineering, Vocational Teacher Education (VTE – Agricultural Education option), Estate Management in addition to the courses taken by all B. Agriculture students in their first years in the Faculty of Agriculture.

Entry Requirements

The Department admits students by Unified Tertiary Matriculation Examination (UTME) and Direct Entry

a. **Unified Tertiary Matriculation Examination(UTME) for five-year-programme**

- i. Credit passes at not more than two sittings in English Language, Mathematics or Physics, Chemistry, Biology or Agricultural Science and any other two subjects in the Senior Secondary School Certificate Examination (SSSCE) or the West African School Certificate examination (WASCE), National Board for Technical Education and Business (NABTEB), National Examination Council (NECO), GCE O'Level.

b. **Direct entry for four-year-programme**

- i. Pass in Chemistry and Biology or Agricultural Science at Higher School Certificate (Principal Levels) Examination.
- ii. At least credit passes at OND or NCE with Agricultural Science major
- iii. First degree in relevant fields

Job Opportunities

At the end of the programme, the B. Agriculture graduate (Soil Science and Land Management) would have acquired adequate knowledge and skills to effectively engage in production and research in every aspect of agriculture and related areas that would provide solution to Nigeria's agricultural and rural development problems and improve agricultural productivity in general and also general land management for environmental sustainability and quality control. Skills acquired would also enable the graduates to establish and manage their own farms profitably; and also be gainfully employed in private and public sectors.

The graduates of soil science and land management can be employed in the following fields:

- Government ministries, parastatals, and agencies such as agriculture, environmental protection agencies, etc.
- Private sectors such as civil engineering and road construction companies for soil quality evaluation.
- Government and private farms as well as agro-based industries.
- International organizations such United Nations Environmental Protection (UNEP), Food and Agriculture Organization (FAO), etc.
- Oil and gas industry for environmental quality control, environmental impact assessments and remediation of degraded and polluted lands.
- Tertiary institutions as teaching, research and non-teaching staff.
- Waste management industries
- Non-governmental organizations (NGOs).
- Get self-employed in agriculture and consultancy services

General Information

The history of Archaeology in the University could be traced back to 1963, when Prof. D. D. Hartle was hired. Initially, Hartle was given a laboratory in the then Science Faculty Building. Subsequently, for some obscure reasons, he moved base from the Faculty of Science to the Faculty of Arts where archaeology became subsumed under the Department of History. Given the scientific nature of the discipline and the resultant disagreement between archaeologists and historians, it became clear that archaeology with its scientific methodology needed a separate existence. It was also hoped that this separation would enable the department to grow more rapidly. This dream was realized on August 1, 1981, when the Department of Archaeology was created. It began with a B.A. Combined Honours Programme, and in 1985, the Single Honours Programme was introduced. In an attempt to bring the departmental programme in line with current trends in Archaeology as well as the desire to equip students to face the challenges posed by today's globalized environment, the department of Archaeology in 2004 developed an embracing curriculum leading to B.A. Hons in Archaeology and B.A. Hons in Tourism.

The programme has currently been revised into an inclusive B.A. (Hons) Degree in Archaeology and Tourism. Thus, the Department of Archaeology and Tourism presents a revised undergraduate programme leading to B.A. (HONS) degree in Archaeology and Tourism. Archaeology could be combined with the following subjects as both four-year and three-year Honours Degree programme: History, Linguistics, Languages, Fine and Applied Arts, Religion, Sociology/Anthropology, Philosophy, Geography, Geology, Botany.

In addition to courses taught through formal lectures, students are required to do supervised laboratory practical and undertake at least three field trips, which involve participation in Archaeology or a combined discipline. Those offering the B.A. (Honours) Degree in Archaeology and Tourism are also required to undertake a minimum of two internship programmes to qualify for the award of the degree.

The department offers service courses to departments in the Faculty of Education, and to Departments of History, Fine and Applied Arts and other interested departments that may require some knowledge of the subject. For example, Fundamentals of Archaeology, Theory and Methods in Archaeology, Human Evolution, etc., give some insight of what Archaeology is all about.

Philosophy

The emerging realization of the relationship between Archaeology and Tourism and their values in today's society has motivated the department to develop programmes in the disciplines.

The programmes focus on the development of knowledge, skills and values for undergraduate students to enable them to handle heritage and tourism-related matters. The above philosophy informs the decision of the Department to offer courses that will enhance students' proficiency in these areas of human pursuit.

Scope

The courses cover Archaeology, Tourism and related areas in the humanities with special emphasis on Africa.

OBJECTIVES

The courses are designed to:

1. Equip students for careers in schools, Heritage Institutions, Museums, Arts Councils, Ministries, Tourism Corporations and Boards, Hotels and related areas.
2. Prepare students for postgraduate programmes/researches.
3. Enhance students' competency in tourism, archaeology and heritage management and build their capacity.

JOB OPPORTUNITIES

Graduates of the programme can be employed as heritage/cultural attaches in embassies, heritage officers in Museum, Ministries of Information, Culture and Tourism. They can also be employed as tourism officers in tour operating agencies, airline establishments and other related areas. They will also be equipped to manage travel agencies, hotel outfits, courier and car hire services.

Entry Requirements

(A) Four-Year Programme

Candidates coming into the four-year programme must have obtained five credits including English Language and any science subject as well as a Pass in Mathematics at WASC or GCE O/L or its equivalence.

(B) Three-Year Programme

Candidates coming into three-year programme must have passed two papers in Higher School Certificate or GCE A/L and have the minimum entry requirements of the University of Nigeria including a Credit in English Language and a pass in Mathematics at WASC or GCE O/L or its equivalence.

Holders of Diploma or NCE recognized by the University of Nigeria also qualify for Direct Entry.

Students combining Archaeology with Science or the Social Sciences must satisfy the requirements in the respective faculties.

E.N. Asogwah, LL.B (Nigeria), B.L	Principal Executive Officer II (Secretary)

Brief History

The Department was one of the foundation departments of the University with Dramatic Arts as a sub-department. The Senate of the University of Nigeria approved a full departmental status for Dramatic Arts in 2004 and at the same time approved for it a change of name to the Department of Theatre Arts. The parent Department also had a change of name that same year to the Department of English and Literary Studies in order to bring out more clearly its scope of coverage. In the accreditation exercise of 2005 the Department came out with full accreditation status, and it has since 2010 been the proud possessor of a fully equipped modern language laboratory donated and furnished by a former student and former member of staff, Dr Mrs Virgy A. Anohu of FINHOMES Ltd.

The Department has exerted considerable influence in the development of other universities, especially in the Eastern zone as many of the foundation members of their departments of English are alumni of this Department.

The Department continues to play an active part in the training and upgrading of manpower for these sister departments. The programmes developed in this Department have also been influential in the development of the programmes of many sister departments across the country.

Philosophy

The relation between literary art, language, and thought has been investigated and discussed at least since Plato and Aristotle, who regard it as first and foremost a philosophical question. It continues to be explored and to give rise to exciting studies, becoming one of the key issues of debate in twentieth century literary scholarship. In this programme the approach to teaching and in-depth exploration of English language structure and the nature, functioning, and manifestations of the literary is hinged on the idea that this knowledge is irreplaceable for language and literary workers. Thus exposed to the working of language and literature the student grows in clarity of thought and perception, and develops the faculty of critical judgement and the mind's creative capabilities. This is one of the reasons why the graduates of English language and literary studies find employment in a vast range of activities in the service industry as well as in the management and productive sectors of the economy.

Objectives

The main objectives of the programmes in the department are as follows:

- a) To produce graduates who have a well-informed literary sensibility which enables them to respond in a creative manner to their environment.
- b) To produce graduates who have such linguistic competence that will make them skilful users of the English Language.
- c) To produce graduates who can exploit the rich resources of language for a sharper literary appreciation.
- d) To equip the graduates with adequate knowledge of the full range of the major land-marks in English and African literatures in all genres and periods.

Scope

The various programmes available to students in the Department of English and Literary Studies are designed to give them a rich and rounded humanistic education as well as practical competence in the language of science, business, and international relations in the modern world and to expose them to literary art in all its forms as it has evolved over time and as encountered in different places and cultures as well as the theoretical discourse that accompanies and assists in its development.

The Department of English offers a four-year B.A. Standard Degree Programme by Unified Tertiary Matriculation Examination (UTME), a four-year B.A. Combined Honours Standard Degree Programme by entrance examination, and a three-year B.A. Standard Degree Programme by direct entry.

The courses in the programme are grouped into four main stress areas as follows:

1. English Language
2. English Literature
3. Modern African Literature
4. Traditional African Verbal Arts

Entry Requirements

Candidates for admission must satisfy the University minimum entry requirement. In addition:

- (i) Candidates admitted by UTME must have passed English language and English Literature at least at credit level in the Senior Secondary School Certificate (SSSC) examination or its equivalent.
- (ii) Direct entry candidates must have passed with a grade of at least D in English Literature in G.C.E. A/L or at an equivalent standard at the Higher School Certificate or at an equivalent examination like N.C.E.

Job Opportunities

Graduates of English and Literary Studies have job opportunities in a variety of administrative positions in the private and public sectors as well as in teaching, editing and publishing, broadcasting and the mass media. They are also equipped to make careers as writers and literary agents.

History

The Department of Foreign Languages and Literary Studies, formally known as the Department of Languages and Linguistics, is one of the pioneer Departments of the University of Nigeria, Nsukka. The Department evolved through the years and, like most other foundation Departments, was established by expatriate staff. The Department offered French as the major degree programme and Spanish as a subsidiary. The Russian and German Sections of the Department were established after the war.

Development and Student Enrolment

The Department of Foreign Languages and Literary Studies has grown and developed in its own peculiar way. At inception, it was known as the Department of Languages and Linguistics. Subsequently, following the creation of the Department of Linguistics, it was renamed the Department of French, French being one of the pioneer degree programmes of the Faculty of Arts. Thereafter, German and Russian that were previously taught as service courses developed into degree programmes within the Department, resulting in a change of name first, to Department of Foreign Languages, then to Department of Foreign Languages and Literatures and recently, to Department of Foreign Languages and Literary Studies. The Department concluded its curriculum review in the 2008/2009 session, re-introducing Spanish and adding Chinese to its programmes. The Department, like other Departments of the University, has experienced over the years an increase in student population. The student enrolment level has continued to rise over the years, especially in the new millennium, due the increase in awareness of the role that the acquisition of international languages plays in the life of the individual and society in the era of information and communications technology (ICT) and globalization.

Foreign Governments' Collaboration with the Department

Today, the Department has grown into five different language sections: Degree programmes in French, German and Russian are already offered, while Spanish and Chinese expected to take off any time from now as their degree programmes have already been approved by the University Senate. Consequently, the Department has now, more than ever before, intensified its collaborations with foreign embassies/governments whose languages are currently taught/learnt here. The Department has, since inception, enjoyed the presence of/cordial relationship with the following foreign governments:

French: The presence of the French Government has always been felt in the Department. French indigenes have worked in the Department and many of our students have done their Year Abroad in Grenoble or Besançon in France. As a follow-up to the uplift in the status of French as Nigeria's second official language after English (*Federal Republic of Nigeria National Policy on Education*, 2004), the University of Nigeria was selected as one of the six federal pilot Universities of the Nigeria French Language Project (NFLP), Federal Ministry of Education, offering the One-Year Special Programme in French with a view to enhancing the teaching/learning of French in Nigeria. The French government co-sponsored the programme with a self-study centre, CD players, teaching aids, textbooks and training workshops for lecturers. The one-year special preparatory programme in French took off formerly in the Department in 2006.

German: The Department has always enjoyed some benefits from the German government. Currently, some students pursue their year abroad/language immersion programme in Germany while others go to Goethe Institute in Lagos. Students who turn out to be the best can spend up to two months in Germany, depending on the type of scholarship they win. Staff and postgraduate students have also benefited from DAAD scholarship and/or research grants. Some academic staff have also received Austrian government grants for a 2-week workshop in Austria. In addition to a few exchange programmes between the Department and German Universities, long and short term scholarships, training workshops have been granted to both staff and students within and outside the country. The German government also provides teaching and learning materials from time to time.

Russian: The Department started the teaching of Russian language in the early seventies with the presence of two Russian citizens, who later left for the USA. Since then, the Russian language has been taught in the Department.

Presently, linkage programmes are being established to enable our students pursue their Year Abroad programme in Russia/Ukraine.

Chinese: The Department started the teaching of Chinese language as a service course in 2011.

Philosophy/Scope/Objectives

The philosophy of the Department is based on the imperative need to produce citizens capable of communicating effectively in French, German, Russian and other international languages in this era of information and communications technology (ICT) and globalization, especially citizens through whom Nigeria will be able to participate fully in our ever-evolving world with its cultural, social, political, scientific and economic diversities. Through imparting skills in listening, speaking, reading, writing, translating and interpreting in these foreign languages, and through the teaching of world literatures and cultures as contained in our undergraduate academic programmes, students will be made to acquire and develop, among other things, communication skills in spoken and written foreign languages. They are expected to be multilingual and to attain a high level of oral and written fluency in these international languages. It is hoped that attainment of such a level of competence in foreign languages by a generation of Nigerians will further enhance communication, understanding and productivity in various fields of human endeavour within and outside the country, especially in the educational, cultural, social and economic sectors.

Currently, the Department of Foreign Languages and Literary Studies runs the following academic programmes:

- a) BA Single Honours in French.
- b) BA Single Honours in German.
- c) BA Single Honours in Russian.
- d) BA Combined Honours in French/German.
- e) BA Combined Honours in French/Russian.
- f) General Language Courses (Service courses) in French, German, Russian and Chinese.

The duration of single honours programmes is four years for candidates who gain admission by Unified Tertiary Matriculation Examination (UTME) and three years for those who gain admission by Direct Entry. The duration in respect of French/German, French/Russian programmes and other combinations is four years for all categories of admitted candidates.

Language Immersion Programme (Year Abroad) Programme

The third year of the 4-year degree programme or the second year of the 3-year Direct Entry degree programme is consecrated entirely to a language immersion programme popularly known as the Year Abroad Programme. It is a form of Industrial Training programme aimed at exposing students to environments where the various foreign languages they study serve as mother tongue. In the past, the programme used to take place in France and Germany only for students of French and German respectively. However, with the deteriorating economic situation in the country and the withdrawal of government subsidy/bursary awards, the programme now takes place in African countries, notably at the Village du Benin in Togo and Centre Universitaire d'Etudes Françaises (CUEF) in Côte-d'Ivoire. Moreover, in the early nineties, with the collaboration of French Government, the Federal Government established the Nigeria French Language Village in Badagry for students of French language. Similarly, with the collaboration of Universities that run degree programmes in German, the Goethe Institute in Lagos organizes the Equivalent Year Abroad Programme (EYAP) for students of German.

Entry Requirements

DIRECT ENTRY	UTME	UTME SUBJECTS	SPECIAL CONSIDERATION
1 NCE with a minimum of two merit level passes in relevant subjects as well as University entry requirements.	1 French Single Honours: A minimum of five O/level credit passes to necessarily include English language, French, one science subject and two other	1 French Single Honours: French, Literature in English and one other arts subject.	1 French Single Honours: UNN accepts candidates who are successful in its one year preparatory programme in French (minimum 40%) plus

	arts subjects, one of which must be Literature in English.		UTME pass mark recommended for UNN.
2 Two passes at GCE A/L, HSC or its equivalent, DALF certificate or an acceptable Baccalaureate certificate in relevant subjects.	2 German Single Honours: A minimum of five O/level credit passes to necessarily include English language, one science subject and three other arts subjects, one of which must be Literature in English.	2 German Single Honours: Literature in English and two other Arts subjects.	2 German Single Honours: Any language proficiency certificate from the Goethe Institute will be a great advantage.
		3 Russian Single Honours: Literature in English and two other Arts subjects.	
	3 Russian Single Honours: A minimum of five O/level credit passes to necessarily include English language, one science subject and three other arts subjects, one of which must be Literature in English.	4. Chinese Single Honours:	Chinese Single Honours: HSK Level 5 Certificate will be an added advantage.
		Literature in English and two other Arts subjects.	
	4 Chinese Single Honours: A minimum of five O/level credit passes to necessarily include English language, one science subject and three other arts subjects, one of which must be Literature in English.	4 Spanish Single Honours:	
		Literature in English and two other Arts subjects.	
	5 Spanish Single Honours: A minimum of five O/level credit passes to necessarily include English language, one science subject and three other arts subjects, one of which must be Literature in English.	5 French/German Combined Honours:	
		French, Literature in English and one other Arts subject.	
	6 French/German Combined Honours: A minimum of five O/level credit passes to necessarily include English language, French, one science subject and two other arts subjects, one of which must be Literature in English.		
	7 French/Russian Combined Honours: A minimum of five O/level credit passes to necessarily include English language, French, one	French/Russian Combined Honours: French, Literature in English and one other Arts subject.	
		7 French/Chinese Combined Honours:	

science subject and two other arts subjects, one of which must be Literature in English.

French, Literature in English and one other arts subject.

8 French/Chinese Combined

Honours:

A minimum of five O/level credit passes to necessarily include English language, French, one science subject and two other arts subjects, one of which must be Literature in English.

8 French/Spanish Combined Honours:

Literature in English and one other arts subject.

9 French/Spanish Combined

Honours:

A minimum of five O/level credit passes to necessarily include English language, French, one science subject and two other arts subjects, one of which must be Literature in English.

Departmental General Language Courses (Service Courses)

The Departmental general language courses (service courses) are as follows: FRE 101, FRE 102, FRE 201, FRE 202, FRE 301, FRE 302, FRE 401, FRE 402 and their equivalents in German, Russian, Spanish and Chinese. These courses are offered by a number of Departments in the Faculty of Arts and other Faculties of the university. Single honours students of the Department are also required to offer service courses in one of the foreign from level 100 - 400. For instance, a student of French single honours shall be required to offer German or Russian or Spanish or Chinese as a service course.

Job Opportunities

The various programmes of the Department of Foreign Languages and Literary Studies will equip graduates for careers in translation and interpretation, banking, publishing, civil and diplomatic services, tourist industry, oil and gas companies, teaching in private/public schools and institutions of higher learning.

Brief History

The Department offers a four-year B.A. Honours degree programme in History and International Studies for students admitted by entrance examination, and a three-year B.A Honours degree programme for students admitted by direct entry. In this programme International Studies means aspects of world politics and economy. The Department also offers a B.A. degree programme which combines History and International Studies with one of the following, Archaeology, Education, English, Library Science and Information Technology and Religion.

Philosophy

The programme hinges on (i) the fact that the world has become a global village making the component parts increasingly inter-dependent or inter-related and (ii) the knowledge that a meaningful history course must emphasize the events and trends of the past which are relevant to the current problems, needs and aspirations of the immediate and the wider world.

Objectives

The objective of the programme is to give students a broad and firm grounding in History and International Studies in general in the best traditions of the discipline. The programme is expected to acquaint the students with the past and current events which have impact and are impacting significantly on mankind.

Scope

The programme covers the political, economic, social, cultural and religious aspects of African History in particular and the wider world in general. Courses in International Relations are also studied. The programme adopts a concentric approach with Nigeria as the epicenter. Courses on African Historical experiences and relations with those of the world beyond are also included. This is to enable the students not only to compare and contrast African historical experiences with those of the world beyond but also to understand the dynamics of the constantly changing relationship between Africa and other continents.

Entry Requirements

Four-year degree programme

For admission into the four-year degree programme, a candidate must possess the West African School Certificate or the Nigerian Examinations Council Certificate or the General Certificate of Education at the Ordinary Level or the Senior Secondary School Certificate with credit passes in at least five subjects [scores 1-6], including History or Government and the English Language.

Direct Entry

To qualify for direct entry into the three-year degree programme, a candidate must obtain a good pass at the Diploma, NCE, GCE (Advanced Level) in History and at least one of the following subjects: Economics, Government, English, Literature, Geography, or any other related subjects.

Job Opportunities

The programme are designed to equip students for careers in education (teaching and research), administration and external affairs; immigration, customs, police and prison services, information, public relations, personnel

management and labour relations, archival and museum services, cultural affairs, library services, politics, advertising, banking and related professions.

E. Chukwudi, B.A., MFA (Nigeria)	Principal Technologist
R. S. Uzuanje, HND, (Nigeria) BSc, MSc. (Cameroon)	Principal Confidential Secretary II

Brief History

The Department was founded in 1961 with nearly all the art teachers being British or American. They instituted the Western academic approach of naturalism, which promoted pictorial observational realism. This brand of Western academic pedagogy was effectively terminated when the expatriate art teachers left because of the Nigerian Civil War (1967-1970). After the civil war, students and faculty members reassembled and resolved that the art programme of the Department had to be reconstructed to meet the demand of the new Nigerian society. From this period, a new culture of exploration and experimentation of the local environment in art teaching and learning dominated art activities of the school. Staff and students searched deeply into the nature and purpose of art and design in their communities as well as applying the proceeds of these intellectual and artistic endeavours into social and technological development. The content of the art programme made room for the incorporation of indigenous ideas, motifs, designs and styles into art learning and production. With this goal in mind, the Department developed and popularized Igbo patterns for body and wall painting known as *Uli*. *Uli* Art paved way for the emergence of a completely new visual vocabulary in the Department. Thus, the art programme moved away from Western style of naturalism to more abstract expressions and other stylistic changes that responded appropriately to the art experience in Nigeria.

Reaction against external academic art was challenged in favour of Nigerian forms. This created both contemporary and modern art, while accommodating new ideas. The effects of the new ideology were immense. Great efforts and enthusiasm were expanded to permeate this new concept into various sections of the Department, namely Sculpture, Painting, Ceramics, Textile and Visual Communication Designs.

The Department runs three types of programmes for the award of Bachelor's degree in Fine and Applied Arts: Four-year, Three-year and Two-year standard programmes.

- 1st year of the three-year programme starts at 2nd year level. Thereafter, students follow the regular Four-Year programme at the 3rd year level.
- Two-year standard programme follows the regular four-year programme at the 3rd year level.

Philosophy

The course of study in this Department has been devised to enable our youths re-discover themselves and dedicate their lives anew to the building of a strong nation. The discipline develops and exposes the students to multi-disciplinary dimensions of traditional and modern arts in order to produce the needed high level manpower in the country. The programme prepares students for self-employment and to occupy high level academic positions in the various levels of educational institutions, research institutes and the cultural sectors of the nation's economy.

Objectives

The broad objectives of the programme are to:

- Produce well-trained and highly motivated students who are equipped to embark on a successful career in Fine and Applied Arts.
- Promote excellence in studio practices in Ceramics, Visual Communication Design, Textile Design, Fashion Design, Painting and Sculpture. The Art History and Art Education programmes are well-balanced to provide the students with broad and balanced theoretical background so that they can function effectively in disseminating information as well as promoting Nigerian artistic and cultural heritage.

Scope

The programme leads to the award of Bachelor's degree in Fine and Applied Arts in the following specialising areas: Art Education, Art History, Ceramics, Fashion Design, Graphics, Painting, Sculpture, and Textile Design. For the standard four and three-year undergraduate programmes, the students are first introduced to the multi-disciplinary perspective of Fine and Applied Arts and, thereafter, exposed to the areas of specialization. Participation of students in the Industrial Work Experience Scheme (SIWES) is compulsory.

Entry Requirements

In addition to the University entry requirements, applicants for admission through the UME must have credit passes in at least five subjects in the Senior Secondary School Certificate (SSCE) or its equivalent. The subjects should include English language and Fine/Applied Arts. Candidates who possess NABTEB/NTC must have five credit passes which must include English language, technical drawing, painting and decorating. For admission by direct entry, candidates must have one of the following:

- (i) Credit level passes in OND (Ordinary National Diploma) in Fine and Applied Arts in addition to UME requirements.
- (ii) GCE Advanced level passes in three subjects which must include Fine Arts or Technical Drawing.
- (iii) NCE Certificate with an average of B grade.
- (iv) HND holders in Fine and Applied Arts or its equivalent in relevant areas that graduated with an average of B grade may be admitted to the 300 level courses.

Job Opportunities

The programme is designed to produce highly skilled artists designers to serve in various capacities in the production of art that is reflective of the socio-cultural condition in Nigeria and developments in the global arena. Graduates of the Department are equipped for careers in cultural Institutions, industries and mass media, in the medical and the teaching service as well as for self-employment.

Brief History

The Department started as a sub-Department under the Department of Foreign Languages and Literatures in 1974. In 1978, it produced its first set of graduates. In 1981, it gained its autonomy as a full-fledged Department and was until 2005 called the Department of Linguistics and Nigerian Languages. In 2005, the Senate approved a new name for it (as above entitled). The Department has since its inception graduated about 50 doctoral, hundreds of Masters and thousands of bachelor degree candidates who are well placed in the development of the nations.

The Department has progressively designed and redesigned its programmes to meet the challenges of the society. The programme is now expanded to include other Nigerian languages such as Yoruba, Hausa and Ibibio. This means that the Department will have the capacity to produce graduates in these languages. These programmes are designed to suit candidates with School Certificates and General Certificates in Education and those with Certificates in Education and Diplomas in relevant areas as approved by the University Senate. Each of the programmes can therefore be run in three years or four years depending on the qualification of the applicant.

Philosophy

In keeping with the motto of the University of Nigeria, the philosophy of the Department is to enable man to know and understand himself and his environment through the study of linguistics and language. The discipline exposes the students to the multi-disciplinary and interlocking nature of the human society in their use of language. The programme furnishes the students with a live-long education that they can adapt in infinite ways to their chosen careers in life. It lays emphases on linguistics and the Nigerian Languages.

Objectives

- a) To expose students to various aspects of the study of Igbo linguistics, Igbo literature and culture with a view to helping them to achieve greater competence and sophistication in their understanding and appreciation of the values inherent in these aspects.
- b) To train them to be able to apply their knowledge for the advancement of their society.
- c) To prepare them for further studies in the discipline and for other relevant careers
- d) To be able to engage in simultaneous broadcasting and translation and interpreting in Igbo
- e) To be efficient Igbo editors and publishers with the skills acquired through the study of the Igbo grammar
- f) To equip students with a sound knowledge of the principles and current theories and practices of linguistics.
- g) To train them to be able to apply the knowledge and skills acquired in solving language related tasks and problems, particularly in their environments.
- h) To prepare them for further studies in teaching, media, speech and hearing remediation and language engineering.
- i) To prepare them for further studies in the discipline and for other relevant careers
- j) To be able to engage in simultaneous broadcasting and translation and interpreting
- k) To be efficient editors and publishers with the skills acquired through linguistics

The programme is designed to effectively combine the objectives of the B.A. Linguistics and all other Nigerian languages and cultures as listed above.

Scope

The programmes lead to the award of B.A. Igbo Studies, B.A. Linguistics, B.A. Linguistics and Igbo Studies, B.A. Linguistics and Ibibio Studies, B.A. Linguistics and Hausa Studies and Linguistics and Yoruba Studies. For the standard four year programme, the students are first introduced to the general principles and concerns of linguistics before they are introduced into the many areas of specialisation where linguistics is practised theoretically or where it forms the superstructure of the areas of specialisation. Participation of students in field work and laboratory practice is mandatory.

Introductory courses in Linguistics are available as service courses in the first year for students of English, Languages, Mass Communication and other departments which need them.

Entry Requirements

The Department offers two kinds of programme:

The 4-year programme through UTME: Candidates for the 4-year programme in Linguistics, Igbo Studies, Linguistics and Igbo Studies, Linguistics and Ibibio Studies, Linguistics and Hausa, and Linguistics and Yoruba, in addition to the University minimum entry requirements, must obtain a credit pass in English. Candidates for Linguistics must have in addition, a credit pass in Literature in English. Candidates for Igbo Studies or Linguistics and Igbo Studies must obtain a credit pass in Igbo. Candidates for Linguistics and Hausa, Ibibio or Yoruba Studies must obtain a credit pass in English, and Hausa, Ibibio or Yoruba respectively. In special circumstances, candidates with OND may be offered admission for a four year programme in Linguistics, Igbo Studies, Linguistics and Igbo Studies, Linguistics and Hausa Studies, Linguistics and Ibibio Studies or Linguistics and Yoruba Studies

Candidates for the 3-year programme must have obtained passes in relevant Nigerian languages and at least one other subject at HSC, NCE or GCE/A Level or its equivalence.

Job Opportunities

The programmes are designed to produce the following categories of suitably qualified manpower needed for national development:

- a) Teachers of Igbo, Hausa, Ibibio, Yoruba and Linguistics (with professional teaching qualification)
- b) Translators and Interpreters
- c) Media Practitioners
- d) Creative Writers;
- e) Cultural, Information and Ethnographic officers
- f) Editors and Publishers

- g) Language Planners and Engineers
- h) Lexicographers

Brief History

In 1961, history was made in sub-Saharan Africa when a Department of Mass Communication, then known as the Jackson College of Journalism, was established at the University of Nigeria, Nsukka "with virtually a complete North American style school of Journalism curriculum, including heavy doses of advertising, public relations and so on. The initiative to set up the department was that of the founding father of the university, the late Dr. Nnamdi Azikiwe, the doyen of West African journalism. With the establishment of the department, the dream for the formal educational training for journalists and would-be journalists became a reality.

In September 1961, the department which was then named Jackson College of Journalism was opened, and the first to head it was Earl O. Roe, who incidentally was the only lecturer in the department at the time. It was Earl O. Roe who commenced journalism programme for the pioneer students who satisfied the admission requirements for entry into the department.

In early 1962, barely two years after its establishment, the Jackson College took a giant stride in the field of student journalism by launching the NSUKKA RECORD – a weekly newspaper. The idea was to provide a training ground for student journalists so that they would be properly groomed in the nitty-gritty of journalism, namely information, education and entertainment.

In June 1964, Zik's dream was eventually actualized with the graduation of four of the pioneer students of the college, the first in sub-Saharan Africa. The accomplishment of this goal was highly significant in view of the human and material resources problems that marked the beginning and progression of the college. In May 1964, the college

had organized a dinner to mark the graduation event which, going by its significance, was an event of epochal magnitude. On that historic occasion, Dr. Nnamdi Azikiwe, who was the chancellor of the University of Nigeria, said *inter alia*:

We are making history tonight in that we have gathered here to honour the prospective graduates of the Jackson College of Journalism, who will receive their baccalaureate degrees in a few days. This incident will be history in the making, because for the first time in the annals of West Africa, an indigenous university will endorse the professional competence of journalists who have passed through the crucible of systematic university education.

In 1965, the department graduated ten students. In 1966, it produced twelve graduates, and in 1967, just on the eve of the outbreak of the Nigerian Civil War, it graduated fifteen students. This progress was, however, momentarily halted by the ravages of the civil war which reduced the college to a ghost of its former self by robbing it of its facilities and its entire founding academic staff.

However, the college came back to life once more in 1970 after the civil War with its own products as new academic staff. This time, the name Jackson college of Journalism was replaced with the Department of Mass Communication to reflect the department's new course offerings.

To complete the newness circuit, the departmental newspaper, - the *Nsukka Record*, was revived in 1971 with the name- *The Record*. The year 1971 was another milestone on the road to progress because it marked the production of the first batch of the department's post-war graduates after the wreckage of war.

Philosophy

The founders of the University of Nigeria believed that there was need to train Nigerians locally and in sufficient numbers for the formidable task of informing and guiding contemporary and future generations. Based on this philosophy, the University had as one of its original curricula, this degree in communication education.

It was hoped that graduates of the programme would be able to contribute to the development of the country through the power of the pen applied not only through the press but through the vast reaches of the broadcast media, film production and allied persuasive fields namely, public relations and advertising.

Objectives

The objectives of the undergraduate degree programme in Mass Communication are:

1. to prepare the graduates of the department to respond to the industrial and national needs of Nigeria's developing economy,
2. to produce graduates who would work for and then manage media institutions,
3. to offer training in communication skills and
4. to expose students to a broad liberal education within the University's philosophy of turning out the total man.

Scope

The department offers three- and four-year first degree programmes in Mass Communication. This curriculum is designed to enable students to gain expertise in various areas of the mass media and grounding in liberal education through exposure to courses in such areas as General Studies, major courses, required ancillary and elective courses. Recommended areas of study for the elective courses include Economics, English, History, Languages, Philosophy, Political Science, Psychology and Sociology.

The professional courses in Mass Communication provide the student with an understanding of the principles of mass communication and an opportunity to develop techniques in written and audio-visual communication. The required and elective courses give the student the essential background knowledge which he/she requires for effective communication in modern society. The department provides practical training in newspaper and magazine reporting, editing and publishing as well as in broadcasting.

Entry Requirements

There are two modes of admission into the department: U.M.E. and Direct Entry. Candidates seeking admission through the U.M.E. are required to have five credit level passes in the Senior Secondary Certificate Examination (S.S.C.E.) or its equivalent. These should include English Language, Literature in English and an approved science subject. A pass in Mathematics is also required.

To qualify for Direct Entry, an applicant must possess the Higher School Certificate/General Certificate of Education (G.C.E.) A' levels with pass in two Arts subjects and credit passes in English Language, Literature in English and an approved science subject plus a pass in Mathematics in the S.S.C.E. or its equivalent.

Also qualified for Direct Entry are those holding the Diploma in Mass Communication of the University of Nigeria or the Ordinary National Diploma (OND) in Mass Communication from any recognised institution with at least a merit or lower credit grade. Such candidates should also have four credit level passes including English Language, Literature in English and an approved science subject plus a pass in Mathematics in the S.S.C.E. or its equivalent.

Job Opportunities

Graduates of the bachelor's degree programme in Mass Communication can work as journalists in the print and broadcast media as well as in the new media such as the World Wide Web (www). They can serve as press secretaries and advisers/assistants on information and media matters to political leaders. They can also work as programme producers and presenters in broadcast stations; as editorial staff in book and magazine publishing outfits; as managers, copy writers and client service personnel in advertising agencies; as public relations officers and corporate affairs personnel in agencies, companies and institutions and as information officers at every tier of government.

Brief History

The Department of Music, University of Nigeria, started in 1961, is the first full-fledged Department of Music in Nigeria. From the beginning, the department introduced what is called a “bi-musical” programme which placed the teaching of Western and African music at par. In 1965 the department graduated its first set of four music students. In 1988 it started postgraduate programme with specialization in music education, music theory and composition and African music. The Nigerian civil war of 1967-1970 disrupted the academic growth of the department. All the instructional materials and musical instruments and equipment were lost or destroyed. In spite of efforts made since the end of the war, the department has not completely recovered from the ravages of the war nor has it received deserving attention for purposes of rehabilitating it adequately. Nevertheless, trickling resources over the years have been properly managed to keep the department in shape and functioning.

Philosophy, Objectives and Scope

The above programmes are designed to produce skillful, versatile and experienced musicians, emphasis being placed on performance and competent musicianship. The theoretical and practical courses serve to explain and complement one another, thus preparing the graduates and diplomats to appreciate, analyse, practise and communicate African and world music as performance as well as literary art.

The last two years of the degree programmes introduce areas of professional specialization in Composition, Performance, Ethnomusicology, Music Education, and Music Instrument Technology according to skills and aptitudes in order to consolidate, extend and develop the basic knowledge and skills acquired in earlier year(s). Required ancillary/elective courses ensure an overall balance of the programmes.

Entry Requirements

The University of Nigeria minimum entry requirements in addition to:

- (a) 5-credit level passes in the WASC/GCE O/L/NECO (including English Language and any science subject) at not more than two sittings.
- (b) 3-year B.A. Honours Degree programme by direct entry and audition for those who already hold N.C.E. single major, O.N.D. in Music or Pass Grade in Diploma in Music Education of the University of Nigeria, or equivalent qualifications acceptable to Senate.
- (c) 2-year B.A. Honours Degree programme by direct entry and audition for those who already hold the N.C.E, Double major (Music) or not less than merit pass of the Diploma in Music Education of the University of Nigeria, or equivalent qualifications acceptable to Senate.

All applicants, by whichever mode they seek admission, must satisfy the Department of Music of their basic musical aptitude and competence at a specially conducted departmental audition. This consists of written (theoretical), practical examinations. Candidates are recommended for admission only after they have successfully passed the audition, which normally holds in the last Thursday and Friday in August each year.

Opportunities

The above programmes of study prepare students for professional practice as music teachers in schools and colleges, broadcasters in media houses, researchers and producers in Research Centres, Museums, Arts Councils and Performing Arts Organizations, also as self-employed professionals in the areas of performances, artists organizers, musical instrument manufacturers, etc. A good pass qualifies a graduate to pursue further studies in Music, which could lead to employment in specialized and tertiary institutions such as the Universities. The Department of Music provides avenue for a strong foundation in performance and musical theatre experiences.

Brief History

The Department of Theatre and Film Studies, also known as the Robeson School of Dramatics is named after renowned African America actor Paul Robeson. It started as Sub-Department of Dramatic Arts which came into effect after the approval by the Senate at its 138th meeting held on July 6, 1983 in the Continuing Education Centre, UNN. Before this approval, Drama was offered as a stress area for the B.A. English degree in the Department of English. This goes as far back as 1965.

The Dramatic Arts programme, referred to by the founding fathers of the university as the Robeson College of Dramatics, was provided for, building-wise, as one of the pioneer disciplines of the University of Nigeria at its inception in 1960 but because of staffing problems, the discipline was attached for a long time to the Department of English as a stress area. It was not until the 1982/83 academic session that Dramatic Arts was upgraded to a Sub-Department level thereby making it quasi-independent and giving it positive encouragement to run its own programmes and administration. From that time onwards, the Department began to award a degree in Dramatic Arts, and the Co-ordinator of Dramatic Arts became a member of the University Senate. Both the Joint Universities Action Committee (JUAC) 1966, the predecessor of the present-day NUC, and the NUC have in their separate reports endorsed the Dramatic Arts discipline in the University of Nigeria. The Department achieved a full departmental status in 2004 and changed nomenclature to Theatre and Film Studies in 2006

The Department of Theatre and Film Studies can boast of a high rate of retention for both staff and students. From an academic strength of 3 in 1981/82 the number rose to 10 in 1983/84 and 14 in 1984/85. Today, we have a total of 10 academic, 3 technical and 3 support (administrative) staff. Correspondingly our student admission rose from 10 in 1983/84 to 95 in 1989/90 academic year to 220 presently. Our graduation figures rose from 3 in 1986/87 to an expected figure of 62 in the present 2016/17 academic year. The current students' population is over 270 while of postgraduate student population is over 80.

The Theatre and Film Studies programme at the University of Nigeria offers four years of formal studies (for JME entrants) and three years (for Direct entry candidates). The programme combines a strong theoretical base with practical technical and management studies. There is an option for industrial attachment but practical work is mandatory within the departmental through dramatic productions for students. Field visits to selected organizations and locations are also undertaken. Theatre Laboratory, a three level course, is used to assess the practical activities of students.

The Department of Theatre and Film Studies offers a four-year honours degree programme in Theatre Arts. It also offers a three-year B.A. programme and a combined honours degree programme with related departments in the Faculty of Arts.

Vision

The vision of the department is to produce sound and well rounded professionals for the media and entertainment industry in Nigeria and beyond. It also aims at empowering them economically and technologically through the creation of skills\ wealth that would enable them to compete nationally and globally in the various spheres of communication and entertainment media.

Philosophy

The philosophy behind the programme is hinged on producing graduates that possess appropriate management, intellectual and business skills. It is an ideal that sees creativity and innovation as indispensable to the modern world of information technology, globalization and cultural\national interests.

Scope

The Theatre and Film Studies programme is structured to accommodate both human and social concerns, and it is deemed adequate for students who intend to work in Media Houses, Film Industry, Performing Arts Establishments, Public Relations Outfits, Consultancy, Personnel Management and Publishing Houses or those who wish to set up their own business concern on graduation. The programme also presents the necessary background required for the entrant into professional training at the postgraduate level.

The requirements for award of the degree include the completion of the General Studies Programme of the University, required ancillary courses, necessary electives and the completion of specialized courses in Theatre Arts.

Departmental Entry Requirements

a) UME

Prospective degree candidates must satisfy both the University minimum entry and specific Departmental requirements. The Department specifically requires that:

Four-Year B.A. programme candidates in addition to the University minimum entry requirements must have passed English Language and English Literature at least at credit level in the West African School Certificate or an equivalent examination.

b) Direct Entry

Three-year B.A. programme candidates must possess either a diploma\or certificate from a recognized institution of higher learning or must have passed English Literature at the G.C.E. A\level. All candidates admitted into the Department must take two years of a language course other than English. University regulations also require all students to take General Studies (GS) courses.

Job Opportunities

Job Opportunities for Graduates of Theatre and Film Studies exist in the public service, particularly in teaching, administration and broadcasting. In addition cultural centers, the movie industry, public relation establishments and publishing houses need graduates equipped with the kind of expertise the programme imparts. Graduates of Theatre Arts may become self-employed as writers, critics, film-makers, journal and book publishers, actors and theatre directors.

General Information

The Department of Tourism Studies is an offshoot of the former Department of Archaeology in University of Nigeria Nsukka. The Department of Archaeology commenced in the University of Nigeria in August 1, 1981. It began with a B.A. Combined Honours Programme, and in 1985, the Single Honours Programme was introduced. It later metamorphosed in 2004 into B.A. Archaeology or B.A. Tourism, and subsequently into B.A. Archaeology and Tourism in 2010. Notwithstanding the remarkable progress, there was need for a formal splitting of the department

for better efficiency and academic progression. In February 2021, the Senate of University of Nigeria gave a formal approval to run two separate programmes in the department. They include Archaeology and Heritage Studies, and Tourism Studies. In October 2021, National Universities Commission (NUC) visited the University of Nigeria for a Resources Verification for Tourism Studies. With this, NUC gave approval to run two separate programmes in the Department; B.A. Archaeology and Heritage Studies, and BSc. Tourism Studies, under the BMAS programme structure of the NUC. With this, the first set of undergraduate students was admitted in 2021/2022 academic session for the two programmes. More so, following the 2021 NUC approval, in October 2023 the Senate of University of Nigeria approved for a formal splitting of the department into two independent departments; Department of Archaeology and Heritage Studies (B.A), and Department of Tourism Studies (BSc.). This formal separation took effect from March 5, 2024. By this, the Department of Tourism Studies was birthed on March 5, 2024.

Philosophy

Bachelor of Science (Hons) Tourism Studies programme is designed to produce graduates with appropriate knowledge and skills that will enable them contribute to the development of Nigeria, Africa and the global community in the field of Social Sciences in general and in the various sub-fields of Tourism Studies in particular.

Objectives

The objectives of the programme are to:

- Inculcate in students a sound knowledge of tourism, its applications in different socio-cultural contexts and to involve them in intellectually stimulating and satisfying experiences of learning and studying;
- Expose students to robust and well-articulated theories and methods in Tourism Studies;
- Cultivate in students the ability to apply their knowledge and skills to solve societal problems in Nigeria and elsewhere;
- Equip students with the relevant knowledge and skills with which to undertake further studies in special areas of tourism or multi-disciplinary areas involving Tourism Studies, and
- Develop in students a range of useful competencies for employment in public, private or self-employment.

Scope

Presently, the Department presents a revised undergraduate programme leading to B.Sc. (HONS) Degree in Tourism Studies. The courses covered include tourism, destination planning, field tours, tourism economics, map reading, surveying, environmental and socio-cultural issues in tourism development. Other areas covered are events planning, events budgeting and supplies as well as project management and implementation and related areas in the social sciences and humanities with special emphasis on Africa.

Job Opportunities

The programme is designed to produce highly skilled event managers and tourism officers to serve in various capacities in the management of occasions, festivals and destination sites that are reflective of the socio-cultural conditions of Nigeria and developments in the global arena. Graduates of the Department will be equipped for careers in tourism destination sites management, travel agency, air port/air-lines businesses, front desk management officers in embassies, immigration, cultural institutions and teaching services, as well as for self-employment.

Entry Requirements

In addition to the University's minimum entry requirements, candidates for admission into the four year B.Sc. (Hons) degree in Tourism Studies shall possess a Senior Secondary School Certificate (SSCE), General Certificate of Education (GCE), O'Level or their equivalents with at least five credit passes including Mathematics, English Language and Geography/Tourism/Economics, and any of the core arts, social science or science subjects at not more than two sittings. More so, for Direct Entry students (three year programme), in addition to the University's minimum entry requirements, applicants shall have one of the following from recognized institutions:

1. Credit level passes in ND (National Diploma) in Hospitality Management or Hotel and Catering management or Tourism.
2. Credit level passes in HND (Higher National Diploma) in Hospitality Management or Hotel and Catering management or Tourism.

Brief History

The Department of Anatomy, Faculty of Medical Sciences University of Nigeria was established in 1967. Currently, the department offers undergraduate courses leading to the second MBBS and second BDS professional degree programs of the Faculties of Medical and Dental Sciences, and also courses for the students of the Faculty of Health Sciences for their various degree programs.

Philosophy

To advance the frontiers of knowledge in human anatomy and to present it as a revitalized discipline, boundless and heterogeneous with full capacity to meet up with the societal needs in the fields of academics, entrepreneurship, experimental and clinical researches. This will ultimately enable the department produce students that will embrace the challenges of self-reliance and personal attainment with the ability to contribute to the growth in the economic, social and health sectors of the country.

Objectives: To train competent graduates with relevant knowledge and skill to perform the following functions:

- a. Teach anatomy to students from the faculties of Medicine, Dentistry, Health sciences, Pharmacy and other related disciplines requiring anatomy to function.
- b. Maximize the various entrepreneurial skill in Anatomy in meeting some of the societal and economic needs.
- c. Qualified to be part of the various institutions and bodies involved in experimental and clinical researches.
- d. Prepare students that will continue with additional trainings at the post-graduate levels.

Scope

The programme is designed to provide the undergraduates with appropriate theoretical and practical knowledge in all aspects of Anatomy. Students will also, through clinical posting, be exposed to various clinical units that will empower them with practical knowledge of the course.

Thus, the students shall be provided with adequate and intensive training in Human Anatomy, Cell and Molecular Biology, Physiology, Biochemistry, Radiology, Histochemistry, and basic knowledge of several sub-disciplines of Anatomy.

Entry Requirements

1. Unified Tertiary Matriculation Examination (UTME) Requirement

- i. All Unified Tertiary Matriculation Examination (UTME) candidates must have 5 credits at the ordinary level G.C.E, SSCE, WAEC or NECO examinations. The subjects must include English Language, Mathematics, Biology, Chemistry and Physics.

2. Direct Entry (DE)

All direct entry candidates must apply through JAMB and must meet any of the following requirements:

- i. Two 'A' level passes, one of which must be Zoology or Biology and either Physics or Chemistry. They should have five 'O' Level credits in English Language, Mathematics, Chemistry, Physics and Biology.
OR
- ii. A degree in any of the biological sciences or any other qualification, which may be considered to be equivalent to the above qualifications, where they join the class at the second year.

Job Opportunities

Successful graduates of the B. Sc. Anatomy programme have job opportunities in the following areas

- a. Various faculties of Medicine, Dentistry, Pharmaceutical, and Health sciences of various tertiary institutions to function in the role of teaching the course to their various students.
- b. Research institutes where they function as research scientists and Fellows

- c. In hospitals where they work in the following units:
 - i. Morbid anatomy
 - ii Reproductive and fertility units.
- d. Mortuary and embalment services
- e. Histopathology units of laboratories

Introduction

Department of Medical Biochemistry is one of the academic departments in the Faculty of Basic Medical Sciences, College of Medicine, University of Nigeria, Enugu Campus. It is an academic unit of the College, offering courses leading to the Second Professional Examinations in the Medical and Dental Programmes (MB,BS and BDS) of the College of Medicine. The Department also offers service courses to all the Departments in the Faculty of Health Sciences and Technology. The Department, at the Post-Graduate level, offers courses leading to the award of M.Sc. and Ph.D. of the University of Nigeria. It also conducts academic research in the areas of Medical Biochemistry.

History of the Department

The Department of Medical Biochemistry started in 1978 as one of the foundation Departments of the College of Medicine of the University of Nigeria, established under statute No. 2 of the University act of 1978, with approval of both the National Universities Commission and the president of the Federal Republic of Nigeria. The Department has however grown from the service department commissioned at inception to teach undergraduate medical and dental students, to a research-based department.

Philosophy

The philosophy of the Department is to lead the search for the molecular Basis of diseases and ultimately be positioned as one of the foremost Medical Biochemistry Department globally, judging from her products and services.

Scope

The Department offers courses that cover the core areas of Medical Biochemistry including Introductory Biochemistry, Chemistry of Biomolecules, Biochemical Catalysis, Bioenergetics and Biological Oxidation; Metabolism of Biomolecules; In-Born Errors of Metabolism; Nutritional Biochemistry, Special Topics in Medical Biochemistry and Practical Biochemistry.

Objectives

The Programme is designed to:

- Train Medical Doctors who will assist in the provision of health care at different levels, for the people of Nigeria and beyond.
- Produce Medical graduates who will serve as research fellows in Medical research institutions.
- Produce graduates who will effectively operate their own private clinics and hospitals.

Job Opportunities

On successful completion of Housemanship, the graduates would be able to serve as Medical doctors, research fellows, private medical practitioners and lecturers.

Stress Areas

Staff

U.I. Nwagha, MBBS (Nigeria); M.Sc. (Nigeria), FWACS, FMCOG,	Professor
U.S.B. Anyaehie, MBBS (Abia), M.Sc. (Nigeria), MPH (Nigeria) Ph.D. (Abia)	Professor
D.C. Nwachukwu, B.Sc., M.Sc. (Lagos), Ph.D. (Benin)	Professor/Head, 2015 - 2017
L.O. Nwoye, B.Sc. (Ibadan), PG Cert (Colorado) Ph.D. (Hull), PD Cert. (California)r	Visiting Professor
I.A. Orizu, MBBS (Nigeria), M.Sc. (Lagos)	Senior Lecturer/Head
E.E. Iyare, B.Sc., M.Sc., Ph.D. (Lagos)	Senior Lecturer
L.M. Nweke B.Sc. (Calabar), M.Sc. (Lagos)	Senior Lecturer
P. I. Ugwu, MBBS (Nigeria) M.Sc. (Uyo)	Lecturer I
P.U. Chime, MBBS (Nigeria) M.Sc. (Nigeria) FMC (Paed)	Lecturer I
P. O. Okorie, B.Sc. (Uyo); MBBS (Nigeria)	Lecturer II
C. C. Nworgu, MBBS (Nigeria)	Lecturer II
S. U. Ugwu, MBBS (Nigeria)	Lecturer II
V. Obi MBBS (Nigeria)	Lecturer II
O. M. Omire-Oluedo, MBBS (Nigeria)	Lecturer II
C. J. Ossai, MBBS (Okada)	Lecturer II
C. V. Nwachukwu, MBBS (Nigeria)	Lecturer II
C. K. Onyebuchi, MBBS (Nigeria)	Lecturer II
C. Nwajiaku, MBBS (Nigeria)	Lecturer II
C.A. Odenigb, MBBS (Nigeria)	Lecturer II
C.A. Uguru, MBBS (Nigeria)	Lecturer II
S. P. Madueke, B.Sc. (Okijah)	Graduate Assistant
A. P. Okeke BSc. (ABU, Zaria)	Graduate Assistant
F.O. Aniegboka, HND, PGD, MPA (Enugu)	Assistant Chief Conf. Secretary
A.D. Ekpe , BSc. (Abakaliki)	Hall Supervisor
E.A. Onyeanauna, B.Sc. (Nigeria); MBA (Nigeria)	Higher Technical Officer
C. I. Nnabuchi, ND (Owerri), B.MLS (Nigeria), MIBMS (London), MIFBS (Canada), MLT (NZ).	Senior Medical Laboratory Scientist
P. C. Chukwu, B.MLS (Ekpoma), M.Sc. (Nigeria)	Medical Laboratory Scientist I
N.A.Katchy, B.Sc. (Awka)	Medical Laboratory Scientist II
O. D. Nkwokocha, BSc (Anambra)	Medical Laboratory Scientist II
D.B. Adeniyi, B.Tech (LAUTECH)	Technologist II
C. N. Enweani, BSc (Nigeria)	Higher Technical Officer II

Brief History

The Physiology department with the programme for Medical Students was established in 1967 at Nsukka but was short-lived due to the civil war. It resumed again, in its present buildings, in 1970 at Enugu Campus. The course, including lectures, practicals and tutorials, was designed to give students an understanding of physiological concepts to enable them to appreciate the basic means by which the body functions, how these functions are controlled and the normal values of physiological parameters. Practical skills and knowledge of some basic techniques further reinforced didactic teaching. This is to prepare them for the 2nd MBBS professional examination at a level comparable with that of developed countries, and also to provide a sound scientific base for clinical studies. Since inception, the department has been offering undergraduate courses for the MBBS, BDS and also B.Sc. programmes of the department of Nursing, Medical Rehabilitation, Medical laboratory sciences and Medical Radiography.

The broad aspects of the course content, spanning all systems of the body, has remained basically the same in line with the internationally recognized pattern but it is updated from time to time to impart new and current concepts to the students. With the introduction of the course system by the University of Nigeria in the seventies, the programme was divided into appropriate courses, although the old examination format for the 2nd professional examination has been maintained. With the establishment of the faculty of Health Sciences in 1984, service courses were offered to fulfill their needs.

At about the same time the department established a postgraduate programme involving both coursework and research projects leading to the award of either M.Sc. or Ph.D. degree. This was aimed at providing the necessary specialized manpower both for this university and for the country as a whole.

Philosophy

To advance the frontiers of knowledge in human physiology to present it as a rejuvenated discipline, vast and varied, with full capacity to meet up with the societal needs in the fields of teaching, research, entrepreneurship and community service. To imbibe the principles of problem based learning, working from bench to bedside and encouraging collaborative research with the clinical sciences, all aimed at improving patient care.

The programme is intended to produce embryologists, and reproductive endocrinologists who are very important members of the artificial reproductive technology team. In addition we intend to produce heart-lung machine scientists who are indispensable in open heart surgery. Furthermore we shall train clinical measurement scientists for example in spirometry, electroencephalogram, electrocardiogram, and electromyogram who will work in the clinical measurement laboratories of teaching and other hospitals.

Objectives

The Programme is designed to:

1. Train Physiologists who will assist in research and may undergo further training to assist in the teaching of the course in medical schools. This will assist in reducing the acute shortage of physiology teachers in Nigeria and Africa as a whole.
2. Produce graduates who will manage the various teaching and research laboratories in secondary and tertiary institutions.
3. Produce specialists in the areas of embryology and reproductive endocrinology, including andrology who will serve in various teams in the fast growing field of artificial reproductive Technology. (ART).
4. Produce graduates who will work in the clinical measurement laboratories in our secondary and tertiary health care institutions.
5. Produce graduates who will operate the heart lung machine in open heart operations.

Scope

The programme is designed to provide the undergraduates with the appropriate theoretical and practical information in all aspect of physiology. In addition, it will also provide intensive training in Gross Anatomy, Embryology, Biochemistry, Molecular Biology, Histology and Histochemistry. Undergraduates are also expected to acquire basic knowledge in Pharmacology, Public Health and Health Statistics.

Entry Requirements

1. **Unified Tertiary Matriculation Examinations (UTME) Requirements:** UTME candidates must have 5 credits at the ordinary level G.C.E, SSCE, WAEC or NECO examinations. The subjects are English Language, Mathematics, Biology, Chemistry and Physics.
2. **Direct Entry (DE):** All direct entry candidates must apply through JAMB and must meet any of the following requirements:
 - ii. Two 'A' level passes, one of which must be in Zoology or Biology and either Physics or Chemistry. They should have five 'O' Level credits including English Language, Mathematics, Chemistry, Physics and Biology or a degree in any biological sciences or any other qualification, which may be considered to be equivalent to the above qualifications.
 - iii. Will start from the second year of the programme.

Job Opportunities

1. The graduates will serve as lecturers in various Medical schools, Pharmacy, Veterinary Science and life science faculties
2. They will also serve as Laboratory scientists in various Medical schools, Pharmacy, Veterinary Science and Life Science Faculties and research officers in research institutes.

- They will also work as, embryologist, reproductive endocrinologists, and heart lung machine scientists and also in the clinical measurements laboratories performing spirometry, ECG, EEG EMG etc. at various secondary and tertiary hospitals.

General Information and Academic Programme

Biochemistry is the science which enquires into the chemical constitution of living matter and the chemical processes by which the maintenance of life is accomplished in organisms. It furnishes the basic knowledge necessary for work in both the molecular and the cellular aspects of modern biology, hence, it is now widely recognized that an understanding of biochemical principles is vital for anybody wishing to proceed to advanced work in most areas of modern biology as well as in the pure and applied aspects of most of the life sciences.

Philosophy, Objectives and Scope of Programme

The Department of Biochemistry aims at producing graduate biochemists who are not only equipped with knowledge in all the modern aspects of the discipline, but are also aware of the particular needs of Nigeria in particular and African in general in the area of their specialty. Thus the degree programme lays much stress on such locally important topics as nutrition and food science; the biochemistry of the soil and of locally significant micro-organisms; basis of chemotherapy, including African traditional medicine; human biochemical genetics particularly with respect to the West African sub-region; Lipids and lipoproteins and environmental Biochemistry in particular, the emphasis on meeting the needs of the environment is reflected in the inclusion of a 'Research Project' on a local biochemical topic as one of the compulsory courses in the final year of every Biochemistry students.

Entry Requirements

For the Bachelor of Science degree in Biochemistry, the courses offered extend over a period of three years for direct entry students, and four years for students who gain admission through the entrance examination.

Direct entry candidates are required to have obtained the General Certificate of Education at Advanced Level or the Higher School Certificate at Principal Level in Chemistry, Biology (Botany or Zoology) and Physics plus Credit levels in Chemistry, Physics, Biology, Mathematics and English Language in the West African School Certificate or its equivalent, at the point of entry.

Entrance Examination candidates must possess passes at credit levels in Biology, Chemistry Physics, Mathematics and English Language in the West African School Certificate or its equivalent at the point of entry. Students from other departments who wish to take courses in Biochemistry should have attained at least credit standard in Biology, Chemistry, Physics and Elementary Mathematics in the West African School Certificate or attained a similar standard at an equivalent examination. Transfer students from other departments must possess the departmental basic qualification at the point of first admission in their respective departments.

Job Opportunities

There is an acute shortage of biochemists at present to study the soils, fertilizers, feedstuffs, insecticides, plant and animal hormones, plant growth-regulators, herbicides, etc., particularly with special regard to the West African sub-region. Biochemical knowledge is lacking with regard to plant and animal nutrition and disease, the biochemical aspects of the germination, growth ripening and spoilage of fruits and crops, and several other such topics which are vitally important to agriculture and veterinary science in West Africa.

There is also a desperate need for trained personnel to conduct studies on tropical products of economic significance (such as hides and skin, commercially important natural fibres, timbers, gums, resins and other forest products), with particular reference to the biochemical problems connected with their production, utilization, storage, biodeterioration, etc., local industrial undertakings, particularly those based on raw materials obtained from animal, plant and microbial sources (such as those industries concerned with foods beverages, cosmetics pharmaceutical, etc) are bound to need increasing numbers of biochemists in their product-development and quality-control laboratories. The opportunities outlined here are additional to the traditional areas in which Biochemists are needed including the Petrochemical Industry.

Stress Areas

- General Biochemistry and Bioinformatics
- Molecular Biology and Biotechnology
- Medical Biochemistry
- Enzymology and Protein Biochemistry
- Plant, Food and Nutritional Biochemistry
- Lipid and Lipoprotein Biochemistry
- Pharmacological Biochemistry and Toxicology
- Immunology and Immunochemistry
- Membrane Bioenergetics and Environmental Biochemistry
- Biochemical Methods
- Seminar/Project

Staff

L. I. Ezeogu, B.Sc., M.Sc., Ph.D. (Nigeria)	Professor & Head
B. N. Okolo, B.Sc. (Ife), Ph.D. (Strathclyde), fnsM, OFR	Professor
J. I. Okafor, B.Sc., M.Sc., Ph.D. (Nigeria)	Professor
J. C. Ogbonna, B.Sc. (Jos), M. Eng. (Yamanashi), Ph.D. (Tsukuba)	Professor
J. O. Ugwuanyi, B.Sc., M.Sc. (Nigeria), Ph.D. (Strathclyde)	Professor
I. M. Ezeonu, B.Sc. (Nigeria), M.Sc., Ph.D. (Georgia)	Professor
A. N. Moneke, B.Sc., M.Sc., Ph.D. (Nigeria)	Professor
C. U. Anyanwu, B.Sc., M.Sc. (Ife), Ph.D. (Nigeria)	Professor
E. U. Dibua, B.Sc., M.Sc. (Port-Harcourt), Ph.D. (Nigeria)	Professor
D.J. Liao, Ph.D. (Karolinska), MNAS (US)	Professor
R. C. Agu, B. Sc. (Nigeria); M. Sc. (Nigeria); Ph.D. (Scotland)	Professor
E. A. Eze, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
C. N. Eze, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
E. I. Nweze, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
A. C. Ike, B.Sc. (Nigeria), M.Sc., Ph.D. (Hohenheim)	Senior Lecturer
C. O. Nwuche, B.Sc., M.Sc. (Lagos), Ph.D. (Nigeria)	Senior Lecturer
O. C. Nwokoro, B.Sc., Ph.D. (Nigeria), M.Sc. (Lagos)	Senior Lecturer
V. N. Chigor, B.Sc., M.Sc. (Nigeria), Ph.D. (Fort Hare)	Senior Lecturer
C. I. Nnamchi, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
S. C. Enemuor, HND, PGD, M.Sc., Ph.D. (Awka)	Senior Lecturer
A. S. Okoli, B.Sc., M.Sc. (Nigeria), Ph.D. (New South Wales)	Lecturer I
T. N. Nwagu, B.Sc., M.Sc., Ph.D. (Nigeria)	Lecturer I
C. O. Amadi, B.Sc., M.Sc. Ph.D. (Nigeria)	Lecturer I
C. O. Onwosi, B.Sc. (Nigeria), M.Sc., Ph.D. (Awka)	Lecturer II
G. N. Okpala, B.Sc., M.Sc. (Nigeria), M.Sc. (NewCastle)	Lecturer II
Nnabuike, Obianuju O. B.Sc. (Awka); M.Sc. (Nottingham)	Lecturer II
V. Onuorah, B.Sc. (Nigeria)	Graduate Assistant
D.D. Ojobor, B.Sc. (Nigeria)	Graduate Assistant
C. Mbadugha, B.Sc. (Nigeria)	Graduate Assistant
I. A. Ndubuisi, B.Sc. (Nigeria)	Graduate Assistant
O. V. Chinasa, B.Sc. (Nigeria)	Graduate Assistant
C. J. Onu, B.Sc. (Nigeria)	Graduate Assistant
E. C. Ogbonna, B.Sc. (Nigeria)	Graduate Assistant
C. A. Ezema, B.Sc. (Nigeria)	Graduate Assistant
C. I. Oseke, B.Sc. (Owerri)	Principal Lab. Technologist
A. O. Ezeora, OND	Chief Typist/Ag. Secretary

General Information

Microbiology started in the University of Nigeria, Nsukka, in 1965 as a service unit and was upgraded to the status of a full department in 1970, with a core staff of seven individuals made up of five academic and two technical staff. In addition to its single and combined honours degrees, the Department also organized a Medical Laboratory unit in the Faculty of Medicine, Enugu Campus and employed the staff of the Department to teach microbiology to medical students. The unit at Enugu remained under the administration of the Department at Nsukka until 1984 when it became an autonomous department of Medical Microbiology.

The Department of Microbiology, today, offers courses leading to a B.Sc. (Honours) degree in Microbiology. Admission is either by Unified Tertiary Matriculation Examination (UTME) or by Direct-Entry. Students admitted by UTME undergo a four-year degree programme while those admitted by direct entry do a three-year degree programme.

Philosophy

The field of biology is one which has undergone a lot of evolution and continues to evolve everyday, more so, since the early twentieth century. Early studies in Biology were devoted more to the study of life-cycles of organisms and similarities in their physical appearances. But with advancements in the field of genetics, aided mainly by studies of microorganisms, Microbiology emerged as one of the most important areas of study in the life sciences.

As the pioneer Department of Microbiology in the country, the Department of Microbiology, University of Nigeria, Nsukka, is planned to be at the forefront of teaching and learning, research and development, knowledge creation and dissemination in the field of Microbiology, aimed at producing world class microbiologists.

Microbiology has taken a pivotal role in the study and advancement of life sciences, being the foundation on which Modern Biotechnology was built. It is therefore relevant in all fields of research and development for the improvement of human life. Its many applications have brought advancements, through Biotechnology, in such areas as Medical Diagnosis, Brewing, Agriculture, Industrial Production of food and pharmaceuticals, Environmental Monitoring, Bioremediation, Medical and Pharmaceutical Biotechnology and other emerging areas of Biotechnology. Hence, it is imperative that the student of Microbiology should be properly equipped to play the expected roles in these important areas of life.

Objectives

The programme is designed to:

1. To give students a sound exposure to the theory and practice of Microbiology.
2. To equip students with adequate research techniques to enable them function as lecturers in universities and other tertiary institutions, research officers and consultants in the many fields of application of Microbiology.
3. To equip students with adequate practical knowledge to enable them to become self-reliant as producers of many food and industrial products of microbial activity.
4. To produce world class microbiologists who can compete with their counterparts the world over and fit into advanced programmes within the country and outside it.

Scope

The Department offers a very robust and forward-looking programme in the general and applied areas of Microbiology to prepare its graduates for their important role in the advancement of life. The core courses are designed to give students wide exposure in the main areas, which include Medical, Industrial/Food and Environmental Microbiology, including Climate Change studies. The students undergo industrial attachment during their third year of study, which affords them practical experience in diagnostic techniques and other microbiological processes in hospitals and industries.

The Department also offers, in conjunction with the Departments of Chemistry and Biochemistry, B.Sc. combined degree in Microbiology/Chemistry and Microbiology/ Biochemistry.

In addition, service courses are offered to students in other areas of Biological Sciences, Medical Sciences, Veterinary Sciences, Agricultural Sciences and Health and Physical Education.

Job Opportunities

Students, on successful graduation, can take up careers such as lecturing and/or research in universities, polytechnics and biomedical research centres. They can find employment opportunities in some government agencies such as centres for disease control, Food and Drug Administration agencies, water corporations, waste management agencies, environmental control and protection agencies, environmental impact assessment agencies and other quality control agencies.

Graduates can also find employment in a variety of industrial (e.g. food/pharmaceutical industries) establishments as well as in medical, public health, agricultural and veterinary laboratories. Opportunities also exist for graduates in the fermentation industries as represented by the breweries, alcohol distilleries, as well soft drink and fruit juice production industries.

Entry Requirements

(a) UTME Entry Requirements

Candidates who have satisfied the minimum university requirements for admission are required to obtain credit level passes in English language, Biology, Chemistry, Physics and Mathematics in the West African School Certificate

(WASC)/General Certificate of Education (GCE)/Senior Secondary School Certificate Examination (SSSCE), National Examination Council (NECO) or any other acceptable equivalent certificate.

(b) Direct-Entry Requirements

Candidates are required to obtain passes at Higher School Certificate or GCE A/L in Chemistry and Biology or Chemistry and Zoology or Chemistry and Botany in addition to the UTME Entry requirements.

O.S. Udengwu, B.Sc., Ph.D. (Nigeria)	Senior Lecturer
N.E. Abu, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
R. C. Njokuocha, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
C.N. Ogbonna, B.Sc.(Nigeria), M.Sc.(Tsukuba), Ph.D. (Ebonyi)	Senior Research Fellow
G.C. Ajuziogu, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
C.C. Onyeke, B.Sc., M.Sc (Nigeria), PGDE, Ph.D.(Jos)	Senior Lecturer
E.E. Osayi, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
C.B. Chigor, B.Sc., M.Sc.(Nigeria), Ph.D. (FortHare)	Senior Lecturer
C. Asuzu, B.Sc., M.Sc., Ph.D. (Nigeria)	Lecturer I
S.N. Egonu, B.Sc. (Jos), M.Sc. (Bangalore)	Lecturer II
D.A. Osibe, B.Sc., M.Sc. (Nigeria)	Lecturer II
U.C. Okafor, B.Sc., M.Sc. (Nigeria)	Lecturer II
N.C. Ikegbunam, B.Sc., M.Sc. (Nigeria)	Lecturer II
A.N. Amujiri, B.Sc., M.Sc., Ph.D. (Nigeria)	Lecturer II
C.C. Isuosuo, B.Sc., M.Sc. (Nigeria)	Lecturer II
V.O. Ayogu, B.Sc., M.Sc. (Nigeria)	Assistant Lecturer
A.E. Nweze, B.Sc., M.Sc. (Nigeria)	Assistant Lecturer
B.O. Ude, B.Sc., M.Sc. (Nigeria)	Assistant Lecturer
E.U. Njoku, B.Sc., M.Sc. (Nigeria)	Assistant Lecturer
P.C. Ezeh, B.Sc., M.Sc. (Nigeria)	Assistant Lecturer

D.C. Urama, B.Sc. (Jos), M.Sc. (Osmania)	Assistant Lecturer
C.N. Onaebi, B.Sc., M.Sc. (Nigeria)	Assistant Lecturer
C.N. Adeosun, B.Sc. (Nigeria), M.Sc.(Ibadan)	Assistant Lecturer
E.B. Aliche, B.Sc., (Nigeria) M.Sc.	Graduate Assistant
A.C. Obiekwe, B.Sc. (Nigeria)	Graduate Assistant
O.J. Chioke, B.Sc. (Nigeria)	Graduate Assistant
N.M. Eze, B.Sc. (Nigeria)	Graduate Assistant
S. Ugwuanyi, B.Sc. (Nigeria)	Graduate Assistant
J.C. Chinekwu, HND. (Nigeria)	Principal Laboratory Supervisor
E.N. Ngele, B.Sc. PGD. (Umudike)	Higher Technical Officer II
E.O. Enweani, B.Sc. (Enugu)	Higher Technical Officer II
G.O. Kanu, B.Sc. (Nigeria)	Higher Technical Officer II
C. Ezeonwuka, B.Sc. (Nigeria)	Higher Technical Officer II
P.N. Ishiwu, HND, B.Sc. (Enugu)	Higher Technical Officer II
C.F. Ikele, B.Sc. (Nigeria)	Higher Technical Officer II
B.O. Ezema B.Sc. (Enugu)	Higher Technical Officer II
C.C. Nwadinigwe, B.Sc. (Nigeria)	Higher Technical Officer II
C.J. Onyeukwu, HND. (Enugu)	Higher Laboratory Supervisor
P.N. Ilo, B.Sc. (Nigeria)	Laboratory Supervisor
L.C. Onah, B.Sc. (Nigeria)	Assistant Exec. Officer/Chief Data Entry Officer

Brief History

The Department of Plant Science and Biotechnology started as the Department of Botany during the 1962/63 Session at the Zwelling building which it shared with Zoology Department. It was among the original Departments in the Faculty of Sciences as at the 1962/63 Session. In 1976/77 Session, the Department came under the re-designated Faculty of Biological and Pharmaceutical Sciences. By 1980/81 Session the Department returned to the Faculty of Biological Sciences when the former twin Faculty of Biological and Pharmaceutical Sciences was split into the Faculty of Biological Sciences and Pharmaceutical Sciences. It has ever remained in the Faculty of Biological Sciences and has now changed to the Department of Plant Science and Biotechnology, in line with global changes in the life sciences, for greater service delivery to the society.

Philosophy

The B.Sc. programme is designed to encourage and promote the training of students in all aspects of Plant Science and Biotechnology. The students are expected, at the end of their programme to become conscious of their environment and appreciate the delicate balance between plant life and the existence of the Earth. They are expected to become highly knowledgeable in the new frontiers of biotechnology as it relates to plants, the primary producers in the universe. Above all, it is the core goal of the Department to produce graduates who can relate to the needs of the society through their knowledge and application of the amazing facets of plant life and products, and biotechnology.

Objectives

- To structure the Academic Programmes in order to produce employers of labour rather than job seekers, in line with the directives of NUC.
- To phase out the old spirit of white-collar job and pilot the new Department towards solving the problems of the individual in particular, industries and the nation in general.
- To structure the course content with a view to giving the students the broad education and technological expertise, which they need, so as to enable them see Plant Science and Biotechnology in the wider context of Science and Technology (S & T) Education.
- To steer the new Department away from the old base of cutting the plant and studying its anatomy or memorizing as many plant names as possible, but to now ensure that the role of Plant Biotechnology in the life of the individual and the nation's economy and existence is adequately emphasized.

- To equip the products of the new Department with sound theoretical and practical knowledge in Plant Biotechnology so that they can compete effectively both locally and internationally.

SCOPE

- The programmes are designed to give an understanding of the basic principles of biological sciences and give depth in various aspects of Plant Science and Biotechnology including Pulp and Paper Technology, Timber Products Technology, Plant Biotechnology, Herbarium and Phytosystematics, Plant Tissue Culture and Micropropagation, Phytoremediation and Erosion Management, Phyto-Environmental Impact Assessment, Plant Molecular Biology, Genetic Engineering, Phytobioinformatics, Ethnomedicinal Plants, Cytology, Genetics and Plant Breeding, Mycology, Plant Pathology, Plant Physiology, Plant Ecology etc. Plant Embryology and Morphogenesis, Palynology, Plant Virology and Diagnostics, Mushroom technology.
- Students majoring in Plant Science and Biotechnology are required to take courses in Zoology and Environmental Biology, Chemistry, Physics, Mathematics, Statistics, Biochemistry, Computer Science, Soil Science, Entrepreneurship, English, Humanities and Social Sciences and may be required to take elective courses in, Geology, Zoology and Environmental Biology, Microbiology, Crop Science, Soil Science, Mathematics and Statistics. In the final year, all Plant Science and Biotechnology students (Majors and Combined degree students) are required to undertake a special independent study involving experimental investigations of relevant Plant Science and Biotechnology problems.
- All students of Plant Science and Biotechnology (Majors and Combined degree students) are expected to participate in regular field trips, occasional excursions and SIWES (Students Industrial Work Experience Scheme). The SIWES programme is aimed at giving students direct working exposure to areas of application of Plant Science and Biotechnology.
- The Department also offers service courses to students of Agriculture and other interested students of other Departments or Faculties. The Department of Plant Science and Biotechnology in collaboration with other departments also offers B.Sc. Combined degree programmes in Plant Science and Biotechnology/Zoology and Environmental Biology; Plant Science and Biotechnology/Chemistry; Plant Science Biotechnology/ Biochemistry and Biology/Education.

Entry Requirements

UME Entry Requirement

For the Bachelor of Science (B.Sc.) Honours degree in Plant Science and Biotechnology, the courses offered extend over a period of 4 years for students who gain admission through UTME and 3 years for direct entry students. In addition to the University minimum entry requirements, both categories of students (entrance and direct) are expected to obtain credit passes in Biology, Chemistry, Mathematics, Physics and English Language in the West African School Certificate Examination or G.C.E. O' level or N.E.C.O or any other acceptable equivalent qualification, at not more than two sittings.

Direct Entry Requirement

The courses offered for direct entry students extend over a period of 3 years. Direct entry students are also expected to obtain passes at 'principal' level in the Higher School Certificate (H.S.C) Examination or G.C.E. 'A' level or its equivalent in Chemistry and Biology or Botany or Zoology.

Candidates with the following diploma certificates may be considered for admission by direct entry: The Nigerian Certificate in Education (NCE); Higher National Diploma (HND) of College of Technology and Polytechnics or any other relevant degree qualification.

Job Opportunities

- g) Students graduating from the Department of Plant Science and Biotechnology may choose careers in research and/or pedagogy in Colleges, Universities and Research Institutions, Government, Agriculture, Forestry, Criminal Investigation Institutions, Biotechnology Research Centres, Conservation and Wild-life Management, Wood Technology and Industries, such as Sugar, Rubber, Paper Pulp, Fertilizer and Oil (Vegetable and Mineral), Petroleum Refinery, etc.

- h) Apart from these areas, graduates of the department will find it easy to employ themselves, with little financial support in the areas of Mushroom production; Floriculture, hedging and landscaping using indigenous and exotic hedge plants; establishment of orchards and plantations for food and raw material production; macro-propagation of many economic tree crops; off season vegetable and fruit production and preservation; production of seedless fruits; establishment of germplasm companies; beekeeping for honey and synergy in crop productivity.
- i) Other areas of self-employment include formulation and marketing of Herbal soaps, identification, naming, preservation and use of medicinal plants for health care delivery through refining of unacceptable crude practices by indigenous people; organic horticulture through composting; production of phytoplankton for biofuels and feeding of animals especially fishes; recycling of waste products; construction of bioreactors for energy production for households; production of fruit juices from assorted fruits and their combinations etc.

Brief History

“To restore the dignity of man” is the guiding principle on which the Department of Zoology and Environmental Biology (formerly Department of Zoology) was founded. This was way back in 1961. The Department was envisioned to be the first indigenous citadel of learning where zoology courses were taught to young Nigerians, Africans and global youths. The Department came out with the clear objective of giving effective training to Nigerians, Africans and global young men and women thus filling the need for the national and international production of high quality, competent and competitive Zoologist which possesses the attitude and attributes essential for the building of the nation to a desire focused direction and excellent level of intellectual development. These objectives were articulated with great clarity aimed at producing graduates who are versatile and of excellent intellectual fibre in addition to acquiring through passage within the university, a sound and impeccable moral character and a burning desire and willingness to devote themselves and their energies towards making great the Nigerian nation where excellence, truth and justice prevails. Against this background, the founding fathers in 1961 established the foundation Faculties of Science, Arts and The use of Library and Study Skill in addition to Engineering, and for the first time in Nigeria the School of General Studies. Within the Faculty of Science the Departments of Zoology, Botany, Physics and Chemistry were inaugurated as service and foundation Departments essential for man power development.

The Department of Zoology and Environmental Biology offers courses leading to the B.Sc. (Hons.) Degree in Zoology and Environmental Biology. Admission is by University Matriculation Examination (UME) or by Direct-Entry. Candidates admitted by UME shall undergo a four-year degree programme while those admitted by Direct-Entry shall undertake a three-year degree programme.

Philosophy

In accordance with the Philosophy of the University, the Zoology and Environmental Biology programme is planned to promote general and practical education in Zoology and Environmental Biology. Animals’ existence is totally dependent on the abiotic and biotic variables of its environment. The knowledge of Zoology and Environmental Biology is the central theme in such emerging areas like Ecotoxicology, Animal Biotechnology, Biodiversity studies, Ecosystem monitoring, Environmental Management and Animal Bioinformatics. Environmental biology encompassing such multidisciplinary area has become an important issue in animal biodiversity prospecting and environmental management. Hence, it is imperative that the student should be properly trained to enable her play the expected pivotal roles in these emerging field of learning. Thus to play this role, adequate knowledge of environmental biology is imperative and has been built into the curriculum.

Objectives

- The objective of the programme is to train students to respond to the global challenges and the needs of the Nigerian society in particular, through broad training/education in the areas of General Biology, General and Applied Invertebrate and Vertebrate Zoology; Animal Developmental Biology, Histology, Genetics and Animal Breeding, Molecular Biology and Bioinformatics, Animal biotechnology, Animal Ecology, Systematic and Evolutionary Zoology, Animal Behaviour, General Physiology and Environmental Biology.
- To equip students with adequate practical knowledge that will enable them be self-reliant and captains of biomedical, agro-aquacultural, petrochemical, environmental and human development industries.
- To equip students with adequate research techniques that will enable them function as research officers in biomedical, agro-aquacultural, petrochemical and environmental sectors of both national and global economies.
- To give adequate, effective and resourceful training needed for the national and international production of high quality, competent and competitive Zoologist that possess the attitude, character and attributes essential for building the Nigeria nation to excellent level of societal development.

Scope

Students are trained in the areas of General Biology, General and Applied Invertebrate and Vertebrate Zoology; Animal Developmental Biology, Histology, Genetics and Animal Breeding, Molecular Biology and Bioinformatics, Animal biotechnology, Animal Ecology, Systematic and Evolutionary Zoology, Animal Behaviour, General Physiology and Environmental Biology. Students are also required to take ancillary courses in; Chemistry, Biochemistry, Statistics and Computer Science as well as elective courses in Mathematics, Physics, Agriculture, Geology, Computer Science, Microbiology, Soil Science, Plant Science and Biotechnology and Modern Languages.

In the final year the students are expected to branch out into one of the special areas (Parasitology, Fisheries Biology, Physiology, Entomology, Environmental Biology Genetics and Animal biotechnology, and take advanced courses in these areas that offer them greater exposure and in-depth knowledge in their chosen options. In addition, the Students' Industrial Work Experience Scheme has been incorporated in the programme. It is scheduled for the second semester of the third year.

Areas in Zoology and Environmental Biology programme which are of particular National importance/interest include such areas as Fisheries Biology, Parasitology, Entomology (Pure and Applied), General and Comparative Animal Physiology as well as Environmental Biology, Animal Genetics, Animal biotechnology, Molecular Biology that are offered in greater detail in the third and the final year.

Zoology and Environmental Biology courses may be combined with others in relevant disciplines for the B.Sc. (Hons) degree in Zoology and Environmental Biology/ Plant Science and Biotechnology, Zoology and Environmental Biology/ Chemistry, Zoology and Environmental Biology / Biochemistry, Zoology and Environmental Biology / Microbiology, Education/Biology, etc.

Entry Requirements

1. **UME Entry Requirements:** Five O level credit passes at not more than two sittings to include Biology, English Language, Mathematics or Physics and Chemistry are mandatory; at School Certificate or its equivalent are acceptable.
2. **Direct-Entry Requirements:** Principal level passes at HSC or GCE A/L in Biology or Zoology and one other Science subject plus a credit pass in Mathematics or Physics in School Certificate or its equivalent; Diploma in Applied Biology from recognized institutions plus 4 credit level passes including Chemistry and Biology and a credit pass in English Language in School Certificate or its equivalent. A degree in relevant fields plus UME requirements, HND and NCE credit pass are acceptable.

Job Opportunities

Graduates of Zoology and Environmental Biology can find employment in different specialized sectors of the national and global economy. Relatively few of these sectors include; medical and biomedical sector such as hospitals, clinic, public health facilities, pharmaceutical companies, diseases vectors control departments, World Health Organization and medical and biomedical research institutions etc., for professional in public health and parasitology, entomology, animal biotechnology and physiology.

In agricultural establishments, pest control and crop protection units, aquaculture facilities, Institute of Marine and Oceanographic Research, Institute of Freshwater Fish Research, Institute of Topical Agriculture, fisheries unit of Ministry of Agriculture, veterinary clinics, snailry, laboratory /small animal production facilities, Food and Agricultural Organization, Food and Drugs Administration Agencies etc for professional entomologist, fisheries scientist, aquaculturist, animal biotechnologist and hydrobiologist.

Urban and municipal waste management, sewage management, sanitation projects, pollution and Environmental Protection Agencies, environmental impact assessment facilities, wild life and games resorts, zoological parks, biodiversity prospecting projects, museums of natural history and petrochemical industries (Oil and Gas industries) etc., for ecologist, hydrobiologist, mammalogist, environmental biologist, conservationist, animal biotechnologist etc.

They can also find work in industries such as breweries, feed production, food processing and educational facilities as auxiliary teachers, and in agricultural and commercial banks as bankers.

Stress Areas

Basic Courses in Zoology

Philosophy and Objectives

The Departmental Academic programme has been developed on the fundamental assumption that the student is entitled to acquire profound theoretical and practical knowledge to equip him to face the challenges of life, to enable him cope with the problems of his environment. The curriculum is designed to give him a broad knowledge of business and at the same time concentrate in his special field, Accounting. To this end, emphasis is placed upon professional education of the entire individual and in providing him with the background necessary for his effective performance in his career. To obtain the degree, a candidate must complete a total of 136 credit hours of course work consisting of courses in the major area, Accounting, and courses from the ancillary areas embracing other departments such as Management, Marketing, Finance, Law, Psychology and the General Studies Division of the University. Education in Accounting as offered by the department, has the following objectives: To prepare candidates who will graduate in Accountancy and be in a position to carry out the duties and responsibilities of Accountants in Government and Industrial Establishments, Business undertakings, Statutory Corporations and parastatals, proceed to qualify as professional/Chartered Accountants and Auditors and to become Management consultants. The course aims at helping students acquire leadership skills, human relations, analytical, evaluative quantitative and communicative skills needed for management of organizations and proper stewardship. The course aims at exposing students to the integrative, interdisciplinary, and dynamic nature of business and administrative processes. Through its vigorous programme the Department of Accountancy prepares its students for careers in business, governmental administration multi-national organization, academic institutions and social service. These aims and objectives have shaped the academic content of this programme.

Entry Requirements

Candidates are expected to possess the West African School Certificate of Education (O/L) or the Senior Secondary School Certificate or an equivalent acceptable to the Department.

Candidates must obtain credits in five subjects at WASC, GCE (O/L) or the senior Secondary school pass level in five subjects taken at not more than two sittings. Candidates must pass at Credit level in **English, Mathematics and Economics** as well as obtain a satisfactory score at JME as determined by the Department.

Candidates seeking admission by Direct Entry are expected to possess in addition to credit level, passes in English, and Mathematics in G.C.E. (O/L) or an equivalent examination, at least pass at Advanced level in Economics, Accounts and or Government or any other related field as may be determined by the department from time to time.

Also candidates who possess O.N.D. credit level or N.C.E. with passes in Accounting and related areas such as Finance, Banking, Marketing and Management will be considered provided that they also possess credit level passes in English, Mathematics and Economics at GCE/WASC or equivalent. The course duration for all modes of entry is four years.

General Information

The Department of Banking and Finance offers a four-year degree programme leading to the award of the Bachelor of Science degree in Banking and Finance. The degree is acquired through course work and Research project. The major emphasis is on Banking, Financial Management, Investment Analysis and Project Evaluation.

Philosophy and Objectives

The Departmental academic programme is developed on the basic premise that the individual is living in a modern, dynamic and monetized economy, which poses challenges and uncertainties in decision making. Hence the programme is designed to inculcate in the individual the ability to identify, analyze and offer solutions to complex financial problems that may arise from the technologically changing financial environment.

The programme also aims at cultivating in the individual the basic work ethics that is required in a production economy which will result in self-reliance, sound moral discipline and individual actualization.

Education in Banking and Finance aims at developing the necessary financial tools that will enable the individual occupy managerial positions in government and private sector establishments such as Commercial and Merchant Banks, Insurance Companies, Finance and Investment Companies, Brokerage firms, Commerce and Industry as well as succeed in self employment.

Students of Banking and Finance will be taught courses on the portfolio behaviour of banks and non-bank financial institutions. They will equally be exposed to the techniques of share valuations of profit maximizing and non-profit making organizations. The curriculum will enable the students to appreciate the significance of capital expenditure decisions which are necessary for sustainable economic growth. Also emphasis is equally placed on thrift through courses in personal financial management.

At the completion of four years of rigorous academic work the students of Banking and Finance must have

acquired the necessary knowledge to cope with the challenges of the wider society.

Entry Requirements

In addition to the University general admission requirements, candidates are required to possess the Senior Secondary school certificate or the General Certificate of Education (GCE) Ordinary level with credit in five subjects including English language, Mathematics and Economics. Direct Entry candidates should possess five credit passes in the GCE (or equivalent) examination at least two of which shall be at the Advanced level passes in Economics and Government or four credit passes at least three of which shall be at the Advanced level passes in Economics, Government and Accounting, Provided that subjects are not counted at both levels of examination. Credit passes at the ordinary level must include English language and Mathematics. Candidates with the National Diploma obtained from accredited polytechnics/colleges or institutes with passes at the upper credit level can be admitted by direct entry of which Economics must be one of the courses passed. The candidates must also possess five credit passes including English language, Mathematics and Economics at the senior Secondary School certificate or GCE ordinary level. Course duration for all modes of entry is four years.

Candidates for admission into the Three-Year standard Undergraduate Programme are required to possess the Advanced level credit passes in Economics, Mathematics and Accounting or Government, in addition to General Certificate of Education (GCE) ordinary level or its equivalent, with credit passes in five subjects which should include English Language, Mathematics and Economics plus any one of the following subjects; Commerce, Accounting, Geography or Government. Also candidates with the Ordinary National Diploma (OND), National Certificate in Education or Higher National Diploma (HND) obtained from accredited Polytechnics, Colleges of Education or Institutes, with upper credit level, are qualified to be admitted by direct entry mode.

Departmental Information

The Bachelor of Science Degree in Management is four-year Degree Programme. The degree is acquired through Course Work and Project/Research report.

Entry Qualifications or Admission Requirements

Candidates are expected to obtain the West African School Certificate or General Certificate of Education or Senior Secondary School certificate, or their equivalent acceptable to the Department. In addition, candidates must obtain Credit in five subjects at not more than two sittings which must include English Language, Mathematics and Economics. Also applicants must obtain a satisfactory pass level at the UME or as determined by the Department. Candidates applying by direct entry are expected to possess five credit passes in the GCE (or equivalent) examination of which at least two shall be at the advanced level, or they may possess four credit passes of which at least three shall be at the advanced level, provided that subjects are not counted at both levels of the examination. That Advanced Level Subjects passed must include economics. Credit passes at the Ordinary Level must include English. Also candidates with the National Diploma obtained from accredited Polytechnics/Colleges or Institutes with passes at the Upper Credit Level can be admitted by direct entry. Economics must be one of the courses passed. In this case the School Certificate or GCE ordinary passes must include Credits in English Language and Mathematics.

Course duration for all modes of entry is Four years.

Philosophy, Objectives and Scope

General Philosophy

The Departmental academic programme has been developed on the fundamental assumption that the student is entitled to acquire profound theoretical and practical knowledge to equip him to face the challenges of self-reliance,

contribute to national development and be a person able to cope with problems of the environment, the wider society and relate successfully and co-operatively with the other persons. The curriculum is designed to encourage high integrity, self-reliance, competence, excellence and depth in knowledge. To this end, emphasis is being placed upon professional education of the entire individuals and also providing him with the background requisite to effective performance in his career.

Objectives

Education in Management offered by the department has the following specific objectives:

The provision of basic knowledge needed for an understanding and analysis of problems related to the management or administration of industrial, business, commercial, public, and private organisations. The fundamental issues required for the successful administration or management of human organizations are offered in the course in management.

Students of Management or Administration will be equipped with the knowledge and skills required for identifying and defining problems and taking appropriate decisions, using the techniques and tools of the Administrative Science and related disciplines. The students will acquire a thorough knowledge of research processes and procedures for investigating issues and problems in Management and Administration of Economics, Social and Business Problems, scientifically.

The course aims at inculcating in students an awareness of and sensitivity to environmental factors and conditions; how to use administrative or management knowledge to make appropriate decisions and propose solutions to problems. The course aims at helping students acquire leadership skills, human relations, analytical, evaluative, synthetic and communicative skills needed for managing human organisations. The course aims at exposing students to the integrative, interdisciplinary and eclectic nature of management or administrative education.

Through its rigorous programme, the Department of Management aims to prepare students for careers in business and general management: multinational organisations, governmental agencies, academic institutions and social services. These aims and objectives have shaped the academic contents of this programme.

Departmental Philosophy and Objectives

General Philosophy

The Department of Marketing in the Faculty of Business Administration offers a four-year degree programme and a three-year (direct entry) programme leading to the Bachelor of Science degree in Marketing. The Departmental Programme is based upon the philosophy of a broad based education bearing in mind that marketing is an eclectic discipline and depends heavily on social sciences, Humanities and natural and physical sciences.

A student of Marketing needs both theoretical and practical knowledge to equip with the necessary tools to face the challenges of the competitive economy. Emphasis is placed on self-reliance and self-employment to enable the student contribute to national development and professional career. To this end, therefore, the programme emphasizes both education and trading in general marketing research, advertising, public relations and transportation.

Objectives

The Objectives of the programme are as Follows

- To educate students in all aspects of business administration in the first two years of the programme.
- To give the students broad understanding of marketing and related subjects in the third and fourth years of the programme.
- To prepare students for responsible positions in industrial commercial as well as, in Government, Public Service and private Establishments.
- To equip students with the knowledge and techniques required in problem-solving and decision making.
- To prepare students for careers in marketing, Business management, public relations, advertising, marketing

Research, etc.

- f) To equip students with leadership skills and knowledge needed in business, commerce, industry, government, and management. The graduates are therefore prepared to fill middle and senior level management positions in business, commerce, industry, and government. With their education and training they can set up their own business since the programme also emphasizes self-employment.

Entry Requirements

In addition to the University of Nigeria requirements for admission, direct entry candidates must have passed Economics at Higher School Certificate (H.S.C.) at Principal Level or at the General Certificate of Education Advanced Level, with Mathematics and English Language at the G.C.E. Ordinary level or with credit in WASC/SSCE. Also candidates with the National Diploma (ND) obtained from accredited institutions with pass in Economics and Mathematics at the Upper Credit level can be admitted by direct entry.

Entrance candidates must have passed Mathematics, English Language and Economics, with credit in the West African School Certificate (W.A.S.C.)/Senior Secondary School Certificate or G.C.E. (Ordinary Level) obtained at not more than two sittings.

Students are encouraged to undertake attachment in commerce, business and industry for on-the-job work experience during long vacations.

Brief History of the Faculty

In February 1982, a proposal was made for a department known as the Department of Dentistry as part of the Faculty of Medical Sciences of the University of Nigeria. The intention was that this would form the nucleus of a Faculty of Dentistry of the College of Medical Sciences. In 1983 a Department of Dentistry was created as part of the Department of Surgery under the Faculty of Medical Sciences and Dentistry. Later in the same year the Department of Dentistry became the School of Dentistry. Eventually, in 1989 a tripartite agreement was entered into by the College of Medical Sciences, the University of Nigeria Teaching Hospital and Federal Ministry of Health. A working relationship was established with the School of Dental Technology and Therapy to provide the new School of Dentistry access to the facilities of the former. In 1991, three (3) Departments were created from the original one Department: Departments of Oral and Maxillofacial surgery, Preventive Dentistry and Restorative Dentistry. Thereafter, in 2004 a Faculty of Dentistry was created with four Departments namely: Child Dental Health, Oral and Maxillo-Facial Surgery, Preventive Dentistry and Restorative Dentistry.

Philosophy

The philosophy is to offer sound training that will be attuned to the oral health needs of the society; and be reflected in a competency directed and community oriented approach with emphasis on social responsiveness and relevance, and lifelong learning.

Objectives

The programme is aimed at achieving the following:

- Meet the oral health needs of the human population
- Diagnose and treat oral health diseases
- Be effective communicators, critical thinkers, and self-directed learners
- Be oral health advocates for the needs of his/her communities
- Be oral health educators
- Be knowledgeable in oral health policies, health management and global oral health issues
- Conduct research
- Be self-reliant and capable of employment generation

Maintain and develop required character and personal attitude for professional life.

Scope

The programme covers the following areas of Dentistry: Child Dental Health, Oral and Maxillofacial Surgery, Preventive and Community Dentistry, Restorative Dentistry, Oral Pathology and Oral Medicine.

Job Opportunities

Graduates in the Bachelor of Dental Surgery (B.D.S.) degree programme are well equipped to work in Government Hospitals, Private Practice, Teaching and Research in Universities or research institutes as well as administration. Graduates are also qualified for post graduate training for specialization anywhere in the world.

Entry Requirements

UTME

The Degree of Bachelor of Dental Surgery (B.D.S.) shall be the primary degree in the Faculty of Dentistry and shall be awarded after a successful completion of the courses of study. The curriculum for the degree of Bachelor of Dental Surgery shall normally extend over a period of six academic years for students admitted by the Unified Tertiary Matriculation Examination (UTME). To qualify for admission, the candidate must in addition to the general University of Nigeria entry requirements; possess at least five O' Level Credit passes at one sitting in WASSC, WASC, SSE, & NECO or any recognized equivalent in Physics, Chemistry, Biology, Mathematics, and English.

Examination and Assessment

- For courses in 200 level to 600 level, the pass mark is 50%. A student who scores 70% or above in a subject of the comprehensive examination shell earn a pass with distinction, provided he has not had any repeat in a course relevant to that subject (as determined by the subject prefixes)
- For courses conducted by the departments of the Faculty of Medicine, the assessments, as specified by the relevant departments and approved by the Board of studies of the Faculty of Dentistry.
- Assessment for practical and clinical courses will be based on in-course assessments, as specified by the relevant departments and approved by the Board of the Faculty.
- The number of credits for each level together with the minimum credits required for the next repeat examination and to proceed to the next level is as specified below.

Level	Credits	Repeat	Proceed to Next Level
200	52		
300	40		
400	53		
500	54		
600	24		

The pre-clinical courses are completed at the end of the second semester of 300 level. The repeat examination for 1st semester courses will be held when fixed almost at the same time as the 2nd semester examination so that the students would have passed the pre-clinical courses before proceeding to clinical courses. To proceed to the clinical courses, a student must obtain a minimum combined of 86 credits in the 300 level first semester examination and second semester examinations.

Semester Examinations

To qualify for repeat when fixed; the candidate must have passed all the 300 level 1st Semester Examinations and in addition, obtain a minimum of 10 credits from the 2nd semester courses. Any other failure would prevent the candidate from continuing the programme. All 400 and 500 levels, clinical courses are block postings taken throughout the session, including the summer vacation, and credits will be earned by the next relevant year.

The final comprehensive Examination will be held in June at the end of 600 level. These consist of written papers, practical/clinical and viva, in each of the major dental subject areas. The practical/clinical section must be passed in order to pass the subject. A student who fails in any subject may repeat that subject in September. A student must pass all the required courses of the degree programme before being allowed to take the final comprehensive examinations.

Philosophy

The philosophy of the department is in tandem with Nigerian Philosophy of Education which is to develop individuals into sound and effective citizens who will fully integrate themselves into the Nigerian Society. It is said that art is life. The programmes offered in the department are planned for maximum self-development, self-fulfilment and self-sufficiency of the students. They will also make their students, upon graduation, life-long learners. In other words, these programmes are designed to expose students to a robust and rounded education for the training of the mind and equipping them with appropriate skills and competencies for them to live in and contribute to the development of their society.

There is also the need to produce competent arts teachers to teach at the different levels of education in Nigeria. As a result the students are equipped with the knowledge, skills, competencies and values, required to teach the art subjects.

Objectives

The main objectives of the department are as follows:

1. To produce highly qualified and competent arts teachers.
2. To produce enough arts teachers who will teach the different art subjects in school.
3. To produce teachers who are professionals and educators with sound ethics.
4. To produce arts teachers with Information and Communication Technology skills and who can integrate them in teaching and learning.
5. To produce teachers who will be dedicated to finding solutions to the great challenges of arts education in Nigeria.
6. To produce teachers who have a well-informed knowledge of the different arts subject which they will apply in the advancement of the Nigerian society.
7. To enable the students acquire entrepreneurial and Information skills that would help them function effectively in the 21st century.
8. To produce arts teachers who can appreciate the values of the Nigerian society and inculcate them in the learners.
9. To produce teachers who are broad minded and can instil the spirit of tolerance in learners from diverse areas of Nigeria.

Scope

The programmes offered in the Department of Arts Education are as follows:

1. Education and Creative Arts
2. Education/English
3. Education/Fine and Applied Arts
4. Education/French
5. Education/History
6. Education/Igbo Linguistics
7. Education/Music
8. Education/Religion

The theoretical and practical aspects of these programmes are explored in-depth to enable students acquire pedagogical and life skills for 21st Century existence.

The department runs a four and three – year standard degree programmes for students admitted through UTME or Direct Entry (DE). The students, in each category, undertake courses in the different arts subjects, education and teaching practice carried out in existing secondary schools around the University in their second, third and final years as applicable.

Entry Requirements

In addition to the University general admission requirement, students are admitted into these programmes in two levels:

1. UTME

To qualify to be admitted into the programme in this mode, candidates must possess the West African School Certificate (WASC) or Senior Secondary School Certificate or the General Certificate of Education at ordinary level or their equivalence, with credit passes in at least five(5) subjects in not more than two sittings. One of these five subjects to be passed at credit level must be English Language and other arts subjects to be combined with education.

2. DIRECT ENTRY (DE)

To qualify for Direct Entry, candidates must have NCE or OND with at least merit pass in their art subjects' combination plus Five (5) credits including English Language at O'level.

Job Opportunities

The programmes in the department are designed to produce professional teachers whose services are needed in the following establishments:

- Schools
- Ministries (Education, Internal Affairs, Foreign Affairs etc.)
- Banks
- Museums
- National Universities Commission
- Embassies
- National Commission for Colleges of Education
- Media Houses
- Airports, Oil and Motor Companies
- Arts Councils/Galleries
- Performing Arts Organisations

General Information

The Department of Adult Education and Extra-Mural Studies had existed as the Department of Extra-Mural Studies right from the inception of the University of Nigeria in 1960. The University calendar 1963-1964 indicated that there were significant increases in both the number and types of Extra-Mural Programmes offered and the number of participants. The University of Nigeria, through this department, organized extra-mural classes in 22 centres throughout Eastern Nigeria with an average class size of 22 and courses offered in the beginning, intermediate and advanced English, Psychology, French, Law, Mathematics, Public Administration, Accounting, Stenography, Geography, Biology, Comparative Government, Public Speech and Literature.

By its roles and functions, the department came to be known as the Continuing Education Centre (C.E.C) and ran its programmers and courses in the seminar rooms, while participants were lodged in the chalets in the C.E.C. building. UNN Staff offices and lecture halls for the regular students were also located in the Continuing Education Centre building. There were 39 conference type activities carried on by the department. Some of these programmes were organized at Enugu & Nsukka campuses. The department provided educational services to a number of occupational and professional groups. Included were teachers, farmers, police officials, businessmen, health workers, public administrators, etc. Through the services of the Division of Extra-Mural Studies, a total of 6,150 people benefited from both evening classes of the university and off-campus tutorial classes, while 12,332 benefited from the general services offered.

The Department of Adult Education & Development Studies offers four-year, and three-year B.Sc (Ed). Standard Programmes in two major degree options:

1. Professional and
2. Related subject combination.
3. Students opting for professional courses in Adult Education have a choice in the following major areas:
4. Administration;
5. Community Development;
6. Literacy Education;
7. Extension and Distance Education
8. Labour and Cooperative Education

The related subject combination options are primarily for students who want to combine Adult Education with related subject areas. Such students choose the related subjects from the following areas:-

1. Igbo/Linguistics
2. English
3. Religion
4. Economics
5. Government
6. Health Education

Philosophy, Scope and Objectives

The students of the Department of Adult Education and Extra-Mural Studies are given theoretical and practical background required to function optimally in their respective areas of specialization in Adult Education. They are also given a balanced liberal arts background as well as a sound knowledge of social, political and economic facets of the society in which they are being prepared to work.

The Department prepares students for Professional Courses in Administration, Community Development, Environmental Adult Education, Literacy Education, Extension and Distance Education, Continuing Education and Women Education. The Department also offers six (6) other teaching subject combination options in the Arts and Social Sciences.

The requirements for the degrees include the completion of the general studies programme of the university, required ancillary courses, necessary electives and the completion of professional courses in Adult Education and related subject combinations. The comprehensive training which students receive enables them to adapt their skills to a variety of work models in the public and private sectors as well as in self-employment.

Entry Requirements

A. University Matriculation Examination (U.M.E) Admission

Candidates possessing any of the following qualifications may be admitted into the four (4) Year Degree Programme:

1. Candidates seeking entry into the four year degree programme in the six professional courses must satisfy the minimum university requirements.
2. Candidates seeking entry into any of the six (6) Adult Education subject combinations must meet the University requirements in addition to the Departmental requirements into which they are seeking admission.
3. Candidates must possess credit passes in the Senior Secondary School Certificates (SSCE) or GCE, including English and a credit in Mathematics at not more than 2 sittings. In addition, an acceptable pass in University Matriculation Examination (UME) qualifications for admission into the University four (4) year degree programme in Adult Education is required.

B. Direct Entry (DE) Admission

Candidates possessing any of the following qualifications may be admitted by Direct Entry into the Three (3) Year Degree Programme.

1. Candidates who hold either Diploma in Adult Education, Social Work, Religion, Health and Physical Education, NCE with at least merit or any other Diploma recognized by the University of Nigeria Senate, are eligible for admission.
2. (a) Two (2) credit passes in relevant subject areas at advanced level with SSCE/GCE 'O' level credit passes in three other subjects at not more than two sitting or
(b) Two (2) passes in relevant subject areas at advanced level with SSCE/GCE 'O' level in three other subjects at not more than two sittings.
3. (a) Passes in two (2) major subjects in relevant areas in NCE with SSCE/GCE 'O' level credit or its equivalent in five (5) other subjects in not more than two sittings.
(a) Education is acceptable as a third "A" level subject for those taking courses in education.
(b) Two passes in 3(b) above with a school certificate credit or its equivalent in other subjects. The above qualification in (3a) should apply to students in Colleges of Education to qualify for admission into the B.Ed degree programmes.

English Language and Mathematics Requirements

In all cases, whether by Direct Entry or UME, the following shall apply:

A credit in Mathematics and credit in English Language at the Senior School Certificate/GCE 'O' level equivalent are required of all candidates.

Education/Guidance and Counseling Programme

Philosophy

The philosophy underlining the undergraduate programme of Guidance and Counseling is in line with the core values of the university which focus on the moral rectitude for the production of globally competitive graduates who love universal truth for the upliftment of the society. Inexperienced students need to be guided aright in their educational, vocational and socio-personal endeavours so as to produce the total man. This is the essence of Guidance and Counseling.

Objectives

The objectives of the programme are:

1. To produce educational counsellors.
2. To produce professionally qualified educationists who can impact on the behaviour of younger generation for the benefit of the society.
3. To train school counsellors who can assume leadership positions in the Ministry of Education, colleges of education and universities.

Scope

The scope of the programme covers the three major alms of Guidance and Counseling which include educational counseling, vocational/ career counseling, socio-personal counseling, sensitivity training, practicum and special educational needs (SEN).

Admission Requirements

Admission is done under two modes: UTME and Direct Entry.

UTME

Candidates who have satisfied the general university requirements for admission and who have passed any five teaching subjects at credit level in at least two sittings in Senior Secondary School Certificate Examination (SSSCE), or West African School Certificate Examination (WASCE) or General Certificate in Education (GCE) or National Examination Commission (NECO) or their equivalence are qualified to be admitted into a four year degree programme.

Direct Entry (DE)

Candidates with at least a minimum of merit grade at the Nigerian Certificate of Education (NCE), Diploma Certificates in Education Music, Religion, Adult Education, Health Education, Social Science Education or Science Education are qualified to be admitted into a-three year degree programme.

Job Opportunities

Products of the department are qualified to be school guidance counselors at both secondary and higher education levels. They can be employed in the Ministry of Education as supervisors and in hospitals as counselors. The graduates of the programme can also in Social Welfare establishments as counselors and in any other related areas. They can teach in institutions of higher learning when they obtain a higher degree in the area.

Early Childhood Education Programme

Philosophy

The Philosophy underlining the Undergraduate Programme of Early Childhood Education derives from Nigeria's Philosophy of Education which is based on the provision of equal access to education opportunities for all citizens and the core values of the University of Nigeria, which focus on the production of globally competitive graduates to engender the restoration of the dignity of man and in particular, young children at the early childhood education level of the education system.

Objectives

The Objectives of the programme are to:

1. produce educators who can implement the national objectives of early childhood level of education;
2. train professionals who understand the basic characteristics of young children of early childhood education age;
3. train professionals with relevant pedagogy for teaching at the early childhood education level;

4. Produce professionals competent enough for the administration of early childhood education and
5. Produce professionals who can participate in and cope with innovations in the early childhood education system.

Scope

The scope of the programme covers three categories of Early Childhood Education namely the Crèche, Nursery and Kindergarten. The programme will cover the five major areas of Early Childhood Education which include Origin and Development of Early Childhood Education, Curriculum and Management Issues, Teaching in Early Education, Play and Learning, Organisation and Administration of Early Childhood Education and Field Experiences.

General Entry Requirements

Admission is done through Unified Tertiary Matriculation Examination (UTME) and Direct Entry (DE).

Unified Tertiary Matriculation Examination

Candidates who have satisfied the University general entry requirements for admission and who have passed any five teaching subjects including English Language and Mathematics at credit level in not more than two sittings in Senior Secondary School Certificate Examination (SSCE) or West African School Certificate Examination (WASCE) or General Certificate in Education (GCE) or National Examination Commission (NECO) examination or their equivalents are qualified to be admitted into the four-year degree programme.

Direct Entry (DE)

In addition to the University general entry requirements, candidates with at least a Merit pass in the Nigerian Certificate of Education (NCE) and diplomas in Education Music, Religion, Adult Education and Health or Physical Education are qualified to be admitted into the three-year degree programme.

Job Opportunities

The graduates are qualified to teach in or establish early childhood education institutions and they can also teach in Colleges of Education and Universities when they obtain higher degree in the area. They can equally serve as desk officers in the Ministry of Education, State Universal Basic Education Boards and Education Authorities, UNICEF, NGOS and International Organizations with special interest in children, their rights and development.

Primary Education Programme

Philosophy

The philosophy of the B.Ed Degree programme in Primary Education derives from the Nigeria's Philosophy of Education which enunciates the provision of equal access to education opportunities for all citizens and the core values of the University of Nigeria, which focus on production of globally competitive graduates to engender the restoration of the dignity of man and in particular, young children at the primary level of the education system.

Objectives

The objectives of the programme are to:

1. produce educators who can implement the national objectives of primary education;
2. train professionals who understand the basic characteristics of children of the primary school age;
3. train professionals with relevant pedagogy for teaching at the primary education level and for the administration of primary education and
4. Produce professionals who can participate in and cope with innovations and emergent issues in the primary education level of the school system.

Scope

The scope of the programme covers the two sections of primary education namely upper and lower primary and the four major areas of primary education which are nature and purpose of primary education, the primary school child/learner, curriculum issues and environmental influences.

General Entry Requirement

Admission is done through Unified Tertiary Matriculation Examination (UTME) and Direct Entry (DE).

Unified Tertiary Matriculation Examination

Candidates who have satisfied the University general entry requirements for admission and who have passed any five teaching subjects including English and Mathematics at credit level in not more than two sittings in Senior Secondary School Certificate Examination (SSCE) or West African School Certificate Examination (WASCE) or General Certificate in Education (GCE) or National Examination Council (NECO) examination or their equivalence are qualified to be admitted into the four-year degree programme.

Direct Entry (DE)

In addition to the University general entry requirements, candidates with at least a Merit grade in the Nigerian Certificate of Education (NCE), diploma certificates in Education Music, Religion, Adult Education and Health or Physical Education are qualified to be admitted into the three-year degree programme.

Job Opportunities

The graduates are qualified to establish or teach in primary schools. They can teach in Colleges of Education and Universities when they obtain a higher degree in the area. They can serve as desk officers in the Ministries of Education, State Universal Basic Education Boards and Education Authorities, UNICEF, NGOs and International organizations with special interest in children, their rights and development.

Brief History of the Department

In June 1961, the University of Nigeria, Nsukka (UNN) advertised for interested candidate to pursue B.Sc. degree in Physical Education being the first of its kind in Africa South of the Sahara and west of Limopo. In September 1961

fifteen candidates were admitted for the 3-year and 4-year degree programmes as pioneer student of the Department by 1963 seven students either dropped out of the programme or changed their academic programme. Of the remaining 8 students, three graduates with B.Sc (Hons.) in Physical Education of the 3-year programme in 1964; the remaining 5 students in the 4-year programme graduated in 1965. All were employed in the various systems in Nigeria while one was retained by the department as a promising academic.

By 1972 the department reviewed its programme to include several course4 in Health Education. Consequently the Department changed its name to Health and Physical Education.

During the 1987/88 academic year the Department introduced the sandwich programme. The 2 year regular degree programme of the Department for NCE holders was offered as 4-year B.Sc. degree programme. Since then the sandwich degree programme of the department has been a success story as has been the regular programme.

During the 1991/92 session, the Department of HPE, UNN started to offer 2 separate degree options as a result of the first NUC accreditation exercise and recommendations. This gave rise to offering degree programmes as follows:

- i. B.Sc. degree programme in Health Education.
- ii. B.Sc. degree programme in Physical Education and Recreation.

In 1980 the department introduced postgraduate programme in the areas of Health Education, Physical Education and Recreation.

Areas of Specialization

1. Health Education

- a. Public Health
- b. School Health Education
- c. Occupational Health

2. Physical Education

- a. Administration of Physical Education and Sports
- b. Curriculum Studies in Physical Education
- c. Sociology of Sports
- d. Psychology sports

3. Recreation

Since the inception of the postgraduate programme the department has graduated many students in the various areas at both M.Ed and Ph.D levels as could be seen under the titles of postgraduate done in the department. The department had diploma programme in Health and Physical Education from 1989/1990 academic session to 2005/2006 session.

Philosophy, Objectives and Scope of the Programme

The philosophy of the programme is derived from the Nigerian Philosophy of Education which advocates education for self reliance, democratic living and national unity.

The programme is designed to:

1. Offer students the opportunity to acquire the necessary skills and competences for successful teaching and organization of Physical Education and Health Education/Health Science in primary and secondary schools as well as tertiary institutions;
2. Prepare students for effective organization and administration of sports in institutions like sports council/commission as well as in the community;
3. Equip students with knowledge and skills of coaching sports;
4. Produce qualified high level manpower to serve in rehabilitation institutions as physical and occupational therapists and health counsellors;
5. Equip students the appropriate skills and competencies for individual and contribution to the national goals and aspiration through physical education and recreation.

The programme embraces both theoretical and practical knowledge of skills of physical education, health and recreation. It is designed to offer two Bachelor of Science degrees in Physical Education and Recreation and Health Education respectively. Any of these degrees can be completed in the following mode.

Job Opportunities for Human Kinetics and Sports Studies

Graduates of the degree programme are qualified for appointment as:

1. Physical Education/Human Kinetics/Sports teachers at any level of educational institutions;
2. Organizing secretaries in State Sports Councils, National Sports Commission and Sports Club;
3. Directors of Sports Councils and Institutions of higher learning;
4. Directors and Managers of Recreation, Fitness and Tourism Establishment;
5. Physical and occupational therapists in rehabilitation and orthopaedic hospitals and establishments;
6. Coaches in sports institutions;
7. Trainers in Military and Para-military agencies;
8. Sports reporters and writers in media industries

Job Opportunities for Health Education

1. There are abundant job opportunities for graduates of Health Education in health institutions, industries, schools, NGOs, electronics and print media.
2. The graduates can function effectively as health educators to institute of child health, family planning clinics and MCH units in teaching and specialists' hospitals.
3. Employment opportunities exist in industries for the graduates who may wish to work as safety personnel and health counsellors.
4. The programme also sufficiently prepares the graduates for the job of programme officers as assistants in all health-related NGOs.
5. Graduates may be employed as consultants or co-ordinators to health programmes.
6. Those with flair for academics may be changed as lecturers and researchers in research institutes and institutions of higher learning.

N. M. Agubata, B.LIS (Nigeria)	Library Officer II
S. I. Omego, B.Ed. (Nigeria)	Higher Technical Officer II
F. U. Nwachukwu, NCE	Higher Technical Officer II
F. E. Ozioko, B.Sc. (Nigeria)	Chief Data Entry Operator/ Asst. Executive Officer

Philosophy, Objectives and Scope

Library and Information Science is a discipline concerned with the study of the principles and skills required for systematic collection, organization and utilization of societies' information resources in libraries and allied institutions. It is also concerned with the forces governing the flow of information resources and with creating ready access to these resources.

The specific objectives of the B.L.I.S. course are as follows:

- To offer basic theoretical knowledge and skills required for effective performance of professional duties in libraries, information centres and related institutions;
- To provide relevant practical exposure and competence necessary for enhanced job performance;
- To develop and encourage the spirit of enquiry and creativity required to meet the challenges of rapid change and the knowledge explosion, technological development, new media and new approaches in education;
- To explore means of meeting the information needs of all segments of the population and extending the library's informational, educational and cultural roles in society.

The Department offers an honours degree programme leading to the Bachelor of Library and Information Science (B.L.I.S.) Degree. The programme provides a basic professional course that will prepare librarians for all types of libraries and related documentation and information centres. To this end, students combine professional courses in library and information science with subject specialization in a discipline of the arts, sciences and social sciences.

The undergraduate programme is modeled on the current NUC Minimum Academic Standards for Library and Information Science, brought out in 1999. These stipulate core and elective courses in library and information science as well as a number of cognate courses in other disciplines. The study of another discipline is dictated by the nature of the library profession, which requires both professional skills and a broader academic background for

effective practice. Such aspects of library service as cataloguing and classification, book selection and reference work require specialized knowledge of a subject area as well as professional expertise.

Duration of the Course

The programme may be completed full-time in four years by candidates admitted through entrance examination and in three years for those admitted by direct entry.

Admission Requirements

Students admitted by entrance examination must meet University minimum entry requirements of at least five credits, including credits in English and a Science subject, in not more than two sittings, in the West African School Certificate or its equivalent.

Direct entry candidates must hold one of the following qualifications:

- Nigerian Certificate in Education (NCE) with at least merit in Library and Information Science;
- Diploma in Library and Information Science with at least merit;
- Higher School Certificate/G.C.E. Advanced Level in at least two subjects.

Job Opportunities

Students successfully graduating in the programme are well equipped for higher degree programmes in library and information science. They are also equipped for rewarding employment in library and information centres such as national and public libraries, academic libraries, special libraries, and school libraries. There are also increasing opportunities as library and information specialists in research institutes, museums, archives, industries, commercial establishments, government departments, and international organizations.

Bachelor of Library and Information Science (B.L.I.S.)

Four-Year Standard Programme

First Year

First Semester

CODE	TITLE	UNITS
Major Courses		
LIS101	Libraries and Society	2
LIS103	Library Visits and Orientation	2
Required Ancillary Courses		
COS101	Introduction to Computer Science	2
EDU101	Introduction to Education	2
General Studies Courses		
GSP101	Use of English I	2
GSP105	Natural Science I or GSP 103 Social Science I	2
GSP111	Library Use and Study Skills I	
Cognate Courses in the Arts, Sciences, Social Sciences		6
		<hr/> 18

Political Science

Four-Year Standard Programme

First Year

POL 101	Introduction to Political Science I	2
POL 112	Nigerian Constitutional Development	3
POL 114	Law and Politics in Nigeria I	2
POL 102	Introduction to Political Science II	2
POL 111	Introduction to African Politics	3
POL 115	Law and Politics in Nigeria II	2

Second Year

POL201	Introduction to Political Analysis	2
POL211	Nigerian Government and Politics I	2
POL212	Nigerian Government and Politics II	2
POL241	Foundation of Political Economy	3
POL301	Political Behaviour	2

Third Year

POL221	Introduction to International Relations	3
POL341	Politics of Development and Underdevelopment	3

Fourth Year

POL434	Development Administration	3
POL351	Public Policy Analysis	3
POL441	State and Economy	3
POL364	Contemporary Political Analysis	2

Political Science

Three-Year Standard Programme

First Year

POL201	Introduction To Political Analysis	2
POL211	Nigerian Government and Politics II	2
POL212	Nigerian Government and Politics II	2
POL241	Foundation of Political Economy	3
POL301	Political Behaviour	2

Second Year

POL221	Introduction to International Relations	3
POL341	Politics of Development and Underdevelopment	3

Third Year

POL434	Development Administration	3
POL351	Public Policy Analysis	3

POL441	State and Economy	3
POL364	Contemporary Political Analysis	2

Zoology

Four-Year Standard Programme

First Year

BIO 151	General Biology I	3
CHM 101	Basic Principles of Chemistry	2
ZEB 102	Introductory Zoology	2
BIO 152	General Biology II	3
BIO 154	General Biology Practical	2

Second Year

ZEB201	General Invertebrate Zoology I	2
PSB211	Phycology and Bryology	2
ZEB202	General Invertebrate Zoology II	2
ZEB 272	Environmental Health Biology	2
ZEB276	Ecotoxicology and Environmental Safety	2

Third Year

ZEB 311	Basic Animal Physiology	2
ZEB 313	Animal Histology	2
ZEB 331	Basic Entomology	2

Fourth Year

ZEB411	Animal Developmental Biology	2
ZEB403	Systematic Zoology and Evolution	2
ZEB431	Entomology I	2
ZEB 404	Small Animal Production	2
ZEB 452	Animal Ecology	2
ZEB 432	Entomology II	2

Zoology

Three-Year Standard Programme

First Year

ZEB201	General Invertebrate Zoology I	2
PSB211	Phycology and Bryology	2
ZEB202	General Invertebrate Zoology II	2
ZEB 272	Environmental Health Biology	2
ZEB276	Ecotoxicology and Environmental Safety	2

Second Year

ZEB 311	Basic Animal Physiology	2
ZEB 313	Animal Histology	2
ZEB 331	Basic Entomology	2

Third Year

ZEB411	Animal Developmental Biology	2
ZEB403	Systematic Zoology and Evolution	2
ZEB431	Entomology I	2
ZEB 404	Small Animal Production	2
ZEB 452	Animal Ecology	2

 Executive Officer

Brief History of the Department of Science Education

The Harden College of Education, University of Nigeria, Nsukka, started in January, 1961, with 41 students enrolled in a two-year Diploma Programme in Education. During the 1961/62 academic session, the Harden College of Education became the Department of Education, and enrolled 40 students for Bachelor's Degree Programmes (BA and B.Sc. Education Programmes).

The Department of Science Education was first created out of the Department of Education, as the Sub-Department of Science Education by the decision of the senate of the University of Nigeria at its meeting held on Monday, August 9, 1982. Thus in 1982, from the Department of Education emerged the Department of Educational Foundations, and the Sub-departments of Science Education and Arts Education.

The Sub-Department of Science Education existed for a period of 23 years i.e. 1982-2005, before it was approved as a full-fledged Department in August, 2005 by a decision of the University of Nigeria Senate. Currently the Department of Science Education has five academic programmes which have consecutively won full accreditation from NUC in 2009 and 2014.

These programmes are Biology Education, Chemistry Education, Integrated Science Education, Mathematics Education and Physics Education. The Department of Science Education also runs higher degree programmes, namely: Master's and Doctoral Degrees in Science Education with options in Biology, Chemistry, Integrated Science, Physics, Mathematics, and Educational Measurement and Evaluation.

Philosophy, Objective and Scope

The Department of Science Education programmes are developed based on the fundamental beliefs that the student is entitled to acquire profound theoretical and practical knowledge to equip him/her to face the challenges of life in the society, be self-reliant, contribute to national development, and meet the challenges of the global world.

The purpose of the Department of Science Education is to train science teachers who are academically and professionally competent to educate pupils and students, and make them literate in the natural sciences at Basic Education and Senior Secondary Education levels of the Nigerian Educational System.

The degree in Science Education is acquired through course work and research project report. In addition to the departmental science education courses, students in Biology Education, Chemistry Education, Integrated Science Education, Mathematics Education and Physics Education are required to take other faculty-wide education courses, broad-based general studies courses, entrepreneurial education courses and subject matter content courses from the relevant cognate departments in which their teaching subjects are based.

Entry Requirements

There are two modes of Entry: Unified Tertiary Matriculation Examination (UTME) and Direct Entry (DE)

UTME

In addition to University of Nigeria minimum entry requirements (five credit passes including English and Mathematics, and a science subject) candidates admitted through UTME into the four-year standard degree programme for:

Biology Education must have at least a credit pass or its equivalent in Biology and Chemistry and any of Physics or Agricultural Science at the SSCE and WASSCE or its equivalent.

Chemistry Education must have at least a credit pass or its equivalent in Chemistry and Physics and any of Biology or Agricultural Science at the SSCE and WASSCE or its equivalent.

Integrated Science Education must have at least a credit pass or its equivalent in Chemistry and Biology, and any of Physics or Agricultural Science at the SSCE and WASSCE level, or its equivalent.

Mathematics Education must have at least a credit pass or its equivalent in Chemistry and Physics and any of Mathematics or Biology or Agricultural Science at the SSCE and WASSCE or its equivalent.

Physics Education must have at least a credit pass or its equivalent in Chemistry and Physics and any of Mathematics or Agricultural Science at the SSCE and WASSCE or its equivalent.

Direct Entry (DE).

Direct entry candidates who are admitted into the three-year standard degree programme must hold one of the following qualifications:

Biology Education

Advanced level certificate in WASSCE or the principal level certificate in HSC Certificate in at least two science subjects, including Biology.

Nigerian Certificate in Education (NCE), Biology and Biology combinations with at least a merit pass and other relevant diplomas approved by university senate such as associate ship certificate in education, health education etc.

Chemistry Education

Advanced level certificate in WASSCE or the principal level certificate in HSC Certificate in at least two science subjects, including Chemistry.

Nigerian Certificate in Education (NCE), Chemistry and Chemistry combinations with at least a merit pass and other relevant diplomas approved by university senate such as associateship certificate in education, health education etc.

Integrated Science Education

Advanced level certificate in WASSCE or the principal level certificate in HSC Certificate in at least two science subjects, including Biology.

Nigerian Certificate in Education (NCE), Biology or Chemistry, and Biology/Chemistry combinations with at least a merit pass level, and other relevant diplomas approved by university senate such as associateship certificate in education, health education etc.

Mathematics Education

Advanced level certificate in WASSCE or the principal level certificate in HSC Certificate in at least two science subjects, including Mathematics.

Nigerian Certificate in Education (NCE), Mathematics and Mathematics combinations with at least a merit pass and other relevant diplomas approved by university senate such as associateship certificate in education, health education etc.

Physics Education

Advanced level certificate in WASSCE or the principal level certificate in HSC Certificate in at least two science subjects, including Physics.

Nigerian Certificate in Education (NCE), Physics and Physics combinations with at least a merit pass and other relevant diplomas approved by university senate such as associateship certificate in education, health education etc.

Job Opportunities

Students who successfully complete their programmes have ample teaching opportunities with the various Ministries of Education and private schools in the country, research institutions, educational training institutes, curriculum development centres and examination bodies. The graduates are also employable in science oriented institutions. Graduates of the Science Education programmes can also be self-employed in teaching science to private individuals. They can establish their own schools.

Subject Combinations

The following subject combinations are available in the Department of Science Education:

Education/Biology

Education/Chemistry

Education/Integrated Science

Education/Mathematics

Education/Physics

Two Education courses are housed in the Department of Science Education and these are service courses for most Departments in the Faculty of Education. These courses are
 EDU 341 Research Methods, Statistics and Computer Usage
 EDU 442 Measurement and Evaluation

Philosophy, Objectives and Scope

The philosophy of the Social Science Education programmes is consistent with Nigeria's philosophy of Education, which is based on the need to develop the Nigerian child into an all round effective citizen as well as the integration of the child into the Nigerian multi-ethnic community (cf FRN, 2004).

The basic objective of the Department of Social Science Education is to train Social Science teachers who are academically and professionally competent to educate pupils at any level of the Education system. The main purpose of the (undergraduate and postgraduate degree) programmes in Social Science Education is to turn out dedicated and reliable Social Science Educators, knowledgeable in their respective areas of academic interest and skillful in classroom management as well as in dealing with human beings. In more specific terms, the programmes are aimed at:

- (i) producing highly motivated, conscientious, skilful, innovative and efficient classroom teaches for all levels of Nigerian educational system;
- (ii) training teachers who are mindful, proud and protective of the socio-cultural, political and economic institutions of Nigeria; and
- (iii) equipping teachers of the Social Sciences with requisite physical and intellectual skills for effective leadership, followership and cooperative roles in different sectors of Nigerian society.

General entry requirement

Candidates who have satisfied the minimum University requirements of five O'level credit passes including English and Mathematics and other relevant subjects to be combined with education, with the exception of social studies which should require credit in any social science or Arts subject. Only candidates who wish to offer education economics are expected to have credit in mathematics while those who wish to combine education with political science, social studies, and Geography need only pass in Mathematics.

Direct Entry Admission

Candidates may be admitted into the three-year degree programme if they possess minimum University entry requirements plus any of the following:

- (i) Two "A" level passes in relevant subjects which should include candidates proposed course.
- (ii) NCE distinction credit/merit passes in addition to TC II or O'level credited in relevant subjects.
- (iii) Diploma in Public Administration, Social Work and Environmental/ Geographic Education.

Job Opportunities

Students who successfully complete the programmes have ample teaching opportunities with the various ministries of Education in the country. The graduates are also employable in personnel departments of ministries, parastatals and private institutions where graduates in the social sciences are required. In addition, graduates of the programmes can get employment in banks, hospitals and prisons as social workers

Subject Combinations

The following subject combinations are available in the Department:

Education/Economics
Education/Geography
Education/Political Science
Education/Social Studies

Students of the Department take general education courses from Departments of Education Foundations and Arts Education. They also take courses from the various Departments within and outside the faculty in which their teaching subjects are based.

Education Geography B.Sc. (Ed)

General

Geography is the study of the structures and forms of the earth (Physical environment) as well as its inhabitants (aquatic, terrestrial and serial) and the nexus between them.

Philosophy

The philosophy behind Geography degree programmes is the production of well equipped graduates who will make meaningful contributions to the development of Nigeria and the world at large through exposure to geographical knowledge.

Aims and objectives:

The aims and objectives are to:

- (1) provide students with sound knowledge of Geography and workings of the society.
- (2) educate students on geographical theories and methods and prepare them as effective teachers,
- (3) inculcate in students, the attitude of application of Geography in solving societal problems
- (4) make students appreciate the importance of Geography and its contributions to development
- (5) develop in students useful competencies for work in public and private sectors as well as being self employed.
- (6) provide students with knowledge base to further studies in Geography and other courses involving Geography.

Admission Requirements

Candidates who wish to study Geography Education must in addition to meeting the requirements for the faculty, must have obtained a credit in mathematics, Geography, English and any other two relevant subjects.

Bachelor of Science Degree in Education Political Science		

General

Political Science is the systematic study of power acquisition, and utilization which impact on the formation of public policies and system of governance generally.

Philosophy

The philosophical underpinning of Political Science is geared towards the production of graduate teachers who possess extensive knowledge, critical mind, requisite ability and skills to comprehend, analyse, predict and influence the factors which impact on power relationship, governance system and the teaching and learning of government.

Aims

The aims are to:

- (1) produce students teachers with adequate knowledge of the contents and principles of political science and its application in classrooms.
- (2) expose student teachers to education principles, theories, and methodologies and their application in the effective implementation of senior secondary school government in classrooms
- (3) inculcate sound knowledge of how the society is organized and the skills to apply in providing solutions to socio-political problems and conflicts.
- (4) instil in students teachers a sense of appreciation of the dynamics of politics and its impact on socio-economic development of the wider world.

Admission Requirements

Candidates who wish to study Education Political Science must have obtained English, Government or History and any other three (3) relevant subjects at credit level and a **pass** in Mathematics.

Introduction

Engineering combines creativity and practicality on a scientific basis. When the scientific basis borders on living things, their by-products and/or their natural resource base, the resulting branch of engineering is variously called Agricultural, Biological, Biosystems, Bioresource, and/or Bioenvironmental Engineering. The Agricultural Engineering Department at UNN is the first to offer a regular degree programme in Nigeria. In adding Bioresources Engineering to its curriculum, the Department seeks to embrace the full range of its capability in providing much needed personnel for the development of national self-sufficiency in food, fibre and timber products.

Scope

The Department offers a 5-year B.Eng. degree programme designed to give students a firm foundation in the discipline. In the first two years of the programme, study concentrates on the engineering sciences common to all engineering disciplines. From the third year onwards, discipline specialization courses are introduced. This finally leads to students, in the final year of the programme, taking courses with emphasis on one of the following options:

- (i) Power Systems, Machinery and Forest Engineering
- (ii) Soil, Water Resources and Aquacultural Engineering
- (iii) Food and Bioprocess Engineering
- (iv) Structures and Environmental Quality Engineering

Entry Requirements

Candidates who have passed the W.A.S.C. (with credit) or General Certificate of Education G.C.E.(Ordinary Level) or Senior School Certificate Examinations in 5 credits including Mathematics, Physics, Chemistry and English Language in not more than two sittings may be admitted into the five-year programme through the U.M.E. entrance requirements.

Applicants who have passed the Higher School Certificate (H.S.C.) (Principal Level) or G.C.E. (Advanced Level) in Physics and Mathematics, with Chemistry (at Ordinary or Advanced Level) in addition to other University minimum entry requirements, may be admitted into the four-year programme as direct entry students.

C. W. Ozioko HND	Snr. Data Entry Operator/ Snr. Clerical Officer

General Information

The Department started in 1961/62 with the undergraduate programme; while the post-graduate programme was added in 1980/81. Over these years, the pursuit of excellence in both the undergraduate and postgraduate programmes remains the main thrust and emphases of the Department. From inception up to 1979/80, the Department offered four- and five- year programmes leading to the bachelor's degree B.Sc. in Civil Engineering. By the decision of the Faculty Board of Engineering and with the popular support of the students the Bachelor of Science degree was changed to the Bachelor of Engineering B.Eng. degree in 1979/80 with the approval of the University Senate .

Over the years, necessary changes were made in the academic curriculum in order to make the programme more relevant to the needs of the society. Significant among such changes are the introduction of General Studies Courses; Computer Programming; Student Industrial Work Experience Scheme (SIWES); Entrepreneurship; Water Resources and Environmental Engineering etc. With the advent of the National Universities Commission (NUC) benchmarks for minimum credit load and course content for Nigerian Universities, the Department complied as required in the curriculum. The current programme of the Department lays more emphasis on Civil Engineering courses from the 300-Level.

Philosophy

The philosophy behind this programme takes cognizance of the fact that for a developing country, the graduate engineer is likely to face all possible engineering problems, many outside his specialty, the programme is therefore broad based so as to give a Mechanical or Civil Engineer for example the basic principles and methods of Electrical and Mechanical Engineering. Thus, the emphasis in first two years of the programme is on common basics covering all departments of the Faculty of Engineering.

The programme ultimately provides would-be graduate Civil Engineers with basic knowledge in the fields of structures, hydraulics, soil mechanics and foundations, transportation, public health engineering and materials. Postgraduate programmes are offered in six areas of specialization namely, Structural Engineering, Materials and Construction Management, Water Resources Engineering, Environmental Engineering, Highway Engineering, and Soil Mechanics and Foundation Engineering.

Objectives

The objectives of this programme have been;

- (ii) To give undergraduate students firm academic foundation in the basic principles of Civil Engineering.
- (iii) To introduce them to recent developments in relevant areas of Civil Engineering, and

- (iv) To equip them to meet the challenges of professional engineering employment in Nigeria in particular and the world at large.

Scope

The first two years of the programme are common to all students of engineering; courses in these first two years include, General Studies, Physical Sciences and Engineering Sciences.

In the last three years, the students concentrate on civil engineering courses. These are designed to produce students with graduated knowledge in the field of Structures, Water Resources, Geotechnics, Transportation, Materials and Construction. Each student opts in his final year to specialize in one of these Civil Engineering areas. He is required to submit a satisfactory thesis on an approved project, within his area of specialization, undertaken by him.

The course also emphasizes practical work. The student is also required to submit reports on practical laboratory work, workshop practice, and tutorial and design assignments. At the end of the second year, each student is required to undergo a minimum of six weeks practice work, approved by the Head of Department, during the long vacation. The fourth year programme is so arranged that the student also undertakes six months of industrial training before proceeding to the final year.

Job Opportunities

Graduates of this programme have several employment opportunities in government establishments and private firms either as consulting or construction engineers. Some of the establishments include Ministry of Works (State and Federal); Federal Ministry of Environment; Ministry of Water Resources; River Basin Development Authorities; Oil Companies, Research Institutes, Institutions of Higher Learning etc.

General Information, Aims, Objectives and Philosophy

The five/four year Bachelor of Engineering (B.Eng.) programme offered by this Department of Electrical Engineering is designed to produce first degree Electrical Engineering graduates armed with adequate theoretical knowledge and practical experience for successful and fruitful career in the Electrical Engineering profession. To achieve this, the programme is designed as follows: for each semester, in the two-semester academic year of 15 weeks per semester, a student on the programme nominally carries 18 credit units of academic load of entirely theoretical courses on one hand and entirely laboratory courses on the other. At the end of the programme, the students would have been basically equipped to perform the following functions in the course of their individual professional practices.

- Design, realize and construct electrical engineering components, equipment and systems.
- To develop technical competence in the operation, installation and maintenance of electrical devices.
- Conduct further studies and/or research in the development of improved electrical devices and systems in accordance with national and global standards.
- Grow through industrial practice in the advancement of electrical engineering knowledge by fostering collaboration with key institutions/academics in developed countries in knowledge transfer in the broad area of electrical engineering.

The program includes both practical and theoretical courses. The students' Practical Work Experience includes the second-year activity of extensive operation and use of the Faculty of Engineering machines and tools (to realize and/or design prototypes) as well as two long vacations and one semester of Industrial Work Experience in the third and fourth years of the programme. The workshop practice in the Faculty of Engineering workshops prepares the students for the Industrial Work Experience (in skill acquisition in actual industrial practices).

The first and second years of the programme is also designed to make the students deepen and strengthen their basic knowledge in Mathematics, Physics, Chemistry, Social Science, Electrical Engineering, Mechanical Engineering, Civil Engineering and Computer Programming. The broad based knowledge in the above named disciplines enhances the practice of Electrical Engineering in relation to these other disciplines.

In the third, fourth, and fifth years of the programme, the students are made to spend most of their study time on the major areas of Electrical Engineering while at the same time offering them advanced courses in Mathematical, computational and programming methods which constitute a vital and an indispensable tool in efficient and productive engineering practice. These major areas comprise Electrical Machines, Power Systems, Power Electronics, Control Engineering, Electromagnetic Fields – all coupled with well-designed supplementary courses in Instrumentation, Computers, Communications, and Electronics. The final year (5th year) study programme also includes a final year project to further deepen the students' research capabilities and selectable electives to further deepen the students' knowledge the in above named specialist areas in Electrical Engineering. For the final year project, each student has to submit a project report and may be orally examined on the report. Effort is made to have optimum time sharing in the different modes of teaching the courses. In the theoretical courses, there is one year hour of tutorial for every four hours of lecture. To reflect the importance of practical exercises in the programme, 9 hours per week is averagely devoted to practical exercises out of a total of 24 contact hours per week for lectures, tutorials and practical work. The grading system is designed such that a student's final percentage grade in a given courses is shared between continuous assessment and end-of-semester final examination. For entirely theoretical courses, continuous assessment (Quizzes, Tutorials, Homework, Tests) constitute 30% Of the final

percentage grade while the final examination makes up the remaining 70%. For entirely laboratory exercises and report constitute 100% of the final grade.

Entry Requirements

(4 years for Direct Entry, 5 years for UME candidates)

UME Entry Requirements

Since the university minimum entry requirement is five credits (Including English, and Mathematics) in maximum of two sittings in any combination of the O-level examinations, the minimum requirements for each applicant for admission through UME into the Department of Electrical Engineering is passes at credit level in Senior Secondary School Certificate or West African School Certificate Examination or General Certificate of Education Examinations or National Examination Commission (NECO) O-Level in five subjects including Mathematics, Physics, Chemistry and English Language.

Direct Entry Requirements

The minimum requirement is either of the following

(a) Passes at HSC or GCE A/L in at least two of the following:

Pure Mathematics, Applied Mathematics, Pure and Applied Mathematics, Physics and Chemistry. The Candidate is also required to have five credit level passes which must include Mathematics, Physics and Chemistry in Senior Secondary School Certificate Examination, GCE "O" Level, West African School Certificate Examinations or their equivalent.

(b) Pass at Upper Credit Level in HND Examinations in Electrical Engineering

(c) First degree holders in relevant subjects (e.g. Civil Engineering, Mechanical Engineering, Agricultural Engineering, Mathematics, Physics, Computer Sciences etc.).

Job Opportunities

The Electrical Engineer has wide expanse of job opportunities. Electric power generation and distribution by Electricity Utility Companies/Corporations, electric component/equipment manufacturing by national and multinational companies, electric gadget/equipment operation and maintenance in industrial and public organizations and industrial process control and supervision are examples of the numerous job opportunities available to the Electrical Engineer. Also, consultancy services are equally inclusive.

General Information

The Department of Electronic Engineering was founded in 1981 from the parent Department of Electrical/Electronic Engineering, one of the pioneer departments in the Faculty of Engineering, University of Nigeria, Nsukka. The Department was founded on the national intention to be part of the digital revolution and the University goal to be at the frontiers of knowledge and development in Electronic Engineering.

In the pursuit of these national and institutional goals, the Department has recorded many significant milestones. These include, among other things: the Department has never lost any academic or professional accreditation by the National Universities Commission (NUC) and the Council for Registration of Engineers in Nigeria (COREN), respectively. It is noteworthy to state that the Department came first among the five departments of the Faculty in the accreditation exercises by the both national bodies (NUC and COREN) in 2006. Since its inception (1981), the Department has produced the highest number of first class graduates than any other department in the University. These performances have earned the Department two national designations (honours) as a Centre of Excellence in Electronics and in Information and Communication Technology (ICT) in 1986 and 2001, respectively.

The Department's vigorous strive for academic and professional excellence for both its students and staff, has culminated into a number of teaching and research collaborations with other national and international institutions. At the national level, the Department runs Postgraduate Diploma and Masters (PGD, M.Eng., M.Sc) programmes in Telecommunications Engineering and ICT in collaboration with the Digital Bridge Institute (DBI), Abuja. DBI is an International Centre for Professional Training in Telecommunications and ICT, established in 2004 by the National Communications Commission (NCC).

The international linkage of the Department includes teaching, research and exchange collaborations with the Delft University of Technology (TU Delft) in the Netherlands. The University of Nigeria, Nsukka signed an MOU with Delft University of Technology on behalf of the Department of Electronic Engineering and other departments (Physics, Computer Science, Electrical Engineering) of the University to establish a Centre of Excellence in Microsystems and Nanoelectronics at UNN.

Philosophy

The Department is designed to develop and execute a world-class electronic engineering programme intended to provide sound theoretical and practical training for students in the areas of communication, control, measurement, instrumentation, digital electronics and computer. This intention was born out of the national drive to be part of the

digital revolution and the information society, as well as an institutional strive to be at the cutting edge of global developmental trends in Information and Communication Technology (ICT).

Objectives

The main objective of the five/four/three-year Bachelor of Engineering (B.Eng.) programme offered by the Department of Electronic Engineering is to produce first degree Electronic Engineering graduates armed with adequate theoretical knowledge and practical experience for successful and fruitful career in the Electronic Engineering profession. At the end of the programme, the student would have been basically equipped to perform the following functions in the course of their individual professional practices:

- (a) Design, develop and install electronic systems;
- (b) Operate and maintain electronic systems.
- (c) Grow through industrial practice,
- (d) Further studies and research in the development of improved electrical devices and systems and in the advancement of Electronic Engineering knowledge.

Scope

In line with the modern trends in curriculum development all over the globe as well as the Nigerian Universities Commission regulations for engineering study in the country, students of Electronic Engineering are expected to graduate in five years (academic sessions) for UME students, four years for Direct Entry students and three years for students with B.Eng. in related areas.

In the first two years of study, different courses from all facets of learning in different departments/faculties are taught. These courses provide an overview of the broad field of Engineering. In the third year, students are exposed to both Electrical and Electronics courses with different laboratory experiments. The fourth year is a year of pure electronic courses with more laboratory courses, technical writing and seminar presentation and 6-month Industrial Training (IT) organized by the Student Industrial Works Experience Scheme (SIWES) in relevant industries.

In the final year, students in addition to taking other final year courses must undertake and complete a bachelor of engineering final year project selected from any area of electronic engineering and with a significant practical content. The project report and design is evaluated on the basis of the continuous assessment of individual performance throughout the year and an oral examination.

B-UME Entry Requirements

Candidates for admission to the Department must first satisfy the University entry requirements. The University requires that departmental requirements be obtained in not more than two sittings. The Departmental minimum requirement is passes at levels not lower than credit in Senior Secondary School Examination or its equivalent in five subjects including Mathematics, Physics, Chemistry and English Language.

Direct Entry Requirements

The minimum requirements are either of the following:

- (a) Passes at HSC or GCE A/L in at least two of the following subjects: Pure Mathematics, Applied Mathematics, Pure and Applied Mathematics, Physics and Chemistry. The candidates are also required to have credit level passes which must include Mathematics, Physics and Chemistry in Senior Secondary School Examination or its equivalent.
- (b) Pass at Upper Credit level in HND examinations in Electronic Engineering or Electrical/Electronic Engineering.
- (c) First degree holders in other relevant professions.

Waivers or special consideration

Holders of HND in Electronic Engineering or Electrical/Electronic Engineering with at least upper credit level pass and first degree holders in relevant professions may be admitted into the third year programme.

Job Opportunities

It is imperative to note that the technological advancement of any country lies in the hands of its Engineers. The need for Electronic Engineers in the society today cannot be over-emphasized. This is because Electronic Engineering permeates almost every aspect of life and industry. Our graduates are properly equipped to take on challenging jobs such as design, development and production of hardware and software for industries such as Telecommunications, ICT Companies, Computer Networking Firms, Software Companies, Oil Companies etc. There are also numerous job opportunities in Banks, Research Institutes and Academic Institutes.

General Information and Academic Programme Philosophy and

Objectives

Mechanical Engineering includes the science and art of formulation, design, development, manufacturing and control of systems and components for the conversion of Energy and materials into useful mechanical work. These may include both power-generating machines and machines that transform and consume this power, such as nuclear and fossil power plants, propulsion devices, engines, turbines, motors, control mechanisms, transportation

systems (automobiles, trains, space vehicles, marine vehicles, etc.), refrigeration and air-conditioning systems, cryogenic systems, manufacturing machines and systems, materials handling and earth-moving devices. The field requires a basic knowledge of mechanics of solids, fluids, and machines, materials, machine design, heat power, thermodynamics, heat transfer, manufacturing processes, industrial engineering, management science, optimization, and systems analysis.

In line with modern trends in curriculum development in Mechanical Engineering the world over, the programme includes basic subjects common to all engineering fields, fundamental subjects important to all mechanical engineers, and specialization in one or more areas of mechanical engineering. Apart from common courses of 12 credits options offered in the final year, final year students embrace 4 courses each of 4 credits, with a maximum of 16 credits per option. These include Heat/Thermal Engineering, Nuclear Engineering, Design and Manufacturing Engineering, Industrial Engineering and Management Science, Applied Mechanics and Biomechanics, and Aeronautical Engineering. For students wishing to major in Chemical Engineering, Metallurgy and Materials Engineering, options are available from third year of study. All final year students must complete independent B.Eng. final-year project report on a topic related to the selected option and a design project selected from any area of mechanical engineering. Evaluation of the project report and design project will be based on a method of continuous assessment of individual performance throughout the year and an oral examination.

Admission Requirements

The Department offers a five-year programme for the Bachelor of Engineering B.Eng. degree in Mechanical Engineering. Candidates who have passed the West African School Certificate or General Certificate of Education (Ordinary Level) may be admitted into the five-year programme through an Entrance examination. In addition to the University entry requirements, candidates wishing to be admitted into the Department must fulfil the requirements listed below. Applicants for admission by entrance examination must have passed either:

- a) The West African Certificate Examination, with at least credit in English Language, Mathematics, Physics and Chemistry obtained in one or two sittings;
 - b) Have obtained at least five papers in the General Certificate of Education (Ordinary Level) passed at not more than two sittings.
 - c) The subjects must include the four listed in (i) above; or
 - d) Have an SS certificate with at least 5 credits, which should include English Language, Mathematics, Physics and Chemistry.
- Candidates for admission by direct entry must have passed:

The Higher School Certificate (Principal Level) in pure Mathematics (or pure and Applied Mathematics), Physics and Chemistry, or

The General Certificate of Education (Advanced Level) in the subjects listed in (i) above.

Candidates with recognized Higher Diploma will be considered for direct entry on their individual merit.

Job Opportunities

The technological growth of any country depends to a large extent on the ingenuity of its high calibre technical manpower. For the well-trained and conscientious mechanical engineer, interesting and challenging job opportunities abound in Nigeria. This ranges from the design, development, production, operation, and maintenance of plant, machinery, and equipment to the management of technical systems of man and machines. Mechanical engineers are urgently needed in such industrial sectors as chemical, petrochemical and pharmaceutical industries; food processing and beverages; paper, pulp, and wood processing; textile industries, power generation, mining and metallurgy, public utilities, construction industries, hospitals and biomedical engineering; sanitary and sewage, defence and security, industrial standardization and water resources, manufacturing and metal processing, universities, polytechnics and research institutes.

Brief History

The Department of Metallurgical & Materials Engineering, University of Nigeria, Nsukka was established at the 316th Senate Meeting of the University of Nigeria, Nsukka on the 1st day of February, 2006.

The National Universities Commission (NUC), after the Resource Verification Visit from December 2nd to December 8th, 2007, officially approved the establishment of the Department on the 15th April, 2008 to run a programme for the award of B.Eng. degree in Metallurgical and Materials Engineering. Actual teaching started in October 2007 with the admission of 42 foundation students with 4 members of staff and the department presently has 30 staffs.

Philosophy

Almost every problem in the complex technology of any industrial society is at its core a materials problem. Power generation; lighter, more crash resistant and energy saving components for land; sea and air vehicles, electronic devices miniaturization; communication systems, from telephones to satellites, high strength, corrosion-resistant, fatigue-resistant, creep resistant materials for all types of structures; nuclear energy aspects from the production of the uranium fuel to the fabrication of massive steel structure of the reactor and the radiation shielding which makes it safe and transportation systems, all depend on the development of new engineering materials or the improvement of well-tried ones.

The Metallurgical & Materials Engineering is geared towards the non-renewable resources (metallic and non-metallic or fuel) to provide for the minerals and fuel resources which are being depleted faster than new ones are found; it also involves finding new ways of economically utilizing available materials and extracting metals from low grade sources with minimum disturbance to the environment and with the minimum consumption of energy. Transportation systems are becoming faster and faster because the Metallurgical & Materials Engineer is improving the materials: light- weight high -strength materials for fuel efficiency, stainless steel for various industries, super alloys for aircraft engine, titanium for space craft. Communication systems from telephones to satellites are tying the world together because the metallurgical engineer has developed ultra-pure silicon for transistors, germanium for diodes, cesium for electron emitters, tungsten for hot filaments and copper in low cost abundance to knot these components into electronic communication circuits. Nuclear energy is a field fundamentally dependent on metallurgical & materials engineering- from the production and fabrication of the uranium fuel to the massive steel structure of the reactor and the radiation shielding which makes it safe. In solving social problems, the Metallurgical & Materials Engineer designs and develops processes and equipment for recycling scrap materials for removing impurities from air and water and supplying materials required for man's standard of living.

Objectives

1. To train engineering professionals who are highly motivated and equipped theoretically and practically to face the challenges of a rapidly expanding industrial society.
2. To carry out research and development for sustainable technological growth.
3. To exposes the students to cutting-edge technologies to make them globally competitive.

Scope

The field of Metallurgical & Materials Engineering involves the mastery of the science and engineering of metals, ceramics and polymers to enable the graduate understand the behaviour of these materials in everyday application. The programme, in addition to consolidating the fundamental aspects of metallurgical, ceramic and polymer engineering exposes the graduates to the cutting edge engineering technologies in materials processing and development.

Entry Requirements

UTME

Candidates for admission to the Department must first satisfy the University entry requirements. The minimum entry requirement is pass at credit level in Senior Secondary School Examination or its equivalent in five subjects including Mathematics, Physics, Chemistry and English Language, which must be obtained in not more than two sittings.

Direct Entry

The minimum requirements are any of the following:

- (a) Passes at HSC or GCE A/L in at least two of the following subjects: Pure Mathematics, Applied Mathematics, Pure and Applied Mathematics, Physics and Chemistry. The candidates are also required to have credit level passes which must include English Language, Mathematics, Physics and Chemistry in Senior Secondary School Examination or its equivalent.
- (b) Pass at Upper Credit level in HND examinations in Metallurgical & Materials Engineering.
- (c) First degree holders in other relevant disciplines.

Duration of the Programme

Formal period of students in the Department is 5 years for UME, and 4 years for Direct Entry students. During this period there is Industrial Training for the students (i.e. SIWES I) at 400 level, second semester for a period of 6months. Excursion (Plant visits) are usually organized for the students at the middle of the sessions.

Job Opportunities

Job opportunities abound in and outside Nigeria for the graduate in the following areas: Iron and Steel, Ceramic (glass, Cement, refractory materials), Oil, Gas and Petrol-Chemical Industries, Defense Industries, Security Industries, Power Generation, Mining Industries, Semiconductor (Microelectronics) Industries, Transportation Industries, Aerospace and Marine Industries, Ministries, Institutes and Academia.

Work Experience and Employment

The Department encourages you to seek relevant work experience during your course. This may be either in the form of SWIES, vacation work, or a year out in industry. This will not only improve the relevance of the course but will also make you more attractive to potential employers when you graduate.

Degree Offered

The Department of Architecture offers four-year programme and three-year programme (for Direct Entry students) leading to the Degree of Bachelor of Science (B.Sc.) in Architecture. The Programme is designed to provide essential background for the professional needs of an architect.

The undergraduate programme is a standard four-year programme leading to the Degree of Bachelor of Science (B.Sc) in Architecture. The programme is designed to provide essential background for the professional needs of an architect.

Philosophy

The philosophy of the programme is to develop and impart architectural education responsive to our environment and the needs of the people.

Objectives and Scope

The objective of the programme is to groom competent skilled and versatile Architects capable of facing a broad spectrum of challenges of environmental design in Nigeria in particular and the global situation in general. In pursuit of academic excellence, the programme will exploit the rich culture and architectural resources within its immediate environment and beyond. It has an in-built flexibility in the development of the curriculum to allow for the changing needs of architectural education arising from changing social, economic, psychological and technological environment.

Entry Requirements

Subject to the candidate satisfying the University minimum entrance requirements, there are four modes of entry into the programme:

(a) SSS Certificate Admission

For a candidate who has successfully completed the Senior Secondary School Education of the 6-3-3-4 system or its equivalent with credit in Mathematics, English Language, Physics and any two of the following subjects Chemistry, Technical Drawing, Wood Work, Fine Art, Geography and Economics. Normal Admission should be through acceptable pass at the Entrance Examination organized by JAMB. Candidates so admitted commence at the 100-level of the programme.

(b) O-Level Admission

A candidate from either the old secondary school system or NECO must have 5 credit passes at O-Level or its equivalent in Mathematics, English Language, Physics and any other two subjects from the following Geography,

Economics, Chemistry, Technical Drawing, Wood Work and Fine Art. Such a candidate will commence at 100-level of the programme after obtaining acceptable score in the UME.

(c) A-Level Admission

A candidate who fulfills SSSC or O-level admission requirements and who has obtained GCE A-level, HSC or equivalent passes in Mathematics and Physics, or Mathematics or Physics and any other subjects will be admitted at the 200-level of the programme. Such a candidate may take relevant courses to make up for any deficiencies in his/her academic background.

(d) ND Admission

A candidate who fulfills the conditions for admission (a or b above) and who holds National Diploma (N.D) certificate in Architectural Technology or Building Technology at credit level may be considered for special admission into the programme at 200-level that is Direct Entry). Such candidate may take relevant courses to make up for deficiencies found in his/her academic background.

Job Opportunities

Architecture is among the most complex of the professions taught at the University of Nigeria. The programme in architecture draws upon research in decision theory, human behavior patterns and perception, as well as technology and art, as the basis for directing the future architect's successful contribution to the society he serves. The Building Industry led by the architectural profession has the enormous responsibility for recreating the physical environment of Nigeria.

On successful completion of the programme, a graduate in architecture shall have attained sufficient theoretical and practical skills to assist practicing Architects, and then can register with the Nigerian Institute of Architects (NIA) as well as the Architects Registration Council of Nigeria (ARCON) and work as a full-fledged Architect. Also, the student can proceed for higher studies in Architecture.

Brief History

Estate Management has a long tortuous and very successful history here in the University of Nigeria.

Initially, sub-professional courses leading to the first and intermediary examinations of the Royal Institution of Chartered Surveyors, U.K. were established at the then Enugu Branch of the College of Arts, Science and Technology late in 1957.

Following the 1960 Ashby Commission's recommendation, the College including the Department of Estate Management was absorbed by the University of Nigeria in 1961 as its Enugu Campus. In September 1963, 23 foundation students were admitted to the degree programme and the department graduate her first products in June 1967.

Except for the short interregnum during the Nigerian Civil War, the Department has continued admission and graduations of students since then. In 1980, the Department became the first in Nigeria to mount an M.Sc., postgraduate programme in Estate Management. Subsequently, in 1983 the Ph.D. programme was established.

Since then, the Department has graduated top professionals and scholars lecturing in many other Departments of Estate Management in various Universities in Nigeria and in other countries.

The Department has remained a reference point for the training of high quality manpower in the field of Estate Management in Nigeria and has at various times established linkage programmes with such Universities as University of Cambridge in England and University of Strathslyde in Scotland.

Mission Statement

The department of Estate Management is committed to the training of university graduates in Estate Management, with high academic and moral standard to satisfy the manpower needs of both the private and public sectors of the economy.

To achieve this objective, the curriculum is reviewed and updated regularly in response to changes in the socio-political, economic and technological environment.

Aims and Objectives

The aim of the programme is to equip the graduates with institutional, analytical and management tools necessary for the conservative and sustainable development of our land and land resources. The specific objectives include:

- (i) To instil in students an appreciation of the complex nature of the relationship between man and his environment.
- (ii) To prepare students academically for professional practice in land management, land use planning and land development, land reform, and settlement, real estate taxation and rating valuation, aspects of town and country planning, valuation, investment/development schemes and feasibility/viability appraisals.
- (iii) To create an appreciation of the importance of estate surveying and valuation in an industrial, environmental, economic and social context,
- (iv) To lay a foundation on which students can proceed to further studies in specialized aspects of estate surveying and valuation.
- (v) To develop the students in the use of information technology in the effective management of land and the environment.

Admission Requirements

Admission into the department can be through either of the following modes.

University Matriculation Examination (UME)

Candidates seeking admission through the University Matriculation Examinations (UME) organized by Joint Admission and matriculation Board (JAMB) must in addition to passing the entrance examination at the University specified level, possess the Senior Secondary School Certificate of Education (SSCE) or its equivalent with credit passes in at least *five subjects* which must include Mathematics, English Language, Economics and any other two from Physics, Chemistry, Biology, Geography, Fine Arts, Technical Drawing, Agricultural Science and Building Construction, in not more than two sittings.

Direct Entry (D/E)

Holders of degrees in related disciplines or HND Estate Management would be admitted to Part II and holders of Higher School Certificate, GCE "A" level and OND in Estate Management would be admitted to Part II provided they meet the above entry requirement specified in 2.1 above and take remedial courses form Part I programme as may be recommended by the Department.

Duration of Programme

The Bachelor of Science Programme in Estate Management shall last for a minimum of ten semesters (i.e. five years) for holders of Senior Secondary School Certificate (SSCE) or its equivalent. However, no student shall be granted an extension of more than four (4) semesters (i.e. two years if he or she fails to graduate within the minimum duration).

Holders of higher qualifications may be granted appropriate exemptions commensurate with their background. Transfers from other courses will be treated on their individual merits.

Title of the Degree to be Awarded

The degree to be awarded on successful completion of the programme is the Bachelor of Science in Estate Management abbreviated B.Sc. (Estate Management).

Requirements for the Award of the Degree

The award of the B.Sc. (Estate Management) degree is subject to the candidate fulfilling the University general conditions for the award of the degree in addition to having satisfied the following:

- (i) The candidate must have passed all the prescribed compulsory examinations.
- (ii) The candidate must have completed minimum total credit units of 184.
- (iii) The candidate must have successfully completed a semester of industrial work for practical experience in recognized and approved organization, a report of which must be prepared and submitted to the Department.
- (iv) The candidate must have successfully completed a research work embodied in the form of project or dissertation reports; and
- (v) The candidate must have shown adequate evidence of being worthy in character.

Course Requirements

The major course components that make up the curriculum for the B.Sc. (Estate management) degree programme comprise Property Valuation, Feasibility and Viability Appraisals, Property Management, Building Technology, Law, Economics, Land Economics, and Town Planning, among others. Some of these courses are offered outside the Department. The course components can be categorized into three, namely:

- i. Those courses offered in the Department of Estate Management
- ii. Those courses offered in cognate departments; and
- iii. Those courses offered in the General studies unit.

The courses can be further categorized into compulsory \core courses, compulsory ancillary courses and elective courses.

Job Opportunities

Graduates of Estate Management have career opportunities in both the public and private sectors of the economy. Graduates provide high level professional services as Estate Surveyors and Valuers, Land Officers, and Rating Surveyors in Local, State and Federal Government Ministries and Establishment, Managers in Banks and other financial institutions while others work as resident surveyors and partners in various estate surveying firms.

Brief Information of the Department

The Department of Geoinformatics and Surveying, University Nigeria is one of the earliest departments established in the University. It is one of the present four departments in the Faculty of Environmental Studies. The Department offers a standard five-year programme of study leading to B.Sc. Degree in Geoinformatics & Surveying which meet the standards of the Surveyors Council of Nigeria (SURCON) and the Nigerian Universities Commission (NUC). The department runs postgraduate programmes namely: postgraduate Diploma (PGD), Master of Science (M.Sc.) and Ph.D. in various areas of Geoinformatics and Surveying.

The Department also offers service courses (theory and practice) to other Departments in the Faculty including the Departments of Architecture, Estate Management and Urban and Regional Planning.

Philosophy

Geoinformatics and Surveying is a professional discipline which is designed to produce manpower for geospatial data acquisition and database management for the production of appropriate geospatial information in various forms including cadastral plans, and site plans; updated cadastral, topographic and thematic maps and charts; earth's terrain and water level models, and various other geospatial reports, diagrams, and perspectives. It also involves multiple applications of these to different areas including environmental monitoring and control, physical planning and development, civil engineering design and construction, distribution of utilities, military operations, archaeological and geological operations, and general political, economic, agricultural, population, fiscal and land administration.

Objectives

The programme objectives include the training and production not only of professional Surveyors registerable by the Surveyors Council of Nigeria (SURCON), but also of Geodesists, Hydrographers, Cartographers, as well as Photogrammetrists, Remote Sensing and GIS experts, Database Analysts, Managers and Administrators. These professionals are required by numerous local, national and international governmental and non-governmental organizations (NGO) and agencies involved in land, ocean and space administration research including studies on population, transportation, telecommunication, navigation, etc.

Scope

The programme harnesses appropriate knowledge of Mathematics, Physics, Statistics, Electronics, Computer Science, Environmental Studies, and Law to prepare the students adequately to meet the challenges of professional practice and specialist training in Land Surveying, Mining Surveying, Hydrography, Oceanography, Cartography, Geodesy, Photogrammetry, Remote Sensing and Navigation. The programme is carefully structured to reflect adequately these areas of knowledge.

Admission Requirements

There are two modes of entry into the programme subject to the candidate satisfying the University minimum entry requirement.

Applicants for admission through UME must be holders of Senior Secondary School Certificate (SSSC) or its equivalent with five credits including Mathematics, Physics and English Language, who have taken the University Matriculation Examination (UME) and obtained acceptable score.

For admission by Direct Entry (DE) candidates must have one of the following qualifications:

- (a) Passes in Mathematics and Physics at the G.C.E. Advanced Level or its equivalent, and have in addition three other credit level passes in SSSC examination or G.C.E. (O/L) or its equivalent.
- (b) National Diploma (ND) or its equivalent in Surveying, with pass at Upper Credit level, from an NBTE accredited institution or recognized higher institution.
- (c) Bachelors Degree in the Physical Sciences & Engineering Disciplines

DE candidates will be admitted into a four-year programme in which case they start from the second year of the five-year standard programme. Candidates admitted by direct entry may be required, where applicable, to take specified courses to make up for deficiencies found in their academic background.

Job Opportunities

Graduates of the Department have the opportunity to work in mapmaking firms both in Nigeria and other countries of the world.

Job opportunities exist in the Federal and State Government Ministries and parastatals, oil prospecting companies, Engineering companies and private surveying and mapping companies/organizations and a wide range of social institutions in the field of demography, forestry, planning etc. Job opportunities also exist in research institutions, polytechnics and universities.

Many of our products also engage in self employment after registration with SURCON (Surveyors Council of Nigeria).

Philosophy

Urban and Regional Planning is a professional discipline, which embraces the management of the physical space and the environment. It is manifested in the spatial ordering and management of land uses at the local, urban and regional levels. This is accomplished within the framework of micro-economic resource allocation and political decision making. Urban and Regional Planning therefore, requires comprehensive theoretical and practical education and training in the planning, designing and management of the total environment. It also requires an understanding of societal needs, goals and objectives.

Objectives

The programme is aimed at providing students with a sound and broad-based education in Urban and Regional Planning with particular reference to the Nigerian situation. This is with a view to equipping them adequately for careers in various areas of planning. The programme is also aimed at preparing students for careers in planning research and in other planning related activities.

Scope

For the standard 5-year and 4-year undergraduate programmes, the students are first introduced to the multi-disciplinary perspectives of Urban and Regional Planning and thereafter are exposed to areas of specialization such as Transportation Planning; Tourism Planning and Development; Housing and Community Development; Recreation Facility Planning; Regional/Rural Development Planning; Development Control; Environmental Management; Conservation and Preservation, and Social Services and Planning and research towards the penultimate and final years. Practical training in professional planning firms and government departments is an essential prerequisite for graduation.

Entry Requirements

In addition to the general University entry requirements, applicants for admission through UME examination must have credit level passes in at least 5 subjects at the Senior Secondary School Certificate (SSSC) level or its equivalent. The subjects should include English Language, Mathematics, and any three subjects selected from the following: Economics, Government, Fine Art, Geography, Technical Drawing, Physics, Chemistry, Agricultural Science and Biology.

For admission by direct entry, candidates must have one of the following qualifications:

- (c) Upper credit level passes in OND (Ordinary National Diploma) examination in Town Planning or its equivalent, in addition to 5 credit level passes in GCE/OL subjects as for UME candidates.
- (d) G.C.E. Advanced Level passes in Mathematics, Geography and one subject from the following: Economics, Government, Fine Arts, Technical Drawing, Physics, Chemistry and Biology in addition to two other subjects passed at credit level in the WASC/GCE (O/L) or NECO.

The two GCE/OL subjects must include English Language and one of the above subjects not already passed at the GCE Advanced Level.

Direct entry candidates who are admitted into the second year of the programme are required to makeup for any deficiency in their background. Transfer students from other Universities would be treated on their own merit and in line with the University regulations.

Job Opportunities

Graduates of the programme are eligible for registration with the Town Planners Registration Council of Nigeria, and for membership of the Nigerian Institute of Town Planners. Employment opportunities exist for them in both the public and private sectors of the economy.

Philosophy

There is lack of capacity in health management, economics and policy in Nigeria and most sub-Saharan African (SSA) countries. There is also the lack of adequately trained as well as academically equipped health management professionals to man management positions in the ministries of health, health organizations and services in Nigeria. The Department offers various Postgraduate programmes to help provide the needed capacity.

Medical Laboratory Sciences

Historical Background

The History of Medical Laboratory Science, Faculty of Health Science and Technology, College of Medicine, University of Nigeria, Enugu Campus is unique. It was set up as a novel Department in the 1983/84 Academic Session in the Faculty of Health Science and Technology (itself a novel Faculty) to tackle problems of the rapidly expanding health-care programmes of Nigeria. The Department is geared towards an in-depth scientific knowledge in techniques employed in the diagnosis of diseases as well as their broad based application to cater for the Primary Health Care needs of a developing country like Nigeria.

This novel idea was concretized in the setting up of the Department of Medical Laboratory sciences in the 1983/84 Academic Session with the approval of the National Universities Commission (NUC). The curriculum for a 5-year Bachelor's Degree Programme in Medical Laboratory science (B.MLS) was drawn up with the active participation of the parent professional body – the Medical Laboratory Council of Nigeria. Products of this programme obtain automatic registration with the Medical Laboratory science Council of Nigeria.

The Department of Medical Laboratory science offer courses leading to B.MLS degree in Medical Laboratory science. Admission is by Entrance Examination (JME) and direct entry. Students offered admission by Entrance Examination undergo a five (5) year degree programme while those for direct entry undergo a four (4) year degree programme.

Philosophy, Objectives and Scope of Programme

The philosophy of the Department is in line with the philosophy of University Education in Nigeria. It is aimed at exposing the students to sound knowledge of the theory and practice of Medical Laboratory sciences. Students are exposed to the application of Medical Laboratory sciences in key areas such as Medicine, Food and Beverages, and Pharmaceutical Industries as well as utility Departments (e.g. Water Corporations).

The courses offered are designed to expose the student to core areas like Clinical Chemistry, Haematology & Blood transfusion science, Histopathology, Medical Microbiology, Immunology/ Immunochemistry, Instrumentation, and Pharmacology.

Students are required to broaden their knowledge in their core areas by taking ancillary courses in Chemistry, Mathematics, Statistics, Biochemistry, Anatomy, Physiology and Biology. They are also expected to be able to modify existing techniques; understand the working of laboratory instruments, modify them or fabricate new ones.

The practical aspect of the degree programme prepares the students to fit into any diagnostic laboratory in hospitals, research Institutes, Food Laboratories and other allied fields; e.g. Pharmaceutical Industries, Breweries etc., or equipment fabrication industries, or be self-employed.

On the successful completion of the five (5) year degree programme, students obtain an automatic registration with the Medical Laboratory science Council of Nigeria. This registration enables them take up careers in Medical Laboratory science as Medical Laboratory Scientists, in Teaching and Specialist Hospitals, Government Hospitals, Primary Health Care Centres, Research Centres, Private Health Centres, Private Establishments and Quality control Units of Industries. They have job opportunities as Research Scientists, Teachers in Institutions of Higher Learning or they can become employers of labour, by establishing their own diagnostic/research laboratories or instrument maintenance/fabrication centres. They also ensure quality assurance and uphold accountability to professional practice

Entry requirements

a) Admission is through JAMB.

Candidates must have satisfied the minimum University requirements for admission and are required to obtain credits in English Language, Chemistry, Biology, Physics, and Mathematics in the Senior Secondary School Certificate (SSSC) or equivalent.

b) Direct Entry may be considered for:

i) Candidates holding three papers at the Advanced Level in Physics, Chemistry and Biology in addition to satisfying the minimum requirement for admission through JAMB.

(ii) A good Bachelor's degree in a relevant discipline (Biochemistry, Microbiology, Physiology, Anatomy, etc) with a minimum of second class honours lower division in addition to satisfying the minimum requirement for admission through JAMB.

iii) Any other qualification adjudged acceptable by the Departmental Admission Board.

Duration of Course

The duration of the B.MLS degree course is 5 years for JAMB candidates and 4 years for Direct Entry candidates.

Brief History of the Department

The Department of Medical Radiography and Radiological Sciences was established in 1982/83 academic session under the Faculty of Health Sciences and Technology. The first admission of students into the programme was in 1983/1984 academic session. At inception, the department was known as the Department of Radiography till 1991 when the name was changed to the Department of Medical Radiography and Radiological Sciences and the curriculum was revised, as the University changed from the term to the semester system.

The curriculum was developed in 1983 with a team of experts drawn from the Association of Radiographers of Nigeria, Association of Radiologists of West Africa, Federal Ministry of Health and other relevant bodies. It was approved in 1984 by the University Senate. The curriculum has been revised thrice to keep abreast with new concepts in medical imaging in line with the demand of our professional body and the National Universities Commission's (NUC) minimum standards.

The Department has been offering a five year standard B.Sc. Degree Programme in Medical Radiography and Radiological Sciences. It will now offer a standard five year programme leading to the award of Bachelor of Medical Radiography and Radiological Sciences (B.Rad).

Philosophy

Medical Radiography and Radiological Sciences, which deals with the use of ionizing radiation (including X-rays) and other forms of radiant energy in the diagnosis, treatment and management of diseases, is an indispensable arm of modern medical sciences and the pivot of modern diagnostic medicine. The department believes that the great rapid scientific and technological advances and progress of the past few decades especially in medical and radiological sciences and technology can only be fully and effectively harnessed for optimum practical application and utilization with enhanced university level educational training.

High level scientific training is a major pre-requisite for proper understanding and efficient application of the sophisticated technology in this field of learning.

Objectives

This programme is designed to attain the following objectives.

1. To train radiographers and radiological scientists with sufficient and relevant scientific and technological skills with high degree of competence and safety in the practice of radiography at the primary, secondary and tertiary levels of health-care delivery.

2. To train radiographers and radiological scientists with sufficient interpersonal and inter-disciplinary skills to function as members of the health care team.
3. To empower radiographers and radiological scientists with proficiency to carry out research, manage materials and human resources, and also acquire adequate techniques and skills to fabricate components.

Scope

The programme includes the following: Diagnostic Radiography, Medical Ultrasound Imaging, Radiotherapy and Oncology, Nuclear Medicine Sciences, Magnetic Resonance Imaging (MRI), Computed Tomography (CT), Medical Radiological Physics, Radiation Protection/Radiobiology, Radiographic Imaging Processes, Radiological Instrumentation, Radiological Health Management and Radiological Education.

Entry Requirements

The Department admits students by Unified Tertiary Matriculation Examination (UTME) for the five year standard Programme and Direct Entry for the four year programme.

(i) UTME

The minimum requirements for admission into the College of Medicine of the University are also applicable to the Department of Medical Radiography and Radiological Sciences. These include five O'Level credit passes at not more than 2 sittings in Physics, Chemistry, Biology, English Language and Mathematics in Senior Secondary School Certificate or its equivalent, plus an appropriate pass in the UTME and any other examination that may be conducted by the University.

(ii) Direct Entry

Direct entry candidates will join the programme in second year.

(a) Candidates for direct entry must possess at least two G.C.E. "A" Level passes in Physics, Chemistry or Biology, plus 5 credits at "O" level as defined in UTME admission above.

(b) Other qualifications: B.Sc. or M.Sc. Degree in relevant fields in addition to an acceptable pass in any other examination that may be conducted by the University.

Job Opportunities

There are abundant job opportunities for graduate Medical Radiographers and Radiological Scientists in Teaching Hospitals, General Hospitals, Specialist Hospitals, Health Clinics, private establishments, self-employed establishments and in related Industries in Nigeria and abroad. Job prospects will continue to increase with the fast expansion of the Healthcare System and advancement in Medical Imaging Technology. Academic and research positions in institutions of higher learning are fertile grounds for the academically inclined professional Medical Radiographers and Radiological Scientists.

General Information

The Department of Medical Rehabilitation offers a five-year degree programme leading to Bachelor of Medical Rehabilitation (Physiotherapy)

Philosophy

The restoration of the disabled patient to a state of self-sustaining existence is perhaps the greatest gift that man can give to his fellow man. He that will extend this gift must of necessity be able to employ all the knowledge and gadgets available to him/her in achieving this. The department believes that Man (Homo Sapiens) as a biophysical and psycho-social being is the focus of all physiotherapeutic knowledge and activities. As a complex physical being, we conceptualize Man in continuous dynamic interaction with fellow Man and the environment in which each is susceptible to change. Movement and interaction are major factors in Man's health and well-being, and are the main focus of Physiotherapy. Physiotherapy therefore has an important role in the maintenance of health and well being as Man interacts with self, others and the environment especially in the amelioration of limitations to activities of daily living.

Scope

The duration of the programme is five academic sessions which is segmented into three phases of progression from the theoretical to clinical learning. During the one year of Phase I, students acquire knowledge of basic sciences as foundation. Under Phase II, another year and half is spent learning the basic Medical sciences followed by two and half years of Clinical exposure at the Teaching Hospital (UNTH) and other approved centers.

Objectives

Consistent with the academic goals of the University and the Faculty of Health sciences and Technology, the Department aims to achieve the following:

1. Equip students with the knowledge, skill and professional expertise of the discipline of physiotherapy necessary for the restoration of abilities and function to normal or near normal to persons who suffer disease or injury;
2. Ensure that the products of this programme acquire the knowledge, skill and expertise of physiotherapy and both understand and apply the knowledge of the functions and structures of the human body via the study of anatomy, physiology, biochemistry and pathology;
3. Ensure that these professionals apply theory, treatment, and management approaches relating to physical injuries, diseases, and challenges of Rehabilitation using physiotherapy procedures and methods acquired via studies in electrotherapy, exercise therapy, sports therapy, cryotherapy, ethics and administration field (clinical experience), evidence-based rehabilitation, community outreach, seminars and projects including the use of assistive devices to aid rehabilitation and other proven and emerging forms of professional care and treatment;
4. Produce graduates who are knowledgeable in research development and are equipped with the necessary scholarly skills to pursue a career in the academia.

Admission Requirements

Applicants must satisfy the University of Nigeria minimum academic requirements of credit passes in Mathematics and English Language for admission. In addition, the department requires prospective students to have credits in Physics, Chemistry and Biology, all in SSCE or its equivalent in not more than two sittings. Candidates wishing to transfer to Physiotherapy programme from other programmes may be admitted following an interview at the 200 course level only, provided the minimum entry requirements are met.

Job Opportunities

Physiotherapy is a growing profession in Nigeria. Graduates of the programme emerge as physiotherapists capable of applying scientific and professional principles and practice to the treatment and rehabilitation of individuals and groups of all ages in a variety of community and institutional settings. Upon graduation, many graduates of the programme pursue further academic work in institutions of higher learning and others provide rehabilitation

services in different health care environments. Employment opportunities for graduates of this programme abound in hospitals, educational institutions, communities, health centres, national and international agencies, armed forces and other areas in need of Physiotherapists or Rehabilitation personnel.

General Information and Academic Programme

The Department of Nursing Sciences came into existence in 1982/83 academic session. The programme was established based on the need of the country for improved quality nursing care, the need for professional growth and enhancement of the nurses' status in line with the global trend. The Department started with a 3-year post basic

nursing programme for registered nurses which on successful completion of the programme, the graduates were awarded B. Sc. Nursing degree in three major areas: Public Health Nursing, Nursing Education and Nursing Administration. This programme has been replaced by the National University Commission and Nursing and Midwifery Council of Nigeria (N&MCN) approved five (5) year generic Bachelor of Nursing Science (B.N.Sc) degree programme which commenced in 2004/2005 academic session. The registered nurses, who enter the generic programme, join at the 200 level, thereby running a four-year degree programme. The B.N.Sc. degree is awarded at the end of five years to the students who are found worthy in character and learning, having fulfilled both the University and the Professional Body requirements for the programme.

Philosophy, Objectives and Scope

This programme takes into cognizance the general aims and philosophy of education and nursing in Nigeria. The Department believes that man (in generic term) is a bio-psycho-social spiritual being whose optimal well-being/health is the goal of all nursing activities. Man is an integral part of the family, the community, and the society. It is useful to conceptualize this individual (man) and the environment as open systems engaged in continuous dynamic interaction in which each is susceptible to change by the other. Health exists on a continuum ranging from wellness to illness/death and the position of man on the continuum at any given time is a function of adaptation. Nursing as a unique helping relationship offered to optimize man's health by diagnosing and treating human responses to actual and potential health problems and/or its treatment, in which the nursing process is a major tool for nursing care, while primary health care is the fundamental health framework for the organization of care in the helping relationships. The Department believes that optimizing man's health requires a collaborative team approach of which the Nursing profession is an indispensable/ valuable team member. The Department believes that preparation for professional nursing should consist of liberal and professional education offered as an integral part of the University education. This professional nursing education should be built upon a broad theoretical base that seeks to develop continuous self-directed learner practitioners. Such practitioners are not only responsive to the changing health needs of the society but also advancing and testing knowledge on which nursing practice is based.

Admission Requirements

Admission is through the Joint Admissions and Matriculation Board either by Unified Tertiary Matriculation Examination (UTME) or Direct Entry (DE). All eligible UTME candidates must possess the stipulated University minimum academic requirements for admission, which is West African School Certificate (WASC) or its equivalent, with credit passes in at least five subjects including English Language, Mathematics, Biology, Physics and Chemistry in not more than two sittings and must have a pass in the University Post UTME screening examination.

Direct Entry

Direct Entry candidates must be Nurses or Midwives Registered with the N&MCN, Candidates holding the General Certificate of Education (GCE) Advanced level Certificate with pass in Biology, Chemistry and Physics, in not more than two sittings are also eligible to apply. Such candidates will be expected to have satisfied the O' level requirements of credit pass in at least five subjects including English Language, Mathematics, Biology, Physics and Chemistry in not more than two sittings and passed the university screening test. Degree holders in health related disciplines are also eligible to apply. Direct Entry candidates admitted into a four year programme may be required, where applicable, to take specified courses to make up for deficiencies found in their academic background.

Job Opportunities

Employment opportunities for the graduates of this BNSc. programme abound in the communities and clinical practice areas such as schools, health centers, industries, teaching hospitals, specialist hospitals, armed forces, sports organizations, international agencies and in private practice. There are also academic opportunities in institutions of higher learning for teaching and research.

General Information on the Faculty of Law

The Faculty of Law, University of Nigeria, Enugu Campus came into existence in September, 1960 under the deanship of Professor G. M. Johnson. The emergence of the Faculty represented a unique landmark in the history of legal education in Nigeria, since it was the first Law Faculty to be established in the country.

Philosophy and Objective

The founders of the University of Nigeria aimed to relate its activities to the social and economic needs and the day-to-day life of the people of Nigeria, hence its philosophy, "To Restore the Dignity of Man." In keeping with that broad philosophy of the University, the programme of the Faculty is based on the basic philosophy that law operates within a social set up and must therefore be understood from that background. Legal training in this Faculty seeks to give students an understanding of the following:

1. The nature of law and its functions both in the administration of justice and in the operation of the other activities of a modern state.
2. The processes employed in determining what the law is and applying its rules to new situations.
3. The organizing of the legal profession and the machinery of justice.
4. The general principles of the more basic legal subjects.
5. The relationship of law to the other social sciences and to the general framework of society.

Consequently, a graduate of this Faculty should be in the position to fit conveniently into all spheres of life where knowledge is a requisite.

The curriculum of the Faculty is designed both for those who after obtaining the Bachelor of Laws Degree may wish to proceed to the Nigerian Law School and qualify as legal practitioners in Nigeria, and for those who may wish to obtain the degree as a qualification for employment in International and National Agencies, federal, state and local governments, statutory corporations, industrial, commercial and other enterprises.

At present, the Faculty consists of seven departments, namely:

- the Department of Commercial and Corporate Law
- the Department of Property Law
- the Department of International and Comparative Law
- the Department of Jurisprudence and Legal Theory
- the Department of Public
- the Department of Private Law; and
- the Department of Customary and Indigenous Law.

In addition to their functions within their respective departments, staff of the Faculty also provide teaching support for the Faculties of Business Administration, Environmental Studies and Health Sciences which have various courses in Law in their curricula.

The Faculty has over the years devised different programmes to cater for particular categories of law students. At the undergraduate level, the majority of students are admitted into the standard five-year programme through the Joint Admissions and Matriculations Board Entrance Examinations. There is also a four-year programme, which is open to a limited number of candidates who already possess University degrees, diplomas or General Certificate of Education Advanced Level. At the postgraduate level, the Faculty is endowed with sufficient research facilities to enable it offer courses leading to the award of LL.M., M.Phil. and Ph.D. degrees.

Admission Requirements

The Faculty admits students of two broad categories:

- (i) U.M.E. candidates (full-time)
- (ii) Direct Entry candidates (full-time).

Students are admitted into the respective programmes if they satisfy the general university admission requirements for direct entry and entrance examination students. In addition, all students (including direct entry candidates) must satisfy the Faculty entry requirements of Credit level passes in English Language, English Literature and Mathematics or one other Science subject in School Certificate or its equivalent.

Types of Programmes

The Faculty of Law offers a 4-year LL.B Degree programme for direct entry students and a 5-year LL.B degree standard programme for entrance candidates. In addition the Faculty mounts service courses to a number of departments as follows:-

- (a) **Business Law:** For students in the Departments of Accountancy, Finance, Management and Marketing.
- (b) **Principles of Law of Contract & Tort:** For students in the Department of Estate Management.
- (c) **Principles of Nigerian Land Law:** For students in the Department of Estate Management and Urban & Regional Planning.

(d) Law of Land Registration: For students in the Department of Surveying.

Philosophy, Scope and Objectives

Legal training in this Faculty seeks to give students an understanding of the following:

1. The nature of law and its functions both in the administration of Justice and in the operation of the other activities of a modern state.
2. The processes employed in determining what the law is and applying its rules to new situations.
3. The organizing of the legal profession and the machinery of justice.
4. The general principles of the more basic legal subjects.
5. The relationship of law to the other social sciences and to the general framework of society.

Employment Opportunities

The curriculum of the Faculty is designed both for those who after obtaining the LL.B degree may wish to proceed to the Nigerian Law School and qualify as legal practitioners, i.e. Barristers and Solicitors in Nigeria, and also for those who may wish to obtain the degree as a qualification for employment in international and national agencies, Federal, State and Local Governments, Public and other Statutory Corporations, Industrial, Commercial and other enterprises.

The training in the Faculty adequately prepares the graduates for employment in almost every sector of the economy, especially Banks and other Financial Institutions, Industries, Corporations both Municipal and Transnational and the Legal Profession including Law Teaching.

Faculty of Clinical Sciences

Dean's Office

Staff

H.U. Ezegwui, MB,BS (Nigeria), FWACS (West African College)	Dean
C.A. Onoka, MB,BS, FWACP, DLSHTM, M.Sc. (London), MPH, Ph.D. (London)	Associate Dean (Clinical)
C.I. Okafor (Rev. Can), MB,BS., FMCP	Associate Dean (Pre-Clinical)
G.N. Asuzu, PGD, MBA	Faculty Officer
C.D.S. Ebue, MBA, B.Sc, OND	Administrative Officer
N.E. Duru, B.Sc.	Assistant Chief Conf. Secretary
N. Ogbonna, B.Sc. (Nigeria)	Principal Executive Officer II

Department of Anaesthesia

Staff

O.V. Ajuzieogu, B.Sc, MB, BS, FMCA	Senior Lecturer/Ag. Head
F.A. Onyekwulu, MB, BS, FMCA	Senior Lecturer
U.V. Okafor, MB, BS, DA, FMCA	Senior Lecturer
T.C. Onyeka, MB, BS, DA(WA), FWACS	Senior Lecturer
A.A. Amucheazi, MB, BS, FWACS	Lecturer I

Department of Chemical Pathology

Staff

I.D. Nnakenyi, MBBS (Lagos), FWACP, FMCPPath	Lecturer I/Ag. Head
M.C. Ugonabo, FWACP, B.Sc. M.Sc. MBBS (Nigeria)	Senior Lecturer
I.A. Meka, B.Sc. MBBS (Lagos), FMCPPath, M.Sc. (Nigeria)	Lecturer I

N.I. Okoro, MBBS M.Sc. (Lagos), FMCPPath	Lecturer I
C.B. Ene, MBBS, M.Sc. (Nigeria)	Lecturer II
U.A. Nto-Ezimah, MBBS (Maiduguri)	Lecturer II
D.I. Tabansi, AImLS, FAmLS	Chief Med Lab Technologist
E.N. Okafor,	Chief Med Lab Technologist
E.E. Chukwukelu, PGD M.Sc. Ph.D. (Nigeria)	Senior Med Lab Scientist
C.I. Neboh, FImLS, AImLS, PGD M.Sc. (Nigeria)	Senior Med Lab Scientist
I.U. Ude, AImLS, PGD	Senior Med Lab Scientist
O.C. Ugwunna, BMLS	Med Lab Scientist
R.C. Eruchalu, AMLS	Med Lab Scientist
M.C. Agu, B.Sc.	Med Lab Scientist
O.E. Obianyo, B.Sc.	Med Lab Scientist
G.C. Ikwugbado, BMLA	Med Lab Scientist
A.C. Ejim,	Senior Lab Supervisor
M.C. Ejinkonye, HND	Senior Lab Supervisor
F.A. Okoronkwo, 120,50 in shorthand and typewriting,	Assistant Chief Confidential Secretary I
B.E. Ahunanya, Advanced Pitman's 50wpm	Assistant Chief Typist

History

The Department of Pathology was one of the foundation Departments in the Faculty of Medicine when it was established in 1967. It had four composite clinical departments. The Department of chemical pathology was the pivotal department that coordinated chemical pathology and Hematology.

Research Activities

Research is going on in the department in the following areas:

Antioxidant Vitamin C

Oxidation in nephritic syndrome

Metabolic disorders

Micronutrients and disease

Lipids and cardiovascular disease

Cations in cardiovascular disease

Immunochemistry-Reproductive Endocrinology-autoantibodies to sperm.

Health Care Delivery Services

The department runs a metabolic/obesity clinic at the Teaching Hospital site

Dynamic function testing e.g. OGTT

Departmental Library, Internet Facilities

Divisions/Units

Cardio-Renal Unit

Endocrinology

Immunology/immunochemistry Unit

Metabolic/TDM Unit

Protein Unit

Micronutrient/Nuclear Medicine Unit

Oncological Pathology Units

Clinical clerkship in the department of chemical pathology will be in 300L, 400L, during block posting I & II, and the block posting revision before the 3rd M.B., B.S. Examination. Additional lectures will be given during 300L Clinical postings (Medicine and Surgery I).

Philosophy

To produce medical doctors with basic understanding of the processes that guide appropriate test ordering and possess basic understanding of the science of interpretation of laboratory results for general clinical practice.

Posting Description

1st Posting – Block Posting I (300L 2nd Semester)

Broad Objective

- To introduce the student to the knowledge and skills of basic biochemical investigations used to diagnose disease conditions affecting organs and systems in the human body.

Specific Objectives

At the end of this posting, the students should be able to

- Describe the pathogenesis of the common disease conditions affecting organ systems.
- Select appropriate tests for the evaluation of the above disease conditions.
- Interpret the biochemical tests for the management of the above conditions.

2nd Posting – (400L 1st semester)

Broad Objective

- Produce medical graduates who are able to apply their knowledge of basic chemical pathology to the investigation and principles of management of clinical entities.

Specific Objectives

At the end of this posting, the student should be able to:

- Have adequate knowledge of the rationale for the selection of tests in investigating disease conditions.
- Demonstrate knowledge of the main causes of the non-pathological variation in measured biochemical values.
- Understand the basic principles of bio-safety in the clinical chemistry laboratory.
- Selection of the more special tests in chemical pathology.
- Interpretation of the results of the more special tests in chemical pathology.
- Handling of the more common POCT devices.

Clinical Pathology Chemistry for MB,BS Degree Programme

CPY 301	Basic Principles of Chemical Pathology
CPY 302	Pathogenesis of Disease I
CPY 303	Metabolism I
CPY 304	Practical laboratory work
CPY 305	Metabolism II

Block Posting revision

CPY 401	Nutrition
CPY 402	Pathogenesis of Disease II
CPY 403	Metabolism III
CPY 404	Practical laboratory techniques
CPY 405	Specialty Clinical Chemistry
CPY 406	Laboratory Management

Department of Community Medicine

Staff

O.N. Onwasigwe, MBBS (Nigeria), FMCPH	Professor/Head
M.N. Aghaji, MBBS (Nigeria), FWACP	Professor
T.A. Okeke, MBBS (Nigeria), DPH (London), FMCPH I, FMCPH	Professor
B.C. Uzochukwu, BMBCH (Jos), DPA, FWACP, MPH (Nigeria)	Professor

A.C. Idoko, MBBS (Jos), MPH (Nigeria), FWACP	Lecturer I
E.C. Aniwada, MB BCH, M.SC, FWACP, FMCPH, MPH	Lecturer I
C.C. Agunwa, MBBS (Nigeria), FWACP, MPH 5	Lecturer I
A.K. Umeobieri, MBBS(Awka), MPH (Nigeria), FWACP	Lecturer I
O.C. Anitube, B.Sc. (Nigeria), MPH (Cardiff), Ph.D. (China)	Lecturer II
C.A. Aniobi, HND, PGD (Nigeria), AMLSCN, M.Sc. (Nigeria)	Senior Med. Lab. Scientist
C.O. Illo, RSA, B.Sc. (Enugu), MBA (Nigeria)	Chief Confidential Secretary
B.C. Onyia, HND, PGD, MPA	Principal Exec. Officer I
C.C. Aniobi, HND(SLT), PGD (Nigeria), AMLSCN M.Sc. (Nigeria)	Senior Medical lab. Scientist
L.O. CHIME, B.Sc. (Enugu)	Princ. Exec. Officer II

History

The Department of Community Medicine is one of the clinical departments of the College of Medicine of the University of Nigeria, Enugu Campus. The department started with the founding of the University of Nigeria Medical School in 1970 and offers courses in part fulfilment of the MBBS degrees of the University of Nigeria. Since then the department has had tremendous growth in manpower, training and materials. Starting with only a few lecturers in 1970, the department presently has specialists in almost all the sub-disciplines of Public Health.

Training programs offered in the department have also increased: from an initial training of only medical students, the department now trains both resident doctors and MPH students and has made plans to develop into a School of Public Health that will offer M.Sc. and Ph.D. programs. The MPH program organized by the department is one of the best in the country. This is run as both part-time and Full time basis and includes all persons with first degree in relevant disciplines. Students are exposed to wide range of Public Health issues by experienced and highly qualified professionals. Graduates of our MPH program have competed favourable in highly reputable jobs. For the School of Public Health the following have been identified as sub-departments: Occupational Health and Safety; Epidemiology and Biostatistics; Health Education; Health Systems, Policy and Management. Other training programs include residency training for both WACP and National Postgraduate Medical College. The department also assists in training of Community Health Officers (CHOs) and student midwives.

Broad Objectives

To produce specialist doctors who will completely provide health care in any community whether urban or rural, organize and supervise health care programme for the community and also initiate research to advance the frontiers of medical knowledge.

Specific Objectives

At the conclusion of the formal training, the graduate should be able to demonstrate that he/she has acquired the knowledge, skill and attitude to:

appreciate the effects of ecological, environmental, social, cultural, economic and psychological factors on the health of the community, and take appropriate measures to alleviate them carry out epidemiological studies to identify the prevalent health problems in the community and also determine ways and methods of alleviating them;

plan, implement and evaluate appropriate health programmes (promotive, curative and rehabilitative) in collaboration with other members of the health team in order to reduce mortality and morbidity in the community, and also to improve the quality of life of the people in the community;
develop the spirit of team work in promoting health in all population groups;
develop the skill and ability required to train other medical personnel in the subject areas of public health

Role in Promoting Community Health

The department has strengthened her relationship with some Non Governmental Organizations. Since 2009, the department provides technical support to PRAWA (Prisoners Rehabilitation and Welfare Action – and NGO owned by Barr. Uju Agomoh). The department drafted a curriculum on torture documentation and reporting for inclusion in medical undergraduate curricula. German Leprosy Relief Association has also increased her collaboration with the department in management of tuberculosis and leprosy. The assistance is in form of technical support and funding research targeted towards control of these two diseases. During the Junior posting medical students are transported to Mile 4 hospital where leprosy and tuberculosis patients are treated. This activity is sponsored by GLRA.

The department has cordial relationship with governmental organizations. Enugu State Ministry of Health, Enugu State Waste Management Agency (ENSWAMA), Enugu East LGA and Ministry of Works have all assisted in training our resident doctors. The medical students and resident doctors go to these organizations during their posting. The department is also primarily responsible for the South Eastern part of Nigeria, hence they run Comprehensive Health Center in Obukpa (Enugu State), Comprehensive Health Center Isuochi (Abia State) and Comprehensive Health Center Abagana (Anambra State). Resident doctors are posted to these centers for at least one month. They reside in these centers and provide health services during the posting. Medical students spend 4 weeks in Obukpa CHC for their rural posting under the supervision of 2 residents and a Consultant.

Introduction

Department of Medical Biochemistry is one of the academic departments in the Faculty of Basic Medical Sciences, College of Medicine, University of Nigeria, Enugu Campus. It is an academic unit of the College, offering courses leading to the Second Professional Examinations in the Medical and Dental Programmes (MB,BS and BDS) of the College of Medicine. The Department also offers service courses to all the Departments in the Faculty of Health Sciences and Technology. The Department, at the Post-Graduate level, offers courses leading to the award of M.Sc. and Ph.D. of the University of Nigeria. It also conducts academic research in the areas of Medical Biochemistry.

History of the Department

The Department of Medical Biochemistry started in 1978 as one of the foundation Departments of the College of Medicine of the University of Nigeria, established under statute No. 2 of the University act of 1978, with approval of both the National Universities Commission and the president of the Federal Republic of Nigeria. The Department

has however grown from the service department commissioned at inception to teach undergraduate medical and dental students, to a research-based department.

Philosophy

The philosophy of the Department is to lead the search for the molecular Basis of diseases and ultimately be positioned as one of the foremost Medical Biochemistry Department globally, judging from her products and services.

Scope

The Department offers courses that cover the core areas of Medical Biochemistry including Introductory Biochemistry, Chemistry of Biomolecules, Biochemical Catalysis, Bioenergetics and Biological Oxidation; Metabolism of Biomolecules; In-Born Errors of Metabolism; Nutritional Biochemistry, Special Topics in Medical Biochemistry and Practical Biochemistry.

Objectives

The Programme is designed to:

- i. Train Medical Doctors who will assist in the provision of health care at different levels, for the people of Nigeria and beyond.
- ii. Produce Medical graduates who will serve as research fellows in Medical research institutions.
- iii. Produce graduates who will effectively operate their own private clinics and hospitals.

Job Opportunities

On successful completion of Housemanship, the graduates would be able to serve as Medical doctors, research fellows, private medical practitioners and lecturers.

Courses

Stress Areas

Chemistry of Biological Molecules	1
Enzymes, Bioenergetics and Biological Oxidation	2
Metabolism	3
Nutritional Biochemistry	4
Special Topics in Biochemistry	5
Practical Biochemistry	6

N.O. Achukwu, BMLS (Abakaliki), AMLSCN(MLSCN)	Med Lab Scientist I
E.I. Okoye, HND, PGD, M.SC. (Nigeria)	Assist. Chief Exec. Officer (Secretary)

Brief History

Department of Medical Microbiology was founded as a component of Faculty of Medicine of the Medical School, UNEC. The Faculty was established in 1967. The department is a major part of the division of Pathology Sciences of the present Faculty of Medical Sciences & Dentistry.

During this founding period, there were notable laboratory scientists and technicians who were involved in the building of the department. The Department of Medical Microbiology is involved primarily in teaching, research and laboratory diagnosis. The Department teaches 3rd MB,BS Medical students in Medical Microbiology. However, the lecturers are also involved in teaching and supervising students from the School of Medical Laboratory Sciences UNTH, B.Sc. Medical Lab Sciences FHST and Medical Students in Community Medicine.

The Department is also involved in routine diagnosis of specimens from different wards and clinics in UNTH. From 1990 about 1,000,000 specimens are processed and examined by the department annually. Over the years, the academic staff of the department has carried out research work in many areas of Medicine and has been involved in both local and international seminars, conferences and workshops.

The impact of the fire incident of November 3, 2003 was severe on both teaching, research and laboratory services, as it destroyed all research and teaching facilities, office equipment and records. The services and equipment have largely been restored but the pathology building in Ituku-Ozalla is still awaiting completion.

Philosophy

The philosophy of the programme is to equip the students with basic knowledge in the diagnosis and prognosis of microbial infections through excellent and detailed teaching and research in the different components of medical

microbiology including bacteriology, virology, mycology, helminthology and serology as well as microbial genetics. This gives the students both theoretical and practical knowledge.

Objectives

By the end of the entire medical microbiology course, students should be able to demonstrate knowledge of the theoretical principles of Medical Microbiology. They should be able to perform side-room laboratory medical microbiology tests and interpret laboratory results in relation to patient's clinical conditions as well as manage the everyday pathogenic infections common in the community and elsewhere.

The pharmacology of antimicrobial drugs commonly used in the treatment of pathogenic infections should have been familiar enough to the student by the end of the course. Students should have been adequately sensitized in the discipline enough to pass undergraduate medical microbiology examinations, apply the knowledge in practice and lay foundation for those who may wish to pursue medical microbiology at postgraduate level.

Procedure

Courses in medical microbiology are given along with courses in the other pathological science disciplines during the first and second clinical years. Instruction is by lectures, tutorials and by practical sessions, demonstrated or undertaken by students themselves.

The clinical applications are further mastered in the wards and clinics as integrated sessions or clinic-pathological conferences or seminars.

It is hoped that the college curriculum would accommodate participation of students during medical microbiology ward teaching and business rounds as well as sexually transmitted infections/ medical microbiology infectious disease clinics.

Department of Medicine

The Department of Medicine is one of the departments in the Faculty of Medical Sciences, College of Medicine, University of Nigeria. The College of Medicine is affiliated to the University of Nigeria Teaching Hospital (UNTH), Ituku-Ozalla, Enugu. It was one of the pioneer departments, which started in 1967 and has rapidly grown from academic staff strength of seven to its current staff strength of twenty-eight.

Brief History

The Faculty of Medicine, University of Nigeria was established in 1967. After the Nigerian civil war, the University of Nigeria Medical School took off effectively in October 1970 with many departments, including the Department of Medicine. The Department of Medicine at the time included Paediatrics, Radiology, Community Medicine and Psychiatry. The Pioneer Head of Department was Dr C Nwokolo (Associate Professor). The Department had a total of 7 pioneer academic staff. Paediatrics, Radiology, Community Medicine and Psychiatry have since gained autonomy.

It has grown from a department of seven foundation lecturers and 21 students in 1967 to its present status with an academic staff population of 28 and student population of 600 at different levels of their of their trainings. The Department produces on the average 150 doctors yearly. These young graduates are equipped with knowledge, skills and competences to serve in the Nigeria Health system and to fit into other countries health systems as global physicians. The Department has many research projects to its name and research publications.

Currently the Department is organized in subspecialty units. – Cardiology, Endocrinology/ Metabolism, Nephrology, Neurology, Respiratory medicine, Gastroenterology, Pharmacology/ Therapeutics, Dermatology/Venereology, Infectious Diseases and Rheumatology. Clinical clerkship in the department of medicine takes place at 400, 500 and 600 levels.

Departmental Philosophy (For Undergraduate Medical Education)

The philosophy of the Department is to produce medical graduate who possess global standards of the attitude, skills and knowledge of general specialty medicine required for general clinical practice and for further specialist professional and/or academic training.

Courses

Curriculum and Course Codes

Fourth Year

Medicine I

First Semester

MED 411	Introduction to clinical medicine, medical ethics. Introduction to he disorders of the nervous system, cardiovascular system, respiratory System, endocrine system, renals, clinical signs, symptoms and investigations	1.5
---------	---	-----

Second Semester

MED 412	Introduction to clinical infectious diseases, therapeutics, skin disorders and Rheumatological disorders	1.5
---------	--	-----

Fifth Year

Medicine 2

First Semester

MED 511	Common disorders of the nervous system, cardiovascular system, respiratory system, gastrointestinal tract, liver disorders. Physical examination of all systems	1.5
---------	---	-----

Dermatology

MED 513	Examination of the skin, common skin disorders	1
---------	--	---

Second Semester

Medicine 2

MED 512	Common infectious diseases, endocrine disorders, renal diseases, rheumatological diseases	1.5
---------	---	-----

Dermatology

MED 521	Common disorders of the skin, investigations and treatment	
---------	--	--

Sixth Year

Medicine 3

First Semester

MED 611	Common disorders of the nervous system, cardiovascular system, respiratory system, gastrointestinal tract, liver disorders, endocrine disorders and renal diseases Investigations and treatment of disorders of various diseases. Common medical Emergencies	1.5
---------	--	-----

MED 612	Management of common disorders of the nervous system, cardiovascular system, kidneys, GIT, Respiratory, endocrine tests, medical biopsies. Performance and Interpretation of Diagnostic test, ECG, EEG, Endoscopy, spirometry, Echocardiography	1.5
---------	---	-----

Department of Morbid Anatomy

Staff

M.A. Nzegwu, MBBS, FMC PATH, FNC	Professor/Head
O.C. Okafor, MBBS, FMCP	Senior Lecturer
D.B. Olusina, MBBS, FWCP, FWACP	Senior Lecturer
C.C. Eluke, MBBS, FWACP	Lecturer I
E.F. Nnakenyi, MBBS, FMC PATH	Senior Lecturer
F.I. Ukekwe, MBBS, FMC PATH	Lecturer I

Department of Obstetrics and Gynaecology

Staff

B.C. Ozumba, MB.BS (Lagos), FMCOG (NPGMC), FICS (USA), MRCOG (London), FWACS (WACS), FRCOG (England)	Professor
S.N. Obi, MBBS (Nigeria), FWACS (WACS), FICS (USA)	Professor/Head
H.E. Onah, MB.BS, M. Pharm (Nigeria), FWACS (WACS), FMCOG (NPGMCN), MPA (Nigeria)	Professor
U.U. Aniebue, MBBS (Nigeria), FWACS (WACS)	Professor
H.U. Ezegwui, MBBS (Nigeria), FWACS (WACS)	Professor
U.I. Nwagha, MBBS, M.Sc. (Nigeria), FWACS (WACS), FICS (USA)	Professor
O.A. Okezie, MB,BS (Lagos) FWACS (WACS), FICS (USA)	Professor
C.C. Dim, MBBS (Nigeria), M.Sc.(Uli), FWACS (WACS), FMCOG (NPCS)	Professor
I.V. Ezeome, MBBS (Nigeria), FWACS (WACS)	Senior Lecturer
P.O. Nkwo, MBBS (Maiduguri), M.Sc. (Uturu), M.Sc. (London), FWACS (WACS)	Senior Lecturer

C.A. Iyoke, MBBS, MPH (Nigeria), FWACS (WACS)	Senior Lecturer
E.E. Asimadu, MBBS (Nigeria), FMCOG (NPGMC), FWACS (WACS)	Senior Lecturer
E.C. Ezugwu, MBBS (Jos), FWACS (WACS)	Senior Lecturer
P.U. Agu, MBBS (Calabar), FWACS (WACS), FICS (USA)	Senior Lecturer
T.C. Okeke, MBBS (Maiduguri), FWACS (WACS)	Senior Lecturer
C.A. Adiri, MB,BS (Nigeria), FWACS (WACS)	Senior Lecturer
E.O.V. Ugwu, MBBS (Nigeria), FWACS (WACS), FMCOG (NPGMC), MPH (Nigeria)	Senior Lecturer
E.K. Ekwuazi, MB,BS (Port Harcourt), FWACS (WACS)	Senior Lecturer
C.O. Chigbu, MB,BS (Port Harcourt), M.Sc. (Salford), FWACS (WACS)	Senior Lecturer
E.P. Ezenkwele, MB,BS (Nigeria), DTM & H (RCP, London), FWACS (WACS), NFPMMC, FCP (USA)	Senior Lecturer
G.O. Ugwu, MBBS, MPH (Nigeria), FMCOG (NPGMC), FWACS (WACS)	Senior Lecturer
U.A. Umeh, B.Sc. MBBS (Nigeria), FWACS (WACS)	Senior Lecturer
L.O. Ajah, MBBS (Awka), MPH (Nigeria), FWACS (WACS), FMCOG (NPGMC)	Senior Lecturer
A.C. Adikwu-Brown, MBBS (Nigeria), FWACS (WACS), FMCOG (PGMC)	Lecturer I
E.O. IZUKA, MBBS (NIGERIA), FMCOG (NPGMC)	Lecturer I
P.C. Udealor, MBBS (Nigeria), FWACS (WACS)	Lecturer I
C.I. Onwuka, MBBS (Ibadan), FWACS (WACS), FMCOG (NPGMC)	Lecturer I
I.E.C. Menuba, MBBS (Nigeria), FWACS (WACS)	Lecturer I
N.J. Egbonnaji, B.Sc. (Enugu), M.Sc. (Nigeria)	Chief Lab. Technologist
C.G. Chime, HND	Chief Typist/Acting Secretary

History

The Department of Obstetrics & Gynecology was founded after the civil war in 1970 to cater for the welfare of women mainly in the South Eastern part of the country who needed dire health care. Following the untold ravages brought about by the civil war, it was thought necessary to provide a department for the teaching and training of medical students and resident doctors. The need for a Teaching Hospital in the South Eastern part of the country was heightened by the high morbidity and mortality brought about by diseases and lack of medical care as fallout of the war in women and children in this part of the country.

Programme

The philosophy of the programme is to equip the students and residents to recognize the principle and practice of Gynaecology and explain the patho-physiological basics and applied anatomy of pregnancy, labour and puerperium. At the end of the course, students should be able to obtain relevant history and carry out clinical examination of Gynaecological and Obstetrical cases, reach a working diagnosis, order relevant investigations and propose a management protocol for the patient. The resident doctors are taught to acquire the knowledge and skill to become specialists on their own merit. Research is also done to increase knowledge and improve the care of women.

Courses

CODE	TITLE	UNITS
OBG 401	Introductory Gynaecology	2
OBG 501	Reproductive Physiology	2
OBG 502	Labour, Puerperium & the Neonate	3
OBG 402	Gynaecology Clinic	3
OBG 503	Obstetrics Clinic	3
OBG 504	Special Topics – OBG	2
OBG 505	Special Clinics – OBG	2

C.C. Amah, MBBS (Nigeria), FWACS	Senior Lecturer
U.O. Ezomike, MBBS (Nigeria), FWACS	Senior Lecturer
C.C. Eze,	Principal Executive Officer I

Brief History

The Sub-Department of Paediatric Surgery was fashioned out of the parent Department of Surgery in 1976. At that period, Paediatric Surgery was an emerging, peculiar and rapidly growing specialty of Surgery and required specially trained personnel to teach the undergraduate medical students and train resident doctors.

Philosophy and Objective

The Philosophy of the Sub-Department of Paediatric Surgery, Faculty of Medical Sciences, is “To strive for excellence in Paediatric Surgical Education and Research, and to continue to offer the best available solution to surgical problems among children in our country and sub-region”. The department would like to be of international standard in academics, clinical practice and research in Paediatric surgery, and to be a pacesetter and centre of excellence in paediatric surgery in Africa.

The Objective of the department is to teach, research and provide clinical services in paediatric surgery and related sciences all in an effort to restore the dignity of man.

Admission Requirements: As in Faculty of Medical Sciences

Programme/Sub-Discipline/Discipline structure to include period of formal studies in the Universities, industrial Training, Planned visit and projects

Six-year programme comprising of three years of Basic sciences and three-Years of Clinical sciences. Paediatric Surgery training is part of the overall surgical training from the 3rd year after passing the 2nd MBBS exams and also spending 3 months of block posting in introductory pathology and Pharmacology. Their Clinical rotations and lectures take place as block postings lasting 6 – 8 weeks. There are altogether 4 clinical postings as follows:

Surgery 1: 8 weeks – (2nd Semester 3rd year) – Surgery in general with emphasis on history taking and clerking of Paediatric Surgical patients.

Surgery 2: 8 weeks – (1st Semester 5th year) – Surgery in general emphasizing physical examination and investigation of the Paediatric Surgical patient.

Surgery 3: 6 weeks (1st Semester 6th year) – Core posting in Paediatric surgery

Surgery 4: 6 weeks – (2nd Semester 6th year) – Special topics in Paediatric surgery.

During each Paediatric Surgical posting, students have didactic lectures early in the morning and then participate in clinical activities in the hospital. Most teachings are done in the clinics, operating theatres and bedside in the ward. Students clerk patients, make diagnosis and outline their plan for investigation and treatment. They are taught clinical skills and bedside manners. Students’ participation in these programmes is ensured by the use of log books which must be completed and signed before they are allowed to take the final surgery examination. Recently, to ensure a minimum level of clinical competence, a procedure book has been introduced to specify the minimum number of each procedure each student must be exposed to.

Course Content Specifications/syllabus of all courses in the programme/sub-Discipline

SURG 302: Introductory Lectures in Paediatric Surgery

SURG 402: Principles of Surgery

SURG 452: Topics in Paediatric Surgery

SURG 651: Further topics in Paediatric Surgery

Faculty Information for M.B., B.S. Programme

The Faculty of Medical Sciences and Dentistry offers a six year academic programme towards the M.B., B.S. Professional degree for students admitted by entrance (JME) examination, 5-year programme for students admitted by direct entry. The constituent Departments of the Faculty offer the courses leading to this single professional degree.

Philosophy, Scope and Objectives of the Programme

The objective of the M.B., B.S. degree programme is to prepare students for a career in all spheres of Medicine - academic, research, general and specialist patient care, and administration. As a result, the programme aims at providing the students with a broad and sound scientific and professional foundation for the practice of medicine in any part of Nigeria or the world. The scope and content of the programme is such that the medical graduates should be competent to either practice on their own in any part of Nigeria, urban and rural, or undertake postgraduate training in local or foreign institutions. They should be conversant with standard clinical methods for the assessment of patients, be able to analyse all available data and use them to constitute an appropriate plan of action.

Admission Requirement

Candidates are admitted into the Faculty for the M.B., B.S. programme either through the entrance mode (JME) or as direct entry students for a 6-year or 5-year programme, respectively. In addition to the University minimum entry requirements, the entrance candidates are expected to have credit passes in English Language, Physics, Chemistry, Biology and Mathematics in the Senior Secondary School final examinations or the School Certificate (SC)/General Certificate of Education (GCE) at Ordinary level in one sitting. Direct entry candidates, in addition to satisfying the above requirements, should have three (3) Advanced Level passes in Physics, Chemistry and Biology/ Zoology, in one sitting.

Job Opportunity

Successful graduates of the M.B., B.S. degree programme are well equipped (after housemanship) for careers in Government hospitals, private practice, teaching and research in Universities or Research Institutes and Administration. They are also qualified for post-graduate training anywhere in the world.

Surgical Separation of Siamese Twins

No birth defects have stirred the minds of people with such intensity and amazement as the birth of conjoined twins (Siamese twins). Most conjoined twins are still born, products of miscarriages, or victims of traditional rituals. The apparent incidence is recorded as 1 per 50,000 to 60,000 births. As of date 400 conjoined twins have either still joined or surgically separated in the entire world. Within the period, 1987 to 1991, a team of surgeons, anaesthetists, and nurses at the University of Nigeria Teaching Hospital embarked on the surgical separation of 3 different sets of conjoined twins namely - Pygopagus (joined by the buttocks), Craniopagus (joined by the head) and Ischiopagus (joined by the pelvis).

The Pygopagus twins was amongst a set of female triplets born (16 November, 1987) by spontaneous vaginal delivery. This birth procedure is outrightly condemned as it is engraved with high mortality for both mother and offspring. Delivery of all conjoined twins must be made by planned elective Caesarian section. Pre-natal diagnosis must be made by means of ultrasound scan, Radiology and other available investigations. At the age of 51 days, the conjoined pair were surgically separated (on 8 January, 1988). The babies (all three) are now about 13 years. The surgical success stems from adequate pre-operative study of the union and shared organs; efficient operative and post-operative management.

The Craniopagus pair (born on 9 March 1989) were surgically separated and reconstructed on 6 June, 1989 but the babies died shortly after surgery. This was a total vertical Craniopagus with an extensive fronto-parieto-occipito-temporal union. They shared an abnormal circumferential and cerebral sinus for which the surgical world has not recorded a success.

The Ischiopagus conjoined twins (born on 28 January, 1990) lived together for about one year before surgery (on 7 January, 1991). One baby died 6 hours and the other 5 weeks after surgery. In addition to other organs, they shared a single liver, pericardium and abdominal aorta. The unavailability of parental nutrition reduced their chances of survival.

Courses

First Year

First Semester

BIO 101	Genetics for Medical Students	2
BIO 151	General Biology 1	3

General Information and Academic Programme (Faculty)

Objective

The programme leads to degree of Bachelor of Pharmacy (B. Pharm.). The courses are designed to give the students a good grounding in the main disciplines of Pharmacy including Pharmaceutics, Pharmaceutical Technology, Pharmaceutical and Medicinal Chemistry, Pharmacognosy and Environmental Medicines, Pharmaceutical Microbiology, Pharmacy Management, Pharmacology and Toxicology, Clinical Pharmacy and Forensic Pharmacy. Graduates are expected to be well equipped for professional practice, subject to the regulations of the Pharmacists Council of Nigeria, and for other scientific pursuits in allied fields.

Philosophy and Scope

The purpose of the programme is to offer the student an all-embracing education and hence produce a person not just specialized in Pharmacy education but also having a general knowledge in most areas. With this as a basis, the Faculty programme additionally prepares the students of every facet of practice. This is all centred on a deep sense and respect for human life.

Entry Requirements

Five Year Programme

Candidates seeking admission to a five-year programme by entrance examination are Required to possess credit in English Language, Chemistry, Mathematics, Physics and Biology in the West African School Certificate or its equivalent, in addition to the minimum University requirement prior to admission.

Four Year Programme

Direct entry students seeking admission to the four-year programme must have a pass in Chemistry, Physics plus Biology or Botany or Zoology at the Higher School Certificate (Principal Level) with credit in English and Mathematics in the West African School Certificate examination or its equivalent. The passes at the Advanced level should have been obtained at not more than two sittings. First degree and Higher National Diploma (HND) in related subjects may be accepted.

Job Opportunities

Candidates normally have career prospects in various branches of the Pharmacy profession, namely, Hospital, Wholesale and Retail Pharmacy practice, Pharmaceutical Industry, Teaching and Government service.

Brief History

The Department started in 175 as a sub department under the Faculty of Physical Sciences, with the following combined honours degrees: B.Sc. in Computer Science and Mathematics, B.Sc. in Computer Science and Physics, B.Sc. in Computer Science and Statistics. In 181, she assumed the status of a full department and started the single honours degree in Computer Science, in addition to the three combined programmes listed above. The department received full NUC Accreditation in 2001 and 2014 and currently holds a linkage programme with TU DELFT in 2007. In 2003, the department started an affiliation of its postgraduate programme with the Digital Bridge Institute, Abuja.

Philosophy

The vision statement of the Department is to provide the enabling environment for the effective and efficient evolution of highly motivated staff and students with strong determination and impetus to compete globally, and in consonance with the mission statement of the University, the Department is determined to advance the frontiers of research and academia in the perspective of information technology, by the development of internationally competitive manpower. In keeping faith with the vision and mission of the Department, the academic and research programmes in Computer Science are structured to enable the students to develop the requisite potential and capacity for dependable professionalism in industry and academia.

Scope

The Department of Computer Science offers the following four-year Degree programmes.

- i. B.Sc. (Hons.) in Computer Science
- ii. B.Sc. Combined (Hons.) in Computer Science and Statistics
This is a multi-disciplinary programme, where the students combine courses from the Department of Computer Science and the Department of Statistics.
- iii. B.Sc. Combined (Hons.) in Computer Science and Mathematics
This is a multi-disciplinary programme, where the students combine courses from the Department of Computer Science and the Department of Mathematics.
- iv. B.Sc. Combined (Hons.) in Computer Science and Physics

This is a multi-disciplinary programme, where the students combine courses from the Department of Computer Science and the Department of Physics.

In each of the above Degree programme, students are expected to participate in the six months Students' Industrial Work Experience Scheme. At the end of the industrial training, they are expected to present seminar on the industrial training.

The department also offers the following service courses to other faculties in the university.

- COS101, Introduction to Computer Science for other faculties.
- COS304, Computer Applications

Objectives

1. To teach the core areas of Computer Science and its application to the development of modern computing and digital communication (including internet based systems).
2. To provide students with a wide range of skills that will be needed for the analysis, design and implementation of a piece of computer hardware and software.
3. To train students who will be employed in the various organization or self-employed.
4. To promote and encourage active research in the area of Computer Science and allied discipline.

Entry Requirements

University Tertiary Matriculation Examination (UTME)

In addition to the minimum University entry requirements, candidates must possess at least, Credit in English Language, Mathematics, Physics and any two subjects from Chemistry, Biology, Further Mathematics, and Statistics at the WASSCE, SSCE, GCE or equivalent examinations in at most *two* sittings.

Direct Entry (DE)

Direct entry candidates also do four years. But direct entry candidate who possesses the Diploma in Computer and Basic Physical Sciences or Diploma in Statistics and Computer Application from our Faculty may be considered on individual merit, for a waiver of some courses.

Job Opportunities:

Graduates of the department can be employed as Programmers, System Analysts and Designers, Software Developers, Information System Managers, Computer Network Administrators and Managers in Ministries (State/Federal) and any private organizations. They can also be employed as teachers and researchers at tertiary institutions.

B.Sc. (Hons), Computer Science

I.A. Okonkwo, B.Sc., M.Sc. (Nigeria)	Lecturer II
I. C. Okwara, B.Sc. (Nigeria), M.Sc. (London)	Lecturer II
C. G. Okeugo, B.Sc., M.Sc., Ph.D. (Nigeria)	Lecturer II
C. Dim, B.Sc., M.Sc. (Nigeria)	Assistant Lecturer
C.U. Ibe, B.Sc. (Nigeria)	Graduate Assistant
E.P. Ihemelandu, B.Sc. (Nigeria)	Graduate Assistant
O. C. Uwakwe, B.Sc. (Nigeria)	Graduate Assistant

General Information

The Department of Geology was established in 1961, a session after the establishment of the University of Nigeria. The Department offers a 5-year Bachelor of Science (B.Sc.) degree programme in Geology and a combined degree programme in Geology and Physics. At the inception, the number of undergraduate students was 7. Presently, the enrolment of students has risen to 261. The Department also runs post graduate programmes in various fields of Geology. The Department is a centre of excellence in University education and research.

The department has been obtaining assistance from government and industry in efforts to upgrading its teaching and research facilities in the form of providing field vehicles, microscopes, field equipment and laboratories, as well as buildings.

Philosophy

The programme is designed to train geoscientists who will use the knowledge they acquire to solve artificial and natural problems as they work in the industry and government establishments such as Geological Surveys, Mineral Exploration Companies, Oil Companies, Engineering Construction, Water Resources Ministries/Companies, Coal Cooperation, Marine Research Institutes, Waste and General Environmental Management Establishments, etc.

Objectives

The main objective of the programme is to produce competent geoscientists who are versatile in various areas of specialization in Geology, especially general geologic mapping and map production/ interpretation, mineral/rock identification and description, as well as the following:

- a) Seismic data acquisition and interpretation;
- b) Wireline log interpretation and Petrophysical analyses;
- c) Core analysis and Interpretation;
- d) Sedimentologic-Sequence Stratigraphic analysis;
- d) Geochemical and Biostratigraphic analysis;
- e) Exploration prospects and evaluation;
- f) Reservoir Exploration, appraisal and development;
- g) Technical and Economics of Petroleum Geosciences;
- h) Mineral Exploitation and Reserve Calculation;
- i) Reserve quality assessment;
- j) Mineral processing and Beneficiation techniques;
- k) Environmental Analyses;
- l) Feasibility studies of different construction projects;
- m) Erosion/gully assessment and control measure;
- n) Environmental impact assessment procedures;
- o) Waste management and Land use designs;
- p) Water resources evaluation and design of optimal exploitation strategies;

Admission Requirements:

Candidates are admitted into the Department of Geology either through the entrance mode (U.M.E.) or by direct entry, for a five year, and a four year program respectively. In addition to the University minimum entry requirement, the UME candidates are required to have credit passes in Mathematics and English Language and also credit passes in the following: Physics, Chemistry and Biology, obtained at the Senior School Certificate Examination (SSCE)/National Examination Council (NECO)/General Certificate of Education, Ordinary level.

Direct entry candidates, in addition to satisfying the above requirements should have G.C.E. Advanced Level passes in Mathematics, Physics and Chemistry, or Higher School Certificate (H.S.C.) in Geology and any two of the following: Mathematics, Physics, Chemistry, Biology, and Geography.

Duration of Degree Programme

For UTME candidates, a maximum period of eight years is allowed for the completion of the programme for the award of B.Sc. (in Geology or Geology/Physics). The maximum period of stay for DE candidates is six years. (All are according to the University of Nigeria Undergraduate Academic Regulations). A student is considered overstayed after spending eight years for the five-year programme, or six years for the four-year programme

Change of Degree Programme

The Department releases students who wish to change to other departments in the University according to the procedure outlined in the University of Nigeria Undergraduate Academic Regulations. However, the Department does not accept transfer students.

Professional Associations

Graduates of the Department of Geology are qualified to register as members of the Nigerian Mining and Geosciences Society (NMGS), which is an umbrella body of many specialized associations which graduates of the Department may join. Such specialized professional bodies include the Nigerian Association of Hydrogeologists (NAH), the Nigerian Association of Petroleum Explorationists (NAPE), the Society of Petroleum Explorationists (SPE), the Society of Exploration Geophysicists (SEG), among others. All the specialized associations have affiliation with the international associations. Membership of the Nigerian Mining and Geosciences Society (NMGS) is a requirement for registration with the Nigerian Council of Mining Engineers and Geoscientists (COMEG) which qualifies the graduate of the Department for professional practice. Students of the Department of Geology are qualified to register as student members of these professional associations, including the NMGS.

Job Opportunities

Following the design of the programme, graduates of Geology from the University of Nigeria, Nsukka are well equipped to work in the industry and government establishments such as Geological Surveys, Mineral Exploration Companies, Oil Companies, Engineering Construction, Water Resources Ministries/Corporation/ Companies, Federal/State Ministries of Works, Power and Housing, Coal Cooperation, Marine Research Institutes /Oceanography, Water and General Environmental Management Establishments, Tourism industries and institutions.

Scope

Our curriculum and research require a minimum of 179 units for a B.Sc. honours degree in Geology or 190 units for a B.Sc. Honours degree in Combined Geology and Physics programme. The programmes are generally focused on several aspects of the interactions of the atmosphere, hydrosphere, biosphere and solid earth and their by-products thus preparing the student for industrial and/ or self-employment.

Prerequisite Courses

There are many prerequisite courses in the department as shown in table (1) below. Students are advised to pay special attention to prerequisite courses to avoid registering unqualified courses. In event of disqualification from taking such registered prerequisite courses during examination, a Fail grade will be recorded in the course(s) without any grade returned for it during result computation. Outsmarting Academic Adviser by covering up these unqualified courses during course registration and making him/her sign such course form will often result in recording of a failed grade in any such course(s) registered without a returned from them.

In each new semester, always register all failed courses you had in the previous semester(s) first before adding the new courses in the semester.

Services Courses

With the consent of the department, students from outside the department may take the following service courses.

Stress Areas

Service Courses	0
Petrology, Mineralogy, Crystallography and Geochemistry	1
Structural Geology, Geomorphology, Aerogeology and Remote Sensing	2
Geology of Nigeria, Africa, Sedimentology and Stratigraphy	3
Paleo-biology, Biostratigraphy, Micropaleontology and Palynology	4
Field Geology	5
Economic Geology, Marine Geology, Mineral Resources and Environmental Geology	6
Geophysics, Petroleum Geology, Petrophysics, Tectonophysics	7
Engineering Geology, Hydrogeology	8
Project/Seminar	9

First Semester

GLG 101	Basic and applied Geology for Agricultural and Biological Sciences	3
GLG 103	Basic and Applied geology for Physical Sciences and Social Sciences	3
GLG 105	Basic and Applied Geology for Engineering	3

General Information

The department offers a B.Sc. degree programme in Mathematics, which is of a three—or four-year duration, depending on whether the student is admitted by direct entry or by the JAMB Matriculation Examination. Also, in collaboration with other departments, the department offers a B.Sc. degree programme in such combined disciplines as Mathematics/Computer Science and Mathematics/ Economics.

Philosophy, Objectives and Scope

The aim of the Department is to offer programmes designed to impart a sound knowledge of all branches of Mathematics to students. Courses are offered in all the **core** areas of Mathematics as well as in applicable Mathematics. The programmes help students to develop the necessary skills, intellectual, mental and moral training for a career in Mathematics and other related field.

The Department is inclined to producing B.Sc. degree holders that can compete favourably with any other B.Sc. Degree holder in Mathematics from any part of the Globe, and can pursue higher degrees in Mathematical Sciences anywhere in the World. Recently many innovations have been made in the programme to accommodate the fast growing demands in information technology, banking and oil industries.

As the “mother” and “language” of all sciences, the Department aims at adequately servicing the faculties of Engineering, Physical Sciences, Pharmaceutical sciences, Medicals Sciences, Environmental Studies, Business Administration etc. Since the current trend in technology, engineering and life sciences emphasizes actual quantification, the programme of our department embraces application in all these areas of human endeavour.

Recognizing the role of mathematics as a basic tool in the physical and engineering sciences, and the current developments in the social and life sciences which have now become increasingly quantitative, the mathematics undergraduate academic programme emphasizes the applications of theory and methods to real life and physical problems. It helps the student to establish an expertise in Mathematics, Mathematical Physics, or Industrial Mathematics. It also prepares him for graduate study in the mathematical sciences.

Entry Requirements

These are the University’s minimum requirements; and

(a) UME: Credits at the Senior Secondary Certificate Examination or equivalent, in Mathematics, and Physics or Chemistry or Biology.

(b) DE: Either a pass in Pure Mathematics and in Applied Mathematics at the General Certificate of Education A’Level or equivalent, or a pass at the same level in Pure Mathematics taken as one paper), and a pass at the same level in physics or Chemistry or Biology or Statistics.

Job Opportunities

On completion of the programme, a graduate has job opportunities in industry, government or educational institutions.

Stress Areas

Each course in the department is designated by the three letters, MTH, followed by a three-digit number. The first digit indicates the year, the second digit indicates the stress area, as listed below, and the third digit gives the order of the courses.

Stress Areas

Service Courses	0
Pure Mathematics (Algebra, Geometry)	1
Pure Mathematics (Calculus, Analysis, Differential Equations)	2
Applied Mathematics (Theoretical and Applied Mechanics, and Mathematical Physics)	3

------	-------	-------

Major Courses

MTH 428	Partial Differential Equations	3
MTH 424	General Topology	3
MTH 452	Project	4

Elective Courses

Any 6-7 units from the following:

MTH 412	Abstract Algebra III	3
MTH 432	General Theory of Relativity	3
MTH 438	Electromagnetism	3
MTH 436	Fluid Dynamics	3
MTH 444	Numerical Analysis II	3
MTH 434	Elasticity	3

16/17

Three Year Standard Programme

The three year-standard programme is the same as the four-year standard programme excluding the first year. However, the direct entry students are required to take GSP 101, GSP 102, GSP 207 and GSP 208 during their first year.

Service Courses Intended for Specified Departments/Faculties

First Semester

MTH 201	Advanced Mathematics I	3
(Primarily intended for the students of Accountancy and Management)		3
MTH 203	Advanced Mathematics III	3
(Primarily intended for Surveying Students)		
MTH 205	Advanced Mathematics V	2
MTH 207	Advanced Mathematics VII	2
(Primarily intended for Engineering students)		

Second Semester

MTH 200	Advanced Mathematics II (Primarily intended for Accountancy and Management Students)	3
MTH 202	Advanced Mathematics IV (Primarily intended for Surveying Students)	3
MTH 204	Advanced Mathematics V	3
MTH 206	Advanced Mathematics VI	2
MTH 208	Advanced Mathematics VIII (Primarily intended for Engineering Students)	2

Department of Physics and Astronomy

Staff

A.A. Ubachukwu, B.Sc., M.Sc., Ph.D. (Nigeria)	Professor
F.N. Okeke, B.Sc., M.Sc., Med, PGDE (Nigeria)	Professor
C.M.I. Okoye, B.Sc., M.Sc., Ph.D. (Nigeria)	Professor
R.U. Osuji, B.Sc., M.Sc., Ph.D. (Nigeria)	Professor
J.O. Urama, B.Sc., M.Sc., Ph.D. (Nigeria)	Professor
A.E. Chukwude, B.Sc., M.Sc., Ph.D. (Nigeria)	Professor
A.B.C. Ekwealor, B.Sc., M.Sc., Ph.D. (Nigeria)	Professor
R.N.C. Eze, B.Sc., M.Sc., Ph.D. (Nigeria)	Professor
P.E. Ugwoke, B.Sc., M.Sc., Ph.D. (Nigeria)	Professor
B.A. Ezekoye, B.Sc., M.Sc., Ph.D. (Nigeria)	Reader
E.O. Onyeogu, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
J.A. Alhassan, B.Sc. (Benin), M.Sc., Ph.D. (Nigeria)	Senior Lecturer
D.N. Obiora, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
A.N.C. Agbogu, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
K.C. Okpala, B.Sc. (IMSU), M.Sc., Ph.D. (Nigeria)	Senior Lecturer
E.C. Okoro, B.Sc. (IMSU), M.Sc., Ph.D. (Nigeria)	Senior Lecturer
O.J. Ugonabo, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
D.O. Ugbor, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
F.C. Odo, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
W.T. Sivla, B.Sc., M.Sc. (JOS), Ph.D. (Nigeria)	Senior Lecturer
J.O. Chibueze, B.Sc., M.Sc., (Nigeria), Ph.D. (Japan)	Lecturer I
O.S. Aisida, B.Sc. (AAUA), M.Sc., Ph.D. (Ibadan)	Lecturer I
C.C. Onyema, B.Sc. (ABSU), M.Sc. (Leeds)	Lecturer I
T.C. Chibueze, B.Sc., (Nigeria), M.Sc. (Abuja)	Lecture I
T.J. Obodo, B.Sc., (Nigeria), M.Sc.,	Assistant Lecturer
F.N. Onah, B.Sc., M.Sc. (Nigeria)	Assistant Lecturer
M.P. Orji, B.Sc., M.Sc. (Nigeria)	Lecturer II
F.O. Ochai-Ejeh, B.Sc., M.Sc. (Nigeria)	Lecturer II
B.Sc., M.Sc. (Nigeria)	Lecturer II
B.Sc. (Nigeria), DICPT (Italy), M.Sc. (Canada)	Lecturer II
U.K. Chime, B.Sc. (Nigeria), M.Sc. (Edinburg)	Lecturer II
E.A. Igwe, B.Sc., M.Sc. (Nigeria)	Lecturer II
C.D. Umeh, B.Sc. (NAU) M.Sc. (Nigeria)	Lecturer II
N.A. Okwesili, B.Sc., M.Sc. (Nigeria)	Lecturer II
F.E. Onah, B.Sc., (Nigeria), M.Sc. (Abuja)	Assistant Lecturer
J.C. Ibout, B.Sc., M.Sc. (Uyo), Ph.D. Nigeria	Assistant Lecturer
O.K. Yakubu, B.Sc. (Anyogba), M.Sc. (Nigeria)	Assistant Lecturer
A.C. Nwanya, B.Sc., M.Sc., Ph.D. (Nigeria)	Assistant Lecturer
R.S. Lawal, B.Tech. (Minna), M.Sc. (Ibadan)	Assistant Lecturer
P.O. Orji, B.Sc., M.Sc. (Uturu)	Assistant Lecturer
C.I. Eze, B.Sc., (Nigeria)	Graduate Assistant

G.M. White, B.Sc., (Nigeria)

General Information

Physics is a fundamental science. It is essential for all sciences and vital for modern technology. Physics deals with the concepts of space, time and motion, conservation, fields, waves and quanta. The more specialized areas of physics include Astronomy, Computational and Theoretical Physics, Experimental physics, Geophysics, Industrial and Condensed Matter Physics, Medical and Biophysics, Solar Energy Physics among others.

The Department of Physics and Astronomy offers courses in most of the above areas of Physics and the programmes have wide applications in such diverse professions as industry, government, educational institutions, meteorology and aeronautics, metallurgy and mining, and other fields of engineering medicine business and agriculture.

Types of Degree Programmes

The Department of Physics and Astronomy offers the following degree programmes.

(a) B.Sc. (Hons) Degree in Physics

(b) B.Sc. (Hons) Combined degrees in Physics/Mathematics, Physics/ Chemistry, Physics/Computer Sciences, Physics/Geology and Physics/ Education in collaboration with the Departments of Mathematics, Chemistry, Computer Science, Geology and Education respectively.

Philosophy, Objectives and Scope of the Programme

The aim of the Department of Physics is to offer programmes designed to impart a sound knowledge of all branches of physics to the students. Courses are offered in Mechanics and properties of matter, Thermal Physics, Waves, Electromagnetism and Electronics, Atomic and Nuclear Physics, Experimental Physics, etc. The programmes help students to develop the necessary skills, intellectual and mental training for a career as a physicist.

Entry Requirements

Entrance candidates, in addition to the minimum University requirements, must have passed at the West African School Certificate Examination, Senior School Certificate Examination or in an equivalent examination with credits in Physics, Mathematics and in Chemistry.

Direct Entry students, in addition to satisfying the above requirements, must pass the Higher School Certificate Examination or the General Certificate of Education (Advanced Level) in Physics and Mathematics. Students for combined honours must also have a minimum of a pass in the subject they are combining with physics.

Job Opportunities

Successful graduates of the above degree programmes are well equipped for postgraduate studies and teaching in the relevant subject. Their training also prepares them for careers in Government department e.g. Meteorology, Geological Survey, National Standard Organisation, in Industrial Research Establishment e.g. FHRO, PRODA; in Oil Steel and other industries; and in commercial and technical firms needing the services of physicists.

Service Courses

The Department of Physics and Astronomy offers specially service course to many departments in the faculties of Physical Sciences, Biological Sciences, Pharmaceutical Sciences, Medicine, Veterinary medicine, Engineering Environmental Studies, Education and Agriculture. For enrolment in the service course students must have at least a pass in Physics at the G.C.E ordinary level or in an equivalent examination.

PHY 411	Solid State Physics	3
PHY 431	Statistical Physics	2
PHY 462	Nuclear Physics	3
PHY 492	Practical Physics VIII	2
PHY 493	Project	4

Elective Courses

A minimum of 4 Units to match the first semester electives:

(i) Astrophysics

PHY 481	Stellar Structure and Evolution	2
PHY 483	Modern Cosmology	2

(ii) Geophysics

PHY 472	Agronomy	2
PHY 473	Physics of the Earth's Interior	2
(iii) Industrial Physics		
PHY 413	Physical Metallurgy	2
PHY 414	Introduction to Industrial Procession	2
PHY 453	Industrial Electronics	2
(iv) Medical Physics		
PHY 466	Radiation Protection and Dosimetry	2
PHY 463	Medical Nuclear Physics	2
PHY 455	Biophysics II	2
(v) Solar Energy Physics		
PHY 433	Solar Energy III	2
PHY 435	Fossil Energy	2
PHY 437	Nuclear Energy II	2
(vi) Theoretical Physics		
PHY 463	Advanced Quantum Mechanics	2
PHY 465	Introduction to Elementary Practical Phys.	2
PHY 483	Modern Cosmology	3
		<hr/> 18

Three Year Standard Programme

The same as the four year standard programme with first year deleted, except that direct entry students take GSP 101 and GSP 102: Use of English and either GSP 207 and GSP 208: Humanities or GSP 103 and GS104: Social Science.

Service Courses

For enrolment in the service courses, students must have at least a pass in physics at the G.C.E ordinary level or in an equivalent examination.

First Year

First Semester

PHY 101	General Physics for Life Sciences II	2
PHY 104	General Physics for Life Sciences III	2
PHY 191	Practical Physics	2

Second Semester

PHY 102	General Physics for Life Sciences II	2
PHY 103	General Physics for Life Sciences III	2
PHY 105	General Physics for Physical Sciences II	2
PHY 106	General Physics for Physical Sciences III	2

Notes

- The service courses PHY 101, PHY 102, PHY 103 are specially designed for students of the Faculties of Agriculture, Veterinary Medicine, Biological Sciences, Pharmaceutical Sciences and Medicine. (In these course the use of calculus would be kept to a minimum)
- The service courses PHY 104 and PHY 105, are recommended for students of the Faculties of Environmental Sciences and Physical Sciences.
- All Service Course students, except Engineering students are recommended to take PHY 191: Practical Physics I.
- Students of the Faculty of Engineering take PHY 105, PHY 106, PHY 108 and PHY 192: Practical Physics II.

Department of Pure and Industrial Chemistry

V.O. Ibeh, B.Sc. (Benin)	Technologist II

Brief History

The Department of Pure and Industrial Chemistry was established in October 1960 as Department of Chemistry in the then Faculty of Science. In 1976, a degree in Industrial Chemistry was introduced. The University Senate in recognition of the two degree programmes offered by the department approved the change in the name of the department from Chemistry to Pure and Industrial Chemistry from the beginning of the 1984/85 session. In 2001, the department merged the two degree programmes into a degree in Pure and Industrial Chemistry retaining the degree in Combined Physical Sciences.

Philosophy

Chemistry is the index of industrial development. The giant strides made by man in the understanding and exploitation of nature, synthesis of new materials essential to the enhancement of the quality of life, and the surge in and sustenance of economic and technological progress have benefited immensely from Chemistry. It is very important in modern science and technology and essential for the material progress of the world. Chemical products are used in one form or another in practically every industry before eventually emerging as part of our daily lives.

The academic programmes in Chemistry are designed to provide training in the theory and practice of all branches of Chemistry and to stimulate creative thinking and research. They emphasize the importance of a thorough grounding in experimental chemistry and the need to expose the students to operational aspects of chemical industry and to modern analytical tools.

Objectives

1. To give students a good exposure to the theoretical and practical aspects of chemistry.

2. To provide students with a wide range of abilities and skills presented in three broad categories, viz: Cognitive abilities, Practical and General Skills.
3. To train students who will be employable in the industries and who can also be self-employed.
4. To produce graduates who can exploit the abundant natural resources of this country for the benefit of the society.

Scope

During the course of study, students are required to visit centres of chemical industry and write reports. Students are expected to participate in departmental seminars and are required to give their own seminars in the final year. Also in the final year, students are required to carry out research on topics assigned by the department. Pure & Industrial Chemistry students are also required to participate in the Students' Industrial Work Experience Scheme (SIWES) and are attached to chemical industries in Nigeria (as part of their academic programme) at the end of the *First Semester* of fourth year for a period of six months.

The Department of Pure and Industrial Chemistry offers the following five-year degree programmes:

- i. B. Sc. (Hons) degree in Pure and Industrial Chemistry.
- ii. B. Sc. Combined (Hons) degree in Chemistry and any one of the following subjects: Mathematics, Physics, Microbiology, Botany and Zoology.

Entry Requirements

Candidates seeking admission through UTME/DE examinations, in addition to the University requirements, are required to obtain credits in Chemistry, English Language, Physics, Mathematics and Biology or Agricultural Science in the Senior Secondary School Certificate Examination or its equivalent prior to admission.

Direct entry students must have passed Chemistry, Physics and Mathematics in GCE (Advanced Level) HSC (Principal Level) or any other equivalent examination.

Job Opportunities

The successful graduates are equipped for higher studies and careers in teaching, research institutes, chemical laboratories, Ministries of Science and Technology, Education, Agriculture, Health, Industry, Environment and in such diverse industries as vegetable oils, soap and detergents, paints and varnishes, plastics, brewing, pharmaceuticals, sugar, paper and pulp, textiles, fertilizer, cement, ceramics, iron and steel, petroleum, coal, dyestuff, etc. Our graduates are also equipped for self-employment.

J. C. Ezerendu, OND	Technical Officer
E. M. Jinwa, HND	Higher Technical Officer II

Brief History

In 2004, the University of Nigeria Senate ratified the restructuring of the Science Laboratory Technology (SLT) programme. The purpose of this was to enable the programme to award Basic Technology Certificate (BTC), National Diploma (ND), and Higher National Diploma (HND) of the University of Nigeria in Science Laboratory Technology. With this restructuring, graduates of the SLT programme were only required to write the professional qualifying examinations administered by Nigerian Institute of Science Technology.

At its 379th meeting held on Wednesday October 22, 2014, the Senate of University of Nigeria considered and approved the revised curriculum of the Degree Programme in Science Laboratory Technology. In its approval of the curriculum, which was designed to award a Bachelor of Science, B.Sc. (Tech) in five techniques, which include: Biochemistry, Chemistry, Microbiology/Virology, Physics/Electronic and Pharmacology/Physiology, the senate noted the multi-disciplinary nature of the programme. To this effect, the Senate recommended the appointment of a coordinator to oversee the new degree programme in science laboratory technology.

General Information

The Degree Programme in Science Laboratory Technology intends to offer a five- and four-year standard degree programme leading to the award of a Bachelor of Science in Technology (B.Sc.(Tech)) Honours Degree in Science Laboratory Technology.

Philosophy

Science Laboratory Technologists are highly desirable manpower resources for scientific and technological advancements in universities and research institutes. The level of training in analyses and the degree of exposure to instrumentation determine the competence of a technologist. The high level of sophistication already attained by equipment manufactures would require that technologists undergo university education. Graduate of Polytechnics, as considered by the National Board for Technical Education (NBTE) and Federal Ministry of Education, are not trained enough to manage University laboratories. The lack of adequate trained/skilled technologists to keep sophisticated scientific instruments in good operation condition is a serious constraint in equipment usage, proper translation and interpretation of scientific data. This is important because the phasing out of the SLTTS programme in universities has created scarcity of this important category of manpower in the university in particular and the national economic sector in general. On record, about twenty-two universities participated in running the SLT programme which has been stopped all over the country. The products of the SLT programme from polytechnics alone as alternative will not be adequate to cope with the advanced nature of the universities' scientific research and development programmes, particularly as some of the advanced techniques are not offered in the polytechnics.

Objectives

The objectives of this programme are to produce highly trained technologists that will be competent enough to:

- (i) Management of institutional, industrial and research laboratories and workshops to meet the technological needs of Nigeria.
- (ii) Maintenance of stock of laboratory and workshop materials.
- (iii) Operate and maintain modern science-based laboratory and workshop equipments
- (iv) Designing, execution and coordination of science –based experiments and research in laboratories and workshops

Scope

The Science Laboratory Technology programme provides its students with a broad based knowledge of theoretical, technological and practical knowledge in the multi-disciplinary field of Laboratory Technology. The B.Sc. (Tech) curriculum covers a wide range of technical specialties, which include biochemistry techniques, chemistry techniques, microbiology/ virology techniques, physics/ electronics techniques, physiology/pharmacology techniques, electromechanical techniques, and food, bio-resources and biotechnology techniques. The programme provides five (5)-year or four (4)-year training to candidates that meet the minimum entry requirements for university education in Nigeria, depending on the mode of admission.

Admission Requirements

(a)i Unified Tertiary Matriculation Examination (UTME) – Standard Five-year programme

Five (5) credit level passes in SSCE (WAEC or NECO)/GCE O/L in physics, Chemistry, Biology, Mathematics and English Language obtained at not more than two (2) sittings. Equivalent qualifications such as NABTEB are acceptable. An acceptable pass in UTME is also required

(a)ii Required Unified Tertiary Matriculation Examination (UTME)

The UTME subject combinations for students seeking admission into the Physics/Electronic and Chemistry Techniques are English Language, Chemistry, Physics and Mathematics. On the other hand, the subject combinations for the remaining techniques (Biochemistry, Microbiology/Virology and Pharmacology/Physiology) techniques are English language, Biology, Chemistry and Physics.

(b) Direct Entry – Standard Four-year programme

National Diploma (ND) or Bachelor Science Degree (B.Sc) in Science Laboratory Technology or any of the relevant subjects in the learning areas passed at a minimum of Lower Credit or Lower Class Honours, respectively, from recognized higher institutions. Direct entry candidates must also possess the minimum required five (5) credit level passes at SSCE/GCE O/L or its equivalent. The minimum duration of the programme for direct entry is four (4) years and the students enter the programme in second year of the standard five-year programme.

Job Opportunities

Products of this programme, who are Science Laboratory Technologists, will play very important roles in meeting the human resources needs of the technological aspects of industries, universities, and research institutes. The graduates of this programme will be able to work in secondary and tertiary institutions, research-based institutions, petrochemical, agro-based industries, hospitals, pharmaceutical industries, veterinary, engineering and private laboratories.

Learning Areas/Techniques

- (i) Chemistry Techniques
- (ii) Biochemistry Techniques
- (iii) Microbiology/Virology Techniques
- (iv) Physics/Electronics Techniques
- (v) Physiology/Pharmacology Techniques

Eligibility for Graduation

To be eligible for the award of the degree of B.Sc(Tech) in Science Laboratory Technology in University of Nigeria, a candidate must satisfy the following conditions:

- (i) Pass all University/Faculty Compulsory Courses
- (ii) Pass all departmental core courses
- (iii) Spend the minimum number of semesters prescribed by the University
- (iv) Complete not less than six months of approval practical field work during the long vacation.
- (v) Obtain the required total credit units as approved by the senate of the University

Attainment Levels

Graduates of Science Laboratory Technology are expected to have the ability to apply knowledge and skills to solving theoretical and practical problems in science laboratory environment in relation to national and societal problems.

Course Codes

- (1) SMB - Microbiology
- (2) SCH - Chemistry
- (3) SBC - Biochemistry
- (4) SPE - Physics with Electronics
- (5) SPP - Physiology/Pharmacology
- (6) GLT - General Laboratory

Biochemistry Techniques

Four-Year Standard Programme (Direct Entry)

First Year

First Semester

CODE	TITLE	UNITS
------	-------	-------

Major Courses

GLT 201	Instrument Maintenance I	2
SBC 201	General Biochemistry I	3
SMB 201	General Microbiology I	3
SCH 201	General Inorganic Chemistry	2
SCH 211	General Physical Chemistry	2
SCH 221	General Organic Chemistry	2
General Studies Course		
GSP 101	Communication in English I	2
GSP 111	The Use of Library and Study Skills	2
GSP 201	Basic Concepts and Theory of Peace	2
GSP 207	Logic, Philosophy and Human Existence	2
Electives		2
A minimum of 2 Units selected from one of the following courses.		
STA 203	Statistics for Biological Sciences I	2
MTH 207	Advanced Mathematics VII	2
ECO 101	Principles of Economics I	2
		<hr/> 20
Second Semester		
CODE	TITLE	UNITS
Major Courses		
GLT 202	Hazards and Safety in the Laboratory	2
SBC 202	General Biochemistry II	3
SBC 204	Biological Laboratory Techniques I	2
SBC 206	Genetics I	2
SCH 232	Analytical Chemistry	2
COS 102	Introduction to Computer Science	3
General Studies Course		2
GSP 102	Communication in English II	2
GSP 202	Issues in Peace and Conflict Resolution	2
GSP 208	Nigerian People and Culture	2
Electives		2or3
A minimum of 2 Units selected from one of the following courses.		
MTH 242	Mathematical Methods	3
STA 204	Statistics for Biological Sciences II	2
ECO 102	Principles of Economics II	2
		<hr/> 18/19
Second Year		
First Semester		
CODE	TITLE	UNITS
Major Courses		
SBC 301	Enzymology	3
SBC 341	Food Biochemistry	2
SBC 351	Chemistry and Metabolism of Carbohydrates	2
SBC 353	Metabolism of Amino Acid and Proteins	2
SBC 381	Techniques in Biochemistry	2
SCH 311	Physical and Structural Chemistry	2
SCH 321	Organic Chemistry I	2
SCH 335	Instrumental Method of Analysis	3
General Studies Course		
CED 341	Introduction to Entrepreneurship	2
Electives		1or2
A minimum of 2 Units selected from a combination of the following courses.		
COS 201	Computer Programming I	2

SBC 311	Membrane Biochemistry	1
SMB 301	Microbial Physiology	2
		<hr/> 22/23
Second Semester		
CODE	TITLE	UNITS
Major Courses		
SBC 314	Protein Biosynthesis	2
SBC 342	Nutritional Biochemistry	2
SBC 352	Chemistry and Metabolism of Lipids	2
SBC 354	Metabolism of Nucleic Acids	2
SBC 382	General Biochemical Methods	2
SMB 304	Microbial Genetics	3
SCH 370	Chemistry Laboratory Techniques and Practice I	3
General Studies Course		
CED 342	Business Development and Management	2
Electives		1or2
A minimum of 2 Units selected from a combination of the following courses.		
SBC 332	Bioenergetics	1
SCH 374	Applied Spectroscopy	2
SMB 302	Microbial Metabolism	2
		<hr/> 20/21
Third Year		
First Semester		
CODE	TITLE	UNITS
Major Courses		
GLT 401	Laboratory Organisation and Management I	3
SBC 401	Advanced Enzymology	2
SBC 411	Biosynthesis of Macromolecules	2
SBC 413	Genetic Engineering	2
SBC 417	Biochemistry of Parasites	2
SBC 423	Biochemical Toxicology I	3
SBC 421	Tissue Biochemistry	2
SBC 431	Bioinorganic Chemistry	2
SBC 481	Biochemical Reasoning	1
SBC 483	Advanced Biochemical Methods	2
		<hr/> 21
Second Semester		
CODE	TITLE	UNITS
Major Courses		
SBC 492	Industrial Training (Site Work Supervision)	6
SBC 494	Industrial Training (University Supervision)	3
SBC 496	Industrial Training (Student Report)	3
		<hr/> 12
Fourth Year		
First Semester		
CODE	TITLE	UNITS
Major Courses		
GLT 501	Photography and Bio-illustration	2
SBC 505	Enzyme Biotechnology	2
SBC 513	Process Biochemistry	3
SBC 523	Biochemical Toxicology II	3
SBC 571	Industrial Biochemistry and Biotechnology	3

SBC 573	Advanced Biotechnology	2
SBC 591	Seminars in Biochemistry	
Electives		2
A minimum of 2 Units selected from one of the following courses		
SBC 515	Biophysics	2
SMB 523	Industrial Microbiology and Biotechnology I	2
		<hr/> 20

Fifth Year

Second Semester

CODE	TITLE	UNITS
------	-------	-------

Major Courses

GLT 508	Lab. Organization and Management II	3
SBC 522	Pharmacological Biochemistry	2
SBC 542	Metabolic Regulations	2
SBC 562	Plant Biochemistry	2
SBC 592	Research Project	6
SCH 570	Chemistry Lab. Techniques and Practice III	3

Electives		2
------------------	--	---

A minimum of 2 Units selected from one of the following courses

SBC 516	Biomass Utilization	2
SBC 582	Advanced Biomedical Methods	2
SCH 552	Industrial Chemical Process Technology III	2
		<hr/> 20

Chemistry Techniques

Five-Year Standard Programme (UTME Students)

Second Year

First Semester

CODE	TITLE	UNITS
------	-------	-------

Major Courses

GLT 201	Instrument Maintenance I	2
SCH 201	General Inorganic Chemistry	2
SCH 211	General Physical Chemistry	2
SCH 221	General Organic Chemistry I	2
SPE 261	Elementary Modern Physics	3
SPE 291	Practical Physics IV	2

General Studies Courses

GSP 201	Basic Concepts and Theory of Peace	2
GSP 207	Logic, Philosophy and Human Existence	2

Electives		2
------------------	--	---

A minimum of 2 Units from one of the following courses.

MTH 207	Advanced Mathematics VII	2
STA 203	Statistics for Physical Sciences I	2
SPE 251	Electromagnetism	2
		<hr/> 19

Second Semester

CODE	TITLE	UNITS
------	-------	-------

Major Courses

GLT 202	Hazards and Safety in the Laboratory	2
SCH 222	General Organic Chemistry II	2
SCH 232	Analytical Chemistry	2
SCH 252	Chemical Process Principles	2
SPE 202	Basic Electrical Circuits	2

SPE 210	Basic Electronics	2
General Studies Courses		
GSP 202	Issues in Peace and Conflict Resolution Studies	2
GSP 208	Nigerian People and Culture	2
Electives		2or3
A minimum of 2 Units from one of the following courses.		
MTH 242	Mathematical Methods I	3
SPE 262	Introduction to Atomic and Nuclear Physics	2
STA 206	Statistics for Physical Sciences II	2
		<hr/> 18/19
Third Year		
First Semester		
CODE	TITLE	UNITS
Major Courses		
SCH 301	Inorganic Chemistry I	2
SCH 311	Physical and Structural Chemistry I	2
SCH 321	Organic Chemistry I	2
SCH 335	Instrumental Methods and Analysis	3
SCH 353	Introductory Industrial Chemistry	2
SCH 371	Practical Inorganic Chemistry I	2
SCH 381	Environmental Chemistry	2
SCH 385	Industrial Raw Materials Resource Inventory	1
General Studies Course		
CED 341	Introduction to Entrepreneurship	2
Electives		2or3
A minimum of 2 Units from one of the following courses.		
MTH 331	Introduction to Mathematical Modeling	3
SCH 383	Polymer Chemistry 1	2
SMB 313	Environmental Microbiology	2
		<hr/> 20/21
Second Semester		
CODE	TITLE	UNITS
Major Courses		
SCH 302	Atomic & Molecular Structure and Symmetry	2
SCH 308	Organometallic Chemistry	2
SCH 322	Organic Chemistry II	2
SCH 326	Chemistry of Natural Products I	2
SCH 370	Chemistry Laboratory Techniques and Practice I	3
SCH 374	Applied Spectroscopy	2
SCH 382	Petroleum Chemistry	2
SCH 384	Quality Control and Industrial Safety	1
General Studies Course		
CED 342	Business Development and Management	2
Electives		2or3
A minimum of 2 Units from one of the following courses.		
SCH 352	Industrial Chemical Technology I	2
SPE 362	Quantum Mechanics I	3
SCH 386	Industrial Chemical Process I	2
		<hr/> 20/21
Fourth Year		
First Semester		
CODE	TITLE	UNITS

Major Courses

GLT 401	Laboratory Organization & Management	3
SCH 401	Coordination Chemistry	2
SCH 409	Heterocyclic Chemistry	2
SCH 415	Radiation Chemistry & Nuclear Chemistry	2
SCH 425	Food Chemistry	2
SCH 431	Modern Analytic Techniques	2
SCH 433	Instrumentation & Analytical Chemistry II	2
SCH 471	Chemistry Laboratory Techniques & Practice II	2
SCH 483	Colour Chemistry and Technology I	2

Electives

A minimum of 2 Units from one of the following courses.

SCH 403	Modern Synthetic Methods in Inorganic Chemistry	2
SCH 411	Theory of Molecular Spectroscopy	2
SCH 423	Modern Synthetic Methods in Organic Chemistry	2
		21

Second Semester

CODE	TITLE	UNITS

O. P. Nwoke, B.Sc (Nigeria)	Higher Technical Officer II
N. S. Ugwu, OND (Nigeria)	Executive Officer

General Information

At the inception of the University in 1960, courses in Statistics were taught in the Department of Mathematics. This continued until 1962 when the Department metamorphosed into the Department of Mathematics, Statistics, and Astronomy. This new name emphasized the various available options. The great need for manpower in the areas of Mathematics and Statistics led to the urgent need to create an environment where these two disciplines would be better developed to face the challenges ahead. So in 1973, two separate departments – the Department of Statistics and the Department of Mathematics were created from the Department of Mathematics; the Department of Statistics was thus born in October 1973 and by that it became the first full-fledged Department of Statistics in the Nigerian University system. The department is one of the Consultancy Centres of the University. It has the competence and the skilled personnel to carry out Statistical consultancy for customers. To this end the department handles feasibility studies, market research, statistical survey and analysis, quality control, statistical modelling of systems or businesses to achieve optimization, educational research and planning, to mention only but a few. The Department welcomes inquiries from individual, company and industrialist on the these and other services available in the department.

Entry Requirement

The department admits student either by entrance examination conducted by Joint Admission and Matriculation Board or by Direct Entry Mode. Those wishing to come into the department by entrance must in addition to the minimum University requirement have credits in statistics or additional mathematics and any two of Physics, Chemistry and Economics. To qualify for direct entry applicant must possess/GCE, A-level with passes in two subjects which must include Mathematics. Candidates holding NCE or Diploma from a recognize institution also qualify for Direct Entry provided that they have passed Mathematics and one other subject. While those who come in by entrance spend four years for Statistics major and Four years for Statistics and Economics combine programme, entrance by Direct-Entry Mode spend three and four years respectively.

Scope

In the Department students are groomed through a variety of courses at the end of which they obtain any of the following qualification:

- (a) B. Sc. (Hons) degree in Statistics
- (b) B. Sc. Combined (Hon) degree in Statistics with Economics

The degree programme aimed at producing a statistician well equipped to face the challenges of his profession. This is achieved through the diversity of the courses offered. Some of the areas covered are:

Probability and Stochastic Processes, Design and Analysis of Experiment, Statistical Method and Inference, Sampling Technique, Quality Control, Operation Research, Time Series Analysis, Actuarial Sciences, Education, Medical, Health, Energy and Environmental Statistics. Efforts are made to strike balance between theory and application, Laboratory Work, Field Work and projects on selected topics are so arranged to achieve this balance. Computing facilities are available and students are taught to make full use of them. In addition of services available at University Computing Centre, the Department has a Computer Lab with more than 20 functional desktop computers and other

electronic calculators. The department provides service courses for student in many faculties who need the knowledge of Statistics. These special courses are tailored in content and orientation to suit the need of individual faculties. At present, the Department has such special service courses for student in the faculty of Social Sciences, Agriculture, Biological Sciences, Physical Sciences, Engineering, Environmental Sciences and Education. The Department holds regular consultations with the faculties to ensure continued relevance of the content and delivery of these special courses.

Job Opportunities

Vast opportunities exist in the country for well-trained statisticians. Such a person maybe absorb in Managerial Positions in the economy and business, as teachers in the various levels of education or as research personnel in any of the Research Institution. They may choose to work for Government, Banks or International Agencies. Till date the Department has turned out a large number of statisticians who have continued to distinguish themselves in their places of employment

Stress Areas

Basic Courses	0
Probability/Stochastic Processes	1
Design/Analysis/Distribution Theory	2
Inference/Methods	3
Sampling/Quality Control	4
Demography	5
Operations Research	6
Statistical Computing	7
Seminar/Industrial Training	8
Project	9

Objectives

The objective are:

1. To teach the student those matters that deals primarily with random phenomena that occur in our everyday life.
- 2 . To equip the student with the basic knowledge in Probability and Stochastic processes Design and analysis of experiment, Statistical Method and Inference, Sampling Technique Quality Control, Operations Research, Time Series Analysis, Actuarial Sciences, Education Medical, Health, Energy and Environmental Statistics.
3. To develop the skill and the necessary intellectual orientation required by the student for Subsequent career as a statistician.

Philosophy

In accordance with the philosophy of University of Nigeria, the program provide a thorough training that enable man to understand his environment thus be able to be a better master of his destiny. A measure of uncertainties surrounding man can be determined through the study of a random phenomena, properly analyze them and make a judicious conclusion about them.

Background Information

The Department of Economics offers a four-year programme leading to a Bachelor of Science (B.Sc) Honours degree in Economics. It also runs a Combined Honours degree in Economics with any of the following disciplines: Political Science, Sociology/Anthropology, Psychology, Education, Mathematics, Statistics, Library Science, and Adult Education.

Philosophy/Objectives and Scope

The Philosophy which guides the selection and training of students in Economics is the desire to continuously produce graduates well armed to play positive roles towards the social and economic advancement of Nigeria, Africa and the world. This philosophy enables graduates in the discipline to “**Restore the dignity of man**” in society. This philosophy is achieved not only by equipping the students with a broad foundation in the field of social sciences, but also in grounding them in the application of economic theory and the tools of economic analysis in solving human behavioral problems.

The degree programme seeks to fulfill the following interrelated objectives:

1. To stimulate the students to be able to observe, understand and critically analyze data on the multifarious socio-economic problems of the world and Nigeria in particular, by means of Social Science methods so as to effectively contribute objectively to solving the problems.
2. To ground the students in the theories, methods and philosophy of economic and policy analysis, emphasizing in the process, the effects of socio-political factors on economic behaviour;
3. To create a desirable milieu for positive behavioural changes which will enable students develop values like hardwork, probity, discipline, creativity and self-reliance, dedication and patriotism essential to fulfill Nigeria’s National development objectives;
4. To prepare graduates to easily fit into several fields of human endeavour in both the public and private sector. The programme prepares students for careers in administration, banking and finance, planning and policy making, research, statistics, entrepreneurship, and in Secondary School and University teaching.

Entry Requirements

In addition to the entry requirements of the University of Nigeria, candidates for admission into the Department of Economics are required to obtain at least a credit in English Language, Mathematics and Economics in the Senior Secondary Certificate Examination (SSCE)/General Certificate of Education (GCE) or their equivalents. Direct entry candidates are expected to satisfy the University of Nigeria requirements for admission by direct entry, provided that they obtain at least credit in Mathematics, English Language and Economics at the O’level GCE, or its equivalent. The degree programme in Economics is for a minimum period of four years for all candidates, whether admission is by direct entry or UME.

Job Opportunities

Graduates of this degree programme are expected to take up appointment as:

1. University lecturers in Economics
2. Economists/Directors in Research Institutions
3. Economists in industries
4. Managers in Banks and other financial institutions;
5. Economic Advisers to Governments/institutions
6. Economic Consultants serving the general public

7. Board members in public and private enterprises.
8. Economists /Directors in Research Institutions.

Stress Areas

Economic Theory (Micro/Macro)	1
Economic History	2

Brief History

The Department of Geography was created in the 1961/62 academic year with four academic staff and 24 pioneer students all based in the Faculty of Science. The early curriculum (1961-1964) of the department was basic, with the entire first year spent on General Study's courses and electives. In 1964/65, however, a number of changes were made to the curriculum. Elements of geography courses were then taught in the first year, with the other courses following in the second year (University of Nigeria, 1964). The curriculum was in 1981/82 overhauled, with new emphasis on environmental issues, on planning, and on practical and analytical techniques. Thus, courses in the Philosophy and Methodology of Geography, Surveying, Environmental problems, Quantitative Geography, and Hydrology were introduced. So also were separate courses in practical Human Geography, and Regional Planning Methods. The 1981/82 curriculum remained unchanged throughout the 1980s. It also represented the most balanced expression of the department's unique conception of the spirit and purpose of geography.

The Departmental curriculum was again revised in 1989. The Department was mandated to teach the NUC 'Minimum Academic Standards' (MAS) listed courses. The MAS decreed that the semester system should apply nationwide. The new order, to convert to a two-semester system led to a radical revision of the course structure and running of the Department. The Departmental curriculum was again reviewed in 2001 with new courses introduced. The new courses were Geographic Information Systems (GIS) and Environmental Management. Also, Quantitative Geography 1 and II were changed to Basic Statistical Methods for Geographers 1 and II. It is in the same spirit to maintain and be in tune with the dynamic nature of the discipline that the Department in 2014 revised the curriculum and expanded its scope to include Management. Remarkable changes in the new curriculum were the re-introduction of political geography, introduction of Spatial Analysis and Modeling, Theories and Applications in Spatial Management, incorporation of climate change into the existing relevant courses and Students Industrial Work Experience (SIWES).

Philosophy

The Philosophical thrust of Geography is that spatial phenomena, the processes that yield them and the environment are inextricably linked. Consequently, the future of this planet and the human societies it supports depends upon committed, informed and critical persons trained to confront the challenges of Geography and Spatial issues.

Objectives

The degree programme seeks to fulfil the following objectives:

- To lay a thorough foundation in all the systematic branches of geography, as well as training students in geographic methods, philosophy and applications.
- To lay a sound foundation in the study, appreciation and management of the spatial and geographic environment.
- To introduce students to field work and studies of processes and inter-relationships with a view to bridging the gap between theory and application.
- To afford students exposure to specialized aspects of their choice in geography, spatial management and the geographic environment in their final year.

Scope

The programme offered by the Department is broad and diverse, encompassing course work and research project. Courses offered cover diverse areas in the General, Physical, Quantitative, Regional and Human Geography. Other

areas include Population and Settlement Studies, Economic Geography, Environmental Issues and Problems, Environmental Protection and Management, Practicals in Geography and Spatial Management.

Courses normally involve lectures, laboratory work, seminars and field work. Candidates are, in addition, required to present research projects which must be original in content and problem-solving oriented.

Entry Requirements

The Department of Geography offers four-year and three-year (Direct Entry) standard programmes leading to the Bachelor of Science (B.Sc) honours degree in Geography. In addition to satisfying the University minimum entry requirements, candidates seeking admission by entrance examination are required to obtain:

1. A minimum of five (5) credits including English, Geography and any three other subjects plus a pass in Mathematics for UTME, while:
2. Direct entry candidates must have passed Geography and either Economics, History, Geology, Agricultural Science, Physics, Mathematics, Chemistry or Biology at HND, NCE, OND HSC (Principal Level) or GCE (Advanced Level) or must have a minimum of merit in Diploma in Environmental Protection and Management (EPM) of the University of Nigeria, Nsukka in addition to at least a credit in English and a pass in Mathematics at SSCE or its equivalent.
3. With or without a credit pass in Geography at SSCE, candidates who possess at least merit in Diploma in EPM are qualified for Direct Entry Admission.

JOB OPPORTUNITIES

The successful graduates in Geography are equipped for careers in research institutions, teaching, as well as government, NGOs, parastatals and corporate agencies. They are particularly trained for employment in areas requiring a combination of broad theoretical knowledge, and specific skills. Graduates of Geography are employed in the following areas:

1. Ministries and Parastatals
2. Population Agencies
3. Transport Development and Planning
4. Urban and Regional Planning
5. Conservation and Land Management
6. Environmental Impact Assessment
7. Pollution Monitoring
8. Private Consultancies
9. Primary, Secondary and Tertiary Education.
10. Resource Management
11. Industrial Establishments
12. Port Authorities
13. Oil companies
14. Military and paramilitary agencies
15. Aviation among others

Departmental information

The Department offers a single Honours degree programme in philosophy and combined honours degree programmes with any of the Departments in the Faculties of Arts and Social Sciences. The Programme further exposes Philosophy majors to other interrelated disciplines, e.g. Political Science, Economics, Psychology, Religion, Sociology, Foreign Languages, Education, History.

Philosophy

Our philosophy is that our students should be trained in a manner that will equip them with a critical and reflective mind as the skills and aptitudes that will enable them analyze, appreciate and theorize about the fundamental dimensions of reality; and the connection of these to personal and social affairs.

Objectives

The Objectives of the degree programme in philosophy are:

1. To prepare students for administrative, policy-making and mass media career, teaching positions in the public service, private sector, and educational institutions.
2. To provide foundation for those who wish to do professional/ academic philosophy.
3. To bridge the gap between academic/professional philosophy and social practice in Nigeria in particular and Africa in general.

Scope

To expose the students to Africa's contribution to global philosophy and also to other philosophies.

Entry Requirement

Admission is by Direct Entry or by Entrance Examination through U.M.E. Candidates seeking admission by direct entry and those by entrance examination are expected to complete their programme in three or four years

respectively. Possession of University of Nigeria entry requirements satisfies admission into the department. However, credit in the Arts and Social Science subjects at the GCE 'O' level or its equivalent is an advantage.

Job Opportunities

The nature of the discipline and its designed programmes are to produce graduates suitable for employment in administrative, managerial, teaching capacities in:

1. The School, Viz: Primary and Secondary Education Institutions;
2. The Universities, Polytechnics and Colleges of Education;
3. The State and Local Government Commissions, Hospital Administration;
4. Federal Government Service-national as well as international
5. Parastatals, Private Organizations and Institutions,
6. The Army Forces, Navy and Air Force;
7. The Police, Prison;
8. Security and Intelligence Organizations;

Service Courses

While every course offered by the Department of Philosophy may serve as a service course, Phil. 103 is a special offer.

Brief History

The Department of Political Science, University of Nigeria, Nsukka, is the oldest Department of Political Science among the Nigerian Universities. It started officially as a full-fledged Department in the Faculty of the Social Sciences on 13th October, 1960, when 17 first year students (out of a total of 220 university-wide) started classes for the first degree (B.Sc.) programme in Political Science. In June 1963, out of a total of 118 graduates of the University, the Department produced 17 foundation graduates. Since then it has continued to produce a great number of graduates who are performing well in all aspects of human endeavour.

General Information and Academic Programme

The Department runs a four-year standard undergraduate degree programme leading to a B.Sc. (Honours) Degree in Political Science.

Philosophy

An essential philosophy of this programme is knowledge for development. The programme seeks to prepare candidates who may wish to pursue careers in national and international services. Most importantly, it is an opportunity for potential political office-holders to widen their knowledge base in the areas of good governance and development.

Objectives

The objectives of the programme are to:

1. Introduce the students to the concepts, theories, and the practical values of Political Science in the contemporary Nigerian society.
2. Ground the student in the philosophy and methods of political inquiry and analysis.
3. Focus scientific inquiry into and analysis of the relationship between the state and man both as an individual and a member of social groups.
4. Provide a comprehensive degree programme that will equip the students to cope with problems in the international arena.
5. Train high-level manpower for various administrative, management and leadership roles in the public service, parastatals, the diplomatic corps, universities, business and industry.

Scope

The curriculum for the undergraduate degree programme shall cover the core courses in Political Science, Government, Public Administration, International Law and Politics, Development Studies and Diplomacy, Policy Analysis, Peace and Conflict Studies, Environmental Politics and Political Economy.

Job Opportunities

The programme is designed to offer students the training that will equip them to serve the nation, Africa and the world as effective and efficient managers/administrators, experts, politicians, diplomats and international civil servants. Overall, Political Science prepares students to become wide ranging social articulators, leaders and consultants.

Entry Requirements

i. Unified Tertiary Matriculation Examination (UTME):

Candidates for admission into the Department of Political Science must have obtained a credit pass in English Language, Mathematics, Government or History, one science subject, plus credit pass in any of the following: Economics, Geography, Christian Religious Studies, Civic Education, Literature-in-English and Commerce at Senior Secondary School Certificate (SSSC), National Examination Council (NECO), General Certificate of Education (GCE) or their equivalent, in not more than two sittings.

ii. Direct Entry:

Candidates for direct entry shall possess either of the following:

- Five credit passes in SSCE, NECO, GCE or their equivalent in English Language, Mathematics, one science subject, and any of the following: Government or History, Economics, Geography, Christian Religious Studies, Civic Education, Literature-in-English and Commerce, of which at least two from the list must be at the advanced level; or four credit passes from the list, of which at least three shall be at advanced level.
- At least merit pass in Diploma or National Certificate of Education (NCE) in relevant courses.
- At least lower credit in National Diploma in relevant courses.
- All categories of direct entry candidates start from Year One.

Combined Honours degrees are also available. Such degrees involve Political Science and any one of the following disciplines: Economics, Sociology/Anthropology, Psychology, Philosophy, Religion & Cultural Studies, and Geography.

General Information

The Department of Psychology was established in the University of Nigeria in 1964 under the guidance of Professor Carl Frost of Michigan University, United States of America. It is the first degree-awarding Department of Psychology established in Nigeria and produced its first set of graduates in 1967.

Philosophy and Objectives

The Department is strongly oriented to:

- (e) Scientifically studying the behaviour of humankind in order to provide information that would enrich the understanding and prediction of human actions, feelings and thought. It also seeks to enable people to understand and relate with each other very efficiently and effectively.
- (f) In training of students, the Department emphasizes the interrelations of biological, psychological and socio-cultural influences on observed behavioural events. It seeks to provide students with very strong foundation in principles, methods and philosophy of psychological investigation of human and animal behaviour.
- (g) It also offers students professional training and experience in various areas that enable its graduates to establish successful careers as psychologists in research and applied fields such as in medicine, education,

industry, commerce, military and paramilitary organizations, social mobilization, human development, administration, correctional and rehabilitation services, and other human behaviour contexts that require adjustment to the various socio-psychological challenges and problems which the social, economic and technological changes in the world are generating.

Academic Programmes

The Department runs academic programmes leading to the following qualifications: Bachelor of Science (B.Sc.) honours degree, Postgraduate Diploma (PGD), Master of Science (M.Sc.) Honours degree and Doctor of Philosophy (Ph.D). The B.Sc. programme is a four-year full-time programme in general psychology, while the PGD programme is a one-year full-time and part-time programme also in general psychology. The M.Sc. and Ph.D. programmes are both full-time and part-time with minimum of 12 calendar months and 24 calendar months for M.Sc. and Ph.D., respectively, and lead to specializations in particular fields in psychology. Combined Honours of Psychology with such disciplines as Sociology and Anthropology, Economics, Political Science, Religion, and Philosophy are also available in the B.Sc. programme.

Entry Requirements

In addition to the minimum entry requirements of the University of Nigeria, candidates for admission into the B.Sc. programme are required to have credit in English language as well as general biology, human biology or health science, and at least pass in mathematics or statistics at the Secondary School Certificate Examination (SSCE) or ordinary level General Certificate of Education (GCE) organized by West African Examination Council (WAEC) or National Examination Council (NECO). Candidates seeking direct entry should, in addition to the above requirements, have at least pass in advanced level GCE or its equivalent in any two (2) of the following subjects: Mathematics, Biology, Physics, Chemistry, Economics, Business, Management, Geography, History and English Literature, or a Diploma approved by the University of Nigeria. UME (University Matriculation Examination) candidates, in addition to O'Level requirements, are required to take Biology in UME Examination.

Candidates for PGD programme are required to be graduates of the University of Nigeria or other recognized University or Polytechnic who possess honours degrees of Higher National Diploma (HND) in addition to credit pass or above in biology or health sciences and mathematics in SSCE or GCE or its equivalent. The programme is specifically designed to give professionals opportunity to acquire knowledge in appropriate fields of psychology for the advancement of their professional practice.

Candidates for M.Sc. programme are required to be graduates of the University of Nigeria or other recognized University who have obtained at least the bachelor degree with at least Second Class Honours or its equivalent in psychology, or the postgraduate diploma in psychology with at least credit pass. Candidates who possess qualifications different from above may be considered.

Candidates for the Ph.D. programme are required to be graduates of the University of Nigeria or other recognized Universities, who have obtained a Master's Honours degree with a minimum of 3.50 grade point average (GPA) on a 5-point scale or 3.00 GPA on a 4-point scale. M.Sc./Ph.D. programmes are experimental, industrial/organizational, social, developmental, counseling, clinical, school and forensic psychology.

Foreign candidates who possess equivalent of the above described qualifications are considered.

Job Opportunities

Professionalism in psychology requires an intensive training at the postgraduate level in an area of specialty where requisite skills in specific areas of employment are acquired. This notwithstanding, bachelor degree holders in psychology have been employed and found very useful in industrial and business organizations, general hospitals and medical colleges, government ministries and parastatals, schools and higher educational institutions, the military, police, prisons and other correctional institutions, and other bodies with managerial personnel needs.

Postgraduate training in psychology prepares the psychologists for employment opportunities at a professional level in such areas as:

1. managerial positions in business and industries;
2. clinics, psychiatric and general hospitals, and medical schools and colleges;
3. universities, polytechnics and colleges of educations, research institutions;

4. all tiers of the education system;
5. various security and intelligence organizations, including the military, the police and the prisons;
6. Government services (local and foreign), agencies and parastatals; international agencies
7. non-governmental organizations (NGOs),
8. sports; etc.

Undergraduate Programmes

1. A Two-Year Ordinary National Diploma (OND) in Public Administration & Local Government

The Department of Local Government and Public Administration offers a two-year Diploma degree in Local Government and Public Administration. This two-year Diploma programme is a special programme sponsored by the government of the Federal Republic of Nigeria in order to train serving personnel selected by Local and State Governments of Abia, Akwa-Ibomm Anambra, Bayelsa, Benue, Cross-River, Ebonyi, Enugu, Imo, Kogi and River States.

Philosophy, Objectives And Scope

The Diploma in Local Government and Public Administration aims at serving a number of inter-related objectives:

- a. To provide the Trainees with the necessary theoretical knowledge that will enable them to understanding more clearly and carry out more efficiently their professional duties as Local Government Administrators.
- b. To provide the Trainees with relevant knowledge of Local Government Financial Administration and Management.
- c. To offer the Trainees the opportunities to relate their practical experiences to the theories of administration and to enable them to appreciate the value of a development-oriented administration at the grass-root level.
- d. To teach the Trainees the various dimensions of the relationship between population and development. They should grasp such concepts as under-population and over-population, human resources of a population, danger and benefits of population control, the economies of mass consumption and mass production etc.

Entry Requirements

- i. To be admitted, candidate shall, in addition to being officially sponsored by the Federal/State/Local Government, fulfill at least one of the following admission requirements:
 - a) Credit Pass in W.A.S.C in four subjects including a pass in English Language in not more than two sittings;
 - b) Credit in G.C.E O/L in four subjects including a pass in English Language in not more than two sittings;
 - c) Teachers Grade II Certificate with Credit in Four subjects (including a pass in English Language), in not more than two sittings;
 - d) Teachers Grade II Certificate with not less than two merits, plus either W.A.S.C or G.C.E with two (2) credits passes;
 - e) Intermediate Associate of Corporation of Certified Accountants;
 - f) Intermediate Chartered Institute of Secretaries;
 - g) Diploma in or approved Certificate of Education;
 - h) Candidates with a recognized certificate or Diploma in Local Government, Social Welfare, Management, Accountancy or any other relevant qualification acceptable to the Senate of the University of Nigeria, Nsukka.

In addition, candidates should meet the relevant experience and salary grade level prescribed by their Local Government.

- ii. Private candidates can be admitted based on a competitive entrance examination and possessing the above-mentioned pre-requisite admission qualifications.

Job Opportunities

Graduates of the Diploma Programme are expected to go back to their respective jobs. There are also employment opportunities for them in the Civil Service, Public Corporations, Private Organizations etc.

2. Three-Year Standard Undergraduate Programme In Public Administration (Direct Entry)

Philosophy

Philosophy of the programme is hinged on the provision of a broad based training that equips students with the necessary knowledge and skills in the art and science of modern administration, which are relevant and applicable to both public and private sectors of the economy.

Objectives

The objectives of the programme are to:

- produce high level manpower relevant to the needs of both public and private sector bureaucracies;
- equip the students with the comprehensive knowledge of the dynamics of the art and science of public administration;
- enable students who are interested in the pursuit of higher degrees to acquire the necessary foundation for such advancement; and
- produce students who would contribute their quota towards the integral development of the nation.

Scope

programme provides in-depth knowledge in the following core areas of public administration, namely: Administrative Theories, Development Administration; Administration and Management; Government and Politics; Human Resource and Personnel Management; Financial Administration; Local Government Administration; Administrative Law; Public Policy; Rural and Community Development; Public Enterprise Management.

Entry Requirements

a. Direct Entry

Candidates for direct entry should possess one of the following qualifications:

- i. General Certificate of Education Advanced Level (A/L) passes or the equivalent in any of the following subjects; Government, Economics, Business Management and Accounting.
- ii. Ordinary National Diploma in Public Administration or relevant disciplines at Lower Credit level or Merit level pass.
- iii. Diploma in Public Administration of the University of Nigeria at Lower Credit level or Merit level pass

Opportunities

Graduates of this programme can fit into different fields of human endeavour in both private and public sectors of the economy. The graduates can serve as administrative and personnel officers, planning officers, policy analysts, finance officers, external affairs officers, among others.

1. Postgraduate Diploma in Social Policy

The social policy programme is anchored on the philosophy of human capital development. Nigeria and the world at large is facing some pressing and persistent issues such as poverty, rising inequality, exclusion and discrimination, high levels of unemployment, and insecured informal employment, persistent gender gaps, child labour, refugees, irregular migrants, discriminated ethnic minorities, human trafficking, internal displacement, ethnic and religious conflicts, hate speeches, and man-made/natural disasters. Therefore, the search for social policy programmes has been a major concern of governments, development partners and the general public, at both the national and international levels.

The Post-Graduate Diploma (PGD) programme will offer unique opportunity for candidates to develop and extend their knowledge and understanding of key social policy issues that will support development planning capable of resolving social issues and challenges in Nigeria. The

The PGD in Social Policy shall also prepare candidates who may wish to pursue career in social policy programming for development agencies, Non-Governmental Organizations and other related institutions.

Philosophy

The Postgraduate Diploma in Social Policy is based on the philosophy of human capacity building as a factor to support development planning and management. It provides an opportunity for students, especially practitioners, to broaden their knowledge in the areas of policy formulation, implementation and evaluation with a view to address the existing and emerging social challenges in the society. It is also aimed at equipping the candidates with the capacity to suggest, initiate, and supervise the implementation of social policies.

Aim and Objectives

The aim of this programme is to provide postgraduate degree training in the field of Social Policy for building human capacity that could drive evidence-based policy and practice. The objectives are to:

1. Improve students' understanding of social policy formulation, programme design, implementation, monitoring and evaluation;
2. Equip the students with skills for conducting evidence-based research in social policies that are relevant to Nigeria and the international environment;
3. Prepare students to develop the capacity for data generation for policy making and analysis;

4. Train students to develop the capacity to identify social problems and proffer most sustainable solutions;
5. Equip students to understand the condition and needs of the vulnerable groups in society;
6. Provide a forum for students to share ideas on effective and transparent ways of solving social problems;
7. Equip students with skills to implement innovative development interventions and effective monitoring and evaluation of interventions and
8. Expose the students to opportunities to integrate the SDGs into all facets of social policy planning and implementation.

Career Opportunities

Holders of PGD Social Policy may find career opportunities in private and public sectors of the economy as policy analysts, administrators, human resource management, planning, social security, public finance management, child welfare, gender issues, demography and in teaching.

Admission Requirements

The criteria for admission into the PGD programme will be as follows:

Matriculation requirement of the University, which is five (5) O-level Credit passes including English Language with either of the following:

1. A student with at least 3rd class degree in any area of study.
2. HND holders with a minimum of Upper Credit from recognized institution may also be considered.
3. HND holders with lower credit and/or BSc holder with pass degree with 5 years and above post-graduation experience

Mode and Duration of Programme

The Postgraduate Diploma in Social Policy shall offer both Full Time and Part Time mode of study.

Full-Time PGD shall run for a minimum of two (2) Semesters and a maximum of four (4) Semesters.

The Part-time shall run for a minimum of four (4) semesters and a maximum of six (6) semesters.

Requirements for Graduation

A student must have fulfilled the following conditions to be awarded the Postgraduate Diploma in Social Policy:

The students must pass a minimum of 30 credits units made of the following:

1. 15 units of Core Courses
2. 9 units of electives Courses
3. 6 units Project.

Scope

The curriculum for the Postgraduate Diploma Programme shall cover the core courses in Social Policy.

Mode of Study

The Postgraduate Diploma in Social Policy shall offer both Full-Time and Part-Time mode of study.

Duration Of Programme

The duration of the Postgraduate Diploma Programme shall be:

- (a) **Regular** (Full Time) - 2 Semesters (minimum)
- 4 Semesters (maximum)
- (b) **Sandwich:** A minimum of 2 long vacations and a maximum of 4 long vacations

Job Opportunities/Prospects

Graduates of Postgraduate Diploma in Social Policy could get job opportunities in international organizations and development agencies such as UN, EU, AU, UNECA, AfDB, ECOWAS, etc. Graduates of the Programme can also work as programme officers in UNICEF and UNESCO as well as other local and international Civil Society organizations.

2. Professional Master's Degree in Social Policy (MSP)

Introduction

This is a programme that offers a professional training in Social Policy at the Master degree level. As a professional programme, this option combines theoretical and practical aspects of Social Policy as an academic discipline and social, political, and administrative processes.

Philosophy

The Master of Social Policy (MSP) programme is anchored on the philosophy of empowering human resource as a factor of change in the society. Therefore, this course is a professional course aimed at exposing candidates to prevailing social problems and the socio-political and economic prerequisites for policy formulation and implementation. The search for social policies has been a major concern of the government, international organizations, non-governmental organizations and general public. With the burden of social problems and inadequate policy strategies in most developing countries (Africa and Nigeria in particular), it is imperative to build capacities (especially human resource) that will provide leadership in social policy formulation and implementation. A major focus of the course is to develop the ability to critically examine social, economic, and political factors that influence the formation and implementation of social policies. It will also analyses the impact of social policies on vulnerable populations (minorities, the poor, the aged, children and disabled), service providers, and communities. The grasp of current and emerging policies and their theoretical underpinning as well as practical analysis will equip students with the methods required to formulate and implement public-oriented social policies in all areas of public life.

Aim and Objectives

The aim of this programme is to provide postgraduate degree training in the field of Social Policy for building human capacity that could drive evidence-based policy and programme. The objectives are to:

1. Improve students' understanding of social policy formulation, programme design, implementation, monitoring and evaluation;
2. Equip the students with skills of conducting evidence-based research in social policies that are relevant to Nigeria and the international environment;
3. Prepare students to develop the capacity for data generation for policy making and analysis;
4. Train students to develop the capacity to identify social problems and proffer most sustainable solutions to social problems;
5. Equip students to understand the condition and needs of the vulnerable groups in society;
6. Provide a forum for practitioners to share ideas on effective and transparent ways of solving social problems;
7. Equip students with skills to implement innovative development interventions and effective monitoring and evaluation of interventions and
8. Expose the students to opportunities to integrate the SDGs into all facets of social policy planning and implementation.

Admission Requirements

1. Five 'O' level credit passes including English Language and any four subjects.
2. Bachelor of Science Degree in related field from a recognized University with a minimum of Third Class or a postgraduate diploma in a related field from a recognized university.
3. Applicants that possess Higher National Diploma (HND) with a minimum of Upper Credit and relevant work experience.
4. Any other qualification that is acceptable to the Board of Postgraduate School and Senate of the University will also be considered as part of the admission requirements.

Mode and Duration Of Study

The duration of the programme shall run for a minimum of 5 semesters and a maximum of 8 semesters for part-time and a minimum of 4 semesters and a maximum of 6 semesters for full-time.

Career Opportunities

Graduates of the programme may find employment in:

- i. Federal and State Ministries and Parastatals,
- ii. NGOs, International organizations

Areas of Specialisation

- i. Community Development
- ii. Social Welfare
- iii. Social Development
- iv. Social Inequality
- v. Social Problems
- vi. Social Gerontology
- vii. Social Justice
- viii. Social Inclusion
- ix. Gender Analysis
- x. Poverty Studies
- xi. Health policy
- xii. Programme Planning, Management and Evaluation.

Master of Science in Social Policy (M.Sc.)**Introduction**

The M.Sc. Programme in Social Policy is anchored on the philosophy of human capital development. Nigeria and the world at large are facing some pressing and persistent issues such as poverty, rising inequality, exclusion and discrimination, high levels of unemployment and insecure informal employment, persistent gender gaps, child labour, refugees, illegal migrants, discriminated ethnic minorities, human trafficking, internal displacement, ethnic and religious conflicts, hate speeches, and man-made/natural disaster. Therefore, the search for social policy programmes has been a major concern of governments, development partners and the general public, at both the national and international levels.

The M.Sc. programme will offer unique opportunity to develop and extend students' knowledge and understanding of key social policy issues that will support development planning capable of resolving social issues and challenges in Nigeria.

The MSc Social Policy programme in Social Policy shall prepare candidates who may wish to pursue careers in social policy programming in research institutes, universities, development agencies, financial institutions and non-governmental organizations.

Philosophy

The M.Sc. in Social Policy is based on the philosophy of human capacity building as a factor to support development planning and management. The programme is anchored on the philosophy of empowering human resource as a factor of change in the society. It provides an opportunity for candidates, especially practitioners, to broaden their knowledge in the areas of policy formulation, implementation and evaluation with a view to addressing the existing and emerging social challenges in the society. It is also aimed at equipping the candidates with the capacity to suggest, initiate, and supervise the implementation of social policies.

Therefore, the programme is aimed at exposing students to prevailing social problems and the socio-political and economic prerequisites for policy formulation and implementation. It is imperative to build capacities (especially human resource) that will provide leadership in social policy formulation and implementation. A major focus of the course is to develop the ability to critically examine social, economic, and political factors that influence the formation and implementation of social policies. It will also analyze the impact of social policies on vulnerable populations (minorities, the poor, the aged, children and disabled), service providers, and communities. The grasp of current and emerging policies and their theoretical underpinning as well as practical analysis will equip students with the methods required to formulate and implement public-oriented social policies in all areas of public life.

Aims and Objectives

The aim of this programme is to provide postgraduate degree training in the field of Social **Policy** for building human capacity that could drive evidence-based policy and practice. The objectives are to:

1. Improve candidates' understanding of social policy formulation, programme design, implementation, monitoring and evaluation;
2. Equip the students with skills of conducting evidence-based research in social policies that are relevant to Nigeria and the international environment;
3. Prepare students to develop the capacity for data generation for policy making and analysis;
4. Train students to develop the capacity to identify social problems and proffer most sustainable solutions to social problems;
5. Equip students to understand the condition and needs of the vulnerable groups in society;
6. Provide a forum for practitioners to share ideas on effective and transparent ways of solving social problems;
7. Equip students with skills to implement innovative development interventions and effective monitoring and evaluation of interventions and
8. Expose the students to opportunities to integrate the SDGs into all facets of social policy planning and implementation.

Career Opportunities

Holders of M.Sc. Social Policy may find career opportunities in private and public sectors of the economy as policy analyst, administrators, human resources management, planning, social security, public finance management, child welfare, gender issues, demography and in academia.

Admission Requirements

Basic Admission Requirements for Masters Programme

The criteria for admission into M.Sc. Social Policy programme will be as follows:

1. Five (5) O-level credits passes including English;
2. Candidates with at least 2nd Class honours Lower Division in Social or Management Science;
3. Candidates with a PGD in Social Policy with a CGPA of 3.5 on a 5 point scale or its equivalent.

c) Duration of Programme

1. A full time Master's Programme should run for a minimum of 3 semesters and a maximum of 6 semesters.
2. Part-time Master's programmes should run for a minimum of 5 semesters and a maximum of 8 semesters.

d) Requirements for Graduation

To be awarded a Master's degree candidate must obtain a minimum of 30/36 credit units made up as follows:

1. Core courses of 15 credit units.
2. Elective courses of 9 credit units.
3. A student shall carry out research in any areas of specialization in his/her discipline and submit an acceptable project/dissertation of 6/12 credit units.
4. A student shall present at least one seminar of 3 credit units.

Areas of Specialisations/Stress Areas

1. Community Development
2. Social Welfare
3. Social Development
4. Social Inequality
5. Social Problems
6. Social Gerontology
7. Social Justice
8. Social Inclusion
9. Gender Analysis
10. Poverty Studies

11. Health policy

12. Programme Planning, Management and Evaluation

At least the dissertation should be in the candidates intended area of specialization.

To qualify for the award of M.Sc. degree in SOCIAL POLICY, a student must have taken a Minimum of Thirty (30) Credit Units and a Maximum of Forty-Five (45) Unit Load.

U.I. Ukazim, 35/50w.p.m.	Assistant Chief Typist

Brief History

Originally called the Crowther College of Theology, the Department came into existence with the University in 1960, and, in keeping with the philosophy of the University, remains attached to the Faculty of the Social Sciences. This is in itself a notable distinction and the Department has emphasized the application of religious truth to the environment and its place in Nigerian society.

Its philosophy is one with that of the University: to restore the dignity of man. It is concerned with religious aspect of man in society, especially the black man in third world. Religion is studied in its three areas of expression in Nigeria: Judeo-Christian, African and Islamic.

It started with offering a B.A. degree with emphasis in any two of the three stress areas. After the civil war it continued offering an initial degree (B.A) and later undergraduate diploma in Religious Studies and Postgraduate degree at Masters and Doctorate levels with emphasis on Christian Religious Studies. It became one of the service units in offering courses for regular and sandwich B.Ed. degree programmes in Education/ Religion. However, in 2005, the Diploma Programme was scrapped off the undertakings of the Department.

The Department has developed considerably over the years in terms of variety and levels of courses and programmes being offered. Some theological institutions are affiliated to the department namely, Trinity College, Umuahia, St. Paul's College Awka; Wesley International Theological Seminary Lagos, and Spiritan Theological Seminary, Attakwu. The quality of teaching staff recruited has also considerably improved to meet the growth of the department, but the number of teaching staff needs improvement. The Department also offers Combined Honours degree in the following combinations; Religion and Cultural Studies/Archaeology and Tourism, Religion and Cultural Studies/English & Literary Studies, Religion and Cultural Studies/History & International Relations, Religion and Cultural Studies/Public Administration & Local Government, Religion and Cultural Studies/Social Work, Religion and Cultural Studies/Sociology & Anthropology.

Philosophy

Religion and Cultural Studies is a field of study integrating Judeo-Christianity & African Traditional Religion. In keeping with the philosophy of the University of Nigeria, the programme emphasizes the application of religious truth to the cultural environment of Africa. Students are exposed to the basic theological positions of Islam and other world religions with emphasis on Christianity and this enables man to understand his environment and hence able to master his destiny.

Objectives

The general objectives of the programme are to provide students with adequate knowledge, attitudes, values and skills generic to religion and cultural studies. Specifically the programme is drawn to provide students with basic methods of:

1. Interpreting the Bible and Christian tradition from an African perspective;
2. Explaining ethical relationship in a multi-religious society like Nigeria;
3. Delineating impartial approach towards the handling of religious concepts;
4. Resolving conflict from religious and Afro-cultural standpoints;

5. Handling problems and challenges of religious belief in a science-oriented environment;
6. Explaining the resilience and challenges of African Traditional Religious and Cultural belief in a Christian-dominated environment.

Scope

Religion and Cultural Studies Programme harnesses appropriate knowledge to incorporating students' penchant and interest in the quality as well as cordial human relationship in a multi-religious and morally decadent society. It acquaints students with core contents of Christianity, African Traditional Religion and cultural practices, the basic content of Islam and Eastern Religions. The programme lasts for 3-4 years depending on entry qualification. The Programme is carefully structured to reflect adequately those required areas of knowledge, strengthening the rudiments of Judeo-Christianity and African Traditional Religion. Students are expected to learn the dynamics of religion in a multi-religio-cultural environment as Nigeria. Basic ethical demands in Afro-cultural environment are stressed. In the final year the programme is designed to apply Christian and African Traditional Religious beliefs to conflict resolution. The problems of Early Christianity and the resilience of African Cultural practices are highlighted.

Admission Requirements

There are two modes of entry into the programme subject to the candidate satisfying the University minimum entry requirements.

Applicants for admissions through UME must be holders of the Senior Secondary School Certificate Examination (SSSCE) or its equivalent with five credits including English Language and Christian Religious Knowledge.

For admission by Direct Entry (DE), candidates must have one of the following qualifications:

- (a) Five GCE papers of which three must be credits in ordinary level and two passes in Advanced level including Christian Religious Knowledge.
- (b) Holders of the 2-year Diploma from UNN or other approved Universities,
- (c) A 3 year Diploma of recognized theological Institutions (admitted by Direct Entry for 3 year programme).

The Direct Entry requirement for candidates holding a University of Nigeria, Nsukka Diploma in Religion with not less than a merit Level Pass shall have credit level passes in GCE/SSCE (or their equivalents) in five subjects, which may or may not include Christian Religious Knowledge but with a credit in English Language.

Job Opportunities

Graduates of this Department have opportunities to undertake advance studies in disciplines associated with religious and socio-cultural studies. Consultancy and employment opportunities abound in Bible translation agencies locally and internationally for graduates of Religious and Cultural Studies. Graduates of this programme are also trained to work in corporate bodies, companies and institutions as Public Relations Personnel and other related opportunities which require high ethical principles, as well as in conflict resolution related outfits. With a degree in Religious and Cultural Studies, students gain analytical skills and ability to formulate and defend positions. Thus they are ideal candidates for pursuing a carrier in business and administration. Jobs more closely related to religious and cultural studies is Lay Minister/ Pastoral Caregiver, Counsellor, Community Advisor, Management Trainer, Customer Services Representative, Community Project Coordinator, Aid Organisation administrator, Government/ Institution Policy Analyst, Peace Corps Officer, Ministry of Arts and Culture. They can also engage in self-employment as consultants.

Higher Technical Officer II
Higher Technical Officer II

Brief History

Based on the request of the Federal Government, Social Work was established in 1976 in the Department of Sociology and Anthropology in the Faculty of the Social Sciences principally to train and produce middle level manpower who can man the Social Welfare Departments in the Ministries. Since 1976, the Social Work Unit has pioneered the training of University level Social Workers in the country, in order to satisfy the need for this specialized manpower. It offered only the undergraduate Diploma Programme at first take off. In 1985 it started offering the Degree Programme and in 1986/87 session it started offering Post – Graduate Programmes viz Post-Graduate Diploma, M.Sc. and Ph.D. Social Work started as a Unit under the Department of Sociology and Anthropology, in November 2001, it was given a Sub-Departmental Status and in 2006, it was given a Departmental Status.

Philosophy

The undergraduate Programme in Social Work prepares high level manpower for professional practice in Social Work. Since the graduate of this Programme are expected to hold key positions in public and private agencies in the country, the curriculum exposes the students to the theory and practice of social work which equips them for professional practice.

Objectives

The general objective of the Programme is to produce students with adequate knowledge, attitudes, values and skills in generic social work practice specifically: To produce students who can enter into direct social work practice in the public, voluntary and private agencies such as hospital, family and child care service, the court and correctional institutions, schools, rehabilitation as well as other welfare services.

To assume leadership roles in rural and urban community development efforts, and assume responsible positions in the field of Social Work education and research, and undertake graduate student in Social Work.

Scope

The Department offers two kinds of Degree Programme viz

- (a) A four year B.Sc. (Honours) Social Work Programme, by UME and
- (b) A three-year B.Sc. (Honours) Social Work Programme by Direct Entry

Entry Requirements

Admission into four-year degree programme in the Department is by entrance examination conducted through Joint Admissions and Matriculation Board (JAMB). Candidates for four-year degree programme must satisfy the normal University entry requirement that is five credits in Senior Secondary School Examination/General Certificate of Education or its equivalent including English language and a science subject. Candidates who wish to pursue the three-year degree programme (for the Direct Entry Option) should have an OND certificate in Social Work/Community Development, at credit or merit/lower credit level pass from the University of Nigeria Nsukka or any other approved Universities. Such candidates must also have a credit in English language at the Senior School Certificate level or its equivalent and the normal University entry requirements.

Stress Areas

J.N. Alumanah, B.A., MA (Leeds), Ph.D. (Nigeria)	Professor
B. K. Chukwuezi, B.Sc., M.Sc. (Nigeria)	Reader
A.O. Onu, B.Sc., B.A., M.Sc. (Ibadan)	Reader
P-J Ezech, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
E.E. Uwakwe, B.Sc. (Nigeria), M.Sc. (Lagos), Ph.D. (Glasgow)	Senior Lecturer
C.U. Ugwuoke, B.Sc. (Calabar), M.Ed., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
A.A. Nzei, B.Sc., M.Sc. (Nigeria)	Senior Lecturer
G. N. Onyeneho, B.Sc. (Enugu), M.Sc., Ph.D. (Nigeria)	Senior Lecturer
N.O. Arukwe, B.Sc., M.Sc., Ph.D. (Nigeria)	Senior Lecturer
B.N. Nwokeoma, B.Sc., M.Sc., Ph.D. (Nigeria)	Lecturer I
C. Ugwu, B.Sc., M.Sc., Ph.D. (Nigeria)	Lecturer I
B.N. Osadebe, B.Sc., M.Sc., Ph.D. (Nigeria)	Lecturer I
C. Ugwuoke, B.Sc. (Enugu), M.Sc., Ph.D. (Nigeria)	Lecturer I
J.N. Aronu, B.Sc., M.Sc. (Nigeria)	Lecturer II
I. Igwe, B.Sc., M.Sc. (Nigeria)	Lecturer II
U.T. Okonkwo, B.Sc., M.Sc. (Nigeria)	Lecturer II
C.C. Atama, B.Sc., M.Sc. (Nigeria)	Lecturer II
S. Onah (Rev. Fr), BA (Rome), M.Sc., Ph.D. (Leuven)	Lecturer II
G.U. Chukwumezie, B.Sc., M.Sc. (Nigeria)	Lecturer II
K.C. Amadi, B.Sc. (Nigeria)	Graduate Assistant

General Information

The Department offers two modes of one undergraduate degree programme, viz:

- A Four-Year Single Honours degree
- A Three-Year Single Honours degree.

Entry Requirements

In addition to the minimum entry requirements of the University of Nigeria as stipulated in the University of Nigeria Calendar and JAMB brochure, candidates for admission into the Department of Sociology/ Anthropology by entrance examination (the Four-Year mode) are Required to have a credit in English Language in School Certificate or its equivalent. Candidates for direct entry (the three-year mode) should possess the General Certificate of Education, Advanced Level Passes, or their equivalent in any three of Social Science subjects and such Arts subjects as History and English Literature. Candidates who hold Senate approved relevant diplomas may also be considered. A combined Honours degree is available. This combines Sociology or Anthropology with any of the following disciplines: Psychology, Economics, Political Science, Religion, Philosophy and Archaeology. Transfer students from

recognized Universities are accepted on merit. Students with any other qualifications acceptable to the University Senate may also be admitted.

Philosophy

The Sociology/Anthropology Curriculum is uniquely designed to combine scholarship with relevance, breadth with depth, scientific objectivity with commitment in providing students with general grounding in the principles, theories, and methods of Sociology and Anthropology.

Objectives

The objectives of the Department are:

- 1) To provide an academically stimulating environment of learning in which the students' consciousness of social processes, social problems, social change can be raised and in which their creativity and self-reliance can be enhanced.
- 2) To create an atmosphere in which knowledge is associated with social purpose and in which students are willing and able to develop such social values and attitudes that will positively contribute to discipline, work ethics, and commitment to national development objectives.
- 3) By exposing students to the theory, principles, and methods of the discipline, to develop and improve students' independent thinking, writing and analytical ability as well as objective and critical judgment. This will enable them to develop their ability to scientifically observe, collect, and analyse data on cultural and socio-economic issues, on the basis of which they can understand social problems, make policy recommendations and, thus, contribute meaningfully to national and social development objectives. To this end, the Department attaches great importance to students' participation in courses through seminars, term papers, and application of social research analytic tools through research projects.
- 4) Against the above background, the Department aims at producing and maintaining a steady output of well-educated, committed, disciplined Nigerian citizens who are inspired by their grasp of social patterns, processes, and problems in Nigeria, Africa and their interrelationships with the world community to seek solutions to social problems and contribute to improving the quality of human life in Nigeria.
- 5) The Departmental programme offers valuable preparation for many different careers since it scientifically examines society, social causes and consequences of human behaviour. It specifically examines social forces which shape and are shaped by people, the work place and the family, the social institutions, social services, and social processes which shape public affairs. Thus, students planning careers in various fields find the sociological and Anthropological understanding complementary and enriching to their professional education in such areas as Law, Urban Planning and Research, Communications Media and Journalism, Health Services, Personnel\Human Resources Development, Nursing and the human services professions. Graduates of the Department have found employment in various human services in private and public sectors of the economy such as Policy Analysis, Administrative/Personnel Officers, Career Diplomats, Bankers, Police Officers, University lecturers and Professors, Rural Development Officers, Museum and Antiquities Directors and Specialists, Planning Officers, Demographers, Intelligence Officers, etc.
- 6) The exposure to other Social Science disciplines especially in the first two years as well as the compulsory General Studies Courses in the Use of English, Humanities and Natural Science ensure that students are well-educated and discipline. Their performance at Civil Service examinations and public/private settings underscore the relevance of the breadth of their education. Periodic reviews of the Department programme ensure that we reflect and retain their relevance to changing societal problems and respond to our national developmental needs while maintaining internationally accepted academic standards.

Brief History

The academic program in Veterinary profession at University of Nigeria, Nsukka started with a Higher Diploma in Animal Health and Husbandry in 1963 – just 3 years after the opening of the University. At the beginning of the 1966/67 Academic year, the program leading to the award of the professional degree of Doctor of Veterinary Medicine (DVM) was started but this was disrupted by the Nigerian Civil War. At the end of the war in 1970, the DVM program was revived with an initial intake of about twenty students. Between 1970 and 1980 the program operated as part of the Faculty of Agriculture and Veterinary Sciences, first as a single Department and by 1975/76 with three Departments: Veterinary Anatomy, Physiology and Pharmacology; Veterinary Pathology, Microbiology and Parasitology and Veterinary Medicine and Surgery.

The Veterinary program attained a faculty status in 1980 with a concomitant expansion to 6 Departments- Veterinary Anatomy; Veterinary Physiology, Pharmacology and Animal Production; Veterinary Pathology, Microbiology and Public Health; Veterinary Medicine, Veterinary Surgery and Obstetrics and Veterinary Parasitology and Entomology. Some 24 years later, in compliance with and fulfillment of the recommendations and demands of Veterinary Council of Nigeria (VCN) and the National Universities Commission (NUC) Accreditation Visitation Teams, three new Departments – Veterinary Public Health and Preventive Medicine; Animal Health and Production and Veterinary Obstetrics and Reproductive Diseases, were carved out from the existing Departments, bringing the total number of Departments to nine.

The various Departments including Parasitology & Entomology are engaged in the training of veterinary students in their progression from pre-clinical, para-clinical and clinical levels of the 6 – year professional DVM program. In addition, this department also has a well-established postgraduate program that involves various teaching and research activities that lead to the award of postgraduate degrees of Master of Science (M.Sc.) and Doctor of Philosophy (Ph.D.) in Veterinary Parasitology and Veterinary Entomology. Our staff also collaborate with other faculty members in this and other Universities to train and supervise graduate students.

This Department and its staff are involved in community and extension services through the Veterinary Teaching Hospital (VTH) and in collaboration with the Veterinary Services Units of the various State and Local Governments and their Chapters of the Nigerian Veterinary Medical Association (NVMA) in the southeast zone of Nigeria. Since its establishment, the department of veterinary Parasitology & Entomology and its staff participate actively in the well-established tradition of the faculty in veterinary education, research and service-rendering which has sustained the production of well-trained graduates who work to strengthen and advance the link between animal health and human health in Nigeria, Africa and globally since its establishment.

The pioneer head of the Department from 1980 was Prof Maximus M Ikeme. Himself, together with Prof K.S. Hegde were instrumental in the engagement of then Drs S.N Chiejina and L.C. Madubunyi, as pioneer senior academic staff for the newly created department.

History and Development of the Veterinary Faculty

Veterinary practice started in Nigeria in 1914 through a soldier serving in the Royal Armed Forces who happened to be a veterinarian. The academic program in Veterinary profession at University of Nigeria, Nsukka started with a Higher Diploma in Animal Health and Husbandry in 1963- just 3 years after the opening of the University. At the beginning of the 1966/67 academic year, the program leading to the award of the professional degree of Doctor of Veterinary Medicine (DVM) was started but this was disrupted by the Nigerian Civil War. At the end of the war in 1970, the DVM program was revived with an initial intake of about twenty students. Between 1970 and 1980 the program operated as part of the Faculty of Agriculture and Veterinary Sciences, first as a single Department and by 1975/76 with three Departments.

Veterinary program attained a Faculty status in 1980 with a concomitant expansion to 6 Departments- Veterinary Anatomy; Veterinary Physiology, Pharmacology and Animal Production, Veterinary Parasitology and Entomology; Veterinary Pathology, Microbiology and Public Health; Veterinary Medicine and Veterinary Surgery and Obstetrics. Some 24 years later, in compliance with and fulfillment of the recommendations and demands of Veterinary Council of Nigeria (VCN) and the National Universities Commission (NUC) Accreditation Visitation Teams, three new Departments- Veterinary Public Health and Preventive Medicine; Animal Health and Production and Veterinary Obstetrics and Reproductive Diseases, were carved out from the existing Departments, bringing the total number of Departments to nine.

Objectives

The broad base objective of the program is to produce highly motivated and adaptable Veterinary Surgeons, who are well equipped to embark on a successful career in Veterinary Practice, Public health and preventive medicine; in biomedical, and livestock industries, and who are to become the academic teachers and researchers of the future.

The program shall be to promote excellence, achieve and sustain high national and international standing in teaching and learning through provision of broad and balanced foundation courses in Veterinary Medicine with adequate practical exposure; developing in the students' ability to apply biomedical knowledge and skill to clinical

problems, disease control, livestock production, and to environmental problems; developing in the students a range of transferable skills of value in clinical and non-clinical employment; and providing the students with knowledge and skills from which they can pursue further studies in specialized areas of Veterinary Medicine and in multidisciplinary areas.

Philosophy

Veterinary Medicine is a professional discipline, which develops and exposes the students to multi-disciplinary dimensions of modern livestock health management, production and public health, in order to produce high level Veterinary manpower in the country. The program also, prepares students for high level academic and research capabilities. The concepts of veterinary economics and entrepreneurship have been incorporated to expose the students to the ever increasing trend towards private veterinary practice.

Scope

Veterinary Medicine is both a science and an art dealing primarily with the health and diseases of animals; their diagnosis, treatment, prevention and eradication. The science embodies special knowledge gained through training, observations, and research. The art involves the personal skill and ability to make practical use of the special knowledge gained.

Veterinary Medicine is vital to our national development because the profession is intimately related to both Agriculture and Human Health. A career in Veterinary Medicine therefore entails the study and practical application of aspects of agricultural and medical sciences.

In relation to Agriculture, the veterinary profession is directly involved in livestock production and management through the protection of animal health, alleviation of animal suffering, improvement of livestock breeds and production methods, and promotion of farm animal industry.

Veterinary profession relates to human health in two ways: Firstly, diseases which affect food producing animals (cattle, sheep, goats, pigs, fish, etc) and reduce animal productivity have adverse effects on human health by reducing animal protein available to man. By safeguarding food supply derived from animal sources (meat, milk, eggs, etc), the veterinary profession achieves its ultimate goal- the promotion of human health. Secondly, several animal diseases (rabies, tuberculosis, tapeworms, bird flu, etc) are transmitted from animals to man and thereby endanger human health. It is the veterinarian's responsibility to acquire knowledge and carry out necessary measures to control these diseases in animals and thus reduce human exposures and infections.

The veterinary profession is committed to the advancement of medical knowledge and veterinarians have made significant contributions to studies in human and animal health problems. Human medicine derives much on information gained through experiments in animals carried out by veterinarians and other scientists. New drugs, new vaccines, new techniques in surgery are often tested in animals before being introduced for human use.

John Dunlop, a veterinary surgeon having observed the anatomical structure and function of the hoof of the horse, constructed the first pneumatic rubber tyre. The tyre operates on the same principle as the horse hoof. His invention gave rise to the now famous Dunlop tyres.

Although veterinary practice is restricted to animals, the first successful caesarean section on a living woman was performed by Jacob Nuffer, a Swiss veterinary surgeon. Gason Ramon, a French veterinarian developed the first toxoids against the diseases, Diphtheria and Tetanus. Both toxoids make up 2 of the 3 vaccines now used as TRIPPLE VACCINE for immunization of children. The BCG vaccine against tuberculosis was produced through the collaboration of a veterinary scientist (Calmette) and a physician (GUERIN).

Undergraduate Courses Offered by the Department of Veterinary Pathology & Microbiology

VPM342: General Veterinary Microbiology

VPM 344: General Veterinary Pathology

VPM 346: General Veterinary Immunology

VPM441: Veterinary Bacteriology

VPM442: Pathology of the Digestive and Urinogenital Systems

VPM443: Veterinary mycology

VPM 444: Pathology of Integumentary, Musculoskeletal, and Nervous Systems

VPM 445: Veterinary Virology

VPM446: Pathology of Bacterial, Viral, and Poultry Diseases

VPM 447: Pathology of the Haematopoietic, Cardiovascular, Respiratory, and Special Sensory Systems

VPM 448: Pathology of Fungal, Protozoan, Parasitic, Nutritional, Metabolic, and Endocrine Disease

VPM 641: Veterinary Clinical Pathology (Haematology, Clinical Biochemistry, and Cytology)

Veterinary Physiology and Pharmacology

Brief Background

The Department of Veterinary Public Health and Preventive Medicine was carved out of the conglomerate Department of Veterinary Pathology, Microbiology and Public Health in 2004.

The Department is involved with the training and graduating of undergraduates (DVM) students in the Faculty of Veterinary Medicine and postgraduate students in the following discipline of the Veterinary Public Health; Epidemiology, Zoonoses, Biostatistics, Veterinary Economics, Jurisprudence, Preventive Medicine, Food Hygiene/Food Safety, Environmental Health, and Computer Application in Veterinary Medicine.

The Department carries out collaborative research and Community Services in the areas of Meat Inspection at abattoirs and slaughter houses within our catchment areas (Eastern zone). The Department undertakes mass vaccination programmes and has been involved in the surveillance of major Epizootics (Rinderpest, Trypanosomosis, Avian Influenza, Rabies) within the southeast zone of Anambra, Enugu, Ebonyi, Imo and Abia States.

The Department has been recognized as one of the centres of excellence by the Veterinary Council of Nigeria. By this development, the Public Health Faculty of the Veterinary Surgeons of Nigeria is domiciled in the Department.

Undergraduate Academic Programme

Fifth Year (DVM IV) – Veterinary Medicine		UNITS
VPH 521	Zoonosis and Environmental Health	2
VPH 523	Meat, Milk and Fish Hygiene	2
VPH 525	Epidemiology and Veterinary Economics	2
VPH 527	Biostatistics and Computer Application	2
VPH 529	Veterinary Preventive Medicine and Jurisprudence	2

General Information and Academic Programme (Faculty)

The Faculty of Veterinary Medicine offers a degree programme leading to the award of Doctor of Veterinary Medicine degree. The course extends over a minimum of 6 years for JME candidates and 5 years of Direct Entry candidates. It comprises a pre-professional phase of one year duration and a professional phase of five-year duration (DVM I to V).

Philosophy, Objectives and Scope of the Programme

The programme is structured to inculcate the understanding of basic anatomic and physiologic features of a range of normal animals as a prelude to the assessment of deviations in various disease conditions. The inter-relationship of production disease and management must be appreciated. The programme emphasizes the philosophy that the profession exists to alleviate the suffering caused by diseases to animals, encourage production of animals, encourage production of animals to satisfy various human needs and to ensure human health by prevention of Zoonic diseases. The aim of the programme is to produce well trained graduates who will become self-employed veterinarians. The professional programme is based a 20-week semester.

Entry Requirements

JME Entry Requirements: Prospective candidates must satisfy both the University minimum entry and specified Faculty requirements. The Faculty specifically requires that a candidate must have passed Chemistry Mathematics, Physics, and Biology at least at credit level in Senior Secondary School Certificate, GCE O/L or an equivalent examination. The subjects to be taken in JME are Chemistry, Physics Biology and English Language.

Direct Entry Requirements

Candidates must have passes at GCE A/L or HSC or an equivalent examination in Chemistry, Biology and Physics in addition to credit in Mathematics in SSCE or GCE O/L or an equivalent examination. Holders of Higher Diploma in Animal Health and Husbandry of the University of Nigeria or other equivalent Diploma, plus credit in Physics and Mathematics in GCE/OL or equivalent are also eligible for Direct Entry admission.

Job Opportunities

Veterinary Medicine is closely related to human Medicine as, well as, pharmaceutical, biological and animal sciences. Thus its study is of importance in understanding public health and ecological problems. With this background and education, the Veterinarian has many employment opportunities. Some of the exiting career opportunities in Veterinary Medicine in Nigeria are as follows:

Government Services: Federal, State or Local Governments with assignments in food animal production, disease control and eradication; meat inspection, public health, animal disease research and administrative positions.

Public health: Veterinarians are employed by several agencies for formulating and reforming many food and sanity laws related to public and animals.

Teaching and Research: Veterinarians are employed in various veterinary and Medical faculties Research Institutes. Veterinary / Biological production and Animal Research institutes, Veterinary Biological product and animal diseases investigation centres and in schools training livestock diseases, investigation centres and in School training Livestock Assistance farm personnel.

Industry: Those dealing with development and production of pharmaceuticals and food to both human use as well as in their quality control and marking employed veterinarians.

Private Practice: With increase in number of companion animals (dogs, cats, birds) being reared by Nigerians, performance animals (horse) and commercial livestock production in private and public sectors, private veterinary practice has become the most lucrative avenue for self-employment of veterinarians in Nigeria.

Extension Veterinarians: Mostly employed by Federal or State Ministries for disseminating the research findings of veterinary faculties and research institutes to livestock and poultry farmers, as well as identifying the problems in the field that can be solved by the above faculties and research institutes.

Fish, Zoo and Wild Life Medicine: With the establishment of more wild game reserves and zoos and fish ponds there is increased scope of employment for veterinarians in these areas.

Police Force: With increase in the number of mounted troops and police dogs, more veterinarians are recruited by the Nigerian Police Force to cater for the welfare of these animals.

Nigeria Army: The Nigerian Armed Forces also recruit Veterinarians as Officers to cater for the welfare of animals used by mounted troops.

General Information

The Department of Veterinary Obstetrics and Reproductive Diseases is one out of the nine component academic Departments in the Faculty of Veterinary Medicine, University of Nigeria, Nsukka. Initially in 1980, it existed as a Veterinary Obstetrics Unit in the Department of Veterinary Surgery and Obstetrics, but in the year 2005, it attained the status of an independent academic department named Department of Veterinary Obstetrics and Reproductive Diseases. The Department offers courses in Veterinary Gynecology, Obstetrics, Andrology and Artificial Insemination to undergraduate Doctor of Veterinary Medicine students as part of the core courses needed to produce graduates of Veterinary Medicine (Doctors of Veterinary Medicine). The Department also offers Master of Science (M.Sc.) and Doctor of Philosophy (Ph.D.) programmes in Veterinary Obstetrics and Reproductive Diseases as further specialized training for Veterinarians who may want to specialize in the area of Animal Reproduction and Reproductive Diseases. As good reproductive performance is vital for profitable animal production, the Department plays a key role in the upbringing of Veterinarians and further specialized training of Veterinarians wishing to specialize in the area of Veterinary Obstetrics and Reproductive Diseases.

Objective, Philosophy and Scope

The objective of the undergraduate programme of the Department of Veterinary Obstetrics and Reproductive Diseases is to contribute to the production of high quality Veterinary graduates by equipping students of the undergraduate Doctor of Veterinary Medicine programme with knowledge and training in the area of Veterinary Gynecology, Obstetrics, Andrology, Artificial Insemination, and other aspects of assisted reproduction in animals. The higher degree programmes (M.Sc. and Ph.D.) further gives the Veterinarians specializing in Animal Reproduction in-depth and advanced training in the above listed areas, and beyond becoming specialized in these areas are also offered research training and opportunity for further studies in the areas of Veterinary Gynecology, Obstetrics, Andrology and Artificial Insemination. The ultimate products of the Department programmes are Veterinarians and Specialized Animal Reproduction experts who can diagnose, handle, treat, manage and carry out research in the area of reproductive disorders and fertility challenges in animals, and who can use modern assisted reproduction techniques to enhance animal reproduction.

Veterinary Obstetrics and Reproductive Diseases is both an art and a science dealing with the reproductive health and reproductive diseases of animals. The science embodies specialized knowledge gained through training, observation and research, while the art involves the acquisition of skills and ability to handle animal reproduction problems.

The role that enhanced reproduction plays in the overall profitability of livestock enterprises cannot be underestimated. Thus, by arming Veterinarians and Animal Reproduction experts with knowledge and capabilities in Veterinary Obstetrics and Reproductive Diseases, the Department contributes its quota to the upbringing of high quality Animal Health experts.

Job Opportunities

Graduates of the Doctor of Veterinary Medicine programme who amongst other courses had been trained in the area of Veterinary Gynecology, Obstetrics, Andrology and Artificial Insemination are readily employable in the Veterinary Division of Federal, State and Local government public services where they are needed for Veterinary, clinical services, food animal production, pet care, and animal disease control and eradication programmes. They are also readily employed in livestock and poultry farms, Universities, Colleges of Agriculture, Research Institutes,

the Police, Army, Immigrations, Zoos and Wild Life Reserves etc. A large proportion of Veterinary graduates go into private practice which had formed a strong anchorage for pet care and small scale animal production.

Higher degree graduates of the Department of Veterinary Obstetrics and Reproductive Diseases render specialized animal reproduction services in breeding farms, zoos and games reserves. They are also involved in research and training in areas of reproduction in universities, research institutes and veterinary divisions of other allied establishments.

General Information

Entry Requirements

(a) **UTME**

4-year degree programme:

Credits in any five subjects which must include: English Language, Agricultural Science or Biology or Animal Husbandry or Fishery plus at least a pass in Chemistry in SSCE/GCE (O'L), NECO/NABTEB or their equivalent, obtained in not more than two sittings.

(b) **Direct Entry (DE)**

3-year degree programme:

- (i) A pass in NCE Agricultural Science plus, at least, a pass in O'level Chemistry.
- (ii) GCE A'level pass in any two of the following: Agricultural Science, Chemistry, Physics, Botany, Zoology, Mathematics and Economics.
- (iii) National Diploma (ND) or Diploma from any recognized Nigerian School of Agriculture, or Faculty of Agriculture of any recognized University.

Candidates with University Diploma at a minimum of Merit level, in the following disciplines listed below and who possess the University minimum entry requirements plus, at least a pass in Chemistry at SSCE/GCE (O'L)/NECO/NABTEB may be considered for Direct Entry admission but will run a 4 year programme:

- (i) Diploma in Computer Education or Computer Science
- (ii) Diploma in Social Work
- (iii) Diploma in Adult Education
- (iv) Diploma in Environmental Protection and Management

Candidates with a pass level at NCE will run a four-year degree programme.

Job Opportunities

Graduates of the degree programme in Agricultural Education can obtain employment as teachers in secondary schools or technical colleges and colleges of education. The programme is generally geared towards the fulfilment of the need for professionally qualified technical teachers who can impart technical knowledge and vocational skills to their students in various agricultural areas and thereby contribute to the economic development of Nigeria. Agricultural Science at the Junior and senior secondary schools will adequately be taught by graduates of the programme. More importantly the graduates can be self-employed on graduation in Agriculture related occupations and can work in Ministries of Agriculture (Extension Unit) and parastatals.

Brief History

The Department of Business Education was among the departments established in 2015 from the former Department of Vocational Teacher Education,. The former department had its original mandate under Ford Foundation Project Grant No.6400475 for \$380,000 in 1964. As one of the departments from inception of the Faculty of Vocational Teacher Education, Business Education was created to fill a gap between the normal conventional university education and education for skill acquisition. Its creation was aimed at providing the beneficiaries with a solid education for business, education for economic and job competency, education for career preparation and exploration as well as education for social and work adjustment. The Unit was originally at Enugu Campus of University of Nigeria till 1978 when it was moved to Nsukka Campus.

In Nigeria, Business Education programme was first established in the University of Nigeria following the recommendation of Akinson Committee Report of 1960, although the programme was run as a unit until 2015 when the Business Education Department came into existence. It is salient to note that as a result of the pioneering role

of Business Education in the University of Nigeria, almost all the institutions that offer Business Education programmes in Nigeria at the university, polytechnic and college of education levels are administered by the products of this Department and or established their Business Education programme based on the departmental curriculum.

The Department of Business Education is made up of three broad units, namely: Accounting Education, Marketing Education and Management Education. It offers both undergraduate and postgraduate programmes. The curriculum of Business Education has been revised several times in response to the changing needs of the society. Today Computer-assisted Instruction is the mode of delivery.

Philosophy

The importance of Business Education has been recognized by the present state and federal governments in Nigeria. In consonance with the National Policy on Education, the Department of Business Education is charged to produce teachers who can effectively teach all business subjects at the post primary level of education and obtained gainful employment in the private and public sectors. Sociologically Business Education is important because individuals who have saleable skills would become socially and economically useful citizens in their communities.

Objectives

The objectives of the Department of Business Education are to train teachers who can occupy teaching and leadership positions in secondary schools, technical colleges, colleges of education, universities and training programmes in business-related establishments. The Department also aims at making available to students opportunities to explore and learn the world of business and the possible interest and potential careers it has to offer. Another objective of the Department is to enable students to acquire basic skills in business occupations as beginners who expect to enter business as a career after graduation.

Scope

The Department of Business Education has three major units: Accounting Education, Marketing Education and Management Education. Generally, Business Education offers bachelor degree programmes leading to the award of Degree of Bachelor of Science in Business Education at the under graduate level and M.Ed. and Ph.D. at the postgraduate levels. The department offers two degree programmes at the undergraduate levels:

- i. 4-year standard degree programme for UTME candidates.
- ii. 3-year degree programme for Direct Entry candidates.

The department of Computer and Robotics Education, University of Nigeria, Nsukka began as a unit domiciled in the then Department of Vocational Teacher Education, with the task of training teachers that will teach computer studies in schools and professionals in computer hardware maintenance, Information Technology, software application and programming.

The unit started in 1994 when a 2-year diploma programme for the Technical Teachers Training (TTTP) was offered. The program was later modified in 1996, to an Ordinary Diploma certificate program to accommodate other

students who may not be technical teachers but with interest in computer studies. In 1998, the Bachelor of Science (B.Sc.) degree program in computer education commenced getting its first students majorly from the graduates of her diploma Program. Currently, the diploma programme has been scrapped and so the programme majorly gets her students from the Universities Matriculation Examination (UME) board in Nigeria.

In 2015, the Computer Education unit became a full-fledged Department of Computer and Robotics Education at the creation of the Faculty of Vocational and Technical Education, University of Nigeria, Nsukka. Since the inception of the Computer and Robotics Education programme, the department has affiliated her programmes with other tertiary institutions in Nigeria. This was one of the ways of ensuring the spread of the programme to the other parts of the country. Some of the affiliated institutions include:

1. The Department of Technical Education at Yaba College of Technology, Yaba.
2. School of Vocational Technical Education at College of Education, Ikerekiti in Ekiti State.
3. Alvanikoku College of Education, Owerri, and
4. NwaforOrizu College of Education, Nsugbe.
5. Federal College of Education, Omoku

Philosophy

The Department is designed to develop and execute a world-class computer and Robotics education programme intended to provide sound theoretical and practical training for students in the areas of educational software development, hardware maintenance, networking and robotics. This intention was born out of the national need to produce professionals that would impact computing and educational robotic skills on citizens of Nigeria for improved economic and social relevance. Education today can no longer effectively function without Information and Communication (ICT). Moreover, at the heart of ICT is the computer and its applications. For Nigeria to produce technologically qualified professionals and teachers, teachers who can impact computing and robotics skills must be produced. Also, any meaningful teaching in the 21st century demands instructional technologies most of which are Internet-based, simulation and robotics harnessed, all which are computer and electronic dependent. The principle guiding the discipline is to produce individuals with saleable computing and pedagogical skills who would in turn be relevant in the society.

Objectives

The objectives of the Department of Computer and Robotics Education are to train:

1. Teachers equipped with theoretical and practical experiences to take up teaching jobs and leadership positions in secondary schools, technical colleges, colleges of education, and universities.
2. Professionals who would be self-employed in computing disciplines.
3. Graduates who would be employed in computing related establishments.
4. Professionals with practical skills to develop robotic applications for instructional delivery.

Scope

The Department of Computer and Robotics Education offers programmes leading to the degree of Bachelor of Science in Computer and Robotics Education. Specialization in Computer and Robotics Education offers a 4-year standard degree programme for UTME candidates. The Programme offers her students courses in vocational and technical education, software development and application, hardware maintenance/ management, networking and communication and robotics education.

Job Opportunities

Graduates of the degree programme in Computer and Robotics Education are properly equipped to take on jobs as teachers of computer and robotics studies in schools and colleges; professionals in software development firms, hardware maintenance firms, Information Technology firms, and other allied industries/parastatals. Most importantly, graduates of the Programme are self-employed.

Entry Requirements

For admission into the 4-year degree programme in Computer and Robotics Education degree programme, prospective candidates must satisfy the University of Nigeria minimum entry requirements and should also meet the following Departmental requirements: Credit level Passes in English Language, Physics or Mathematics, and any three of the following subjects: Chemistry, Biology, Agric Science, Physics, Mathematics and Economics at WASC/SSCE/NECO/GCE/NABTEB.

General Information

The Department of Home Economics and Hospitality Management Education was formerly the Home Economics unit of the Department of Vocational Teacher Education that was established in 1964. She became a full-fledged Department in 2015 as one of the six Departments created at the establishment of the Faculty of Vocational and Technical Education in University of Nigeria, Nsukka. The new Department therefore came into being in 2015. This Department has produced high level manpower who are gainfully employed in various sectors of the Nigerian economy as teacher, administrators, entrepreneurs, among others.

The Department as a unit of the then Department of Vocational Teacher Education has collaborated fully with the Faculty of Education in affiliating most of her programmes with other tertiary institutions in Nigeria. Some of the affiliate institutions where Home Economics is offered are, Yaba College of Technology, Yaba, Lagos State under the department of Technical Education; College of Education Ikere –Ekiti in Ekiti State under school of Vocational Technical Education; Alvan Ikoku Federal College of Education, Owerri under School of Vocational Technical Education. Federal College of Education Technical, Omoku, Rivers State and School under school of Vocational

Education; Nwafor Orizu College of Education Nsugbe, Anambra State under School of Vocational and Technical Education.

Philosophy

The philosophy of Home Economics and Hospitality Management Education is equipping individuals for problem identification, ideas generation, creative problem solving and entrepreneurship in relevant multifaceted occupational areas for wealth creation and self-reliance

Objectives

The objectives of the Department of Home Economics and Hospitality Management Education are to:

1. train teachers who can occupy teaching and leadership positions in Secondary Schools, Technical Colleges of Education and Universities in Home Economics and Hospitality Management Education.
2. produce entrepreneurs in Home Economics and Hospitality Management Education related trade areas including but not limited to: Food and Hospitality trades, Textile trade, Fashion and Garment making trade, Institutional Management trades, among others.
3. prepare individual who can create jobs and employ labour to contribute to national development.

Scope

The Department of Home Economics and Hospitality Management Education is designed to provide both theoretical and practical training in the following areas: Child Development and Care; Clothing and Textiles; Food and Nutrition; Home Management; Hospitality Management and Entrepreneurship Education.

Job Opportunities

Candidates who successfully complete the programme have career prospects in various areas of employment such as teachers in secondary school or technical colleges, managers in Hotel in catering establishments, among others.

Entry Requirements

Prospective candidates must satisfy the University of Nigeria minimum entry requirements and should also meet the Departmental requirements to be admitted into four-year standard programme. Candidates must possess the entry requirement of five "O" level credits which must include Chemistry or Biology and any two of the following: Home Management, Clothing and Textile, Food and Nutrition, Agricultural Science, Garment Making, Cosmetology, Catering craft and Economics at WASC / SSSCE/GCE O' Level NABTEB /NECO or its equivalent, obtained at not more than two sittings.

Brief History of the Department

The Department of Industrial Technical Education was a unit of the former Department of Vocational Teacher Education which happened to be one of the earliest Departments established in 1962, but now a Faculty of Vocational and Technical Education. The Department of Industrial Technical Education became a full-fledged Department on July 29, 2015 at the creation of the Faculty of Vocational and Technical Education. Since the inception of the Department of Industrial Technical Education, the Department has developed competent and skilled teachers that work in all areas of life in Nigeria and the world over. The department has also produced many graduates at First Degree, Masters and Ph.D. levels. The new Department of Industrial Technical Education is made up of distinct units/trades/occupational areas and offers both undergraduate and postgraduate programmes in Building and Woodwork Technology Education; Electricity and Electronics Technology Education; as well as Metalwork and Automobile Technology Education.

Philosophy of the Programme

The programme is geared towards skills acquisition in different areas of human endeavour for gainful employment. With competence in the acquired skills, the programme graduates will have something to offer to themselves and to the society.

Objectives

The objectives of the programme are to train:

1. teachers who can occupy teaching and leadership positions in Secondary Schools, Technical Colleges, Colleges of Education, Universities and Training Programmes in Industrial Establishments;
2. entrepreneurs in the Mechanical trades; Electrical trades; Electronic trades; Woodwork trades; Automobile trades; and Building trades;
3. graduates who can be self-employed in their various trades.

Scope

The specific areas of Vocational and Technical Education covered by the programme are: Automobile Technology, Building Technology, Electrical Technology, Electronic Technology, Metalwork Technology, and Woodwork Technology. The Department of Industrial Technical Education offers B.Sc. Industrial Technical Education in the following areas of specialization:

1. Building and Woodwork Technology
2. Electrical and Electronic Technology
3. Metalwork and Automobile Technology

Job Opportunities

Graduates of the Degree Programme in Industrial Technical Education do obtain employment as teachers in Secondary Schools; Technical Colleges; Polytechnics; Colleges of Education and Universities. The programme is geared towards the fulfillment of the need for professionally qualified technical teachers who can impart technical knowledge and vocational skills to their students and thereby contribute to the economic development of Nigeria. Graduates of the various programmes in Industrial Technical Education teach: Basic Technology in Junior Secondary Schools, Electronic Works, Radio and Television Maintenance, Technical Drawing, Woodwork, Metalwork, Applied Electricity, Electronics, Building Construction, GSM Maintenance and Auto-Mechanics in Senior Secondary Schools and Technical Colleges. Graduates of Industrial Technical Education can also be employed in the training Departments in Industries.

Entry Requirements

For admission into any of the degree programmes, prospective candidates must satisfy the University of Nigeria minimum entry requirements and should also meet the following requirements:

UTME

For a Four-Year degree programme, UTME candidates are required to fulfill any one of the following requirements:

1. The candidate must possess five O'Level credits, which must include English Language, Physics or Mathematics in West African Senior Secondary School Certificate (WASSSC)/Senior Secondary School Certificate (SSSC)/General Certificate of Education (GCE) or National Examination Council (NECO)/National Business and Technical Examinations Board (NABTEB), obtained in not more than two-sittings.
2. City and Guilds Intermediate plus credit in Mathematics or Physics in West African Senior Secondary School Certificate (WASSSC)/Senior Secondary School Certificate(SSSC)/ General Certificate of Education (GCE) or National Examination Council(NECO)/National Business and Technical Examinations Board (NABTEB).
3. National Technical Certificate in relevant Trade areas.
4. West African Examination Council (WAEC) Technical Certificate in relevant Trade areas.

Direct Entry (DE)

For admission into any of the three year degree programmes, prospective candidates must satisfy the University of Nigeria minimum entry requirements and should also meet the requirements for UTME in addition to the requirements for Direct Entry as follows:

In addition to meeting the UTME requirements, Direct Entry (DE) candidates are required to fulfill any one of the following requirements:

1. A minimum of National Diploma (ND) (Engineering: Civil, Mechanical/Production; Electrical and Electronics; Building/Wood).
2. Distinction, Credit or Merit in Nigerian Certificate in Education (NCE) (Technical).
3. City and Guilds Final or Engineering Technicians Part II Certificate.
4. National Diploma in related Technology Education.

Third Year

VTE 301	Research Design in Vocational and Technical Education.	2
VTE 302	Practical Teaching in Vocational and Technical Education.	6
ITE 301	Technical Drawing III	2
ITE 303	Introduction to Maintenance	2
<i>Major Options: (Choose all the courses in one option)</i>		
Option 1 – Building Construction and Woodwork		
ITE 321	Building Construction Technology III	2
ITE 323	Interior Design and Decoration	2
ITE 325	Building Science	2
ITE 361	Woodwork Technology III	2
Option 2 – Electrical and Electronics		
ITE 331	Electrical Power Systems Principles	2
ITE 333	Circuit Theory I	2
ITE 335	Electrical Machines I	2
ITE 341	Electronic Technology II	2

Option 3 – Metalwork and Automechanics

ITE 311	Automobile Technology Systems	2
ITE 313	Auto Parts Merchandizing	2
ITE 351	Welding and Fabrication Technology II	1
ITE 353	Machine Shop Technology II	2
ITE 355	Foundry Technology II	1
EDU 311	Educational Psychology II	2
		<hr/> 22

Fourth Year

ITE 306	Evaluation in Industrial Technical Education	2
ITE 305	Occupational Analysis and Course Construction in Industrial Technical Education	2
ITE 308	Curriculum Development and Design in Industrial Technical Education.	2
VTE 401	Vocational Guidance	2
ITE 401	Technical and Architectural Drawing	4
ITE 403	Management of Industrial Technical Education Laboratory	2
ITE 485	Seminar in Technology Education	2
ITE 409	Research Methods in Industrial Technical Education	2

Major Options: (Choose all the courses in one option)

Option 1 – Building Construction and Woodwork

ITE 425	Building Quantities and Estimating	2
ITE 461	Applied Woodworking	2

Option 2 – Electrical and Electronics

ITE 435	Electrical Technology II	2
ITE 437	Circuit Theory II	2

Option 3 – Metalwork and Automechanics

ITE 413	Automechanics Technology II	2
ITE 451	Machine Shop Technology III	2
		<hr/> 22

Fifth Year

VTE 402	Administration of Vocational and Technical Education	2
VTE 404	Evaluation in Vocational and Technical Education	2
ITE 407	Entrepreneurship Development in Technology Education	2
ITE 490	Project	6

Major Options: (Choose all the courses in one option)

Option 1 – Building Construction and Woodwork

ITE 422	Building Construction Technology IV	3
ITE 424	Project in Building Construction and Woodwork Technology	3
ITE 426	Building Maintenance	2

Option 2 – Electrical and Electronics

ITE 434	Project in Electricity/Electronics Technology	3
ITE 436	Entrepreneurial Development and Maintenance of Electrical and Electronic Appliances	2
ITE 442	Electronic Communication	3

Option 3 – Metalwork and Automechanics

ITE 412	Quality Control and Entrepreneurial Development in Automobile Technology	2
ITE 414	Projects in Auto mechanics Technology	2
ITE 452	Quality Control and Entrepreneurial Development in Metalwork Technology	2
ITE 454	Projects in Metalwork Technology	2

10. College of Postgraduate Studies

Staff

O. U. Njoku, BSc, MSc, PhD (Nigeria)	Professor/Dean
N.O. Ogbonaya, B.AED, M.Ed., Ph.D. (Nigeria)	Professor/Associate Dean
T. Ugwueze, B.Sc., PGDE, M.Sc., MPA (Nigeria), FCA1	Deputy Registrar/Secretary
J.U. Omeje, B.Sc. , M.Sc. (Enugu)	Senior Assistant Registrar
U.C. Asogwa, B.Ed., M.Ed., Ph.D. (Nigeria)	Senior Assistant Registrar
E.E. Ugorji, B.Ed., PGD, M.Ed. (Nigeria)	Senior Assistant Registrar
S.N. Odita, B.Ed., M.Ed. (Nigeria)	Senior Assistant Registrar
J. Okeibunor, B.Sc. (Nigeria)	Admin Officer
O.L. Agbo, B.Sc. (Nigeria)	Assistant Registrar
V.N. Nwokocha, B.Ed., 120/50WPM Pitmans (Nigeria)	Chief Conf. Secretary
E. Ugwu, B.Ed. (Nigeria)	Chief Executive Officer
F.K. Ukpai, B.Ed. (Nigeria)	Chief Executive Officer
F.O. Ibeabuchi, B.Sc. (Nigeria)	Chief Executive Officer
F.U. Agu, B.Sc., M.Sc. (Nigeria)	Chief Executive Officer
I.R. Emeka-Akwanwanna, B.Sc., M.Sc. (Nigeria)	Assistant Chief Exec. Officer
C.A. Ossai, B.Sc., M.Sc. (Nigeria)	Principal Executive Officer I
C.P. Ugwu, B.Sc. (Nigeria)	Principal Executive Officer I
I.P. Okpukpara, B.Ed., M.Ed. (Nigeria)	Principal Executive Officer I
J.E. Egwuda, B.Ed. (Nigeria)	Principal Executive Officer II
E.N. Ogbonna, B.Ed. (Nigeria)	Principal Executive Officer II
E.I. Nwachukwu, B.A. (Nigeria)	Principal Executive Officer
P.N. Odoh, B.Ed. (Nigeria)	SDPO II
J.B. Ajibo, B.Ed. (Nigeria)	Senior Executive Officer
C.N. Orji, HND. (Enugu)	Senior Executive Officer
P.U. Ugwu, B.Sc. (Nigeria)	Higher Executive Officer
R.I. Ajogwu, HND. (Nigeria)	Higher Technical Officer II
N.S. Mmerife, B.Ed. (Nigeria)	Higher Technical Officer II

J.U. Azoribe, HND. (Enugu)	Higher Technical Officer II
L.G. Ezeja, BL. (Ebonyi), LL.B. (Nigeria Law School)	Higher Technical Officer II
B.E. Ofodike, B.Sc. (Benin)	Higher Technical Officer II
V.I. Madumere, BLIS. (Nigeria)	Higher Technical Officer II
J.I. Ogbu, B.Sc. (Nigeria)	Higher Technical Officer II
C.M. Nwokoro, B.Sc. (Abia)	Higher Technical Officer II
N.A. Oguekusi, B.A. (Abuja)	Higher Technical Officer II
N.C. Didiugwu, B.Sc. (Nigeria)	Higher Technical Officer II
C.M. Odunukwe, B.Tech. (Owerri)	Higher Technical Officer II
D.N. Jideofor, B.Sc. (Nigeria)	Executive Officer
E. Ezema, B.Sc. (Nigeria)	Data Entry Operator/Assistant Executive Officer
C.N. Attah, B.Ed. (Nigeria)	Assistant Executive Officer
M.N. Iloputaife, B.Sc. (Nigeria)	Assistant Executive Officer
N.C.C. Igu, B.Sc. (Nigeria)	Senior Clerical Officer
M.C. Obalum, B.Sc. (Nigeria)	Senior Clerical Officer
L.E. Ogbonnaya, B.Ed. (Nigeria)	Higher Technical Officer II

Historic Perspective

The University started a modest postgraduate studies in 1966 by running postgraduate diploma courses. Up till 1978, postgraduate studies in the University were under the control of the Registrar through the senate Postgraduate Studies Committee.

Senate of the University of Nigeria during its 104th meeting held on 30 May, 1979 approved the recommendation of its Postgraduate Studies Committee that a School of Postgraduate be established in the University to supersede the existing postgraduate unit which was managed by the Registrar. The secretariat of the School was set up as a semi-autonomous unit under a Director (now Dean). The Dean is elected by Senate to serve for a period of two years in the first instance. The appointment is renewable thereafter for another period of two years provided that the incumbent does not hold office for more than two consecutive two-year periods. The Secretary is responsible to the Dean for effective operation of the School.

The School of Postgraduate Studies is established to oversee the administration and development of postgraduate Studies in the University. Various Departments in the University offer postgraduate courses in academic and professional areas leading to the award of postgraduate diplomas, master's degree and higher doctorate degrees including D.Sc., D.Litt., etc.

Postgraduate Diplomas and Higher Degree Awarded

The under-listed postgraduate diplomas and higher degrees may be awarded after a candidate has undergone the full courses of instruction in the respective faculties:

Ph.D.	Doctor of Philosophy	M.Pharm.	Master of Pharmacy
D.P.A.	Doctor of Public Administration	M.F.A.	Master of Fine Arts
M.Sc.	Master of Science	M.U.R.P	Master of Urban and Regional Planning
M.A.	Master of Arts	LL.M	Master of Law
M.Arch.	Master of Architecture	M.L.S	Master of Library Science
M.Ed.	Master of Education	M.P.H	Master of Public Health
M.Engr.	Master of Engineering	P.G.D.E.	Postgraduate Diploma
M.B.A.	Master of Business Administration	P.G.D.T.E.	Postgraduate Diploma in Technical Education
M.P.A.	Master of Public Administration	M.V.M	Master of Veterinary Medicine

Approved Postgraduate Programmes

The University of Nigeria, Nsukka offers postgraduate programmes leading to the award of Postgraduate Diplomas, Master's and Doctorate degrees in various Faculties and in the areas of specialization indicated under each Department/Institute/Centre as follows:

1. FACULTY OF AGRICULTURE

PGD, M.Sc. and Ph.D. programmes

A. Department of Agricultural Economics

Farm Management and Production Economics; Agricultural Marketing and Agribusiness; Agricultural Finance and Project Analysis; Agricultural Cooperative and Resources; Environmental Economics.

The Department of Agricultural Economics also offer PGD programme in Co-operative Studies; Farm Management and Production Economics; Agribusiness and Marketing.

Departments of Food Science and Technology, Crop Science, Animal Science, Agricultural Extension and Soil Science, offer Postgraduate Diploma Programmes.

B. Department of Animal Science

Animal Nutrition and Biochemistry; Animal Production; Animal Physiology; Animal Breeding and Genetics.

C. Department of Crop Science

PGD, M.Sc. and Ph.D.

Crop Physiology Economic Entomology; Crop Production; Forage Crops; Hematology; Innamental Horticulture; Plant Breeding and Genetics; Plant Pathology; Tropical Fruits and Plantation Crops; Vegetable Crops; Weed Science.

D. Department of Agricultural Extension

Agricultural Administration; Agricultural Communication; Agricultural Extension Education; Agricultural Planning and Evaluation or Rural Sociology.

E. Department of Food Science and Technology

Food Chemistry and Analysis; Animal Production Technology; Fruits and Vegetable Processing Technology; Quality Control and Assurance; Cereals, Pulses, Legumes and Tuber Processing Technology; Food Biotechnology; Food Engineering and Processing.

F. Department of Home Science, Nutrition and Dietetics

PGD, M.Sc. and Ph.D. programmes in Home Science, Nutrition and Dietetics.

G. Department of Soil Science

Soil Genesis; Survey and Classification; Soil Chemistry and Mineralogy; Soil Fertility and Management; Soil Physics and Conservation; Soil Biology and Biochemistry; Environmental Impact Assessment and Land Evaluation.

2. FACULTY OF ARTS

PGD, M.A. and Ph.D. degree programmes

A. Department of Archaeology and Tourism (M.A. and Ph.D. Programmes only)

Paleolithic Studies; Iron Age Archaeology; Origins of Food Production and Urbanization; and Cultural Resource Management (Museum or Tourism Option).

B. Department of English and Literary Studies (PGD, M.A and Ph.D.)

English as a Second Language (ESL); English Language; Literature; and Comparative Studies and Literature.

C. Department of Fine and Applied Arts

Ph.D. Art History; Ph.D. Art Education; Ph.D. Art Administration and Management; Ph.D. Fine Arts and Design (with specialization in Painting, Print Making; Sculpture-Visual Communication Design; Textile Design; Fashion Design; Ceramics).

M.F.A. with specialization in Painting; Print Making; Sculpture; Textile Design; Fashion Design; Ceramics; Communication Art and Design (Options: Graphic Design and Advertising; Product Design; Web Design and New Media); Film Making and Photography.

M.A. Art History: Traditional African Art; Modern African Art; Asian Oriental Art; African-American Art.

M.A. Art Education; M.A. Art Administration and Management

PGD in Fine and Applied Arts.

D. Department of Foreign Languages and Literary Studies (MA programme)

African Literature in French; German Literature; Caribbean Literature in French; Translation (FEENG – FRE).

The Department also offers Ph.D. programmes in the following areas of specialization:

African Literature in French; Caribbean Literature in French; German Literature.

E. Department of History and International Studies (M.A. and Ph.D.)

Political History; Economic and Social History; and Religious History.

F. Department of Linguistics, Igbo and Other Nigerian Languages (M.A)

Linguistics; African Languages; Literature in African Languages; and Translation and Interpretation).

The Department also offers Ph.D. in the following areas of specialization:

Linguistics; African Languages and Literature.

G. Department of Mass Communication

PGD, M.A and Ph.D.

Electronic Media Sequence; the Print and Media Sequence; Advertising and Public Relations; Communication Theories and Research.

H. Department of Music

1. DEPARTMENT OF MUSIC Postgraduate Diploma in Music (PGDM)

- | | |
|--|--|
| 1 African Music Industry. | 3 Music Education. |
| 2 Ensemble/Theatre Directing and Management. | 4 Research. |
| | 5 Composition and Musical Instrument Technology. |

MA Degree Programme

- | | |
|---|--|
| 1 Ensemble/Theatre Directing and Management | 3 Research. |
| 2 Music Education. | 4 Composition and Musical Instrument Technology. |

Ph.D. Degree Programme

- | | |
|--------------------|---|
| 1 African Music. | 5 Music Performance and Musical Instrument Technology |
| 2 Music Education. | 6 Ensemble/Theatre Directing and Management. |
| 3 Composition. | 7 Research and Musical Instrument Technology. |
| 4 Musicology. | |

I. Department of Theatre and Film Studies

(M.A and Ph.D.)

- | | |
|--|--|
| 1 Acting and Directing. | 6 Film and Media Arts Studies. |
| 2 Dramatic Theory and Criticism. | 7 Performance Studies. |
| 3 Applied Theatre. | 8 Scenography. |
| 4 Playwriting. | 9 Theatre and Cultural Administration. |
| 5 African and Caribbean Drama and Theatre. | |

3. FACULTY OF BIOLOGICAL SCIENCES

M.Sc. and Ph.D. programmes

A. Department of Biochemistry

Environmental Biochemistry; Enzymology; Industrial Biochemistry; Medical Biochemistry; Nutritional Biochemistry; Molecular Biology; and Pharmacological Biochemistry.

The Department also offers Ph.D. programme in Lipid Biochemistry.

B. Department of Microbiology

Brewing Science and Technology (PGD); Medical Microbiology (M.Sc. and Ph.D.); Environmental Microbiology (M.Sc. and Ph.D.); Food/Industrial Microbiology (M.Sc. and Ph.D.); and Brewing Science and Technology (M.Sc.).

C. Department of Plant Science and Biotechnology

Biosystematic/Taxonomy; Palynology/Palaeoecology; Plant Anatomy; Plant Physiology; Ecophysiology; Plant Pathology; Mycology; Genetics and Plant Breeding; Plant Ecology; Environmental Botany/Economic Botany; Plant Biotechnology; Bagel Biotechnology; Aquatic Botany; Phycology/Limnology (Aquatic Ecology); and Ethnomedicine/Phytomedicine.

D. Department of Zoology and Environmental Biology

(M.Sc. And (Ph.D.)

- | | |
|---------------------------------------|--|
| 1 Animal and Environmental Physiology | 5 Hydrobiology/Aquatic Sciences |
| 2 Parasitology and Public Health | 6 Ecology and Environmental Biology |
| 3 Entomology and Forensic Sciences | 7 Animal Genetics, Molecular Biology and Biotechnology |
| 4 Fishery Science and Aquaculture | |

4. FACULTY OF BUSINESS ADMINISTRATION

PGD, MBA, M.Sc. and Ph.D. programmes

A. Department of Accountancy

Financial Accounting; Management Accounting, Auditing and Investigation; Taxation Laws and Accounts; Public Sector Accounting; Management Information System.

Department of Banking and Finance

Banking; Financial Theory and Management; Investment; Financial Institutions; International Finance and Public Finance.

B. Department of Management

Administrative Theory and Practice; Human Resources Management; Production and Operations Management; Analytical Techniques; Corporate Strategy and Business Policy; Project Management and Feasibility Analysis; and Comparative Management Systems.

C. Department of Marketing

Marketing Communications; Physical Distribution and Channel Management; Industrial Marketing; Consumer-Buyer Behaviour; and International Marketing, Strategic Marketing. The Department of Marketing also offers executive M.Sc. degree programme in Public Relations.

Faculty of Business Administration offers MBA degree broad-based professionally oriented programme in Accounting, Banking and Finance; Management and Marketing.

5. FACULTY OF EDUCATION

PGDE, PGDL, M.Ed. and Ph.D. degree programmes in the following Departments:

A. Department of Adult Education & Extra Mural Studies

Adult Education Administration; Community Development; Extension & Distance Education.

B. Department of Arts Education

Curriculum Studies; Language Education; Educational Technology; Comparative & International Education; Music Education; Fine & Applied Arts Education.

C. The Department of Educational Foundations

Childhood Education; Educational Psychology; Guidance & Counselling; History of Education; Philosophy of Education; Sociology of Education; Special Education.

D. Department of Human Kinetics and Health Education

Public Health Education; School Health Education; Mental and Emotional Health Education; Occupational and Industrial Health Education; Administration and Management of Physical Education and Sports; Curriculum and Physical Education Teacher Education; Psychology of Sports; Sociology of Sports; Recreation and Tourism; Exercise Physiology; Adapted Physical Education. For PGD: (a) Health Education (PGDHE); (b) Human Kinetics and Sports Studies (PGDHKS).

E. Department of Library & Information Science

M.L.S and Ph.D. Degree Programmes

F. Department of Science Education

Educational Research Methodology; Mathematics Education; Physics Education; Chemistry Education; Biology Education; Measurement & Evaluation, and Integrated Science Education.

G. Department of Social Science Education

Economics Education; Political Science Education; Population & Family Life Education; Geographical & Environmental Education; and Social Studies Education.

Postgraduate Diploma programmes in the Faculty of Education are domiciled as follows: (PGDE) in Educational Foundations; PGDL in Library & Information Science; Postgraduate Diploma in Environmental Education domiciled in the Department of Social Science Education.

6. FACULTY OF ENGINEERING

M.Sc., M.Eng. And Ph.D. degree programmes

A. Department of Agricultural & Bioresources Engineering

Farm Power & Machinery; Soil Water Engineering; Agricultural Products Processing & Storage; and Farm Structures & Environmental Control.

B. Department of Civil Engineering

(PGD, M.Sc., M.Eng., Ph.D.)

Structural Engineering; Water Resources Engineering; Soil Mechanics & Foundation Engineering; Materials & Construction; and Highway Engineering.

C. Department of Electrical Engineering

Power Electronics, Drives and New System; Electrical Machine and Drives; Electromagnetic Fields and Application; Power Systems and High Voltage Engineering; and Automatic Control Systems.

D. Department of Electronic Engineering

(M.Sc, M.Eng. and Ph.D.)

Communications; Digital and Computer Electronics. Currently, the Department of Electronics Engineering has no facilities in the area of Control Systems.

E. Department of Mechanical Engineering

(PGD, M.Sc., M.Eng., Ph.D.)

Energy and Power Technology; Materials Technology and Mechanics; Fluid Mechanics and Gas Dynamics; Design and Production Technology; Industrial Engineering and Management.

The Departments of Civil Engineering and Mechanical Engineering offer PGD programmes.

7. FACULTY OF ENVIRONMENTAL STUDIES

PGD, M.Sc., M.Arch. and Ph.D. Programmes

A. Departments of Architecture

Architectural Design; Architectural Science and Technology; Housing; Construction Management; Architectural History and Theory; Sustainable Design; Architectural Conservation; Architectural Practice and Management; Industrial Design; Landscape Architecture Design; Urban Design, Computer Aided Design/Technology and Media Architecture and Interior Design.

B. Department of Estate Management

(M.Sc. and Ph.D.)

Valuation; Feasibility/Viability Appraisals; Taxation, Facility and Property Management; Development and Utilization and Land Resources inclusive of Estate and Interests tread as strongly rooted in Philosophical and Socio-economic foundations of their Relationship to man, society and environment.

C. Department of Geoinformatics & Surveying (PGD, M.Sc., MGIT and Ph.D.)

- | | |
|------------------|---------------------------------------|
| 1 Land Surveying | 5 Hydrography |
| 2 Geodesy | 6 Cartography |
| 3 Photogrammetry | 7 Geographic Information System (GIS) |
| 4 Remote Sensing | 8 Land Information Management (LIM) |

D. Department of Urban & Regional Planning (MURP and Ph.D.)

Information Technology in Urban and Regional Planning; Traffic and Transportation Planning; Transportation Planning and Development; Conservation/Preservation; Housing and Community Development; Recreation and Facility Planning; Regional/Rural Analysis and Planning; Development Control; Environmental Management; and Social Science and Planning.

8. FACULTY OF HEALTH SCIENCES & TECHNOLOGY

M.Sc. and Ph.D. programmes

A. Department of Health Administration & Management

Health Economics; Health Management & Policy.

The Department of Health Administration also offers PGD programme.

B. Department of Medical Laboratory Science

Clinical Chemistry; Haematology; Histopathology; Microbiology; and Immunology.

C. Department of Medical Radiography & Radiological Sciences

Medical Imaging; Radiation/Environmental Protection; Radiological Education;

Radiotherapy & Oncology; and Radiology Administration & Management.

E. Department of Medical Rehabilitation

Physiotherapy; Pathokinesiology; Biomechanics; and Neurology.

F. Department of Nursing Sciences

Maternal & Child Health Nursing; Medical Surgical Nursing; Mental Health & Psychiatric Nursing; Nursing Administration & Management; and Nursing Education.

9. FACULTY OF LAW

LL.M. and Ph.D. degree programmes in the Departments of

Public & Private Law; Property & Commercial Law; International Law & Jurisprudence.

Programme areas available in the Faculty are:

Jurisprudence & Legal Theory; Comparative Constitutional Law; Comparative Company Law; Comparative Criminal Law; Law of Commercial Transactions; International Human Rights Law; Energy & Natural Resources Law; Law of Commercial Arbitration; Sentencing & Treatment of Offenders; Law of Marine Insurance; and Law & Medicine.

10. FACULTY OF MEDICAL SCIENCES

M.Sc. and Ph.D. degree programmes are offered by the following Departments:

Anatomy; Medical Biochemistry; Pharmacology & Therapeutics; Human Physiology; Medicine and Surgery.

MPH degree programme is offered by the Department of Community Medicine in the following areas of specialization:

Department of Community Medicine

MPH in Public Health

Epidemiology of Community Disease; Health Services Management/Health Economics, Occupational and Environmental Health; Social Medicine; Health Education; Maternal and Child Health.

Department of Pharmacology & Therapeutics

M.Sc. and DMSC degree programmes.

Department of Medicine

M.D. and M.S. degree programmes.

11. FACULTY OF PHARMACEUTICAL SCIENCES

M.Pharm, M.Sc., (Pharm); and Ph.D. degree programmes

A. Department of Clinical Pharmacy & Pharmacy Management

Pharmaceutical Services e.g. drug information services; Pharmacotherapy of various units e.g. oncology, cardiovascular, neurology; Ambulatory Care/Adult Medicine; Clinical Pharmacokinetics/biopharmaceutics; Hospital Pharmacy; Pharmaceutical care; Social Pharmacy/Behavioural Pharmacy; Pediatric Pharmacy; Hematology; Pharmacy Practice Management; Infectious Diseases; Public Health Pharmacy; Pharmacoeconomics/Pharmacoepidemiology; Social Pharmacy/Behavioural Pharmacy; Pediatric Pharmacy; Hematology; Pharmacy Management; and Infectious Diseases.

B. Department of Pharmaceutics

Physical Pharmaceutics; Compounding; Pharmaceutical Microbiology & Biotechnology; Dispensing; and Pharmacy practices.

C. Department of Pharmaceutical Chemistry

Natural Products Chemistry; Drug Metabolism; and Analytical Pharmaceutical Chemistry.

F. Department of Pharmaceutical Technology and Industrial Pharmacy

Powder and Tablet Technology; Semi-Solid Dosage Design; Cosmic Science; Liquid Formulations Technology; Biopharmaceutics and Pharmacokinetics.

G. Department of Pharmacology and Toxicology

Autonomic Pharmacology; Neuropharmacology; Biochemical Pharmacology; Chemotherapy; Clinical Pharmacology; Toxicology; Cardiovascular Pharmacology; Natural Product Pharmacology; Advanced General Pharmacology; Advanced Pharmacokinetics and Drug Interactions.

12. FACULTY OF PHYSICAL SCIENCES

M.Sc. and Ph.D. degree programmes

A. Department of Computer Science

Data Communication; Software Development; Numerical Analysis; Information Management; Software Engineering; Microprocessor Based Systems.

B. Department of Geology

(M.Sc. and Ph.D. programmes in the following areas):

- | | |
|-------------------------------------|-----------------------------------|
| 1 Economic Geology and Geochemistry | 7 Palaeontology and Stratigraphy |
| 2 Engineering Geology | 8 Palynology |
| 3 Environmental Geology | 9 Petroleum Geoscience |
| 4 Applied Geophysics | 10 Structural Geology |
| 5 Hydrography | 11 Stratigraphy and Sedimentology |
| 6 Mineralogy and Petrology | |

Applied Geophysics; Economic Geology and Geo-Chemistry; Mineral Exploration; Engineering Geology; Hydrogeology; Mineralogy and Petrology; Paleobiology and Biostratigraphy; Stratigraphy and Sedimentology; Petroleum Geology; and Structural Geology.

C. Department of Physics & Astronomy

Solid Earth Geophysics; Astrophysics; Condensed Matter Physics & Materials Science;

Solar Energy Physics; Atmospheric Physics; Medical Physics.

D. Department of Pure & Industrial Chemistry

Inorganic; Physical; Organic; Analytical; Fossil Fuel; Polymer; and Industrial Chemistry.

E. Department of Statistics

Stochastic Processes; Operations Research; Applied Statistics; Time Series Modelling, Design of Experiments.

13 FACULTY OF THE SOCIAL SCIENCES

PGD, M.Sc. and Ph.D. degree programmes

A. Department of Economics

Economic Theory; Economic Development and Planning; International Economics, Money and Banking; Labour Economics and Industrial Relations; Quantitative Economics; Energy Economics; Public Sector Economics.

B. Department of Geography

Geomorphology; Climatology and Physical Oceanography; Hydrology and Water Resources; Biogeography; Cartography; Remote Sensing; Environmental Management; Agricultural Geography; Rural Geography; Urban Geography; Industrial Geography; Transportation Geography; Population Geography; Political Geography; Climate Change Economics; and Policy & Innovation.

C. Departments of Philosophy

Political and Social Philosophy; Western Metaphysics; Moral Philosophy; History of Western Philosophy and African Philosophy.

D. Department of Political Science

(M.Sc. and Ph.D. programmes in the following areas):

- | | |
|---|--|
| 1 Political Theory | 5 International Relations and Diplomacy |
| 2 Public Administration | 6 Political Economy |
| 3 Comparative Politics, Development and Social Change | 7 Conflict, Peace and Strategic Studies |
| 4 Electoral Studies | 8 Human Security and Counter-Terrorism Studies |

E. Department of Psychology (M.Sc. & Ph.D. degree programmes)

Experimental Psychology; Developmental Psychology; Clinical Psychology; Industrial/ Organizational Psychology; Social Psychology; School Psychology; and Counselling Psychology.

F. Department of Public Administration and Local Government

MPA, M.Sc., DPA & Ph.D. degree programmes.

Financial Management; International Administration; and Human Resources Management.

G. Department of Religion & Cultural Studies

M.A. and Ph.D. degree programmes

Old Testament; New Testament; Church History; Traditional Religion; Religion and Society.

Departments of Religion & Cultural Studies and Philosophy do not offer PGD programmes.

H. Department of Sociology/Anthropology (M.Sc. and Ph.D. degree programmes)

PGD

- | | |
|----------------------------|-----------------------------------|
| 1 Criminology | 3 Industrial and labour Relations |
| 2 Gender and Women Studies | 4 Social Development Studies |

Ph.D.

- | | | |
|---|-------------------------------------|-------------------------------|
| 1 Anthropology | 10 Gender and Women Studies | 19 Political Sociology |
| 2 Anthropology and Development | 11 Industrial and Labour Relations | 20 Postcolonial Studies |
| 3 Climate Change and Society | 12 Industrial Sociology | 21 Rural Sociology |
| 4 Comparative Ethnography | 13 Medical Anthropology | 22 Security Studies |
| 5 Criminology and Sociology of Deviance | 14 Medical Sociology | 23 Social Development Studies |
| 6 Culture and Communication | 15 Military Sociology and Diplomacy | 24 Social Institutions |
| 7 Demography and Population Studies | 16 Oral Tradition and Sociology | 25 Symbolic Anthropology |

8	Environmental Sociology	17	Organizational Sociology	26	Urban Anthropology
9	Family Studies	18	Political Anthropology	27	Urban Sociology

I. Department of Social Work

(PGD, M.Sc. and Ph.D. degree programmes)

Intervention; Social Work Ethics & Values; and Community Development.

The Department also offers PGD in Political Science and Election Administration.

14 FACULTY OF VETERINARY MEDICINE

M.Sc. and Ph.D. degree programmes

A. Department of Veterinary Anatomy

Neuroanatomy; Developmental Anatomy Embryology; Microscopic Anatomy (Histology); Gross and Comparative Anatomy; Immunochemistry; Histochemistry; and Applied Anatomy and Biotechnology.

B. Department of Animal Health and Production (M.Sc., and Ph.D. Degree Programmes)

Large Ruminant Health and Production; Small Ruminant Health and Management; Dairy Animal Health and Production; Nutrition in Health and Disease; Swine Health and Production; Nutrition and Management; Animal Genetics and Breeding; Animal Health Management and Economics.

C. Department of Veterinary Medicine

(M.Sc., and Ph.D. Degree Programmes)

Avian Medicine; Ruminant Medicine; Small Animal Medicine; Swine Medicine; Equine Medicine; Fish Laboratory and Wildlife Medicine; Ethnoveterinary Medicine.

C. Department of Veterinary Obstetrics & Reproductive Diseases

Veterinary Andrology; Gynaecology; Obstetrics and Reproductive Biotechnology.

D. Department of Veterinary Parasitology and Entomology

(M.Sc., and Ph.D. Degree Programmes)

Parasitic Infections; Parasite Zoonoses; Clinical Aspects; Epizootiology; Diagnosis and Control.

E. Department of Veterinary Pathology and Microbiology

(M.Sc., and Ph.D. Degree Programmes)

(i) Veterinary Pathology: Diagnostic (Anatomic) Pathology; (Clinical Pathology (Haematology and Clinical Chemistry); Avian Pathology Nutritional Pathology.

(ii) Veterinary Microbiology: Bacteriology; Virology; Mycology; Micoplasmology and Rickettsiology; and Immunology.

D. Department of Veterinary Physiology and Pharmacology

(M.Sc. and Ph.D. programmes)

F. Department of Veterinary Public Health and Preventive Medicine

(M.Sc., MVPH, MPVM and Ph.D. Degree Programmes)

- (i) **Public Health:** Zoonoses; Food Safety; Including Meat, Fish and Milk Hygiene; Environmental Health and Occupational Safety.
- (ii) **Preventive Medicine:** Epidemiology; Disease Surveillance; Emergency Preparedness and Information Management; Veterinary Quarantine Services; Livestock Production Economics and Entrepreneurship.

E. Department of Veterinary Surgery & Radiology

M.Sc., and Ph.D. degree programmes

Veterinary Surgery; Diagnostic Imaging; Anaesthesiology; Orthopedic; Soft Tissue Surgery; and Animal Surgery.

15. FACULTY OF VOCATIONAL AND TECHNICAL EDUCATION

PGDE, PGDTE, M.Tech., M.Ed. and Ph.D. degree programmes

A. Agricultural Education

(PGDTE, M.Tech., M.Ed. and Ph.D.)

Technology Education in Production Agriculture; Agro-Business Education; Soil Education

B. Business Education

(PGDTE, M.Tech., M.Ed. and Ph.D.)

Software Development and Application; Hardware Maintenance and Management; Networking Communication; Robotics Education; Accounting Education, Marketing Education and Management Education.

C. Computer Education

(PGDTE, M.Tech., M.Ed. and Ph.D.)

- (a) Software Development and Application.
- (b) Hardware Maintenance and Management.
- (c) Networking and Communication;
- (d) Computer and Robotic Education.

D. Home Economics and Hospitality Management

(PGDTE, M.Tech., and Ph.D.)

Child Development and Care Education; Clothing and Textile Technology Education; Food and Nutrition Education; Home Management; and Hospitality Management Education.

E. Industrial Technical Education

(PGDE, PGDTE, M.Tech., and Ph.D.)

Building/Woodwork Technology; Electrical/Electronic Technology; Metal Work/Automobile Technology.

F. Vocational and Entrepreneurship Education

Vocational Education (Masters and Ph.D.); Entrepreneurship Education (Masters and Ph.D.) ;

Agricultural Education (PGDTE); Business Education (PGDTE); Computer Education (PGDTE); Home Economics and Hospitality Management (PGDTE); and Industrial Technical Education (PGDTE).

16. INSTITUTE OF AFRICAN STUDIES

Offers PGD, M.A., M.Sc. and Ph.D. degree programmes

African Peace and Conflict Studies (PGD); African Studies (M.A. & Ph.D. and Peace and Conflict Studies (MA).

17. INSTITUTE FOR DEVELOPMENT STUDIES (IDS)

PGD, M.Sc. & Ph.D. degree programmes

The IDS has the following areas of specialization at Masters (M.Sc.) degree level:

Governance and Social Change; Poverty, Power Relations and Social Change; Knowledge, Technology and Society; and International Development.

At Ph.D. degree level, the Institute has the following areas of specialization: Human and Social Development; Community Development; Conflict Resolution and Peace-Building; and Natural Resources and Sustainable Development.

18. INSTITUTE OF MARITIME STUDIES (IMS)

Offers PGD and M.Sc. degree programmes in Maritimes Studies in the following areas:

M.Sc. and PGD in Maritime Business and International Logistics; M.Sc. and PGD in Maritime Law and Policy; M.Sc. in Maritime Telecommunication; PGD in Radio Maritime Telecommunication; and M. Sc in Maritime Management.

19. CENTRE FOR ENVIRONMENTAL MANAGEMENT & CONTROL

Centre for Environmental Management and Control (CEMAC) offers PGD, M.Sc. and Ph.D. degree programmes in Environmental Management & Control; Disaster Risk Management. The Centre also offers Master's degree programmes in Disaster Risk Management (MDRM).

20. POSTGRADUATE PROGRAMMES IN CLIMATE CHANGE ECONOMICS, POLICY AND INNOVATION (CCEPI)

The Centre offers PGD, M.Sc. AND Ph.D. degree programmes in Climate Change Economics, Policy and Innovation. Presently, the PGD and degree programmes in Climate Change are based in the Department of Geography, Faculty of the Social Sciences.

GENERAL ENTRY QUALIFICATIONS FOR POSTGRADUATE PROGRAMMES

- i. Candidates for admission into any postgraduate programme of the University must have obtained 5 credits at not more than two sittings in WASC or GCE or NECO or NABTEB including English Language. Candidates shall also possess the minimum entry requirements for admission into the first degree and postgraduate programmes in their areas of interest for postgraduate studies.
- ii. Graduates of the University of Nigeria or other recognized Universities who possess the above qualifications are eligible to apply.
- iii. For the PGD in Civil Engineering, Mechanical Engineering, and Architecture, only candidates with University degrees in relevant areas need apply.

A. POSTGRADUATE DIPLOMA PROGRAMMES

- i. Holders of Credit (Upper credit) level passes at HND or its equivalent in
- ii. relevant areas (for programmes in the Faculties of Agriculture and Business Administration; the Departments of Political Science, Public Administration & Local Government; and Vocational Teacher Education; and for

Postgraduate Diploma in Electoral Administration Programme). Qualifications such as AIB, ACCA, ACMA, ICAN, BEEC, CPA, etc. may also be considered for admission.

iii. Candidates with professional qualifications including HND must have obtained 5 credits in WASC or GCE O/L including English and Mathematics for admission into degree courses in Business Administration.

iv. For Postgraduate Diploma in Geoinformatics & Surveying in particular, candidates with third class honours degrees in Geography, Geology and other Physical Sciences, HND Upper Credit level passes in related fields, are also eligible.

v. Candidates, who hold qualifications other than the above which are acceptable to the Board of the School of Postgraduate Studies and Senate of the University, may also be considered for admission.

FACULTY OF AGRICULTURE

Entry Requirements in Nutrition and Dietetics (PGD)

For PGD programme in Nutrition and Dietetics, candidates must have any of the following qualifications from recognized institutions:

1. HND in Nutrition and Dietetics with a minimum of Upper Credit or Third Class Bachelor's Degree in Nutrition and Dietetics.
2. **M.Sc. in Nutrition and Dietetics:** Candidates seeking admission into M.Sc. in Nutrition and Dietetics must have obtained as follows:
 - a) HND (Upper Credit) in Nutrition and/or Dietetics with PGD (Credit level) in Human Nutrition and/or Dietetics.
 - b) Bachelors degree with at least 2nd Class Honours (Lower Division) in Nutrition and Dietetics.
 - c) Bachelor's degree in related discipline with a minimum of Second Class Honours (Lower Division) and PGD in Nutrition and Dietetics at credit level in addition to satisfying the University matriculation requirements.
3. **Ph.D. or M.Sc./Ph.D.:** Candidates seeking admission for Ph.D. degree programme or M.Sc./Ph.D. programme in Human Nutrition and Dietetics must have any of the follow qualifications from recognized institution:
 - a) Master's degree in Human Nutrition and Dietetics with GPA of 3.5.

Department of Home Science

1. **PGD:** Candidates seeking admission for PGD in Home Science must have any of the following qualifications from recognized institution:
 - a) HND in Home Science/Economics or relevant fields with a minimum of Upper Credit.
 - b) Third class Bachelor's degree in Home Science/Economics.
2. **M.SC:** Candidates seeking admission for the Master of Science programme in Home Science must have any of the following qualifications from recognized institution:
 - a) Bachelor's degree in Home Science or related discipline with a minimum of Second Class honour (Lower Division).
 - b) Bachelor's degree in Home Science or related discipline with 3rd class honours degree plus PGD passed at Upper Credit level.
 - c) HND Upper Credit plus PGD at Upper Credit level in addition to satisfying University matriculation requirements.
3. **Ph.D.:** Candidates seeking admission into Ph.D. programme or firm registration in Home Science must have Masters Degree in Home Science/Home Economics or related discipline from recognized Institution.
 - a) With minimum GPA of 3.5 or 60% without failed courses.
 - b) Those with an average of 50% with outstanding course(s) will take them and as well proceed to their Doctorate programme.
 - c) Those with an average of less than 50% will retake the entire courses.

ENTRY REQUIREMENTS INTO THE FACULTY OF LAW

LL.M: Candidates seeking admission into the LL.M programme of the Faculty of Law must among other thing obtained a CGPA of not less than 3.0.

Ph.D.: Candidates seeking admission into Ph.D. programme of the Faculty of Law must have obtained a CGPA of not less than 4.0.

Other entry qualifications are as contained in the General Entry Requirements for candidates seeking admission into the University of Nigeria, Nsukka.

B. MASTER'S DEGREE PROGRAMME

The following shall qualify for Master's Degree admission:

- i. Graduates of the University of Nigeria or of other recognized universities who have obtained the Bachelor's degree in relevant disciplines with at least a second class honours with not less than 2.50 GPA;
- ii. Candidates with relevant Postgraduate Diplomas from the University of Nigeria or any other recognized university with at least credit level passes with a minimum GPA of 3.5 on a 5-point scale or 3.0 on 4-point scale;
- iii. Candidates whose first degrees are unclassified but have scores of 50% or above;
- iv. For M.Ed. degree programmes, candidates with at least a good second class single honours degree in teaching subjects plus at least a merit level pass at Postgraduate Diploma in Education, or those who hold a third class honours degree in teaching subjects plus Postgraduate Diploma in Education passed at credit level or above;
- v. For MPA degree programme, candidates should, in addition to (i) and (ii) above, be serving administrative/managerial staff in the Public or Private sector with a at least two years post-qualification cognate experience;
- vi. Holders of professional Fellowship qualifications such as FIMLT, FNILT, NIPR, or their equivalents obtained through examination. However, candidates with the professional certificates listed above must have worked as Senior Technologist(s) or in equivalent position(s) for at least three years;
- vii. For MPH degree programme, candidates should in addition to (i) above, have at least three years relevant post qualification experience or at least a Second Class Honours degree in Nursing Sciences, Sociology and Social Work, Psychology, Medical Microbiology, Medical Biochemistry, Medical Laboratory Sciences, Health Education, Pharmacy, DVM, MBBS and BDS. For MPH Degree Programme, the Department will screen the candidates further and base their recommendation on such screening result.
- viii. Candidates who hold qualifications other than those listed above, which are acceptable to the Senate of the University of Nigeria.

C. DOCTORATE DEGREE (Ph.D.) PROGRAMME

Candidates from the University of Nigeria or from other recognized Universities who have obtained Master's degree appropriate for the proposed areas of study shall qualify for Doctorate Degree admission. Specifically:

- (i) A minimum GPA of 3.5 on a 5-point scale is required for admission into Ph.D. programme in all Departments except those departments listed in C: (ii) below:
- (ii) A minimum GPA of 4.0 on a 5-point scale is required for admission into Ph.D. programme in the following Departments/Faculties: Music, Economics, Psychology, Education, Medical Sciences, Business Administration, Department of Public Administration and Local Government, Faculty of Law.
- (iii) A minimum GPA of 3.0 on a 4-point scale or a B (60%) at Master's degree average provided that satisfactory research work formed part of the Master's Degree programme.

D. MASTER'S/Ph.D. DEGREE PROGRAMME

- i. A candidate with first class honours from a recognized University may be admitted into a Master's/Ph.D. programme in his/her discipline.
- ii. A candidate with Master's degree from a recognized University with a GPA of 3.50 on 5-point scale or 3.00 on

4-point scale who wishes to do Ph.D. degree in a related area shall qualify for the Master's/Ph.D. Any candidate who is not qualified for Ph.D. admission on account of low GPA is still not qualified for admission into Master's/ Ph.D. programme.

- iii. For Faculties and Departments where the possession of Master's degree with 4.00 points GPA and above is the condition for Ph.D. admission, applicants with Master's degree GPA of 3.50 and above, but not up to 4.00 may apply for Master's/Ph.D. admission. On completion of Master's degree coursework specified by the Department, the candidate shall be qualified for a firm Ph.D. registration if he or she attains the GPA of 4.00 in the Master's programme.

CEMAC ENTRY REQUIREMENTS

The following may qualify for admission:

1. Postgraduate Diploma Programme

(i) Graduates of the University of Nigeria or other recognized Universities who have obtained a Bachelor's degree with a minimum of 3rd Class degree. Such candidates should have a minimum of five credits in WASC or GCE or NECO including English Language, Mathematics and a science subject.

(ii) Holders of Higher National Diploma (HND) from recognized institutions, with a minimum of upper level credit or its equivalent in relevant areas. Candidates with HND should have obtained a minimum of 5 credits in WASC or GCE O/L or NECO, including English Language, Mathematics and at least one science subject.

2. Master of Science (M.Sc.) Programme in Environmental Management and Control

(i) Graduates of the University of Nigeria or other recognized universities who have obtained the approved degree, with a minimum of second class honours division or its equivalent in any of the relevant disciplines.

(ii) Candidates with university honours degree who also hold the PGD in Environmental Management and Control of the University of Nigeria or other recognized universities with a minimum GPA of 3.50 on a 5-point scale or 3.00 on a 4-point scale is required.

3. Ph.D. (Doctor of Philosophy) programme in Environmental Management and Control.

Graduates of the University of Nigeria or other recognized universities who have obtained the degree of M.Sc. in Environmental Management and Control or its equivalent.

4. M.Sc./Ph.D. Programme in Environmental Management & Control

See the General Entry Requirement for Masters/Ph.D. programme in D (i) and (ii) above.

5. MDRM (Master in Disaster Risk Management)

See the General Entry Requirement for Masters degree programme in B (i) to B (viii) above.

ENTRY REQUIREMENTS FOR POSTGRADUATE PROGRAMMES IN INSTITUTE OF MARITIME STUDIES (IMS)

Postgraduate Diploma in Maritime Studies

(i) Holders of HND with at least upper credit level pass;

(ii) Minimum of Second Class Honours degree with at least 2.5 GPA from UNN or any other recognized Universities.

Masters Degree in Maritime Studies

(a) M.Sc, Maritime Management

(b) Minimum of a Second Class Honors degree with at least 2.5 G.P.A in Economics; Accountancy, Banking and Finance, Insurance, Management and Marketing;

(c) Postgraduate Diploma in Maritime Management with a minimum of Upper Credit level pass from UNN or any other recognized University;

(b) M.Sc. in Maritime Business & International Logistics

- (i) A minimum of Second Class Honours degree with at least 2.5 GPA in Economics, Accountancy, Banking & Finance, Insurance, Management and Marketing, from UNN or any other recognized University.
- (ii) PGD in Maritime Business & International Logistics with a minimum of Upper Credit level pass.

(c) M.Sc. Maritime Telecommunication

- (i) A minimum of a Second Class Honours degree with at least 2.5 GPA in Electrical/Electronic Engineering or related disciplines from UNN or other recognized University.
- (ii) Candidates with PGD in Maritime Telecommunications of UNN or any other recognized institution with at least Upper Credit level pass.

(d) M.Sc. Maritime Law and Policy

- (i) A good honours degree in Law (LLB) from UNN or any other recognized University.

Duration of Programme: Master's degree programme in Maritime Studies has a minimum of 18 months (3 Semesters) while PGD programme has a minimum of 12 months (2 Semesters).

INSTITUTE OF MOLECULAR AND INFECTIOUS DISEASES

- (a) Masters/Ph.D. in Tropical Paediatrics (M.Sc. Tropical Paediatrics/Ph.D.)
- (b) Masters in Human Reproduction/Ph.D. (M.Sc. Human Reproduction/Ph.D.)
- (c) Masters in Adolescent and Child Health/Ph.D. (M.Sc. Adolescent and Child Health/Ph.D.)
- (d) Masters in Women's Health and Reproductive Science/Ph.D. (M.Sc. Women and Reproductive Health/Ph.D.)
- (e) Postgraduate Diploma in Maternal and Child Health (PGD Maternal & Child Health).

ENTRY QUALIFICATIONS FOR POSTGRADUATE PROGRAMMES IN CLIMATE CHANGE ECONOMICS, POLICY AND INNOVATION (CCEPI)

POSTGRADUATE DIPLOMA PROGRAMME

- i. The following shall qualify for postgraduate diploma admission:
- ii. Graduates of the University of Nigeria or any other recognized Universities;
- iii. Holders of Credit (Upper credit) level passes at HND;
- iv. Candidates with the Bachelor's degree with a minimum of third class honours;
- v. See also the general entry requirements for postgraduate diploma programmes.

MASTER'S DEGREE PROGRAMME

The following shall qualify for Master's Degree admission:

- i. Graduates of the University of Nigeria or of any other recognized universities who have obtained the Bachelor's degree in relevant disciplines with at least a good second class honors in the following faculties/disciplines: Agriculture, Biological Sciences, Health Sciences & Technology, Physical Sciences, The Social Sciences and Veterinary Medicine, Business Administration, Environmental Studies, faculties in Humanities and Law.
- ii. Candidates with Postgraduate Diploma in Climate Change Economics, Policy and Innovation of the University of Nigeria or awarded by any other recognized institution with at least upper credit level passes;
- iii. Candidates whose first degrees are unclassified but have scores of 50% or above;
- iv. Candidates who hold qualifications other than those listed above, which are acceptable to the Senate of the University of Nigeria.

DOCTORATE DEGREE (Ph.D.) PROGRAMME

The following shall qualify for Doctorate Degree admission:

Graduates of the University of Nigeria or of any other recognized Universities who have obtained the Master's degree in Climate Change Economics, Policy and Innovation with a minimum CGPA of 3.50 on a 5-point scale, 3.00

point on a 4-point scale or 'B' 60% average provided that satisfactory research work formed part of the Master's degree programme;

MASTER'S/Ph.D. PROGRAMME

The following shall qualify for Master's/Ph.D. admission:

- i. A candidate with first class honors from a recognized University may be admitted into a Master's/Ph.D. programme;
- ii. A candidate with Master's degree from the University with a grade point average of 3.50 on 5-point or 3.00 on 4-point scale. i.e 60%.

SANDWICH POSTGRADUATE PROGRAMMES

1. M.Ed. Sandwich programmes of the Faculty of Education are run in the following Departments: Adult Education; Arts Education; Science Education; Health & Physical Education (Health Education, Physical Education & Recreation options); Social Science Education; and

Vocational Teacher Education.

2. MLS degree sandwich programme is offered in the Department of Library & Information Science.

3. Sandwich Postgraduate Diploma in Education (PGDE), Postgraduate Diploma in Vocational Teacher Education (PGDTE) and Postgraduate Diploma in Library & Information Science (PGDL) are based in the Institute of Education under Sandwich Programme.

NOTE: Candidates are advised to read through the current Postgraduate Regulation of the University for proper guidance on the conditions for Postgraduate admissions in the University.

DURATION OF COURSES

Postgraduate Diploma (Regular) – Two semesters

Postgraduate Diploma (Sandwich) – Three Long Vacations

Master's degree (Regular):

- a) A minimum of 3 semesters for full-time and 5 Semesters for part-time in all Departments/Faculties except for the Departments/Faculties listed in c(ii) below.
- b) A minimum of 4 semesters for Full-time and 6 semesters for part-time for the following Departments/Faculties: Sociology, Psychology, Public Administration and Local Government (PALG), Agriculture, Veterinary Medicine, Education and Business Administration.
- c) M.Ed. (Sandwich) - three long vacations.
- d) Ph.D. degree Programme – A minimum of six semester for full time and eight semesters for part time in all Faculties except Agriculture which is four semesters for full time and six semesters for part time. (Ph.D. is not run as a Sandwich programme).
- e) Candidates are expected to complete their programmes at the minimum duration but not to exceed the maximum. (See: Postgraduate Regulations).

REGISTRATION

For Regular/Sandwich programme, Postgraduate Diploma, Master's and Doctorate degree programmes, candidates are considered for admission once in a session. Regular students are expected to register their postgraduate courses

within four weeks from the commencement of the session. Candidates admitted for sandwich programmes are expected to register not later than two weeks from the commencement of the sandwich session.

METHOD OF APPLICATION

Application Forms can be obtained ONLINE on payment of a non-refundable fee of ~~N~~25,000.00 (Twenty five thousand naira only) made payable to **“The University of Nigeria Postgraduate Application Fees Account**, at any bank within the country using the Remita platform.

Applicants should log on to www.unn.edu.ng and follow the procedures stated below:

- Click on UNN Portal or through this link unnportal.unn.edu.ng.
- Click on PG Application form to generate invoice for payment.
- Use your phone number to generate the invoice. You are advised to use a functional number to enable us reach you for the admission screening test.
- Proceed to any Bank with Remita platform for payment.
- Return to the UNN Portal with your payment confirmation pin from the Bank and follow the procedure for completing the form.

REFEREE REPORTS

Candidates should download three (3) copies of the referee report (D₁) forms after completing preliminary and personal details online. Some details on the form would be inserted automatically with the information provided by the candidate online while the remaining information should be completed by the referee manually and returned to the candidate who will enclose it in sealed envelope for submission. Please note that applications would not be processed unless the referees' reports are available.

TRANSCRIPTS

Candidate should download **transcript request forms (D₂)** also provided online, and submit to their former Universities/Institutions to forward with a copy of Academic transcript(s) to **“The Secretary, School of Postgraduate Studies, University of Nigeria, Nsukka”** to reach him/her not later than **30th July**. Candidates whose transcripts are not received on or before the deadline by the School would not have their application forms processed.

SUBMISSION OF APPLICATION FORMS

Most information required would be completed online. However, a copy of the online completed application form should be downloaded and printed. The printed application form with the relevant documents as listed below should be posted or delivered to the Secretary, School of Postgraduate Studies, University of Nigeria, Nsukka, for Nsukka based faculties. Candidates for Enugu based faculties are to submit their application forms by post or delivered to: The PAR, School of Postgraduate Unit, University of Nigeria, Enugu Campus. For ease of reference, Enugu based faculties are: Business Administration; Environmental Studies; Health Sciences & Technology; Medical Sciences; Institute for Development Studies (IDS) and Centre for Environmental Management & Control (CEMAC). Candidates are advised to ensure that the following documents are enclosed in the file:

- (a) NYSC Certificates (Discharge or Exemption or exclusion Certificate). Note that To Whom It May Concern shall not be accepted.
- (b) Two copies of the Application summary form (D₃) available online should be downloaded & printed:
 - (i) One copy of the printed summary form (D₃) should be glued very neatly (NOT STAPLED) on a brown 10” X 15” envelope;
 - (ii) The second copy of the printed summary form (D₃) should be glued very neatly (NOT STAPLED) on a

white 9" X 13" file Jacket;

- (c) All accompanying documents should be placed in the file Jacket, specified in (c.ii) and the File Jacket should be placed in brown envelope as specified in (c.i.) above.

All documents must fit into the 10" X 15" envelope and delivered or addressed and sent by courier to "The Secretary, School of Postgraduate Studies, University of Nigeria, Nsukka".

CLOSING DATE

Application starts from the date of this and closes after 30 days.

** IMPORTANT NOTICE TO ALL APPLICANTS** publication

1. All applicants shall undergo computer based Postgraduate admission screening test.
2. Check out for information on screening processes via the UNN Website: www.unn.edu.ng from July to August after submitting the completed application form for your further necessary action.
3. Dates for the Screening Test are usually fixed between July and August.
4. For Ph.D. degree programme, a candidate must obtain at least an acceptance letter from a journal certified by the University of Nigeria, Nsukka as a condition for graduation.

Remedial Programme

Candidates whose backgrounds are weak may be required to take remedial courses provided that the total workload for the remedial courses does not exceed 14 credit units. Candidates shall be required to make a grade of at least "C" in not more than two attempts in a remedial course for them to continue with the programme.

Registration

- (i) Regular programme (Full-Time, Part-Time or Evening Executive):** Candidates admitted for regular postgraduate programmes must complete registration at the School of Postgraduate Studies at Enugu or Nsukka Campus (as applicable) within the first 30 days of commencement of a new session. Late registration fee shall be paid by those registering after 30 days of the commencement of a new session.
- (ii) Sandwich Programme:** Registration for sandwich programmes take place within two days of the beginning of sandwich session, usually in August.

Postgraduate Online Registration Process

Candidates who are admitted into postgraduate programmes for the 2016/2017 academic session should observe the following registration processes.

- Visit the url: <http://unnportal.unn.edu.ng>.
- Click on POSTGRADUATE STUDENTS.
- CLICK ON POSTGRADUATE PORTAL.
- By the right hand side, click on "CLICK HERE TO GET LOGIN DETAILS."
- If new student, click on NEW STUDENTS' button. If an old student, then click on RETURNING STUDENTS' button.
- In the registration number box, enter your application number in full e.g. UNN/PG/2016p-18/000039
- Click SUBMIT to get login details i.e, username and password which is your application number.
- Click on STUDENT LOGIN to go back to the login page.
- In the username and password boxes enter your application number in full and click on LOGIN, which opens your account.
- Click on PROFILE and then CHANGE PASSWORD to change your default password.
- Click on PROFILE and then BIO-DATA to complete your profile.
- Click on ACCEPTANCE and then GENERATE PG ACCEPTANCE INVOICE to generate acceptance fee payment invoice.
- Proceed to the bank to make the payment and obtain a bank print out and a bank teller. After the payment,

click on ACCEPTANCE and then PG-ACCEPTANCE to printout your Provisional Admission Letter.

- Click on SCHOOL FEES and then GENERATE PG SCHOOL FEES INVOICE to generate PG school fees payment invoice. Proceed to the bank to make the payment and obtain a bank print out and a bank teller.
- After the payment in the bank, click on SCHOOL FEES and then PG SCHOOL FEES in your account to obtain online school fees receipt.
- Then click on GET SCHOOL REG. NO. To get registration number e.g. PG/MSc/16/73789.
- Then printout your PARTICULARS of Admission and YOUR PROFILE and submit together with your admission letter to room 115.
- Proceed to room 202 at Postgraduate School for school fees and acceptance fee payment verification.
- Then, proceed to Room 107 at PG school for your original school fees and acceptance fee receipts.
- Visit Room 115 at the Postgraduate Studies with your original certificates for verification.
- Postgraduate students interested in hostel accommodation should generate hostel payment invoice and pay in the bank

Payment of Fees and Certificate Clearance

Candidates offered admission may register on payment of the appropriate fees and production of originals of their certificates other acceptable evidence which shows that they hold the qualifications claimed in their applications. Certificate clearance involves all candidates including the graduates of the University of Nigeria.

General Guidelines for Registration

1. Candidates are prohibited from registering for and prosecuting more than one postgraduate programme of the University at the same time. The programmes of those who violate this rule will be cancelled.
2. A candidate may register for full-time, part-time or sandwich programme as applicable.
3. Members of the staff of the University of Nigeria including teaching staff and research fellows who possess the necessary qualifications may be admitted for part-time study.
4. A candidate who is engaged in work other than an advanced study for more than 12 hours a week, or is engaged in full-time employment may register for part-time, evening or sandwich programme. Those who violate this provision shall have their studentship terminated.
5. Candidates for Ph.D. programmes can only register full-time or part-time. There is no sandwich Ph.D. programme in this University.

Renewal of Registration

A candidate studying for postgraduate diploma, Master's or Ph.D. programme shall renew his/her registration at the beginning of each academic session by paying the session's fees and completing renewal of registration forms. A candidate whose programme has lapsed loses his/her studentship.

Duration of programmes and progress report

The maximum and minimum durations of postgraduate programmes shall be:

(i) Duration of Master's programme

- | | |
|-----------|--------------------------|
| Full-time | A minimum of 3 semesters |
| | A maximum of 5 semesters |
| Part-time | A minimum of 5 semesters |
| | A maximum of 8 semesters |

For all Departments and Faculties except Departments of Sociology, Psychology, Public Administration and Local Government, Faculties of Agriculture, Veterinary Medicine, Education and Business Administration that have minimum/maximum duration of 4/6 semesters for Full-time and 5/7 semesters for Part-time.

(iii) Duration of Master's/Doctoral programme

Full-time:	A minimum of 8 semesters
	A maximum of 12 semesters
Part-time:	A minimum of 10 semesters
	A maximum of 14 semesters

(iv) Duration of Doctoral programme (after Master's degree)

Full-time:	A minimum of 6 semesters
	A maximum of 10 semesters
Part-time:	A minimum of 8 semesters
	A maximum of 12 semesters

The first two semesters of the Doctoral programme shall be devoted to course work and written examinations, the remaining sessions for Thesis.

(v) Duration of postgraduate diploma programmes

Regular (Full-time):	A minimum of 2 semesters
	A maximum of 4 semesters
Sandwich:	A minimum of 2 long vacations
	A maximum of 4 long vacations

The student's registration for the higher degree or postgraduate diploma shall lapse if after the maximum duration of the programme the candidate has not presented himself for examination or where the relevant Departmental/Faculty Committee has not adjudged the student as being ready for examination.

- (i) Each Masters or Doctorate degree student shall complete and submit a Progress Report each semester of his/her programme, through the Supervisor, through the Head of Department and through the Dean of the Faculty to the Dean, School of Postgraduate Studies.

Lapsing of Admission

And Admission for postgraduate studies lapses if an admitted candidate fails to register full for the programme within the first month of the first semester of the year of offer of admission.

Postgraduate Studies Regulations

The full postgraduate regulations are printed separately and information contained in it supersedes similar ones that appear in this calendar. This University reserves the right at any time to change or cancel any postgraduate programme or any course time-table or any examination arrangement, and to restrict change of departments, field of study, if and when such action should become necessary.

Higher doctorate

Eligible candidates may apply for admission for higher doctorate degree in their special areas. Higher doctorates are those considered to be higher than the degree of Doctor of Philosophy (Ph.D.) such as D.Sc., D.Litt. etc see sections 55 a-t of the Postgraduate Regulation 2015 for a guide to candidates who may be interested in applying.

Payment of fees

Postgraduate students, including sandwich students and students from overseas are required to pay fees annual as specified for the particular courses. For details of fees payable for full-time and part-time programmes, please follow the postgraduate online registration process shown above.

GENERAL INFORMATION

Postgraduate Scholarship/Research Aid

The University usually provides financial support to deserving Nigerian Postgraduate students subject to availability of funds. The financial support comes in the form of postgraduate Scholarships and Research Aids. The scholarship and research aid awarded annually are limited in number and value of each award depends on the level of funding provided by the University. The criterion for the award of Scholarship is mainly academic merit.

Overseas students' fee support

The University does not at the moment have financial support scheme for overseas students.

Language of Instruction

The language of instruction in all the faculties is English. Candidates from countries in which English is not the language of instruction and who have not studied English to a reasonable standard may be asked to provide evidence of competence in English as a condition for admission

Course Descriptions

Full details of the courses offered are contained in the approved postgraduate programmes of individual departments. They are also to be found in the postgraduate prospectus. The course details may be communicated to anyone on request.

Accommodation

At the University of Nigeria, a separate hall with limited bed spaces is provided on each campus for postgraduate students who wish to live in the Hall of Residence the Odili Hall. A number of the students live in private bed sitting rooms, flats or houses in the town. The lodging and Information Unit of the Student Affairs Department helps private and married students to locate suitable accommodation in the town. But the unit does not negotiate the accommodation with landlords. The students do that themselves.

The Hall rooms are single study bed rooms which are shared by two students. The bathrooms and other conveniences are shared. Reading rooms and parks are provided for the hall. There is central cafeteria where foods are served on pay as you eat basis.

The hall is within reasonable distance to the University main Library, the classrooms and staff offices. There are banks on each campus. Taxi and bus services (*SAUTTLE*) run to and from the town at considerably cheap rates.

Hall Warden: The University appoints a Hall Warden for the Hall of Residence.

Hall Government

The Hall Governments are established by student body through elections to cater for the welfare of the inmates of the Halls.

Postgraduate Students Union

There are postgraduate students Union of which all Postgraduate Students, both regular and sandwich may be members. The Postgraduate Student Union acts as the social, cultural, sporting and political focus for student life on Campus. The Union plays significant part in representing the interest of the postgraduate student within the University.

Medical Services

The University Medical Centre provides medical service for immunization sport injury and physiotherapy clinic, etc. Duly registered students are covered by the National Health Insurance Scheme (NHIS).

Sports

Sporting facilities are provided by the Department of Human Kinetics and Health Education. The aim of sports is to encourage as many students as possible to participate in sporting activities. Sports offer relief from strains of academic studies and also give opportunity to meet people and make friends. Moreover, scientific evidence suggests that suitable exercise is most beneficial to the body and mind.

Nnamdi Azikiwe Library

The University of Nigeria has libraries at the Nsukka and Enugu Campuses. The Nnamdi Azikiwe Library is located at Nsukka Campus in the main library of the University. There are branch libraries at the Faculties of Agriculture, Education and Institute of African Studies. Enugu Campus libraries include the main library (Enugu Campus Library). Institute for Development studies and Medical Libraries.

The main Library at Nsukka Campus houses the Union Catalogue which carries information on the holdings of other libraries. A new ultra-modern library complex which can take 4000 students at t time in Nsukka Campus. The library is fitted with modern library facilities including computers, binding and printing sections

Brief History

In 1963, the National Universities Commission (NUC) recommended that the Federal Government should take the initiative, following the Ashby Commission report, to establish a medical school in the University of Nigeria which should become functional in October, 1968. Nothing concrete in terms of provision of Physical Structures for the Medical School was achieved by the time the Nigerian Civil War broke out in 1967.

A couple of days after the civil war officially ended, the Administrator of the East Central State of Nigeria, Mr. Ukpabi Asika, while appointing a Planning and Management Committee (PMC) for the University of Nigeria under the chairmanship of Mr. Vincent Ike, also appointed an Ad Hoc Planning and Management Committee of the University Teaching Hospital under the Chairmanship of Dr. F.A. Udekwa,

Associate Professor of Surgery, to once again look into the question of using the Enugu General Hospital as a functional hospital for the University of Nigeria.

While the battle for the control of the General Hospital, Enugu was going on, the Faculty of Medicine had reassembled under the deanship of Prof. G. Onuaguluchi.

There were pressures from many quarters to admit medical students soon after the war but responsible opinion in the Faculty opposed the idea as the Faculty had no buildings of its own and no equipment to begin teaching. The Faculty Board therefore decided to postpone admissions until October, 1970 and to use the intervening period of about 8 months in getting basic facilities ready for teaching.

Students were admitted for the first time in October, 1970 as follows:

1st Year (premedical class) – 60

2nd Year (1st year preclinical class) – 58.

The 1st Year students stayed at the Nsukka Campus studying physics, chemistry and biology among other subjects. The 2nd year students began their studies at the Enugu Campus and studied Anatomy, Physiology and Physiological Chemistry. Three of the students were foreign students (two from Ceylon and one was a refugee from South Africa).

In 1972, the Board of the Faculty of Medicine while discussing with the Vice-Chancellor on his new organizational (Collegiate System) structure for the University, decided to recommend to the University that the Faculty of Medicine should be “organized separately as a semi-autonomous School or College and should be separately financed”. Consequently the Faculty Board of Medicine on November 17, 1976 and February 3, 1981 again resolved that a College of Medicine be established. However, it was not until February 24, 1982, that the Senate gave its consent for the establishment of the College and the University Council at its 118th meeting on March 3, 1982, approved that the College of Medicine be established. The Federal Ministry of Education and the Federal Executive Council, following the approval given by the NUC on March 1982, also gave their approval on June 9 and July 29, 1982 respectively. The College of Medicine of the University formally became a reality with the signing of the University of Nigeria Statute No. 2 by the President of the Federal Republic of Nigeria, Alhaji Shehu Shagari, on December 3, 1982.

The College began with two faculties: The Faculty of Medical Sciences and Dentistry and Faculty of Health Sciences and Technology. Following elections on December 7, 1982, Prof. R.M. Anikwe became the first Provost of the College and Prof. S.C. Ohaegbulam became the first Dean of the new Faculty of Medical Sciences and Dentistry. The Vice-Chancellor appointed Prof. B.C. Umerah as the Acting Dean of the Faculty of Health Sciences and Technology. He was subsequently elected the first Dean of that Faculty in 1983.

Structure of the College Of Medicine

Presently the College of Medicine, University of Nigeria Enugu Campus comprises four faculties, viz, Faculty of Medical Sciences with 19 departments; Faculty of Health Sciences and Technology with 5 degree awarding departments, Faculty of Dentistry with 4 departments, and Faculty of Basic Medical Sciences. The student population is about 2,500. Three research institutes have also recently been established in the College: Institute of Maternal and Child Health, Institute of Molecular Medicine and Infectious Diseases, and Institute of Public Health.

The Provost is the Chief Executive Officer of the College, assisted by the Deputy Provost. The College Secretary is the Head of the Administration of the College while the Financial Controller takes charge of the financial affairs of the College. The College at the moment has a total academic staff strength of 164 faculty members, 156 Senior Administrative and technical Staff and a junior staff strength of 147.

Future Plans

As the College has moved to its permanent site at Ituku/Ozalla, the Administration has conceived some plans for future development and sustenance of the gains of the medical school. The College has plans

for embarking on consultancy services, establishing business ventures and seeking collaborative arrangements with outside bodies and institutions especially abroad. It has plans also to establish a Center for Advanced Research in Biomedical Sciences (CARBS). The establishment of the center is necessitated by the need for a center that can pool resources available in the College together, catalyze innovative biomedical scientific thought and ultimately impact favourably on our scientifically challenged environment.

The College of Medicine and its affiliated University of Nigeria Teaching Hospital is a first generation institution of pedagogy, research and training of medical students, nurses, laboratory scientists, physiotherapists, radiographers and health management experts for providing health care at the highest level to Nigeria and the West African sub-region. The cardio-thoracic unit is the designated center of excellence in this specialty in Nigeria. The department of Pharmacology and Therapeutics is one of the world centers for tropical diseases research, especially onchocerciasis and malaria. It is part of a consortium of international centers for equitable health system research. There is on-going research on type II diabetes as part of the "Human genome project" in Department of Medicine and also in the areas of kidney disease, rapid dipstick diagnosis of malaria, male infertility, clinical trial of drugs, sickle cell disease etc. Furthermore, the Senate of the University of Nigeria recently approved a Doctorate of Medicine (MD) programme for physicians who are already professionals but wish to contribute to learning.

Mission Statement

Dedicated to the pursuit of excellence in:

- the undergraduate, graduate, postgraduate and continuing education of health professionals and scientists who will competently provide healthcare services in the country and beyond,
- the initiation and conduct of biomedical, psychosocial, clinical and public health research to advance the frontiers of medical knowledge.

Vision Statement

Through excellence in education and research and clinical service, College of Medicine, University of Nigeria will achieve ever-increasing national distinction as a health sciences college.

College of Medicine, University of Nigeria will provide outstanding medical education through its faculty, staff, programs, centers of excellence and affiliates.

College of Medicine, University of Nigeria will advance its unique contributions to the diversity of the workforce, health, quality of life and prosperity of its immediate environment and Nigeria in general.

13. University of Nigeria Linkage Programmes

The idea of establishing Linkage programmes with some foreign universities came to fruition with the introduction of the Structural Adjustment Programme (SAP) by the Federal Military Government. The idea was conceived or hatched in order to provide solution to scarce foreign exchange required for procurement of teaching and research materials. The programme provides great opportunities for students and staff to acquire knowledge through exposure and cross-fertilization of ideas.

Linkage Programmes aim at establishing Educational and Cultural Cooperation between the University of Nigeria, Nsukka and the collaborating University or Institution. Basically, Linkage programmes are pursued through either of the following modes:

- (i) Academic Staff Visits.
- (ii) Supply of necessary teaching research and learning aids by the cooperating University where necessary.

The cooperating Institutions or the Government of the Collaborating achieve the above aims and objectives.

13.1. Service and Training Centre

In May 1989, a linkage agreement was concluded between the Katholieke University of Leuven, Belgium and the University of Nigeria, Nsukka. The aim of the linkage is to develop a maintenance culture at the University of Nigeria, Nsukka, to strengthen the teaching capacity and to restore conditions for research to an acceptable level. Under this linkage, a Service and Training Centre (STC), has been installed. The Main function of the STC is to provide training for laboratory personnel in preventive equipment maintenance and proper use of laboratory equipment, in diagnosis of faults and repair of faulty equipment, STC will also establish a spare-parts policy and may advise the University in formulating a policy for purchase and replacement of equipment.

The linkage is financed by the European Development Fund (EDF) under the Lome III Treaty. The National Universities Commission has also provided some funds for the renovation of facilities housing the STC. The Centre has staff positions established by the University of Nigeria including six technical and seven support staff. These positions have been filled by re-deployment of existing staff from other units in the University. A Chief Technologist at the Katholieke University of Leuven was seconded by his institution to the STC. He supervised the installation of the STC and achieved a high quality realisation.

At present the STC operates under the linkage agreement between the KU Leuven and the University of Nigeria, Nsukka. It is however envisaged that the STC will eventually be officially recognised and approved as a teaching support unit with appropriate provisions in the University budget.

The linkage agreement was concluded in May 1989 between the KU Leuven and University of Nigeria, Nsukka. It came into force on the date of its endorsement by the Commission of the European Community, and will be valid for a period of four years, but renewable thereafter. The agreement is intended to provide the basis for a link of longer duration. Extension of the duration will be subject to a renewal of the agreement and the possibility of generating funds. Nevertheless, it is envisaged that the STC when completely installed and fully operational would clearly fulfill a support function to scientific teaching and research and therefore would become a permanent teaching support unit of the University of Nigeria even when the linkage agreement expires.

13.2 University of Nigeria - University of Nottingham Link Based in the Department of Veterinary Parasitology & Entomology

The immediate aims and objectives of the linkage programme are:

- (i) To provide short-term specialised training to academic and technical staff of the University of Nigeria in the theoretical and practical aspects of immunology; immunoparasitology and parasite epidemiology at Nottingham University.
- (ii) Provision of short-term and long-term postgraduate research training in Veterinary Parasitology for Nigerian graduates.
- (iii) Provision of specialised immunochemical and other Laboratory consumable to initiate a pilot on protozoan-hemline interactions in indigenous small ruminants.
- (iv) Development and introduction of a course in modern parasite immunology into our undergraduate and post-graduate programmes.
- (v) To provide access to staff and postgraduate of Nottingham University to natural field cases of parasitism in tropical livestock.
- (vi) Preparation of a comprehensive joint research proposal on parasitic disease problems of West African dwarf sheep and goats and their control, for submission to International Funding Agencies.

The long-term objectives of the linkage programme are:

- (i) Provision of well-qualified human resources in contemporary parasite immunology, epidemiology and control.
- (ii) To develop effective postgraduate programmes in Veterinary parasitology at the University of Nigeria.
- (iii) To contribute to the improvement of health and productivity of indigenous small ruminants through control of their parasitic diseases.

The link in its present form is funded by the British Overseas Development Administration, through the British Council. The University of Nigeria has been responsible for hosting our link partners visiting from Nottingham. Major financial commitments are not expected until a funding agency is found for the joint research proposal.

This linkage programme which commenced in January 1991 is expected to run for three years in the first instance. So far under the programme two exchange visits have already been undertaken, parasite immunology has been introduced in our graduate Parasitology Course, and a postgraduate course is being prepared and a comprehensive joint research proposal is in the pipeline.

13.3. CIDA-TUNS-UNN Linkage project

The CID-TUNS-UNN Linkage project is based in the Agricultural Engineering Department, University of Nigeria, Nsukka. It is sponsored by the Canadian International Development Agency (CIDA) and is specifically between Agricultural Engineering Department at the Technical University of Nova Scotia (TUNS), Halifax, Canada and Agricultural Engineering Department, University of Nigeria, Nsukka.

In this Linkage project, the University of Nigeria is expected to contribute to the Project in terms of provision of infrastructural facilities such as laboratories and general support for the day-to-day operations of the Project; provide salaries of Nigerians (academic and technical staff) involved in the project; cater for all Canadians visiting the University under the linkage Project; and pay for costs associated with local activities of the project in Nigeria.

The Technical University of Nova Scotia is responsible for salaries of Canadian (academic and technical staff);

provision of office and laboratory space, as well as research equipment for all Canadians and Nigeria engaged in research in Canada under the Linkage while in Canada.

The main objective of this Linkage Project is Human Resource Development and Transfer of Agricultural Engineering technology. To achieve this objective, the following specific aims and objectives are identified:

- (a) a staff training programme providing for training at the postgraduate level (PH.D);
- (b) a staff short-term development providing for up to 5 Nigerians academic staff for a period of up to 3 months each; and
- (c) Provision for obtaining equipment required for effective teaching and research.

The Project is executed with provision for financial contributions from three main sources, namely:

- (i) Canadian International Development Agency (CIDA) - (Can.\$1,263.507);
- (ii) Technical University of Nova Scotia (TUNS) - (Can \$576,000 - in cash and kind);
- (iii) University of Nigeria (UNN) - (Can. \$543,675 - in cash and kind).

The CIDA-TUNS-UNN Linkage Project officially started in August 1987 and was initially for five years; however, due to the fact that the set of our academic staff who are under-going postgraduate training at TUNS under the Linkage will have their programme extended beyond this period, approval was sought and obtained from CID for this project, to end in 1993 (1987-1993). It should be stated here that already a new proposal in the area of rural development is being developed by our Department and TUNS for consideration by CIDA. The extended Linkage Project is expected to commence in September 1993.

Three staff of the Department of Agricultural Engineering have already undergone the postgraduate training at TUNS and obtained their Ph.D. degree and two other staff are currently on their Ph.D. programme at TUNS. In addition to this, four other staff members of the Department have undertaken the three-month (short term) staff development visit to TUNS.

An important activity which has greatly sustained and cemented the Linkage is the period visit of functionaries of UNN and TUNS to the respective institutions.

The Linkage Project has provided vital, specialized, scientific, technical and communications equipment to our Department here at UNN. These are usually purchased and shipped from Canada to UNN; prominent among these are 4 personal computers, some printers and some computer software. A good deal of research equipment for Soil and Water Engineering; Agricultural Process Engineering, Post-harvest Technology as well as Photographic equipment and side/over head projectors have been supplied. Some teaching and research equipment for the Waste Management and Food Engineering Laboratories have been recently received.

The Department is expecting shipment of the Soil Bin equipment and its associated instrumentation. The Soil Bin is a state-of-the-art research facility for soil dynamic studies. The building for this facility is a contribution by UNN. When fully installed, this research facility will be the first in Nigeria, and, as far as we are aware, in Black Africa.

13.4. UNN/DAE/KUL/CIE Linkage Project

The Department of Agricultural Engineering (DAE) of the University has a linkage programme with the Centre for Irrigation Engineering (CIE) of the Katholieke University Leuven (KUL) on Water Resources Development for Domestic Use and small-scale Irrigation Scheme in South Eastern Nigeria.

This cooperation agreement between the UNN (ADE) and KUL (CIE) which was signed in May/June 1990 is funded by the Belgium Administration of Department Cooperation (BADC).

The need to address the problems posed to present farmers by severe scarcity of water during the dry season

was identified and the aim of the Project is to contribute towards the alleviation of the problem. The objectives of the project are:

- (i) To develop simple techniques for harnessing and storing the abundant annual rainfall.
- (ii) To design and develop appropriate low cost techniques for utilizing the stored water for domestic purpose and small-scale irrigation applications.
- (iii) To investigate the development of other water resources of the rural areas (perennial and non-perennial streams, spring, shallow wells) using low-tech methods.
- (iv) To educate and train the rural inhabitants on how to execute and apply the developed techniques by themselves in a do-it-yourself scheme.

The project which has duration of five years in the first instance commenced in February 1991 with the arrival of the two long-term research assistant from KUL.

BADC will contribute an amount not exceeding 23,920,000.00 items as specified in the projected implementation details listed below:

- Long-term staff CIE, KUL seconded to DAE, UNN;
- Exchange visits of staff of CIE and DAE;
- Short-term training of staff of DAE, UNN in Belgium;
- Provision of research equipment, training aids and associated supplies;
- The provision of field equipment for monitoring hydrological data;
- The provision of field equipment for the harnessing, and distribution of the abundant annual rainfall and other water sources;
- The provision of vehicles (an all-terrain vehicle and a general purpose station wagon);
- The training of graduates, extension people, and farmers locally on the design, construction and maintenance of water harnessing, water harnessing, storage and water distribution facilities;
- The provision of accommodation for the long-term staff of CIE, KU Leuven by UNN;
- The provision of salaries of participating scientists who are staff of UNN;
- The licensing and payment of the insurance fee of the project vehicles by UNN;
- The provision of assistance for getting equipment and other materials for the project imported duty free from Belgium.

14. Honorary Graduates

Chapter 14

Honorary Graduates

Name	Honorary Degree	Awarded
The Right Reverend J.C. Anyogu	D.Litt., 1961	
Sir Eric Ashby	D.Sc., 1961	
Chief Obafemi Awolowo	LL.D., 1961	
The Right Honorable Chief Dr.Nnamdi Azikiwe	D.Litt., 1961	
Alhaji Sir Ahmadu Bellow	LL.D., 1961	
Sir J.W. Cook	D.Sc., 1961	
Dr. J.A.Hannah	D.Sc., 1961	
Professor William Leo Hansberry	D.Litt., 1961	
Dr. Michael I. Okpara	LL.D., 1961	
Sir Adetokunboh Ademola	LL.D., 1963	
Dr Francis Akanu Ibiam	D.Litt., 1963	
Sir Samuel Manwa	D.Sc., 1963	
Sir Louis Mbanefo	LL.D., 1963	
Sir Odumegwu L.P.Ojukwu	LL.D., 1963	
The Most Reverend C.J. Patterson	D.D., 1963	
Mr. T.K.E. Phillips	D.Mus., 1963	
The Reverend J.O.E. Soremekun	D.D., 1963	
Alhaji Sir Abubakar Tafawa Balewa	D.Litt., 1964	
Sir Odeleye Fadahunsi	LL.D., 1964	
Sir Kashim Ibrahim	LL.D., 1964	
Mr. Eyo Ita	D.Litt., 1964	
Dr. George Marion Johnson	LL.D., 1964	
Chief S.J.Mariere	LL.D., 1964	
The Reverend S.W. Martin	D.D., 1964	
The Venerable E.C. Nwosu	D.D., 1964	
Chief D.C. Osadebay	LL.D., 1964	
Chief Simeon O.Adebo	LL.D., 1965	
Chief Ibanga Udo Akpabio	D.Litt., 1965	
Professor Eni Njoku	D.Sc., 1965	
Alhaji Ado Bayero	LL.D., 1966	
Dr. Pius N.C. Okigbo	LL.D., 1966	
The Right Reverend Seth I, Kale	D.D., 1966	
His Excellency Ukpabi A. Asika	D.Litt., 1971	
Dr Ishaya Shaaibu Audu	D.Sc., 1971	
His Excellency Brigadier Udokaha Jacob Eusene	LL.D., 1971	
His Excellency Brigadier Samuel Osaigbovo Ogbemudia	LL.D., 1971	
Professor Hezekiah Adedumola Oluwasanmi D.Sc., 1971		
The Honorable Dr. Taslim Olawale Elias	D.Litt., 1973	
His Excellency General Yakubu Gowon	LL.D., 1973	
His Excellency Sayed Gaafar Mohammed Nimeiry	LL.D., 1973	
Dr. Okori Arikpo	LL.D., 1974	
Chief A.Y.Eke	LL.D., 1974	
His Highness Alhaji Sir Saddiq Abubakar III	D.Sc., 1976	
Professor T. Adeoye Lambo	D.Sc., 1979	
Honorable Justice C.D. Onyeama	LL.D., 1979	
His Highness Alhaji Mustapha El-Kanemi	LL.D., 1979	
Professor Kenneth Onwuka Dike	D.Litt., 1980	
Professor Chinua Achebe, O.F.R.	D.Litt., 1981	
Chief Enoch Ifediora Oli, M.B.E, M.F.R.	D.Litt., 1981	
Professor Charles Thurstan Shaw	D.Sc., 1981

15. Professors Emeritus

Professors Emeritus of the University of Nigeria

2003

Professor F.A.O. Udekwa

2006

Professor C.C. Nwosu

Professor J.A. Umeh

Professor J.O.C. Ezeilo

Professor A.O.E. Animalu

Professor G. Onuaguluchi

Professor C.C. Chineme

Professor C.H. Anyanwu

2015

Professor Paul Iwe Akubue

Professor P.N. Okeke

2016

Professor Frank N. Ndili

Professor E. Anatsui

Professor Ola Oloidi

Professor Cornelius Ikechukwu Ezekwe

Professor Louis Umeh

Professor Sammy Izundu Agajelu

Professor P.O. Okonkwo

Professor Nene E.N. Obianyo

Professor J.C. Azubuike

Professor Jonnie M. Oli

Professor Petter Onyekwere Ebigbo

Professor Uchenna Megafu

Professor C.O. Okogbue

Professor J.C. Amazigo

Professor E. Okeke

Professor Charles Okolo Okafor

Professor E.C. Okafor

Professor J.N. Adichie

Professor Silvanus Maduka Anika

2017

Professor W.I. Beniah Onuigbo

Professor Anthony Okay Odukwe

Professor Samuel Onuorah Onyegegbu

Professor Francis Igboji Idike

Professor Samuel Nnagbo Chiejina

Professor Emmanuel Uchechukwu Odigbo

Professor Benson Omeniha Oluikpe
